"In compliance with Title VI of the Civil Rights Act of 1964, Title IX, Education Amendments of 1972 of the Higher Education Act, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and other applicable Federal and State Acts, the Board of Trustees of the Mississippi Gulf Coast Community College hereby adopts a policy assuring that no one shall, on the grounds of race, religion, color, national origin, sex, age or qualified disability be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity of the College. The Mississippi Gulf Coast Community College is an Equal Opportunity Employer and welcomes students and employees without regard to race, religion, color, national origin, sex, age or qualified disability."

Compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, Title II of the Age Discrimination Act and Title IX of the Education Amendments of 1972 is coordinated by Dr. Billy Stewart, Vice-President for Administration and Finance, Perkinston Campus, P. O. Box 609, Perkinston, Mississippi 39573, telephone number 601-928-5211, email address billy.stewart@mccc.edu.

Mississippi Gulf Coast Community College

Foreword

This publication is intended to be a helpful source of information about the opportunities for educational advancement offered by Mississippi Gulf Coast Community College. The college offers the first two years of university parallel programs covering a broad scope of courses, plus more than 46 technical and career programs.

This bulletin covers general academic requirements and procedures, student activities, curricula, and course descriptions. Also included are descriptions of the physical facilities on Jackson County Campus at Gautier, Jefferson Davis Campus at Gulfport-Biloxi, both non-resident, and Perkinston Campus at Perkinston, which has residence hall facilities for men and women. Information is also included on the George County Center, Mississippi Gulf Coast Advanced Manufacturing and Technology Center, West Harrison County Center, and the Keesler Air Force Base Center.

Information is organized into six parts as outlined in the table of contents, each furnishing information to students and/or their parents, spouse, or guardian. Specific topics may be located by consulting the index. A better understanding of the institution, its philosophy, offerings and advantages will be gained by reading this bulletin in its entirety.

Accreditation

Mississippi Gulf Coast Community College is accredited by the Mississippi Commission on College Accreditation and by the Southern Association of Colleges and Schools to award associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Mississippi Gulf Coast Community College.

The Commission on Colleges may be contacted only if there is evidence that Mississippi Gulf Coast Community College is significantly non-compliant with a requirement or standard. Accreditation standards are located at <http://www.sacscoc.org/principles.asp>.

The following programs hold specialized professional accreditation:

ASSOCIATE DEGREE NURSING — Board of Trustees of State Institutions of Higher Learning, State of Mississippi. National League for Nursing Accrediting Commission, Inc. (NLNAC), 3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326, Telephone number 404-975-5000.

AUTO COLLISION REPAIR TECHNOLOGY — National Institute for Automotive Service Excellence/National Automotive Technicians Education Foundations (ASE/NATEF), 101 Blue Seal Drive, Suite 101, Leesburg, Virginia 20175, Telephone number 703-669-6650.

AUTOMOTIVE TECHNOLOGY — National Institute for Automotive Service Excellence/National Automotive Technicians Education Foundations (ASE/NATEF), 101 Blue Seal Drive, Suite 101, Leesburg, Virginia 20175, Telephone number 703-669-6650.

EMT-PARAMEDIC — (CAAHEP) Commission of Allied Health Programs and (JRC-EMS) Joint Review Committee on Emergency Medical Services, 35 East Wacker Drive, Suite 1970, Chicago, IL 60601-2208.

FUNERAL SERVICE TECHNOLOGY — American Board of Funeral Service Education (ABFSE), 3414 Ashland Avenue, Suite G, St. Joseph, MO 64506, Telephone number 816-233-3747. Website www.abfse.org

MEDICAL LABORATORY TECHNOLOGY (NAACLS) — National Accrediting Agency for Clinical Laboratory Sciences, 5600 N River Road, Suite 720, Rosemont, IL 60018-5119, Telephone number 773-714-8880.

RADIOLOGIC TECHNOLOGY — The Joint Review Committee on Education in Radiological Technology, 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182, Telephone number 312-704-5300.

RESPIRATORY CARE TECHNOLOGY — (CoARC) Committee on Accreditation for Respiratory Care Programs, 1248 Harwood Road, Bedford, TX 76021-4244, Telephone number 817-283-2835.

SURGICAL TECHNOLOGY (CAAHEP) — Commission on Accreditation of Allied Health Education Programs, 1361 Park Street, Clearwater, FL 33756, Telephone number 727-210-2350.

The following technical programs are accredited by The Association of Technology, Management, and Applied Engineering (ATMAE): Computer Networking Technology, Computer Programming Technology, Computer Servicing Technology, Construction Management Technology, Database Administration Technology, Drafting and Design Technology, Electronics Technology, Golf/Recreational Turf Management Technology, Graphic Design Technology, Network Security Technology, Telecommunications Technology, Process Operations Technology – Petrochemical Refining, and Web Development Technology. The Association of Technology, Management, and Applied Engineering (ATMAE), 3300 Washtenaw Avenue, Suite 220, Ann Arbor, Michigan 48104-4200, Telephone number 734-677-0720.

Compliance Policy

Mississippi Gulf Coast Community College is an Equal Opportunity Employer and complies with all applicable laws regarding equal opportunities in all its activities, programs, and employment. It does not discriminate on the basis of race, color, religion, creed, national origin, gender, age, or qualified disability. The College complies with non-discriminatory regulations under Title VI and Title IX. All inquiries concerning discrimination should be directed to:

Central Office: Glen Moore, Tyrone Jackson (alternate).

Jackson County Campus: Yolanda Mayberry, Bobby Ghosal (alternate).

Perkinston Campus: Sheree Bond, Michelle Sekul (alternate).

Jefferson Davis Campus: Stacy Carmichael, Larry Miller (alternate).

Keesler Center: Alrie Poillion, Patricia Holloway (alternate)

George County Center: Suzan Bounds, Will Overstreet (alternate).

West Harrison County Center: Shekira Fortenberry, Janice Poole (alternate)

Advanced Manufacturing and Technology Center: Tracy Wilson, Becky Layton (alt)

Seabee Base: Alrie Poillion, Patricia Holloway (alternate)

Drug-Free Workplace Policy

In compliance with the Drug-Free Workplace Act of 1988, as revised by the Drug-Free Schools and Communities Act of 1989, Public Law 101-226, Mississippi Gulf Coast Community College is required to notify employees and students that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance or alcohol is prohibited in the college environment.

The college has adopted and implemented an educational, assistance, and referral program for students and employees.

Rehabilitation Act and Americans with Disabilities Act (ADA)

Mississippi Gulf Coast Community College complies with Section 504 of the Rehabilitation Act of 1973 as amended and the Americans with Disabilities Act. Information regarding disabilities, voluntarily given or inadvertently received, will not adversely affect any admission decision.

If you require special services because of a disability, notify the ADA Coordinator at Central Office, Dr. Billy Stewart, or the Dean of Student Services/Administrative Dean at the campus/center on which you expect to enroll. This voluntary self-identification allows Mississippi Gulf Coast Community College to prepare appropriate support services to facilitate your learning.

Student Right-To-Know and Campus Security Act

In compliance with the Student Right-to-Know and Campus Security Act, Public Law 101-542, November 8, 1990, as amended 1993, Mississippi Gulf Coast Community College provides statistical data on its graduates and the Campus Security Report. For further information, contact the Dean of Student Services on each campus.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act and its subsequent revisions deal with educational records of students. The purpose of the law is to define who may or may not have access to student records. The law allows students and parents of dependent students, as defined by the IRS, access to the individual student's educational records.

MGCCC will release directory information on students to any interested member of the public unless the student requests that it be withheld. Requests by the student to withhold directory information must be made to the campus Dean of Student Services. Directory information is defined as follows: (1) the student's name; (2) address; (3) telephone number; (4) date and place of birth; (5) major; (6) participation in officially recognized activities and sports; (7) weight and height of athletic team members; (8) dates of attendance; (9) degrees and awards received; (10) previous educational institutions attended, and (11) other similar information.

Except as provided by law, data released to sources outside the college will be in aggregate form and no personally identifiable information will be made available.

Further information concerning provisions of the Act may be obtained from the campus Dean of Student Services or the Administrative Dean of College Centers. Additional information can be found in Statement No. 714 of the Policies and Procedures Manual located at: http://www.mgccc.edu/Documents/MGCCC_PP.pdf.

Information contained in this publication is subject to change without prior notice. Information contained herein shall not constitute a binding agreement on the part of Mississippi Gulf Coast Community College.

Mississippi Gulf Coast Community College

MISSION

Mississippi Gulf Coast Community College responds to the educational needs of our community, which is defined as the district of George, Harrison, Jackson and Stone counties, by providing an outstanding learning environment supported by excellent instruction and services. We achieve this by creating an atmosphere that fosters lifelong learning, responsible citizenship and progressive leadership in a dynamic setting.

We make a positive difference in people's lives every day.

VISION

We envision Mississippi Gulf Coast Community College as a world-class educational institution committed to student learning. Using appropriate technologies and showcase facilities we will deliver flexible, market-responsive programs of the highest quality. Our vision will be realized through outstanding employees and successful students who adhere to high standards of excellence while working in partnership with our community.

VALUES

Access: To provide opportunities for participation in world-class programs and services.

Collaboration: To unify our efforts to achieve our mission by forging internal and external partnerships and alliances.

Compassion: To exhibit concern for others.

Diversity: To provide an atmosphere that fosters respect and supports cultural and societal differences.

Excellence: To set and meet the highest standards.

Integrity: To exemplify honesty, trustworthiness and good character as we engage in all programs, services, and partnerships.

Leadership: To develop and demonstrate leadership skills for our students and our communities.

Learning: To improve the quality of life by providing knowledge and skills.

Responsibility: To ensure stewardship of our resources and accountability to our communities.

Service: To instill a commitment in employees and students to helping others.

Unity: To operate as one college in purpose, plans, priorities, and processes.

Vision: To anticipate, welcome, and meet future challenges.

Mississippi Gulf Coast Community College

On September 5, 1911, the Harrison County School Board established the Harrison County Agricultural High School, an action that marked the beginning of the present Mississippi Gulf Coast Community College. As an inducement to locate the school at the little town of Perkinston, a number of prominent citizens donated 566 acres of land and 626 dollars. Their efforts were successful and, with one building, Huff Hall, the institution began operation on September 17, 1912.

On June 5, 1916, Stone County was formed from the northern part of Harrison County, and the school continued under the dual support of both counties.

Realizing that a new educational concept, the junior college, was ideally suited to the needs of Mississippi, the legislature in 1924 enabled the counties to cooperate with the state in offering education beyond the high school level to all who could profit from it and in their home community. One of the first junior colleges to be organized was founded in conjunction with the Harrison-Stone Agricultural High School. Jackson County added its support to the coming institution in the summer of 1925 and the new institution opened on September 14, 1925, as the Harrison-Stone-Jackson Agricultural High School and Junior College offering the first year of Junior College work. Sophomore classes were added in the 1926-27 session and the first class of one student finished on May 20, 1927. On July 15, 1942, George County added its support to the institution, which then took the official name of Perkinston Junior College.

The institution served the needs of its community endeavoring to fulfill its purpose:

“To develop the cultural, intellectual, and character resources of the people of this area, point the way to an economic livelihood based on natural resources, and promote responsible citizenship.”

In May 1962, 50 years after its organization, the Agricultural High School division was discontinued and local high schools provided for the youth of the community. On May 10, 1962, The Governor of the State of Mississippi signed into law House Bill 597 which created the Mississippi Gulf Coast Junior College District. This bill wiped out county lines as far as the college was concerned. The District became a single unit in which each taxpayer shared equally to support junior college education for the area. The District was founded in order to bring higher education to the people so that they could train and/or retrain to meet the needs of business and industry; to enable young people to live at home, hold jobs, and go to school, to bring cultural as well as academic enrichment to people of all ages.

In September 1965, Mississippi Gulf Coast Junior College became a tri-campus institution when two new campuses were opened on the Gulf Coast – Jefferson Davis Campus in Handsboro and Jackson County Campus in Gautier. In 1965, the Seabee Base Manpower Training Center (founded the previous year) became a branch of the new Jefferson Davis Campus. After its removal to the Industrial Seaway in 1968 this branch took the name Harrison County Occupational Training Center. In 1972, George County Occupational Training Center (renamed George County Center in 2001) opened in Lucedale as a branch of Perkinston Campus. In 1973, Keesler Center opened at Keesler Air Force Base as a branch of Jefferson Davis Campus. In 1985, West Harrison County Occupational Training

Mississippi Gulf Coast Community College

Center (renamed West Harrison County Center in 2001) opened in Long Beach as a branch of Jefferson Davis Campus.

To clearly reflect the comprehensive nature of the college, the name was changed on October 1, 1987, to Mississippi Gulf Coast Community College.

In spring 1991, the College relocated the Harrison County Occupational Training Center to Intraplex 10 with the opening of the Mississippi Gulf Coast Applied Technology and Development Center. In spring 2007, the centers name was changed to the Mississippi Gulf Coast Advanced Manufacturing and Technology Center. Established as a partnership among Mississippi Gulf Coast Community College, Mississippi Power Company, and Harrison County Development Commission, the center was founded to serve as a training facility in support of economic development activities on the Mississippi Gulf Coast. In 1996, a campus without walls concept, was introduced resulting in a fourth campus called Community Campus.

In August 2000, the Naval Construction Battalion Center at the Seabee Base in Gulfport was established as part of Mississippi Gulf Coast Community College. Classes began in January 2001, providing even more services to meet the diverse needs of Gulf Coast residents, both military and civilian. The Gulf Coast office at the base is in the Moreell Building, which is just inside the Broad Avenue entrance in Gulfport.

CHIEF EXECUTIVE OFFICERS

At its establishment, the chief executive of the Mississippi Gulf Coast Community College was designated as the Superintendent.

In 1941, Albert Louis May became the first executive official designated as President.

The following individuals have served as the chief executive officers of this institution:

James Andrew Huff (1912-1917)
Claude Bennett (1917-1920)
John Jefferson Dawsey (1920-1921)
Thomas Ira Cook (1921-1922)
J.H. Forbis (1922-1924)
Jefferson Lee Denson. (1924-1929)
Cooper J. Darby (1929-1941)
Albert Louis May (1941-1953)
Julius John Hayden, Jr. (1953-1985)
Barry Lee Mellinger (1986-1998)
Willis H. Lott (1998-present)

THE MULTIPLE-CAMPUS COLLEGE

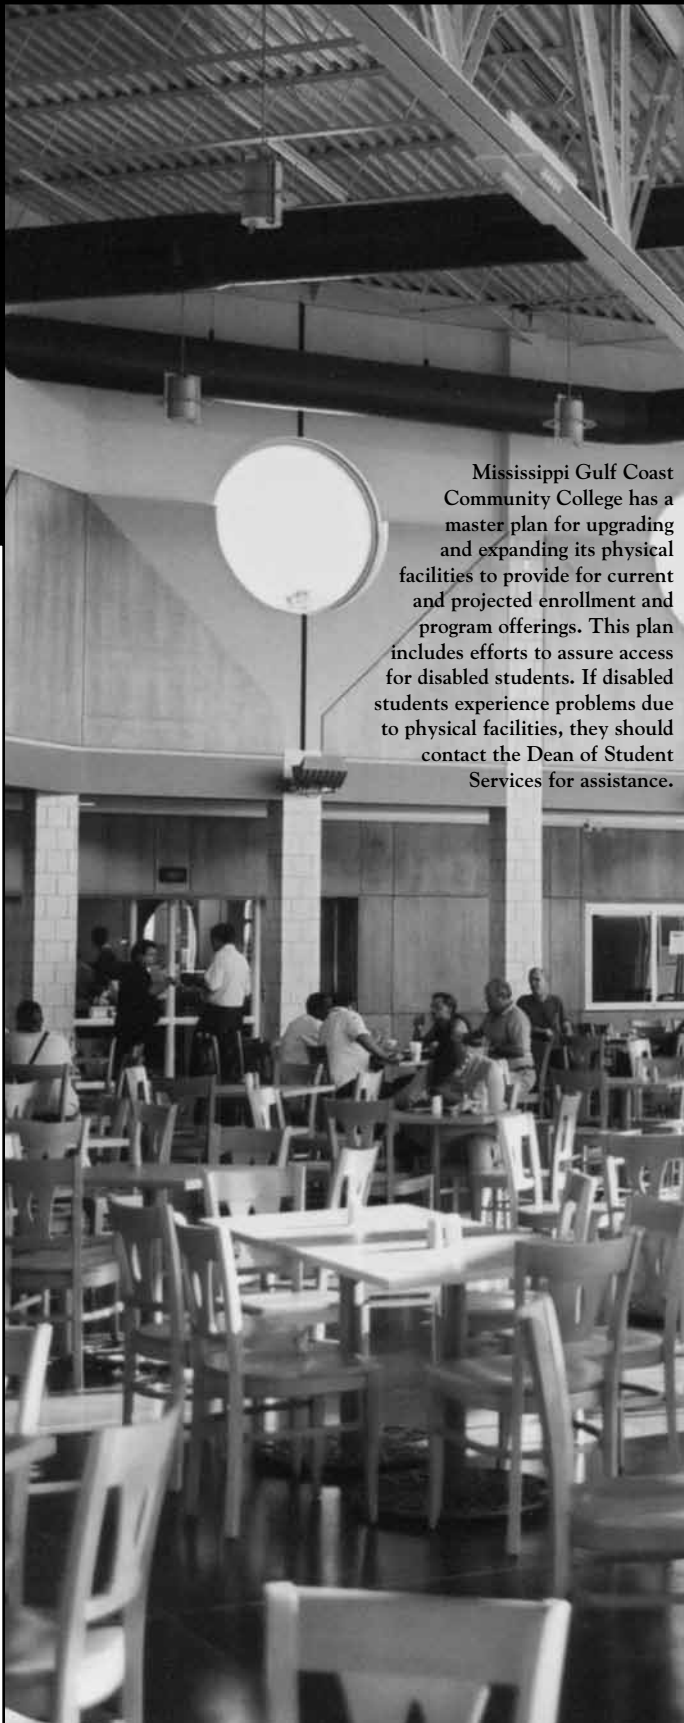

The emphasis in the organization and operation of the Mississippi Gulf Coast Community College is that it is a single institutional entity with three traditional campus locations, four centers and a non-traditional campus without walls. The relationships of personnel on each of the four campuses to college administrative staff are the same personnel administrative relationships, which would be found on a single campus. The same general policies, philosophies of operations, purposes and

objectives, as well as the same procedural methods, apply to all campuses equally, and exceptions can be made only when based on purely local factors.

The relationships of personnel on each of the three traditional campuses should always be close cooperation, articulation, and coordination among the campuses of the college. Individual differences that arise from differing student body characteristics, geographic locations, or purely local factors are respected, and their effects on procedure or policies are recognized as long as local decisions do not alter college administrative policies.

With the exception of certain courses and specialized areas, the three traditional campuses offer essentially the same basic instructional program. Course numbers and descriptions in the catalog, course outlines, textbooks, and supplementary materials apply to all campuses. Close departmental coordination among campuses helps insure all students optimum uniformity of instructional quality.

Mississippi Gulf Coast Community College

Mississippi Gulf Coast Community College has a master plan for upgrading and expanding its physical facilities to provide for current and projected enrollment and program offerings. This plan includes efforts to assure access for disabled students. If disabled students experience problems due to physical facilities, they should contact the Dean of Student Services for assistance.

JACKSON COUNTY CAMPUS

The campus is located five miles west of Pascagoula adjacent to a major four-lane highway, U.S. 90 at Gautier. A direct access road to Interstate Hwy. 10, 3.5 miles north of the campus, makes it easily accessible to the whole Coastal area. Good state and county roads connect with the traffic artery.

Warner Peterson Administration Building: Constructed in 2002 and houses the office of the Vice President, Deans of Instruction, Student Services and Business Services, Assistant Dean of Instruction, Financial Services and Business Services along with two classrooms and a lecture hall.

Science: Originally built in 1964 and fully renovated in 2000, this single-story, circular building, is two hundred forty feet in diameter. It houses science lecture halls and laboratories.

Marketing Management & Human Services: Built in 1965 and renovated in 1974 & 1978, this building accommodates the literacy program, human services, and the marketing management program. Receiving and the central power plant that furnishes heat, air-conditioning, and water facilities for the campus complex are housed in this building.

Drafting/Design Technology & Public Safety: Constructed in 1965, this two-story circular building is home to the drafting and design technology department. Public Safety is housed in this building.

Career & Technical Education: Built in 1968, this building houses various career-technical education offices, electronics, welding, pipefitting/plumbing, electrical technology, telecommunications technology, and other career and technical programs and classrooms.

Curtis L. Davis Health/Physical/Aquatic Education: Constructed in 1972, this building houses the health and physical education department along with a multi-purpose stage facilities. An Olympic-size, enclosed heated swimming pool is adjacent to the building.

Fine Arts: Featuring music, art and drama, this building is home to the Fine Arts Department and was constructed in 1993. A 472-seat auditorium with a fully equipped stage for all types of theatrical productions and an art gallery are also part of this building.

Machine Tool: A career-technical education building erected in 1976 to support the machine shop program.

Allied Health Programs: Constructed in 1992, this building provides instructors offices, classrooms, and laboratories for the associate degree nursing, practical nursing, medical laboratory technology, radiologic technology, and respiratory care technology programs.

Child Development Technology: This child-care facility was built in 1989 and is used for learning experiences for the Child Development Technology program students, consisting of two rooms for the care of children 2-4 years old, an infant care room, and kitchen and office facilities.

Student Center: Built in 1994, this building houses the cafeteria, bookstore, private dining room, and a conference room. There is also a patio area for outside dining.

Learning Resource Center: Originally built in 1974, the library is on the second floor. In 1990, the first level was enclosed to provide a Learning Resource Center and on-line testing lab along with classrooms. A third addition was built in 1996 on the second level for additional classroom space.

Math and Computer Science: Built in 1995, this building houses mathematics, developmental studies classrooms, instructor

Mississippi Gulf Coast Community College

offices and computer science labs.

Admissions, Counseling & Career Center: Built in 1997, this building houses Admissions and Records, Workforce Development, CTE Support Services, Counseling, Literacy, Recruitment, Continuing Education, and Veterans Services.

Business & Office Technology: Built in 1991, this building houses the Business and Office Technology program and Academic Business.

Maintenance building: Completed in 2009 and houses the maintenance, grounds and housekeeping departments.

Estuarine Education Center: The Center opened in January 2008 and serves as an outdoor laboratory to students in Outdoor Recreation classes and biological, environmental, and marine sciences. Facilities in the 33-acre center include the Outdoor Recreation Leadership building, the Natural Resources and Environmental Studies building, and a ropes/challenge course. The center serves both students and community organizations.

University of Southern Mississippi: Owned by MGCCC and used in partnership with the University of Southern Mississippi, this building was constructed in 1991. The center works closely with MGCCC to provide fully articulated programs entailing freshman/sophomore through the community college and junior/senior/graduate programs through USM.

JEFFERSON DAVIS CAMPUS

This campus is comprised of 120 acres of land located one and three-quarter miles north of U.S. Highway 90, midway between Gulfport and Biloxi. The award-winning architectural design of the building complex features 21 structures laid out to include several landscaped courts. Covered walks not only provide sheltered passage but also form a visual tie for the complex and carry utilities throughout the complex, including air-conditioning.

Business: Houses fifteen faculty offices, six lecture rooms, a paralegal law library, and eleven computer labs.

Computer Center: Houses the Computer Center, which services all campuses and centers.

Music: Actually three buildings, the smaller building contains the Music Department with studio offices, practice rooms, rehearsal hall, work room, storage room, and art drawing/painting studio.

Fine Arts: The large building contains a pottery and sculpture lab, large multi-purpose room, six general classrooms, theatre with seating for 451 persons, two complete dressing rooms, costume workshop, scene shop, art gallery, and 7 offices.

Arena Theater: The east wing houses a 200-seat arena theatre and 2 offices. Also includes a scene shop and two large dressing rooms.

Science Annex: Houses six offices for instructors, two lecture rooms, and a science computer lab.

Science: Houses eleven offices for instructors, four large lecture rooms, physics laboratory, inorganic chemistry laboratory, organic chemistry laboratory, general biology laboratory, zoology laboratory, vivarium and greenhouse, a specialized biology laboratory, and two anatomy and physiology labs. Each laboratory adjoins spacious storerooms and preparation rooms.

Learning Lab: The Learning Lab is a comprehensive, yet comfortable, academic tutoring facility open to all students that provides one-on-one instruction, small group instruction, and technology-enhanced instruction in English, mathematics and science. Additionally, Internet accessible computers and listening/viewing stations for VHS tapes and DVDs are available.

Academic Classroom: The building houses eleven general

classrooms of varying size. Classrooms in this building are used interchangeably for the general education courses.

Library: The library is a pleasant, comfortable, well-lit facility that contains a large reference and general collection. Immediate linking is provided from any campus or remote site to the more than 100,000 books and videos housed in the three campus libraries by the Sirsi system, our automated library catalog. Advanced electronic capabilities through MELO, MAGNOLIA, and our college resources enable our library to provide up-to-date Internet access for online and campus student research.

Media Services: Media Services provides faculty and students with audiovisual technology, equipment, materials, and support for classroom and academic projects.

Administration: This building houses a large commons area for student lounging, Cyber Café general circulation area, computer training lab, and evening coordinator. Administrative offices include offices for the Vice President, Deans of Business Services and Instruction, in addition to a conference room, lounge area and lobby area. The administration building also houses the Life Long Learning Institute.

Physical Plant: Contains a large equipment room which houses the boilers, cold generating equipment and water-heating equipment providing air conditioning, heating and hot water for the entire campus. This building also contains a central control room for monitoring the operation of the central plant and the operation of air conditioning in all buildings on the campus.

Physical Education: Contains two classrooms, four offices, storage and supply rooms, four student dressing rooms, a fitness center, restrooms, a gymnasium playing area which could be used for a full basketball court and/or used for two smaller cross courts, and a stage area which doubles as a physical activities area. An Olympic size heated swimming pool adjoins this building.

Career/Technical Complex — Refrigeration & Air Conditioning: Contains four large laboratories, and classrooms, faculty offices, storage and supply rooms.

Career/Technical Complex — Industrial Electricity and Air Conditioning: Contains two large laboratories, one for industrial electricity and one for air conditioning/refrigeration. There are planning rooms, instructor offices, storage and supply rooms.

Career/Technical Complex — Construction and Carpentry: Contains two large laboratories and classrooms. In addition, it contains the GED, Adult Basic Skills and English as a Second Language Program.

Career/Technical Complex — Career and Technical Administration: This building houses the office of the assistant dean of career and technical programs. In addition, it contains a large conference room, general classrooms, storage facilities, four other offices, the Interpreter Training classroom and lab, the Marketing Management classroom, and Career-Technical computer lab.

Career/Technical Complex — Hospitality and Tourism Management: Contains banquet rooms, kitchen, classroom and complete motel guest room for instruction. This building also contains five offices, two restrooms, mechanical and electrical equipment rooms and miscellaneous storage rooms.

Career and Technical Annex: Houses six faculty offices, four classrooms, two Electronic Technology labs, one Fashion Merchandising Technology lab, and six Computer Information Systems Technology classrooms/labs.

Early Childhood Education Building: This building is designed to house the Early Childhood Education Technology Program, serving as a laboratory for the students enrolled in the Early

Mississippi Gulf Coast Community College

Childhood Education Technology Program. The facility will house a pre-school consisting of an infant room, two year old room, three year old room and a four year old room where students will gain practical learning experiences in working with pre-school children.

Eula W. Switzer Nursing/Allied Health: Nursing houses the Associate Degree Nursing program. The building has four large classrooms, one large skills laboratory, one large storage room, one small skills laboratory, seventeen faculty offices, conference room, workroom, secretary's office, an administrative office and two restrooms. Allied Health located to east of the Nursing building, houses the Practical Nursing, and the EMT/Paramedic programs. The building has 4 large classrooms, 3 large skill laboratories, 7 faculty offices, and amphitheater style classroom, secretary's office and workroom, student lounge, storage areas in each skill laboratory.

Educational Development/Drafting: Houses eight offices, three drafting labs, four classrooms, a storage area, two student and two faculty restrooms, and four labs for developmental classes.

Maintenance — One story metal and brick combination building located in the back of the campus. It houses maintenance, shipping and receiving, grounds department, housekeeping and superintendent and assistant superintendent of maintenance and grounds.

Student Services: Multi-story building located on the southwest corner of the campus facing Switzer Road. First floor houses the Student Services Department, including the Admissions-Records office, Financial Aid office, Counseling and Career Center, Assessment Lab, and Continuing Education. Also, the Workforce Development area, and Co-Operative Education. All campus Adult Basic Skills programs are also found on the second floor including the manager's office, instructor offices and accompanying laboratory.

Math and Computer Science: Houses ten faculty offices, seven lecture rooms, four computer labs, and a workroom.

Cafeteria: Includes large student dining area, two large banquet rooms, faculty dining room, and a full service kitchen and grill area with large serving area.

MISSISSIPPI GULF COAST ADVANCED MANUFACTURING & TECHNOLOGY CENTER

The Mississippi Gulf Coast Advanced Manufacturing and Technology Center, formerly the Applied Technology and Development Center, is located in Intraplex 10 of the Bayou Bernard Industrial District. The Center was established as a joint partnership between the Mississippi Gulf Coast Community College, Mississippi Power Company, and the Harrison County Development Commission.

The purpose of the Mississippi Gulf Coast Advanced Manufacturing and Technology Center (AMTC) is to (a) provide advanced manufacturing, industrial, technical, and professional skills training, (b) serve as the headquarters for employee training for Mississippi Power Company, (c) serve as a model for cooperation between education and business for the State of Mississippi, (d) assist and support economic development activities on the Mississippi Gulf Coast and (e) provide administrative services for the Community Campus.

KEESLER CENTER

The Center is located in Room 221 of the Sablich Building

on Keesler Air Force Base (AFB). This center was established in 1973 to serve the active military and their dependents, retired military and their dependents, civilian workers on Keesler AFB, and other civilians in the community on a space available basis. The Center offers some noon-hour and afternoon courses, but mostly evening courses in an accelerated term format (please see specific dates in the calendar section of the catalog). All academic courses and general education courses lead to a Mississippi Gulf Coast Community College Associate of Arts degree, Associate of Applied Science degree, or the Community College of the Air Force (CCAF) Associate degree.

NAVAL CONSTRUCTION BATTALION CENTER

The Naval Construction Battalion Center is conveniently located in the Moreell Building just inside the Broad Avenue entrance to the Navy Base, which is only a mile from Hwy. 90 in Gulfport.

In August 2000, the center was established as part of Mississippi Gulf Coast Community College. Classes began in January 2001, providing even more services to meet the diverse needs of Gulf Coast residents, both military and civilian.

We welcome non-military personnel, civil service and dependents of the military, and civilians in the community. Students enrolled in classes who do not have access to the Navy Base only need to provide a valid driver's license, proof of insurance and vehicle registration at Broad Avenue, Pass Road or Commission Road gates.

You can apply, register and pick up your books all in the same office. Taking classes at the Naval Construction Battalion Center lets you work toward an Associate of Arts degree. Fall and spring classes meet two nights during the week, and summer classes meet one night a week. Short-term classes are also available during the weekend.

We offer "one-stop" service at our office, as well as counseling and advisement services. You may also receive assistance to attend another Gulf Coast campus or center.

WEST HARRISON COUNTY CENTER

The West Harrison County Center is located in the Industrial Park in Long Beach at the corner of Espy Avenue and B Street. The Center offers post-secondary career programs as well as academic classes.

The post-secondary offerings encompass programs of instruction in the following occupations: Food Production and Management, Medical Billing & Coding, General Drafting, Electrical, Automotive, Collision Repair, Landscape Management, and Surgical Technology.

PERKINSTON CAMPUS

Perkinston Campus is located on U.S. Highway 49 at Perkinston, thirty miles north of the Mississippi Gulf Coast in the heart of the long-leaf pine region of Mississippi. Excellent highways make it readily accessible to all parts of the supporting area. Its proximity to a number of larger towns and cities makes it possible for students to sample a wealth of off-campus, cultural opportunities.

The college owns 642 acres of land at Perkinston, 30 acres of which make up the main campus, with the remainder devoted to

Mississippi Gulf Coast Community College

pasture and tree farming. The campus buildings are conveniently located, and the grounds are beautifully landscaped.

A.L. May Memorial Stadium, constructed in 1948 and renovated in 2000, has a seating capacity of 5,000 and includes the George Sekul Field House, a press box, dressing room, storage area for equipment and is completely fenced. In 2008, 160 chair-back seats were added and a football playing field of synthetic turf and new track were installed in 2009.

Alumni House (formerly president's residence) has been renovated by the MGCCC Alumni Association and Foundation for Alumni and Foundation functions.

Andrews Hall is a two-story brick residence hall constructed for women students in 1979. This residence hall will accommodate 198 and was refurbished in 2008.

The Barry L. Mellinger Student Center was constructed in 1982 with additions made in 1993 and 2006. This building houses the bookstore, wellness center, student housing office and a student grill as well as many other student activities.

The Baseball/Softball Complex was constructed in 2009 and provides dressing rooms, locker room areas, coaches' offices, equipment storage and indoor batting cages for the baseball and softball athletic teams.

The Colmer Building was constructed in 1950.

Darby Hall is a two-story, brick structure built in 1957. Some of the college administrative offices are housed in this building.

Dees Hall is a split-level, multi-storied building completed in 1968 and renovated in 2000. It houses a media center, library, campus administrative and faculty offices, conference rooms, seminar room, classrooms and teaching auditoriums.

Denson Hall is a two-story classroom building located on the quadrangle. It was built in 1971 and houses the developmental studies and the Associate Degree Nursing departments.

George Hall is a two-story brick residence hall constructed for men students in 2007 and will accommodate 80.

Golf Turf Building is the Horticulture and Golf/Recreational Turf Management Technologies Lab and classroom.

Gregory War Memorial Chapel was completed in 1947 and provides a place for all types of religious functions. It was completely remodeled in 2001.

Harrison Hall is a two-story residence hall constructed in 1938 and was completely renovated and air conditioned in 1974.

Hayden Hall, constructed in 1987, is a two-story structure made up of one main lobby, spacious courtyards, and 100 rooms, which will accommodate 200. Each room opens into a courtyard area. The hall was refurbished in 2008.

Heidelberg Hall, constructed in 1959, houses the cafeteria and Archives. The main floor of this building houses the cafeteria and private dining rooms. An addition was made including a new kitchen and serving area along with renovations to the old dining area and kitchen in 1997-98.

Hinton Hall is a fireproof structure built in 1959 and was completely remodeled and refurbished in 1983-84. An addition was completed in 2007. It houses all areas for the teaching of science, including a modern computer technology and mathematic department and the academic business department.

Huff Hall is a two-story brick residence hall constructed in 1911, which houses the Learning Resources Laboratory on the bottom floor and the literacy program and open computer lab on the top floor.

Jackson Hall is a two-story brick building constructed in 1915 and houses some of the college administrative offices. It was completely remodeled and refurbished in 2001.

J. E. Bryan Hall is a two-story residence hall opened in the Fall of 2005. The building has 25 two room suites that share bathroom facilities. Each room will accommodate two students with a total capacity of 100.

Malone Hall, constructed in 1972, is a fine arts center with the music and drama departments. There is a theatre, which seats 463 persons. Renovations to the building in 1998 includes a black box theatre.

The Maintenance/Transportation/Technology Services Center was constructed in 2008 and houses the college transportation services, Perk Campus maintenance services, and the college construction management and technology services.

Megehee Building, originally occupied in the spring of 1962 as Home Economics Facility, houses the Child Development Technology program.

Moran Hall is a two-story brick residence hall constructed 1970. This residence hall will house 84 and was refurbished in 2008.

New Women's Residence Hall is a two-story brick residence hall constructed in 2007. The residence hall will house 80.

Owen Hall is a two-story brick residence hall constructed in 1970. This building will house 88 students and was refurbished in 2008.

The Sam P. Jones, Jr. Band Hall was constructed in 1998 and is used by the Band of Gold and music classes.

Stone Hall, originally constructed in 1915 as a residence hall for male students, was renovated in 1996 to house the Educational Services Center.

The Surplus Property and Printing Building was constructed in 1994.

The Swimming Pool, constructed in 1953, is seventy-five feet in length and provides dressing facilities for women and men.

Weeks Hall, constructed in 1974, houses some of the career-technical programs for the Perkinston Campus. An addition was made in 1997-98 to house the Funeral Services Technology program. Additional renovations have been done to student restrooms and to add classroom space.

The Weathers/Wentzell Center, constructed in 1957 and refurbished in 2006 and 2008, houses the main gymnasium with a seating capacity of 1,500, as well as dressing rooms.

The Visual Arts Center was constructed in 2009. It houses the art department and includes classrooms, offices, kiln room, darkroom, and data room.

GEORGE COUNTY CENTER

The George County Center, located in Lucedale on Hwy. 63 South was constructed in 1972. The Center offers both post-secondary and secondary career programs. Continuing education, special interest, and limited academic courses are provided as evening and short-term offerings.

In 2009, the George County Center opened their Academic Building which includes a lecture hall, computer lab and academic classrooms.

Post-secondary programs include Apprentice Electric Lineman, Commercial Truck Driving, Office Systems Technology, Accounting Technology, Practical Nursing, Cosmetology, and Surgical Technology. High School students are bused to and from the Center for instruction in Welding, Culinary and Related Foods Technology, and Allied Health.

Admissions

We keep our admissions process simple, so there's no big hassle when you fill out your applications. You can even apply online!

At Gulf Coast, we have students of all ages and all backgrounds, so no matter who you are, you'll feel right at home. Our diverse student body and variety of programs means we have what you need, when you need it.

Admissions

Mississippi Gulf Coast Community College ascribes to an “open admissions” policy consistent with all appertaining laws. The College embraces the philosophy that students be provided the opportunities for learning experiences, e.g. developmental courses, counseling, tutorial assistance, etc., that will help individual students to succeed in achieving their educational goals. Mississippi Gulf Coast Community College utilizes relevant diagnostic instruments to determine the strengths and needs of students in order to assist in the selection of the most appropriate program options to help assure student success.

Under the “Open Door” policy, all applicants who have fulfilled admission requirements will be considered for acceptance by the campus admissions committee. Requirements for admission are not restrictive but vary with the curriculum.

Admission to the college does not necessarily imply immediate admission to a particular program of study. Students should review the particular pages of the Catalog, which describe the program of their choice to determine whether they must meet additional requirements.

Residency for the purposes of calculating tuition and fees is not necessarily determined by the address listed on the student’s application. Other factors determine if a student is classified as in-state or out-of-state for calculating tuition and fees. Mississippi laws govern residency and fees of students attending or applying for admission to educational institutions. For more information, please see excerpts from the Mississippi statutory law, Mississippi code, Title 37, Chapter 103 outlined in the “Special Admissions” section.

Requests for application forms should be addressed to the Director of Admissions of the campus where the student plans to attend. The admission application can also be electronically submitted on the College’s website at www.mgccc.edu.

The following procedures must be completed before admission to the college is granted.

ACADEMIC AND TECHNICAL PROGRAMS

First-Time College Students

1. Submit a completed application for admission.
2. Have official transcripts of all high school work or GED score report mailed to the Director of Admissions. Facsimile (FAX) copies are not acceptable as official copies.
 - a. An applicant must be a high school graduate or the recipient of the General Education Development (GED) Test Certificate.
 - b. Applicants who received a Certificate of Attendance or Certificate of Completion through a high school Individualized Education Program must pass the GED Test to enroll in academic or technical programs.
3. Students entering Mississippi Gulf Coast Community College for the first time are required to participate in an orientation program and provide the Director of Admissions an official copy of their ACT results or take the appropriate portions of the COMPASS Test Battery.
 - a. All students who display an overall weakness in high school grades or low scores on the ACT, COMPASS,

or other college-administered placement exams will be required to enroll in developmental courses.

- b. Applicants who test for placement in all developmental courses may enroll in a maximum of 12 semester hours.
4. Applicants are not officially accepted until all admission requirements are met by providing proper documentation. Documentation must be provided before enrollment or by the Friday of the 4th week of class. Students failing to do so may be denied continued enrollment.

Transfer Students

1. Submit a completed application for admission.
2. Have an official transcript from each institution attended mailed directly to the Director of Admissions. Student copies and/or facsimile (FAX) copies are not acceptable as official copies.
3. Applicants who have attended non-regionally accredited institutions may request credit by following the guidelines listed under “Credit by Non-Traditional Means.”
4. Provide ACT scores or take the math and/or English sections of the COMPASS Test Battery before enrolling in college math and/or English classes for the first time.
5. Attend an appropriate orientation session as scheduled.
6. Applicants are not officially accepted until all admission requirements are met by providing proper documentation. Documentation must be provided before enrollment or the Friday of the 4th week of class. Students failing to do so may be denied continued enrollment.
7. All out of state/out of country/non-resident students should refer to the “Special Admissions” section for definitions and conditions that determine whether a student is a resident or non-resident student.

Transfer credit earned from institutions that hold accreditation from one of the regional accrediting commissions in the United States will be considered for acceptance. Once admitted, transfer students will be under the same college probation, suspension, and re-admission policy as native students.

Applicability of transfer work depends on the coincidence of transfer credit meeting requirements of MGCCC’s degree programs or a particular program of study. Transfer work will be evaluated based on this factor. Evaluation of transfer work will be completed by Student Services personnel during the first semester of enrollment.

Admissions

Non-Degree Students

Non-degree seeking students are students who plan to attend Mississippi Gulf Coast Community College on a limited basis and are not pursuing an associate type degree or diploma. Students are limited to 15 semester hours earned at Mississippi Gulf Coast Community College as non-degree seeking. To enroll after 15 credit hours are earned, students must meet all regular admission requirements. Students entering as non-degree seeking are not eligible for financial aid. Students wishing to use veteran's benefits must contact the campus VA office for any additional requirements.

1. Submit a completed application for admission.
2. Have an official transcript from the last college, university, or high school attended, mailed directly to the Director of Admissions.

Career Programs

1. Submit a completed application for admission.
2. Have official transcripts of all high school work or GED score report mailed to the Director of Admissions.
3. Applicants who received a Certificate of Attendance or Certificate of Completion through a high school Individualized Education Program must pass the "ability to benefit" test (COMPASS) or the GED Test to enroll in a career program. (Note: Commercial Truck Driving students are exempt from this requirement.)
4. Applicants to career healthcare programs must be high school graduates or have earned the GED diploma. High school transcripts or GED scores reports must be provided. Other entrance tests are required, and students are selected by a healthcare admissions committee; refer to the "Programs of Study" section for more information about admissions requirements for these programs.
5. An applicant less than 18 years of age should be a high school graduate. An exception may be made when recommended by the secondary school last attended by the applicant and with the permission of the applicant's parent or guardian.
6. An applicant may be required to take a career aptitude test to determine admission to a specific career program.
7. Applicants are not officially accepted until all admission requirements are met by providing proper documentation. Documentation must be provided before enrollment or by the Friday of the 4th week of class. Students failing to do so may be denied continued enrollment.

STUDENTS WITH DISABILITIES

Mississippi Gulf Coast Community College is in compliance with Section 504 of the Rehabilitation Act of 1973 as amended and the Americans with Disabilities Act of 1990. Prospective students who require special and reasonable accommodation(s) because of physical or mental impairment must make their needs known prior to enrollment at Mississippi Gulf Coast Community College. Prospective students must follow these guidelines in requesting special and reasonable accommodation(s):

1. Contact the CTE Support Services Coordinator, Campus Dean of Student Services, or the Central Office ADA Coordinator prior to the beginning of classes.
2. Complete the "Request for Accommodation Form," available from the CTE Support Services Coordinator.
3. In cases of physical disabilities, current medical diagnosis and needed remediation must be documented by the prospective student's physician.
4. In cases other than physical disabilities, prospective students must provide documentation verifying the diagnosed condition and needed remediation. Psychological Reports or Individualized Educational Program Reports should be current, completed within 3 (three) years. Students who plan to transfer to a university may be required by the university to submit more current documentation.

Admissions

Dual-Enrollment High School Students

MGCCC encourages qualified high school students to apply for admission under the college's dual-enrollment program. Through dual enrollment, academically talented students are able to enroll at MGCCC while still attending high school classes. This program is primarily designed for high school seniors. However, students below the senior level may be considered on an individual basis. Students must meet the following provisions:

1. Complete the college application for admission.
2. Submit a letter of recommendation from their high school counselor or principal stating that the student has completed either 14 units of college preparatory coursework with a 3.0 or better grade point average on a 4.0 grading scale, or has achieved a minimum composite score of 30 on the ACT test. *If meeting the ACT test requirement, official scores must be submitted to the Director of Admissions.*
3. Provide official high school transcript indicating grades through the last semester of attendance.

The above requirements should be completed well in advance of the intended semester of enrollment. A discussion with a college counselor concerning course selections must be completed before registration takes place. Credit earned through the dual-enrollment program will be awarded once a student has completed high school graduation requirements and final official transcripts have been received.

Early Admissions

Highly qualified high school students have the option to be considered for early admission to the college. To be considered for early admission, applicants must:

1. Complete the college application for admission.
2. Submit a letter of recommendation from their high school principal stating that the student has completed 14 units of college preparatory coursework with a 3.0 or better grade point average on a 4.0 grading scale and outlining why early college admission is in the best interest of the student.
3. Provide official high school transcript indicating grades through the last semester of attendance.
4. Submit official ACT results indicating a composite score of 26 or higher.

Out-of-State Students

A limited number of out-of-state students who meet the standard admission requirements will be accepted for admission to Mississippi Gulf Coast Community College. The student should schedule an appointment with a counselor to have transfer coursework evaluated (if applicable). All out of state/out of country/non-resident students should refer to the following section for definitions and conditions that determine whether a student is a resident or non resident student.

Determining Residency for Tuition Purposes

The definitions and conditions stated herein are excerpts taken from Mississippi statutory law, Mississippi code, Title 37, Chapter 103, sections 1 to 29 which govern residency and fees of students attending or applying for admission to educational institutions. Request for a review of residency classification should be submitted to the campus Director of Admissions and Records.

1. Legal Residence of an Adult: The residence of an adult is the domicile, i.e., the place where the person physically resides with the intention of remaining or returning to if temporarily absent. MCA 37-103-13.
2. Legal Residence for Persons under 21: The residence of a person under 21 years of age is that of the father, mother or general guardian duly appointed by a proper court in MS. However, if custody has been granted to one parent, then the person's residency is that of the custodial parent. If both parents are deceased, residency is that of the last surviving parent unless the person under 21 lives with a general guardian, as appointed by a MS Court. MCA 37-103-7 eff. July 1, 2005. If both parents move out of Mississippi, a minor is immediately classified as a nonresident. MCA 37-103-11.
3. When Residency Is Established: A student may not be admitted as a resident unless required documentation showing proof of established residency in Mississippi is provided prior to admission. MCA 37-103-3. Students who enroll as a nonresident must stop attending either a fall or spring semester to establish residency before reapplying for admission as a MS resident. A person entering the state to enter an educational institution is considered a nonresident and remains a nonresident even if adopted by a Mississippi resident or registers to vote or owns land. MCA 37-103-5. See exception in MCA 37-103-25(2) which provides that if a nonresident (1) was born in Mississippi but relocated outside Mississippi as a minor in their father or mother's care, (2) is a veteran of the Armed Forces, and (3) is domiciled in Mississippi no later than six months after separation from service for the purpose of enrolling in a CC/IHL, then such person shall pay resident tuition and fees.
4. Special Rule for Married Persons: A married person may claim the residency of their spouse or independent status under MCA 37-103-15. MCA 37-103-13.
5. Special Rule for Children of Faculty and Staff: Children of parents who are members of the faculty or staff of a CC/IHL may be considered a resident for the purpose of attending that institution. MCA 37-103-9.
6. Special MPACT Rule: An MPACT beneficiary is considered a resident. MCA 37-155-5(d) (iii); MS AG Op., Patterson (Oct. 11, 1996).
7. Special Military Provisions:
 - a. Active Duty in Mississippi and Mississippi National Guard. Members of the Armed Forces on extended active duty in Mississippi and members of the Mississippi National Guard may be classified as residents. Resident status of those not residents of Mississippi per MCA 37-103-13 shall terminate upon reassignment for duty in the continental U.S. outside Mississippi. MCA 37-103-17. See MCA 37-103-21 for proof requirements.
 - b. Status of Spouse and Children of Military Personnel on Extended Active Duty. Resident status of a spouse or child of a member of the Armed Forces on extended

Admissions

Special Admissions

active duty shall be that of the military spouse or parent during the time that the spouse or parent is stationed in Mississippi. Resident status continues if the military spouse or parent is reassigned from Mississippi to an overseas area (except training assignments en route from Mississippi). Resident status of a minor child terminates upon reassignment of the military parent for duty in the continental U.S. outside Mississippi. However, children who attain residency under this section and who begin and complete their senior year in high school in Mississippi and who enroll full-time in a CC/IHL for the fall after their graduation from high school maintain status as long as they remain enrolled in good standing (summer school is not required). MCA 37-103-19(1).

- c. Spouse or Child of a Member of the Armed Forces Who Dies or Is Killed. A spouse or child of a member of the Armed Forces who dies or is killed is entitled to pay resident tuition if the spouse or child becomes a resident of Mississippi within 180 days of the date of death. MCA 37-103-19(2).
 - d. Spouse or Child of a Member of the Armed Forces Stationed Outside Mississippi. If a spouse or child of a member of the Armed Forces stationed outside Mississippi establishes residency in Mississippi and registers with a CC/IHL, the CC/IHL will permit the spouse or child to pay resident fees and tuition regardless of the length of time that the spouse or child has resided in Mississippi. MCA 37-103-19(3).
 - e. Effect of Continuous Enrollment. If a member of the Armed Forces or their spouse or child is entitled to pay resident tuition and fees under another provision of this section while enrolled in an associate type degree or diploma program, they may continue to pay resident tuition and fees in subsequent terms while continuously enrolled in the same associate type degree or diploma program. (Student may withdraw or not enroll for one semester with medical documentation without losing status and no summer term is required. In addition, student's status remains unchanged even if they are no longer a member of the Armed Forces or the child or spouse of a member of the Armed Forces). MCA 37-103-19(4).
8. Aliens. Section 37-103-23 states that all aliens are classified as nonresidents. However, this section was declared unconstitutional in *Jagmadan v Giles*, 379 F. Supp. 1178 (N.D. Miss. 1974), affirmed in part on other grounds 538 F.2d 1166 (5th Cir. 1976). No statutory provision addressing aliens and residency for tuition purposes is currently in effect. Accordingly, aliens should be treated in the same manner as other persons attempting to prove resident status for the purpose of determining tuition and fees charged by CC/IHL's.
- a. Immigrants Distinguished from Nonimmigrants. Under the Immigration and Nationality Act, aliens are classified as (1) "immigrants", i.e., persons seeking to be permanent residents, and (2) "nonimmigrants", i.e. persons seeking admission to the U.S. for a limited time, usually for a limited purpose.
 - b. Immigrants, Permanent Residents or "Green Card" Holders. Generally speaking, most persons having immigrant or permanent resident status ("green card" holders) have the ability to establish a domicile in Mississippi and to qualify as Mississippi residents.

c. Nonimmigrant Visa Holders. Most persons holding nonimmigrant visas, including F-1 student visas, will not be able to demonstrate the requirements for a Mississippi domicile because their visas are temporary in nature and U.S. approval of their visas may have required a determination that the persons intended to return to their country of origin after the purpose of their visas is concluded. This being the case, the person's domicile would remain in their country of origin. In addition, Section 37-103-5 provides that a person entering Mississippi to attend an educational institution is and remains a nonresident for tuition purposes. See 3 above.

9. Miscellaneous Provisions. Any student willfully presenting false evidence of residency is deemed guilty of a misdemeanor. MCA 37-103-27. Law is not to be construed as requiring the admission of nonresidents. MCA 37-103-29.

* Three (3) of the following documents showing the Mississippi address must be provided prior to enrollment if the student wishes to prove Mississippi residency:

- Driver's License
- Emancipation Documents
- Employment Documents
- Court Appointed Guardianship Documents
- Homestead Exemption
- Income Tax Return
- Lease Agreement
- Military Orders
- Mortgage Documents
- Utility Bill
- Vehicle Registration
- Voter Registration Card
- Other approved documentation

International Students

Mississippi Gulf Coast Community College reserves the right to determine the number of international students admitted. International students must meet all of the following admissions requirements at least six weeks prior to enrollment (November 1 for the spring semester or July 1 for the fall semester):

1. Complete a Mississippi Gulf Coast Community College application for admission.
2. Provide proof of immunization against measles, mumps, and Rubella. In addition, the State of Mississippi requires all new foreign applicants to be screened for tuberculosis by the local office of the Mississippi Department of Public Health. Tuberculosis screening must take place in the United States.
3. If English is not the native language of the applicant one of the following is required:
 - a. Test of English as a Foreign Language (TOEFL) score of at least 525 on the paper based, 69 on Internet Based (iBT), and 195 on the computer based test.
 - b. A grade of "C" or better in English Composition I and English Composition II transferred from a regionally accredited university or college within the United States (It is recommended that the applicant take the Test of Written English portion of the TOEFL.)
 - c. Proven proficiency in English following completion of an English as a Second Language (ESL), English Language Institute, or Intensive English Language Program

Admissions

provided through a U.S. college or university designed for non-native born students. A letter of recommendation from the program director indicating the student has achieved "proficiency satisfactory to enroll in and successfully complete college work and is able to converse and communicate intelligibly and effectively" must accompany certification of completion.

4. Complete, official scholastic records translated into English (if these are being submitted from a high school, a graduation or completion date must be listed on the transcript) and evaluated by an approved credentialing agency*. Applicants who have not received a degree equivalent to a U.S. high school diploma may submit a passing General Education Development (GED) test score. Transcripts from colleges or universities outside of the United States must be submitted to an approved evaluation service* for evaluation and translation. If the student would like to have credit applied towards a degree from MGCCC, the evaluation service must provide course comparisons for the appropriate courses. Results should be mailed directly to the Office of Admissions at the appropriate campus. This process will take four to six weeks and the college must receive the evaluation prior to the six-week admissions deadline.
5. Official transcripts from regionally accredited colleges or universities (if applicable). Applicants who have completed 12 or more semester hours of college level from regionally accredited colleges or universities are required to submit only their United States transcripts.
6. Provide a copy of the applicant's passport with an effective date through the first six months of enrollment.
7. Provide a notarized Affidavit of Support from a bank indicating available American funds sufficient for tuition, transportation, and room and board for at least the first year of the student's enrollment (\$10,900.00).
8. To secure housing, complete the Housing Application and submit a \$50 housing application fee to the housing office. Residence hall rooms are available on the Perkinson campus on a first come first serve basis. Please note that residence halls are closed during college scheduled breaks and holidays. Students will not be allowed to remain in campus housing during these times and must make their own housing arrangements for scheduled breaks and holidays.
9. Prior to registration, applicants may be required to schedule a personal interview with the Admissions Director and selected instructors to determine the student's ability to perform in the chosen field of study.
10. Participate in an orientation session prior to registration.

Following completion of admission requirements, the Admissions Office will mail the applicant the form I-20.

*The evaluation service is at the expense of the student. Transfer credit from a foreign institution will be considered for acceptance if a course-by-course evaluation is obtained from an agency that is a member of the National Association of Credential Evaluation Services (NACES). NACES identifies foreign colleges/universities meeting the highest standards for accreditation in their countries. Agency information may be obtained at www.naces.org.

Sevis Fee Notice

Effective September 1, 2004, all international students applying for F-1 status are required to pay the SEVIS I-901 fee at www.fmjfee.com. New students and exchange visitors with a Form I-20 or Form DS-2019 issued on or after September 1, 2004 are subject to the fee. Continuing students and exchange visitors are not required to pay the fee except under certain circumstances. For complete information on payment of the fee go to www.fmjfee.com, www.ice.gov or call 1-212-620-3418.

Senior Citizens

Persons above the age of 65 may be admitted on the first day of classes on a space-available basis to any course offered by the College without tuition; however, all fees must be paid by the student (registration, book service, and technology fees). This does not include private or semi-private lessons. Those 62-64 are admitted under the same conditions if retired. Regular admissions requirements must be met prior to registration.

Denial of Admission

Admission to the College may be denied should the campus admissions committee become aware of information that would lead the committee to believe an applicant's admission would not be in the best interest of the student or the college community. Denial of admission to the College may result from any of the following:

- a. Conviction of a felony.
- b. Involvement in use, sale, or distribution of illegal drugs and/or narcotics.
- c. Military discharge under conditions other than honorable.
- d. Involvement in campus disorders at other institutions.
- e. Disciplinary dismissal from other institutions.
- f. Falsifying any information on records required for admission.
- g. A minor living outside the home of his/her legal parent or guardian without the parent or guardian providing the college with advance written permission.
- h. Any information relative to the applicant's character, conduct, and/or institutional relationships that would be inconsistent with the philosophy, objectives, and attitudes of the constituency of the college community.
- i. Any student applying for admission for a subsequent enrollment period will be denied admission for failure to remove financial indebtedness or other unfulfilled obligations to the college resulting from a previous enrollment.
- j. Any other reason or information considered to be of such nature that it would be detrimental to the academic society.

Financial Information

Gulf Coast is one of the best values in education anywhere! That's because we offer world-class instruction and quality in every aspect of college life, yet we keep tuition affordable.

We believe that **expenses** shouldn't keep you from meeting your educational goals. That's why we offer scholarships and other financial-aid options to make going to Gulf Coast affordable and convenient.

Financial Information

Tuition and fees are the same at the three college campuses and the comprehensive centers. At Perkinson (the residence hall campus) residence hall students also pay the costs of room rent and meals.

Expenses will vary according to the legal residence of the parents or guardian of the applying student. For the purpose of determining expenses, students should refer to the section Summary of Expenses listed below. Prospective students should remember that there are a number of nominal miscellaneous fees (listed in the Catalog) that may be charged and that a book service fee is charged.

Some fees are refundable and others are not. The college refund policy is explained following the section titled Miscellaneous Fees.

Summary of Per Semester Expenses - Full-time students

BASIC CHARGES

Tuition	\$900.00
Registration Fee	50.00
Book Service (per book)*	30.00
Technology Fee	36.00
<i>(\$3 per semester hour not to exceed \$36)</i>	

ROOM & BOARD:

Seven-Day Meal Plan	\$1,885
-------------------------------	---------

*Note: Some courses require students to purchase their textbooks and/or other instructional materials rather than rent them. Students may contact the campus bookstore prior to registration to determine required purchases.

Full-time out-of-state residents and international students must pay an additional fee of \$923.00 each semester at the time of registration that is non-refundable. International students will be assessed a one-time application fee of \$100.00. In addition, international students will be charged a \$50 administrative fee each semester. Part-time, out-of-state resident students pay \$167.00 per semester hour. International students are not permitted to be part-time students during the fall or spring semesters. Students may refer to "Determining Residency for Tuition Purposes" under the Admissions section of the Catalog.

Full-time students pay a matriculation fee of \$900 each semester except during summer session(s). The cost of courses during the summer is \$90 per semester hour. Exceptions: Healthcare and other career students who are required by the curriculum to continue during the summer will pay the regular matriculation fee charged during the fall and spring semesters.

If a full-time student reduces his or her workload to less than twelve (12) hours of classes during the refund period, the student becomes subject to the part-time student tuition.

A residence hall student who becomes a part-time student must move out of the residence hall and continue his/her studies as a commuter student unless his/her remaining in the residence hall is approved by the Vice President.

The MGCCC Board of Trustees reserves the right to adjust any and all fees as it deems necessary.

Summary of Per Semester Expenses - Part-time students

Tuition Fee (per semester hour)	\$90.00
Registration Fee	50.00
Book Service (per book)*	30.00
Technology Fee (per semester hour).	3.00

*Note: Some courses require students to purchase their textbooks and/or other instructional materials rather than rent them. Students may contact the campus bookstore prior to registration to determine required purchases.

The MGCCC Board of Trustees reserves the right to adjust any and all fees as it deems necessary.

Student Deferred Fees Payment Schedule

A minimum amount of the total fees as specified by the Business Services office for the Fall and Spring semesters are due at registration. The balance of the fees will be paid during the semester. The payment dates for each Fall semester will be as follows (or the last working day prior to these dates): 1st payment: Registration; 2nd payment: September 30; and 3rd payment: October 30. The payment dates for each Spring semester will be as follows (or the last working day prior to these dates): 1st payment: Registration; 2nd payment: February 28; and 3rd payment: March 30. Payment for all classes taken during each Summer term will be due in full at the time of registration. Fees in the Fall and Spring semesters may not be deferred beyond the 3rd payment date. A \$40 fee will be assessed to each student's account by the Business Office after the third payment becomes delinquent and the student's account will be placed on HOLD. In addition, the student will not be allowed to register for any future semester until his/her account balance is satisfied.

Summary of Per Semester Expenses Non-credit Continuing Education Courses

All students enrolled in non-credit continuing education courses pay a registration fee due at the time of registration. In addition, tuition and laboratory fees may be assessed for each course based upon the actual instructional cost for the course.

The MGCCC Board of Trustees reserves the right to adjust any and all fees as it deems necessary.

Financial Information

Explanation of Fees

Tuition — entitles a student to the following:

1. To attend MGCCC Athletic events without charge.
2. To attend lyceum programs.
3. To use science laboratories and equipment in scheduled courses.
4. To receive private music lessons and use instruments and practice facilities required in his/her curriculum.
5. To participate in other student activities supported by these fees.

Room and Board — All residence hall students are required to purchase a meal ticket. Students with a meal ticket are entitled to meals from Monday through Sunday. Residence hall fees are non-refundable.

Registration — helps defray costs of increased security personnel and motor vehicle registration permits. All credit students pay a \$50 fee to cover cost of processing registration. This fee is non-refundable.

Book Service — Students will pay a book service fee of \$30.00 for each book on Book Service. Workbooks and dated material that cannot be reissued must be purchased separately by students.

Book Service Late Fee — Students who return Book Service texts late must pay a late fee of \$5.00 per book. If Book Service texts are returned after late registration of the following semester, the \$5.00 late fee will be waived and the student will be required to pay the replacement cost for a new text. Students who do not return books on time or who owe money to the college bookstore for any reason will have an administrative HOLD placed on all records.

Technology Fee — helps defray the cost of replacing and upgrading on-campus technology equipment and services. \$3.00 per credit hour to a maximum of \$36.00. This fee is non-refundable.

Online Course Fee — Students will be assessed an additional fee of \$30 per credit hour for online courses. This fee is non-refundable.

Out-of-State — helps pay instructional, administrative, and other operational expenses of the college.

Deferred Fee Payment Delinquent Charge — A \$40 fee will be assessed to each student's account each semester after the third payment becomes delinquent and the student's account will be placed on HOLD. In addition, the student will not be allowed to register for any future semester until his/her account balance is satisfied.

Miscellaneous Fees

Medical Malpractice Insurance — All students who enroll in a healthcare program, continuation education, and/or courses that require clinical experiences must enroll in a medical malpractice insurance plan. A group plan is available through the College. The fee is non-refundable and payable at the time of registration.

Returned Check — A \$40.00 fee will be charged by the college for each check returned due to insufficient funds or stop payment.

Transcripts of Credit — Official transcript of credits is furnished without charge. A \$3 fee is charged for a transcript to be

faxed.

Graduation Fees — These include costs of caps, gowns, and diplomas and are payable during the semester before graduation. Cost is dependent upon current prices. Diploma charges once diplomas are ordered are non-refundable.

Housing Application Fee — A \$50 fee must accompany the housing application. This fee does not apply toward the room cost. The \$50 fee is refunded when the student officially withdraws from housing and it is determined that no dorm damages or other fees exist. Applicants who do not check into the residence hall will not receive a refund.

Residence Hall (Damage) — Damage to rooms will be assessed on a case by case basis. \$20 will be deducted for each lost room key.

Private Music Lessons — When not required in a curriculum, these may be arranged at a cost of \$125 per semester for one half hour per week. These fees are non-refundable.

Student ID Replacement Fee — Students are required to keep their college ID's throughout their attendance at MGCCC. There will be a \$10.00 replacement fee for any students requiring additional ID cards.

Substance Test Fee — A \$60.00 non-refundable substance test fee will be assessed to students in ADN courses and Allied Health Programs.

Nurse Entrance Test (NET) — A non-refundable fee of \$25 per test.

Paralegal Lab Fee — A non-refundable fee of \$40.00.

Computer Competency Exam — A non-refundable fee of \$25 per test.

GED Testing Fee — A non-refundable fee of \$40 per test and \$12 per retest.

Test of Essential Academy Skills (TEAS) — A non-refundable fee of \$25 per test.

ATI — Students enrolled in the Associate Degree Nursing (ADN) and Practical Nursing (PN) programs are required to participate in the Assessment Technologies Institute (ATI) Comprehensive Assessment & Review Program (CARP). Fees for this service are assessed and paid at registration. The total ATI CARP fees are \$100.00 per student/semester. ATI reserves the right to adjust fees for the CARP program annually. More information will be provided by course instructors at the beginning of each semester.

Refund Policy

To be eligible for a refund for tuition and refundable fees, a student must officially withdraw within the refund period and request a refund upon completion of the withdrawal procedure. Calculation of the amount of refund will be based on the last date of attendance and the following provisions:

1. Out-of-state fees are non-refundable fees unless a student officially withdraws prior to the first day classes meet in an enrollment period.
2. Adjustments to accounts will be calculated based on total refundable semester charges — not percentage of partial payment.

Financial Information

Tuition and Book Service fees are refundable as follows:

- 100% of refundable fees if official withdrawal and request for refund is received prior to the first day of the term.
- 90% of refundable fees through the second week of classes for full-term (Fall and Spring) classes. Students may contact the campus Business Office to verify the last date of withdrawal to obtain a 90% refund.
- 90% of refundable fees through the first week of classes for Keesler Center, Naval Construction Battalion Center, and other short-term (Fall and Spring) classes. Students may contact the center or campus Business Office to verify the last date of withdrawal to obtain a 90% refund.
- 0% refund thereafter.

Exceptions to the above are as follows:

- Meal costs on the Perkinston Campus are refundable up to the unused balance of cost if applied for during the first three months of the semester.
- Title IV Federal Student Aid — All aid for students who are receiving Title IV Federal Aid are refunded to the appropriate source on a pro-rata basis upon the student's total withdrawal during the first 60% of the enrollment period.
- Non-Credit Refund Policy — Registrants for Continuing Education classes (including seminars, workshops, and skills classes) will be entitled to a 100% refund, provided written notification is received by the appropriate Continuing Education Specialist one week prior to the start of the class. If the class is canceled, a full refund will be given. A registrant may designate a substitute person to attend if notification is received at least 24 hours prior to beginning of the class/program. The College reserves the right to substitute instructors, change class schedules, and cancel programs due to insufficient enrollment or unforeseen circumstances. Any exceptions to this policy must be submitted in writing to the Vice President of Community Campus or designee for approval. Travel to Learn programs are not eligible for refunds unless college cancels activities/trips.
- Student Medical Withdrawal — MGCCC has adopted a statement addressing the required procedures to accommodate credit students with an unforeseen medical problem. These procedures address the refund of tuition for currently enrolled students who must withdraw from classes due to a medical emergency. Copies of these procedures and required forms can be obtained at the campus Admissions Office.
- Commuter Meal Ticket — All funds credited to a student account for commuter meals through an Institutional Scholarship are non-refundable.
- Residence hall fees are non-refundable.

In all cases, unpaid charges will be deducted during the calculation of refunds.

A number of financial assistance options are available for students from federal, state and local sources. These options include grants, scholarships, loans, and work-study opportunities. Financial Aid Offices at each MGCCC campus can provide further information about the options.

Grant Programs

Federal Pell Grant: Federal grant awarded to first-time undergraduate students with financial need. The Free Application for Federal Student Aid (FAFSA) is used to determine eligibility. The FAFSA can be completed on the internet at www.fafsa.ed.gov

Federal Supplemental Educational Opportunity Grant (FSEOG): Federal grant awarded to first-time undergraduate students with exceptional financial need. Eligibility is based on financial need, amount of other aid and the availability of funds. Students who complete financial aid files by June 1 will receive priority consideration for this program.

Leveraging Educational Assistance Partnership (LEAP): Grant awarded to students who receive Federal Pell Grants, are Mississippi residents and are enrolled full-time. Eligibility is based on financial need, amount of other aid and the availability of funds. Students who complete financial aid files by June 1 will receive priority consideration for this program.

Academic Competitiveness Grant (ACG): Federal grant awarded to Pell Grant recipients who are full-time students, U.S. citizens, and who have successfully completed a rigorous high-school program.

Mississippi Tuition Assistance Grant (MTAG): Grant offered by the state of Mississippi through the Mississippi Office of Student Financial Aid for students who are residents of Mississippi with a 2.5 high school GPA and ACT score of 15 or above. Students may apply after January 1 each year at www.mississippi.edu/riseupms/.

Mississippi Eminent Scholars Grant (MESG): Grant offered by the state of Mississippi through the Mississippi Office of Student Financial Aid for students who are residents of Mississippi with a 3.5 high school GPA and ACT score of 29 or above, or semifinalist/finalist of the National Merit Scholarship or National Achievement Scholarship competition. Students may apply after January 1 each year at www.mississippi.edu/riseupms/.

Institutional Scholarships

The college is committed to assisting students with financial resources based on academic and participatory performance. The combined use of funds from Institutional Scholarships is limited to the actual cost for commuter students (tuition, fees, books, meals) and residential students (tuition, fees, books, room/board). Institutional funds are not eligible for cash refund.

Academic Scholarships: The college provides academic scholarship opportunities for full-time, "first-time to enter college" freshmen students with qualifying ACT scores. Students must apply for admission, meet the requirements as listed below, and send the "Request for Academic Scholarship" to the campus of their choice. Please note that hours taken as a dually enrolled high school student do not affect scholarship eligibility.

Presidential Scholarship: ACT Score 28 and above or Valedictorian/Salutatorian of HS graduating class.

Full Tuition, book rental fees and room/board (Residence halls are only available at the Perkinston Campus).

To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 15 semester hours. This scholarship is renewable up to four consecutive semesters, not including

Financial Information

summer.

To remain eligible, students must maintain a 3.5 or higher cumulative grade point average as a full-time student. Students who drop below the 3.5 will be placed on scholarship probation for one probationary semester to allow the student to regain the 3.5 cumulative GPA. If the student does not bring the cumulative GPA up to 3.5 or above the next semester, the student will no longer receive the scholarship. Priority deadline is April 1.

Deans Scholarship: ACT Score 25-27 Full Tuition

To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 12 semester hours. This scholarship is renewable up to four consecutive semesters, not including summer.

To remain eligible, students must maintain a 3.0 or higher cumulative grade point average as a full-time student. Students who drop below the 3.0 will be placed on scholarship probation for one probationary semester to allow the student to regain the 3.0 cumulative GPA. If the student does not bring the cumulative GPA up to 3.0 or above the next semester, the student will no longer receive the scholarship. Priority deadline is April 1.

Incentive Scholarship: ACT Score 21-24 Half Tuition

To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 12 semester hours. This scholarship is renewable up to four consecutive semesters, not including summer.

To remain eligible, students must maintain a 2.5 or higher cumulative grade point average as a full-time student. Students who drop below the 2.5 will be placed on scholarship probation for one probationary semester to allow the student to regain the 2.5 cumulative GPA. If the student does not bring the cumulative GPA up to 2.5 or above the next semester, the student will no longer receive the scholarship. Priority deadline is April 1.

Honors Scholarships: Full-tuition scholarship awarded to eligible participants in the Honors Program. Interested students should contact the program sponsor at the campus they plan to attend. Priority deadline is April 1.

Career-Technical Scholarships: Full-tuition scholarship awarded to Mississippi residents that are full-time, “first-time to enter college” freshmen career/technical students who have a high-school diploma and have completed a two-year secondary career/technical/vocational program with an overall high school average of B or above.

A half-tuition career/technical scholarship is also available for students with a “C” average in academic courses and an “A” average in career/technical courses.

The eligibility requirements to continue to receive this scholarship are that a student must maintain a cumulative grade point average of 2.5 or higher and to successfully complete a minimum of 12 semester hours each fall and spring semester. The Career-Technical Scholarship is renewable for the length of the program as prescribed in the college catalog and is applicable to all career technical programs which award a diploma, Associate of Applied Science degree, or Associate of Applied Science in Occupational Education degree.

Career and Technical Student Organization Competition Scholarship: Full-tuition scholarship awarded to Mississippi residents that are full-time, “first-time to enter college” freshmen career/technical students who have a high-school diploma, have completed a two-year secondary career/technical/vocational program and have either placed first in a state competition or first, second or third in a national competition sponsored by an MDE recognized vocational student organization.

The eligibility requirements to continue to receive this scholarship are that a student must maintain a cumulative grade point average of 2.5 or higher and to successfully complete a minimum of 12 semester hours each fall and spring semester. The Career and Technical Student Organization Competition Scholarship is renewable for the length of the program as prescribed in the college catalog and is applicable to all career technical programs which award a diploma, Associate of Applied Science degree, or Associate of Applied Science in Occupational Education degree.

- MDE nationally recognized vocational student organizations are:
- Distributive Education Clubs of America (DECA)
 - Family, Career and Community Leaders of America (FCCLA)
 - Future Farmers of America (FFA)
 - Future Business Leaders of America (FBLA)
 - Health Occupations Students of America (HOSA)
 - SkillsUSA
 - Technology Student Association (TSA)

GED Scholarships: Students who earn a GED score of 577 or higher are awarded a half-time scholarship for one semester covering a maximum of six semester hours. This scholarship covers tuition and book rental fees.

Students who earn a GED score of 450 to 576 are eligible to take one free class for one semester covering a maximum of three semester hours. This scholarship covers tuition and book rental fees.

In order to qualify for these awards, students must have taken the GED test within the past three years, be over the age of 18, and their attendance at MGCCC must be their first-time college attendance.

Performance and Service Scholarships: These scholarships are awarded on a student’s individual abilities. Interested students should contact the appropriate departments regarding tryouts.

This scholarship is limited to six total semesters. To remain eligible, students must maintain a 2.0 or higher cumulative grade point average as a full-time student. Students who drop below the 2.0 will be placed on scholarship probation for one probationary semester to allow the student to regain the 2.0 cumulative GPA. If the student does not bring the cumulative GPA up to 2.0 or above the next semester, the student will no longer receive the scholarship. Priority deadline is April 1.

Employee Scholarship: Full-time employees/retirees, their spouse, and dependents who are children of full-time employees/retirees are awarded a full-tuition scholarship. In cases of children being married or over 21 years of age, it will be necessary for the employee to certify in writing to the Vice President of Administration and/or the Vice President on the campus affected

Financial Information

that he or she is contributing at least fifty percent to the support of the child. Recipients of the employee scholarship are expected to maintain “satisfactory academic progress” as outlined in the financial aid section of the MGCCC catalog.

Mississippi Jr. Miss and Miss Mississippi America Scholarships: A full-tuition scholarship awarded to full-time, “first-time to enter college” freshmen student (hours taken as a dually enrolled high school student do not affect scholarship eligibility). To be eligible, a student must be a Mississippi Jr. Miss preliminary winner and/or a Miss Mississippi America preliminary winner.

This scholarship is renewable up to four consecutive semesters, not including summer. To remain eligible, students must maintain a 3.0 or higher cumulative grade point average as a full-time student. Students who drop below the 3.0 will be placed on scholarship probation for one probationary semester to allow the student to regain the 3.0 cumulative GPA. If the student does not bring the cumulative GPA up to 3.0 or above the next semester, the student will no longer receive the scholarship. Priority deadline is April 1.

Athletic Scholarships: These scholarships are awarded on a student’s individual abilities. Athletic Scholarships require students to comply with all MACJC and NJCAA policies.

*Please note that residence hall students on the Perkinston campus are required to take a minimum of 12-seated hours on campus. Students living in residence halls are allowed to take on-line classes for any additional hours above the 12-seated hour requirement.

Foundation and Alumni Scholarships: Scholarships made available through gifts from individuals, corporations and organizations. They are awarded to students based on merit and/or need, based on the eligibility criteria established by the donor. Applications are available from any MGCCC Financial Aid Office or a high school guidance office. The priority deadline to apply for alumni/foundation scholarships is April 1 of each year.

College Employment Programs

Work-Study Program: Part-time on-campus employment is available to eligible students. Students must complete the FAFSA to determine eligibility and the college financial aid application. Eligibility is based on financial need, other aid awarded and availability of funds. Students are employed part-time and are paid monthly. Students who complete financial aid files by June 1 will be given priority consideration.

Cooperative Education: A program which provides students with the opportunity to apply their educational learning experience to the practical world of work. Students alternate periods of college with periods of work in business, industry, social services, and private agencies. These periods of work are an integral part of the student’s education and are arranged with employers by MGCCC.

Two approaches are available for cooperative education. The alternating plan provides for a semester of full-time (12 hours or more) study followed by a semester of full-time employment (40-hour work week) until completion of school. The parallel plan enables the student to attend classes for a part of the day and work

for a part of the day.

For more information, contact the coordinator of cooperative education at the Jackson County, Jefferson Davis or Perkinston Campus.

Loan Programs

Federal Family Education Loan Programs are low interest loans that students and parents of dependent students may obtain from lending institutions such as banks and credit unions. They include the Federal Subsidized Stafford Loan, Federal Unsubsidized Stafford Loan and the Federal PLUS Loan. Students must complete the Free Application for Federal Student Aid (FAFSA), loan counseling and separate application forms with the school before a loan can be certified.

How to Apply for Financial Aid

1. Complete the MGCCC application for admission.
2. Complete the Free Application for Federal Student Aid (FAFSA) after January 1 for the upcoming school year. Students must submit an electronic application at www.fafsa.ed.gov. MGCCC school codes are 002417 (Perkinston Campus), 002418 (Jackson County Campus), 002419 (Jefferson Davis Campus).
3. Complete the MGCCC financial aid application and FAFSA by June 1 to receive priority consideration for Federal Work-Study (FWS), Federal Supplemental Education Opportunity Grant (FSEOG) and Leveraging Educational Assistance Program (LEAP).
4. Complete the Alumni/Foundation Scholarship application by April 1 for priority consideration for scholarship assistance.
5. Respond to any requests from the Federal Processor and/or campus financial aid office for additional information.
6. Reapply for financial aid each school year.
7. Schedule an appointment with the campus financial aid director, as needed, for additional information and assistance.

Total financial aid awards for a student may not exceed the cost of attendance or the student’s financial need, as determined by the FAFSA.

Title IV Financial Aid Satisfactory Academic Progress (SAP)

Mississippi Gulf Coast Community College is required by federal regulations to establish minimum standards of satisfactory academic progress (SAP) to determine a student’s eligibility for federal financial aid programs including:

- Federal Pell Grant
- Federal Supplement Education Opportunity Grant (FSEOG)
- Leveraging Educational Assistance Partnership (LEAP)
- Academic Competitiveness Grant (ACG)
- Federal Work Study
- Federal Stafford Loan Program

Financial Information

Students must meet these minimum satisfactory academic progress standards in order to initially receive and to maintain eligibility for Title IV funds. These satisfactory academic progress standards apply to all students, including transfer students and students who did not previously receive financial aid.

To make satisfactory academic progress, a student must:

1. pass a minimum percentage of all courses attempted;
2. maintain a minimum cumulative grade point average (GPA); and
3. complete a degree or diploma program within a maximum time frame

Qualitative Standard (Hours Earned and Grade Point Average)

Satisfactory academic progress will be measured according to the chart below:

Cumulative Semester Hours Attempted*	Cumulative Grade Point Average	Min. % of Sem. Hours Passed
1-6	1.00	50%
7-18	1.50	50%
19-30	1.75	67%
31-41	1.90	67%
42 and above	2.00	67%

*Academic history is reviewed for all students applying for financial aid, regardless of whether financial aid has been previously received. Hours attempted include all coursework on the transcript, including transfer credit and grades of I, IP, W, WP, WF, and forgiven courses.

Quantitative Standard (Maximum Time Frame for Eligibility)

Students must complete an associate type degree or diploma program within a certain time frame. Federal regulations allow a maximum time frame of 150% of the number of credits needed to complete the associate type degree or diploma program. This time frame is effective for all students, even those, that have not previously received financial aid. The 150% rule applies to all classes attempted by the student, including vocational, developmental and transfer hours. Once a student earns an associate degree from MGCCC, they are not eligible to participate in financial aid program without appeal.

Example: A student working toward an A.A. degree needs 64 hours to graduate. Once that student completes 96 hours (64 hours x 1.5), he/she is no longer eligible for financial aid.

Satisfactory Academic Progress (SAP) Review and Notification

SAP standards will be checked at the end of each term when grades are posted to the transcript. Students who fail to meet satisfactory academic progress standards will be notified by the financial aid office by mail and/or posting of the status to "Financial Aid/My Overall Status" in MGCCC Web Services.

Financial Aid Probation/Warning is a status assigned the first time a student fails to meet satisfactory academic progress standards. A student placed on probation at the end of a term will be eligible for financial aid the following term of enrollment. He/she must complete the necessary coursework and/or earn the quality points necessary to meet these required Federal SAP standards for both required Cumulative GPA and Minimum Percentage of Hours Passed as shown above.

Financial Aid Suspension will result under the following conditions:

- Student on probation fails to meet satisfactory academic progress requirements
- Student withdraws from, drops out, or fails all classes during warning/probation periods.
- Student reaches 150% maximum time frame

Financial Aid Appeals

Any student who has been suspended from receiving financial aid may appeal in writing to the Director of Financial Aid for reinstatement of eligibility. Because students receive an automatic warning period, only appeals detailing mitigating circumstances beyond the students control will be considered. In the appeal, the student must describe and document any mitigating circumstances ("serious" illness, personal injury, death of an immediate family member or other circumstances beyond your control) that affected academic performance or length of enrollment.

The Director of Financial Aid will review the appeal and respond in writing within thirty working days. The response may reinstate the student to full eligibility, deny eligibility, or may grant one additional term of probation. Because students receive an automatic term of probation, reinstatement or additional terms of probation are not generally approved. Appeals that are denied may be appealed in writing to the Dean of Student Services.

Student Services

Our Student Services staff embodies the college's mission: to make a positive difference in people's lives every day.

We're dedicated to giving you the highest quality customer service, and we're here to help you when you need it, so don't hesitate to come to us with a problem or suggestion.

That's what we're here for.

Student Services

Student Services is an administrative, service-oriented unit within MGCCC. Student Services provides many facilitating and developmental activities and programs for students. Eight of the most important functions are outlined below:

1. *Advisement:*

MGCCC conducts a comprehensive advisement system to aid students in selecting an educational major, exploring educational goals, selecting courses and scheduling classes. An important aspect of an effective advisement system is close association between students and the faculty advisor. Periodic scheduled contacts are held during each semester to facilitate the system. Students are advised to check the campus calendar for dates and times of scheduled meetings.

2. *Orientation and Placement Assessment:*

All entering first time freshmen are required to attend a scheduled orientation program prior to the beginning of the semester. Orientation is a process of welcoming students to the college. Explanations of policies, procedures and programs take place at this time. Since entering freshmen may differ in their academic preparation, the college makes every effort to determine the appropriate level of beginning instruction for each student. The college currently uses the American College Test Assessment (ACT's) or COMPASS. After assessment in the areas of English, mathematics and reading, students are placed in courses appropriate with their ability levels and academic background.

3. *Counseling:*

Counseling and guidance services are provided to students through the Student Services Department. Emphasis is placed on providing information concerning educational and career opportunities, personal and social development, orientation to college life and decision making skills. Evaluation of credit, both Mississippi Gulf Coast Community College and transfer, is available upon request by the student.

4. *Veterans Educational Services:*

Each campus Veterans Affairs Office assists former service personnel and dependents that are eligible for benefits. All students receiving V.A. educational benefits are required to report changes in course load, withdrawal and absences, or interruption in attendance to the office of Veterans Affairs to minimize personal liability resulting from over payments of V.A. benefits.

5. *Assessment Centers:*

Campus assessment centers provide a variety of proctored testing services. Some of the services provided by the assessment centers will include proctored testing for on-line courses, Nurse Entrance Exam (NET) testing for students seeking entrance to the Associate Degree Nursing program, Test of Essential Skills

(TEAS) for students seeking entrance to the Practical Nursing program, Credit for College Level Examination Program (CLEP) allowing students to achieve college credits by examinations and COMPASS testing used to evaluate competency levels of potential students in specific academic areas. Other services are also available. Students anticipating testing should contact the assessment centers on the appropriate campus in advance to schedule a test.

6. *Financial Aid:*

A number of financial assistance options are available for students from federal, state and local sources. Refer to the "Expenses" section of this catalog for information about available financial aid opportunities, application procedures and requirements.

7. *Career Development Center:*

The Career Development Center, located on the Jefferson Davis Campus, provides career counseling and assessment to assist students in selecting a college major or career goal based on their interests, skills, values, and personality traits. In addition to individual counseling, numerous print and internet resources are available to help the student in this decision making process.

8. *Child Care Services.*

The college operates child care development facilities to provide low-cost child care services to full-time students. Facilities are operated at the Jackson County, Jefferson Davis, and Perkinston Campuses. The centers are in full-compliance with the standards and regulations provided through the Mississippi Department of Health, and all staff have degree qualifications as Early Childhood Professionals. Applications are available in the Early Childhood Education Office.

CONDUCT AND DISCIPLINE

Mississippi Gulf Coast Community College requires standards of behavior which it considers essential to fulfillment of the College's mission. The Code of Student Conduct defines expected behaviors and clearly addresses student conduct for which disciplinary sanctions may be imposed by the College. The Code of Student Conduct is published in the College's Policies and Procedures Manual Statement No. 717, which is located on the college website at: http://www.mgccc.edu/Documents/MGCCC_PP.pdf. Student conduct and discipline is also published in the student handbook, which is located at: http://www.mgccc.edu/current_students/student_handbooks.php.

Student Services

Right of Appeal

A student has the right to appeal disciplinary action taken against him or her by the judicial committee, and the student must appeal the decision within five days of the judicial committee's decision. The criteria for the Right of Appeal is stated in Policies and Procedures Statement No. 717, which is located on the college website at: http://www.mgccc.edu/Documents/MGCCC_PP.pdf. Students may also see the student handbook for specific directions for appealing the decision of a judicial committee.

VETERANS ADMINISTRATION INFORMATION

Admission requirements must be met before the student is certified to the Veterans Administration. Admissions documents will become part of the permanent record of the applicant granted admission.

Maintenance of Records

Permanent records pertaining to the enrollment of VA benefits recipients will be maintained in an identifiable fashion. The permanent records are under the administrative supervision of the campus Director of Admissions and maintained by the Records Clerk for each campus and its centers. All financial records are maintained by the Dean of Business Services. Certification of eligible students is the responsibility of the campus or center VA certifying official.

Residency Information for Military and Dependents

Special provisions regarding in-state residency are provided for military members and their dependents. (See MGCCC Catalog – Residency) To be considered for in-state tuition status, proper documentation must be provided (current military orders, DD214, etc).

Previous Education and Training Period

Each permanent record will show previous education and training. Enrollment certificates submitted to the Veterans Administration will reflect proper credit for previous education and training. An evaluation will be made by proper officials of the college of a student's previous educational experiences. A prospective student should make known to college admissions personnel that his or her past record includes creditable courses. Certifying officials should be alert to the possibility that an eligible student might already have taken exactly the same work for which he or she is seeking admission and certification to the Veterans Administration; therefore, a dual responsibility exists on the part of the student to present documentary evidence of acceptable educational experiences and on the part of the educational institution to insure that training in precisely the same subject matter is not repeated and counted toward an eligible person's credit load.

Standards of Progress for Students Receiving VA Benefits

(Refer to the Scholastic Probation, Suspension and Readmission Policy)

Attendance Records for Students Receiving VA Benefits

It is important to the student, the college, and the Veterans Administration that eligible persons closely adhere to attendance policies contained in official college publications. If the student exceeds the number of allowed absences, notification will be made by the instructor or instructors on the enrollment system (EASY), and proper notice will be given to the Veterans Administration that the student is carrying a reduced load. However, the student has an equal responsibility to make the certifying official aware of changes in courses or course load immediately after or prior to the change. The last day of pursuit will be determined by any of the following methods: (a) attendance records; (b) last activity date reflected in the instructor's record; (c) last papers submitted; (d) last examination completed; (e) a student's reasonable statement of last date of attendance.

Reports to the Veterans Administration

Any change in the status from the last certification will be reported promptly to the Veterans Administration. Reports of unsatisfactory progress, drops, withdrawals, and unscheduled interruptions will be made within the month of occurrence or immediately thereafter.

SERVICEMEMBER'S OPPORTUNITY COLLEGE

As a result of meeting criteria developed by the Department of Defense and the American Association of Community and Junior Colleges, the Mississippi Gulf Coast Community College is recognized as a Servicemember's Opportunity College and pledges itself to a continuous institutional effort toward helping active duty servicemembers in obtaining their educational goals and to seek new approaches that will better meet the educational needs of servicemembers.

Further information about these programs may be obtained from admissions offices on each of the campuses.

Student Services

Each campus offers its student body extracurricular activities designed to supplement and enrich academic pursuits. Full-time faculty or administrative staff serve as advisors to campus organizations and activities. Advisors are required to attend all meetings and activities of the club/organization and will ensure that all students in the club/organization follow the college student conduct code.

Athletics

The Intercollegiate Athletic Program at Mississippi Gulf Coast Community College is consistent with the college mission by contributing to the educational development of individual athletes. Through training and competition, students gain discipline and opportunities for social, moral, and personal development.

Mississippi Gulf Coast Community College is fortunate in having a highly successful athletic program which was already in existence on the Perkinston Campus when the two new campuses were created. The Bulldogs, as the college athletic teams are known, compete in the Mississippi Community College Athletic Conference in football, basketball, baseball, soccer, softball, golf and tennis. These competitive teams have won local, state, and national championships in recent years with many students being named as All-American.

Students who participate in intercollegiate athletics must comply with the existing rules and regulations of the Mississippi Community and Junior College Athletic Association and the National Community and Junior College Athletic Association. Therefore, all athletes must fulfill college admissions requirements and remain in good academic standing in order to participate in intercollegiate athletics.

Intramural athletic contests are held on each campus. These events provide exercise and fun while building teamwork and character.

Career and Technical Support Services

The Career-Technical Department at Mississippi Gulf Coast Community College believes that all students deserve a chance to be successful in their fields of study.

A Career-Technical Support Team at each campus or center can help you succeed in the career or technical field of your choice. These dedicated personnel assist students in successfully mastering a career or technical program.

The Support Teams are dedicated to serving the needs of all students: students with disabilities; students entering non-traditional fields; students who are single parents or displaced homemakers; students who are economically disadvantaged; and students who have difficulty with the English language.

Clubs and Organizations

A variety of clubs and organizations are available at Mississippi Gulf Coast Community College, including:

MGCCC Reflections. The college sponsored recruitment and hospitality team composed of students from each campus.

Members are selected after application based on communication skills, past extra curricula activities, character and grade point average. Half-tuition scholarships are awarded to Reflection members.

Phi Theta Kappa. A national community/junior college honorary fraternity stressing scholarship and leadership.

Phi Beta Lambda. A national association for business students with chapters on each campus.

Future Educators of America. FEA is an organization for students planning to enter the field of education. Students are introduced to the nature and functions of the state (MAE) and national (NAE) organizations.

The following organizations and clubs are active on one or more campuses:

Ad Club (Perkinston Campus) is a college chapter of the national organization known as the AAF (American Advertising Federation). To be eligible for membership, an individual must currently be registered in at least one class such as Marketing, Advertising, or Advertising Design.

Alpha Beta Gamma (ABG). An International Business Honor Society established in 1970 to recognize and encourage scholarship among two-year college students in business curricula. To achieve this goal, ABG provides leadership opportunities, forums for the exchange of ideas and the stimulation of interest in continuing academic excellence. ABG is a member of the Association of College Honor Societies and an affiliate member of both the American Association of Community Colleges and the Association of Canadian Community Colleges.

Delta Epsilon Chi. The purpose of this club is to develop leadership in the field of marketing and distribution.

Delta Club (for science and mathematics students). Promotes interest in such technical fields as engineering.

Dramatics Clubs. The purposes of this club are to give an insight into the makeup and origin of the stage and to cultivate an appreciation of drama as a whole.

Health Occupations Students of America (HOSA). (for health occupations students). Organization promotes occupational training, teamwork, self-discipline, leadership, and compassion for others. These clubs are active at most campuses and centers of the college.

National Technical Honor Society (NTHS). A national organization for career and technical students designed to recognize scholarship and develop leadership among those students.

SkillsUSA. This association for career, technical, and health occupations students develops the student's social and leadership abilities, as well as his/her skill area. Members are active in community and campus activities, and may participate in annual skills Olympics at the state and national levels.

Student Nurses Organization. This association aids in the preparation of student nurses for the assumption of professional responsibilities. It serves as a channel of communication between the student nurses and the graduate professional nurses organizations.

Student Services

Student Humanitarians for Advancement and Change.

SHAC is a group of motivated students who believe in changing the world a little at a time. Students practice teamwork and leadership skills in putting together various projects that include but not limited to local charitable causes.

Other clubs include American Welding Society, Art Club, Connections, Country Club, Court Reporting, Criminal Justice, Delta Psi Omega, Horticulture Club, Hotel/Motel/Restaurant, Human Services Club, JC Computing Association, JC Intramural Sports Club, JC Singers, Life Christian Support Group, Medical Laboratory Technology Club, Minority Leadership Society, Music Club, Paralegal, PE Club, Perk Players, Rotoract, Scholar's Bowl and Students on Service.

There are also student religious organizations such as Baptist Student Union, Canterbury Club (Episcopalian), Newman Club (Catholic), Westminster Fellowship (Presbyterian), Wesley Foundation (Methodist). The purpose of these organizations is to enrich the spiritual life of the student, afford an opportunity for discussion and to be a channel of service to others.

English as A Second Language (ESL) Classes

These classes are non-credit classes for the individual for whom English is not the primary language. Contact the campus adult basic skills managers for class placement.

GED Classes and Testing

GED preparatory classes are available at the campuses as well as at most college centers. College adult basic skills managers may schedule assessment testing to determine the student's potential for passing the GED test. The GED exam is given monthly at most college sites and may include weekend and evening testing.

Gulf Coast Youth Leadership Program

Recognizing the need to develop and support leadership of the youth of the Gulf Coast . . . the decision-makers of tomorrow. Mississippi Gulf Coast Community College, in conjunction with the local public and private high schools and industry sponsors, offers Gulf Coast Youth Leadership program for the MGCCC district.

The Youth Leadership Program has been designed from the basic principles of the adult leadership programs operating in the coastal counties and at the state level. Developed as an ongoing program, Youth Leadership incorporates a value-based program of personal development, choices and responsibilities, with a sense of community, achieving results and accountability.

The Gulf Coast Youth Leadership Program's purpose is to develop high school students into leaders who are informed, motivated, and committed to working toward an improved quality of life. The goal of the program is to identify and help develop youth with leadership skills and an in-depth knowledge of the Gulf Coast community.

The Mississippi Gulf Coast Community College District Workforce Council recognized the importance of developing future leaders and included the expansion of the youth leadership

program in the Workforce Educational Services Strategic Plan. Industry/business leaders play a major role in the youth leadership program through presentations to the youth, conducting field trips to company/plant sites, and mentoring the individual youths as well as serving as Gulf Coast Youth Leadership sponsors.

Hall of Fame

Each year a number of students equal to one percent of the full-time enrollment on each campus are selected by the faculty for recognition in the Yearbook Hall of Fame. These students must have a 2.0 or higher average and possess qualities of leadership, citizenship and personality.

Lifelong Learning Institute

Mississippi Gulf Coast Community College provides an educational opportunity designed to meet the needs of America's maturing population through the MGCCC Lifelong Learning Institute (LLI). Mature adults who care about lifelong learning, who are self-motivated, and who wish to continue their experiences with other like-minded individuals are what the LLI is about.

The Institute is a membership driven program. Committees made up of LLI members decide the who, what, when, where decisions that affect the courses, activities and travel plans of each LLI chapter. Benefits for members include, monthly lecture series, annual health screenings, special rates at the wellness/fitness centers and a comprehensive travel program.

Men and women who are 50 years or older may join the Lifelong Learning Institute. Members are from a wide range of experiences and backgrounds. They share one essential attribute: a belief in lifelong learning.

Fine Arts

MGCCC's Marching Band of Gold, Perkette Dance Team, and Salsa Band are located on the Perkinston campus. All three campuses offer choral groups, small ensemble vocal groups, drama productions, piano and student art shows.

Publications

Student Newspapers. The Mississippi Sound on the Jefferson Davis Campus is published by students. The Bulldog Barks on the Perkinston Campus is published by students.

College Yearbook. Material is compiled and edited by students under a faculty advisor for a college-wide yearbook.

Student Centers

There are popular locations on each campus where students gather in their leisure time for socializing and relaxation.

The residential campus at Perkinston has other recreational facilities including a modern student center where pool, snooker, card games and TV are available. Tennis courts and swimming pools are also on all campuses.

Student Services

Student Councils

Students have the opportunity to take an active part in the student council on each campus. Made up of elected representatives from each class of the college, these democratic bodies, through executive and advisory functions, are the voices of the students in helping to determine the success of the college.

The student council plans wholesome recreational and social activities for the students, encourages student discussion of campus concerns, presents helpful recommendations to the faculty and administration and generally acts in an advisory capacity to the students.

The student council on each campus also exercises general supervision over other campus organizations and must approve the formation of any new group on campus.

The College Student Council Association

The College Student Council Association represents, by the democratic process, the student bodies of Mississippi Gulf Coast Community College with its three campuses. In addition, the college student council coordinates the college student activities; adds unity to the student body of the three campuses; and serves as a mainspring for student activities, which will add to the wholesome and total development of each participant and the college organization.

The membership of the College Student Council Association is composed of six representatives of each campus. Each member is guaranteed all rights of membership and shall be subject to all procedures in accordance with the constitution. (The six representatives will be the four executive officers, the freshman class president and the sophomore class president.) The campus council president has the power to appoint representatives, if one of these officers cannot attend meetings.

Residence Life (Perkinston Campus)

Living accommodations are provided on the Perkinston Campus. Each residence hall has its own distinctive features, along with certain standard conveniences. Each residence hall has coin-operated laundry facilities, live-in professional staff, and student resident assistants. Air conditioned rooms are designed for double occupancy and are provided with closet or wardrobe space, twin beds, desks, chairs, mattresses, telephone jacks, cable access, and Internet access. Students must provide bed linens, pillows, towels and other small personal items such as a small wastebasket, study lamp, television, stereo, telephone, and other decorative items. Students are required to purchase a 7 day meal plan. Students should not keep valuables in their rooms. The student/resident will be requested to release and hold harmless the College from any liability for theft of any personal property from student/resident's room.

For additional information, contact the Housing Department, P.O. Box 548, Perkinston, MS 39573, phone number (601) 928-6220. To reserve a room, students must be pre-registered for 12 or more hours and submit an **Application for Student Housing** with a \$50 non-refundable application fee. To remain eligible for

housing, timely fee payment and full-time status are required. Room charges are non-refundable.

The Mississippi Gulf Coast Community College Alumni Association

This organization serves as a link between the college and its alumni, faculty and friends. It proposes to relate the college program to the community and to make the college aware of the needs of the people in the four-county area served by Mississippi Gulf Coast Community College.

Membership and Organization: Former students, faculty, staff and friends are eligible for membership in the Association. Annual dues are \$10.00 per person. Life membership is \$50.00 single and \$75.00 couple.

The Hall of Fame Awards were established in 1970 to honor former students who have brought fame and honor to the college through their achievements. A faculty member is chosen from each campus as Instructor of the Year and is honored at the Spring Reception.

Student organizations and individuals are encouraged to make nominations for the Instructor of the Year. The Association presents each graduate with a complimentary two-year membership.

The Mississippi Gulf Coast Community College Foundation

The Mississippi Gulf Coast Community College Foundation, Inc., was established and chartered in 1974 to administer an endowment fund for the extension of educational service within the college district. It is governed by a twelve member Board of Directors who serve voluntarily. Officers elected from the Board are President, Vice President and Secretary-Treasurer. The President of the college, being an ex officio member of the Board, serves as Executive Secretary of the Board.

Membership may be obtained through a minimum investment of \$250, payable over a five-year-period. For more information, write to MGCCC Foundation, Inc., P.O. Box 99, Perkinston, MS 39573.

Who's Who

A number of sophomores not to exceed two percent of the full-time enrollment on each campus will be chosen from nominees for the Hall of Fame for inclusion in Who's Who Among Students in American Junior Colleges.

Confidence is what you make of it. Same goes with college. Whether you're on the academic route and planning on transferring to a university or looking to land a great job after a year or two at Gulf Coast, Gulf Coast will upgrade your chances at success, no matter your life plan.

Our academic, career and technical programs are on the forefront of technology, on target with class schedules and on the top-100 list of America's community colleges.

Look at it this way: Confidence isn't high-tech stuff... it's simply knowing you can do it.

Instructional Program

Academic Load

A normal class load is 16 semester hours. A full-time student is required to enroll in at least 12 semester hours of credit. A student maintaining fewer than 12 semester hours is considered part-time. A student may not take more than 19 hours without permission from the Campus Vice President, unless the student's curriculum indicates otherwise.

When a full-time student drops below 12 semester hours, the student automatically becomes a part-time student. If this occurs, a part-time student tuition fee is charged in lieu of full-time tuition.

A residence hall student who drops to part-time status must move out of college housing and continue his/her studies as a commuter student unless the Dean of Student Services and Campus Vice President approve the student to remain in college housing.

Grades

At mid-term and again at the end of the semester, the instructor reports the academic standing of each student in each course. Mid-term grades and final grades are available to students online at www.mgccc.edu in Web Services. Mid-term grades allow students to evaluate their progress; however, unlike final semester grades, they are not official and do not appear on the transcript.

Grades are based upon proficiency attained by the student demonstrated primarily by the quality of work done in the classroom. Letter grades used and their meaning are as follows:

- A** Represents superior or outstanding achievement in prescribed work
- B** Above-average achievement in prescribed work
- C** Average level of achievement
- D** Below-average achievement
This is the lowest passing grade.
- F** Failure to pass prescribed work
- I** Incomplete
The prescribed work was not finished by the end of the semester. If the work is completed within the following semester (summer term does not count), the "I" may be changed to A, B, C, or D. If the work is not completed within that semester, the "I" will be changed to "F."
- IP** In Progress
At the end of the grading period, the student is progressing but has not completed the course during that grading period. This grade is utilized for a limited number of Developmental Studies competency-based courses. If the student does not reenroll in the "IP" course, the "IP" will change to an "F" at the end of the next semester (summer term does not count).

- AU** Audit
Awarded at the end of a course when the student has properly registered as an auditing student (see Auditing a Course).
- W** Withdrawal
Student officially withdrew before the end of the official withdrawal period or withdrew due to extenuating circumstances with the approval of the dean of instruction.
- WP** Withdrawal Passing
Student dropped by the instructor for noncompliance with the college's attendance policy. Work completed at a passing grade level.
- WF** Withdrawal Failing
Student dropped by the instructor for noncompliance with the college's attendance policy. Work completed at a failing grade level.
- P** Pass
Awarded to students enrolled in a pass/fail class or who have successfully completed a challenge exam.

Grade Changes Due to Error

Corrections of semester grades due to error should be requested within six weeks after the end of the semester in which the error was made.

Quality Points and Grade Point Average (GPA)

A student must average a minimum of two quality points for each semester hour of work attempted to qualify for graduation. Points are computed on grades as follows:

- A** 4 quality points per semester hour
- B** 3 quality points per semester hour
- C** 2 quality points per semester hour
- D** 1 quality point per semester hour
- F** 0 quality point per semester hour

Grades of I, IP, AU, W, WP, WF, and P do not incur quality points. If a student does not earn sufficient quality points in a course or fails the course, the student can repeat the course to improve the grade and quality points. The best grade earned in the same course is used to compute GPA. A transfer student's quality points will be computed on the grades of earned semester hours.

Grade point averages are determined by totaling the quality points earned in all courses and dividing the sum by the total semester hours attempted.

Example: A student earns a grade of A in English Composition I (3 semester hours) and a grade of B in General Biology I (4 semester hours).

$$\begin{aligned} & 3 \text{ semester hours} \times 4 \text{ quality points} = \\ & 12 \text{ quality points for English Composition I.} \\ & 4 \text{ semester hours} \times 3 \text{ quality points} = \\ & 12 \text{ quality points for General Biology I.} \\ & 24 \text{ total quality points} / 7 \text{ semester hours attempted} = \\ & \mathbf{3.43 \text{ GPA}} \end{aligned}$$

Instructional Program

President's and Vice President's Lists

Scholarship is the chief goal of serious college students. The Board of Trustees, administration and faculty attempt to stimulate and recognize exemplary scholastic achievement each semester.

President's List: Students will be recognized on the President's List by earning twelve or more semester hours with a 4.0 (all A's) grade point average.

Vice President's List: Students will be recognized on the Vice President's List by earning twelve or more semester hours with a 3.30 to 3.99 grade point average with no grade less than a "C."

Scholastic Forgiveness of Grades

Mississippi Gulf Coast Community College is committed to assisting students in the achievement of their educational goals through its open-door admissions policy. Some students are not academically prepared for college-level work or encounter problems that result in failure to achieve satisfactory grades. These students often make the decision to drop out or "stop out" until they are ready to continue their education. To alleviate the difficulties associated with low grade point averages, many institutions allow students to eliminate the computation of grades on previous work for purposes of graduation. This practice, commonly referred to as scholastic forgiveness, is not endorsed by all institutions.

Any student readmitted to MGCCC may petition for scholastic forgiveness of grades as outlined in the following procedure.

Scholastic forgiveness of grades does not change the policies and regulations that govern financial aid and veterans benefits eligibility.

Procedure for Scholastic Forgiveness

1. The student must complete the Petition for Scholastic Forgiveness of Grades, which may be obtained from the campus Director of Admissions.
2. The Petition for Scholastic Forgiveness must be made prior to the end of the second semester of readmittance following 24 consecutive months of non-enrollment at any post secondary institution.
3. The student will be counseled as to the conditions outlined in this statement and on the Petition. The student should be advised that all college credits earned previous to a semester designated by the student will be eliminated from the computation of the student's grade point average and eliminated from all academic regulations such as probation, suspension, and honors. These eliminated credits may never be used toward graduation at Mississippi Gulf Coast Community College.
4. The student's transcript will reflect the complete scholastic record but will contain the notation at the appropriate point that all previous grades have been forgiven.
5. Scholastic Forgiveness of grades can be declared only once and cannot be revoked once granted.
6. The completed Petition for Scholastic Forgiveness of Grades

with appropriate signatures must be submitted to the Director of Admissions and filed in the student's permanent record.

Absentee Policy

Students are allowed one hour of absence per semester hour for lecture courses. Two hours of absences are allowed per semester hour for laboratory courses. Three hours of absences are allowed per semester hour for clinical/internship courses. If course objectives require a combination of lecture, lab or clinical/internship time, then the absences will be apportioned according to the limitations stated.

Excessive tardies will not be tolerated and will count as absences. An instructor may drop a student after the student misses more than the number of absences per semester hour that the course carries. Excused absences are permitted at the discretion of the instructor and are not counted as absences. Official absences are excused by the college and are not counted as absences. Instructors will be notified of such official absences by the college. In extenuating circumstances, students who are dropped after exceeding allowable absences may petition for reinstatement to the Dean of Instruction who advises the student of the proper procedure.

Practical Nursing students will be allowed a maximum of eight (8) days absence during this one-year program to comply with state mandated curriculum guidelines. A student may be absent only three (3) days during the Fall and Spring semesters and two (2) days during the Summer semester. Tardy/late absences will be accumulated as outlined in the current Practical Nursing Student Handbook. A student will be dropped from the program for excessive absences but may submit a written petition for readmission with supporting documentation to the Assistant Dean of Career/Technical Instruction and Appeals Committee within one week of being dropped from the PNV course.

For absentee policies pertaining to Cosmetology and Career and Technical Healthcare programs, see the Cosmetology and Health Occupations Handbook.

Withdrawal Procedures

The withdrawal period for full-term classes concludes on the Friday of the 10th week of the semester. For specific withdrawal dates and refunding periods for all classes, please refer to the college calendar. Additional information on the withdrawal process is also described in the student handbook, which is located at: http://www.mgccc.edu/current_students/student_handbooks.php.

Instructional Program

Scholastic Probation

Scholastic probation is conditional permission to continue in college when standards of scholastic progress are not met. If a student fails to achieve minimum requirements during any term, he/she will be placed on scholastic probation.

Minimum Scholastic Standards of Progress*

<i>Cumulative Semester Hours Attempted</i>	<i>Cumulative Grade Point Average (GPA)</i>
1—6	1.0
7—18	1.5
19—30	1.75
31—41	1.9
42 and above	2.0

*All programs of study require a minimum 2.0 GPA for graduation even if the program is less than 42 credit hours.

Transfer Students

Transfer students, once admitted, will be under the same scholastic probation, suspension, and re-admission policy as other students. Credit from regionally accredited postsecondary institutions will be added to the MGCCC transcript and articulated courses will be included in the overall GPA.

Financial Aid

Financial Aid Satisfactory Academic Progress differs from the Scholastic Standards of Progress. Students must meet the minimum scholastic standards of progress to receive financial aid. For example, the grade of “W” will count in hours attempted for financial aid purposes, but not in the cumulative grade point average. Students receiving financial aid should request a copy of these standards from the campus Director of Financial Aid or review “Financial Aid Satisfactory Academic Progress” in the “Expenses” section of this publication.

Healthcare Programs

Certain healthcare programs require students to meet “program standards of progression” in order to continue in the program. Students not meeting these standards may continue to enroll at MGCCC in other programs as long as they maintain minimum MGCCC standards of progress.

Returning to Good Standing

In order for a student to return to Good Standing after being placed on Scholastic Probation, the student must achieve a 2.0 term GPA the following term to be removed from probation (i.e. if the probation results from fall grades, the student must achieve a 2.0 GPA in the spring semester).

Scholastic Suspension

Students who fail to meet the 2.0 GPA at the end of their probationary semester will be suspended from the College. The student is prohibited from enrolling in classes for one semester following suspension and any pre-registered classes will be removed from the system. Upon returning, the student will be placed on probation for two semesters and must achieve a 2.0 term GPA the first semester and a cumulative 2.0 GPA the second semester to continue enrollment.

Readmission

Any student suspended for scholastic reasons for the first time qualifies for re-admission on conditional status by remaining out of the College for at least one (1) full term (summer term included).

A student may petition, in writing, the Campus Admissions Committee for immediate re-admission on conditional status in the case of mitigating circumstances. Petitions will be decided on an individual basis. See the Dean of Student Services or Director of Admissions on the appropriate campus for more information.

After second and subsequent suspensions, the student will be eligible to apply for conditional readmission only after remaining out of the College for at least two (2) full terms. No immediate re-admission will be considered except in extraordinary circumstances. Some nursing and healthcare programs have specific readmission procedures.

Auditing a Course

Students registering for audit purposes will be charged regular tuition fees. When official grades are not desired, audit privileges are available to students for the purpose of review and/or special interest. Please refer to the Student Handbook at the campus where you are registered or plan to register for more detailed information on the audit process or it can be found on the MGCCC college website at http://www.mgccc.edu/current_students/student_handbooks.php.

Academic Awards

Awards for high academic achievement may be given each year at the discretion of the faculty. These are usually awarded to a full-time sophomore who has the highest academic achievement in the area the student has designated as his or her major.

Instructional Program

Credit by Non-Traditional Means

The total of credit by non-traditional means may not exceed 38 semester hours. MGCCC will award no credit by non-traditional means for courses or programs not offered within the current curriculum of the college.

I. Credit for College Level Examination Program (CLEP)

The College-Level Examination Program (CLEP) enables colleges to evaluate achievement and award credit. A wide range of college-level examinations is offered by CLEP to anyone who wishes to participate. The CLEP exam can only be taken once every six months. Scores on the tests are reported to the student and the appropriate college, employer, or individual:

- A. Credit for the CLEP Examinations will be awarded if the scores meet or exceed the minimum ACE recommended scores standard. Students taking CLEP tests before July 1st 2001 should refer to the college catalog for the year the test was taken for scoring requirements.
- B. All courses listed in the Mississippi Gulf Coast Community College Catalog are eligible for credit if CLEP has an established examination in that subject. Mississippi Gulf Coast Community College is an approved limited CLEP testing site. See the campus Assessment Center proctor to schedule a CLEP examination.
- C. To receive credit through CLEP a person must enroll in MGCCC to take additional semester hour credit courses.
- D. The appropriate course numbers and semester hour credit awarded through the use of CLEP will be placed on the student's transcript under the heading "credit awarded by CLEP." No grade will be assigned.
- E. Students must consult university of their choice for specific transferability of CLEP credit.
- F. Credit for the CLEP Subject Examinations will be awarded in the following courses: (Students in healthcare programs should consult department chairperson about acceptable credit.)

CLEP Subject Area	MGCCC Equivalent	Sem. Hrs. Required	Score
<i>Business:</i>			
Information Systems and Computer Applications	CSC 1113	3 . . .	50
Principles of Accounting	ACC 1213	6 . . .	50
Business Law and The Legal Environment of Business	BAD 2413	3 . . .	50

*CLEP General Examinations

II. Tech Prep Articulation Credit

Any student from the Mississippi Gulf Coast Community College Tech Prep Consortium of participating secondary schools wishing to receive advanced articulated credit must be in good standing at the former institution. The applicant shall be responsible for procuring the proper documentation. Granting of credit for previous training will be done after completion of the first semester of enrollment at MGCCC.

The following stipulations will be upheld:

- A. The applicant must meet all admission requirements as stated in the Mississippi Gulf Coast Community College Catalog.
- B. To be eligible for Local Articulation credit, a student must complete the articulated Secondary Vocational Program and receive at least a grade of 85 in the secondary program of study. Students must contact the MGCCC counseling center to begin this process.
- C. To be eligible for Statewide Articulation credit, a student must complete the articulated Secondary Vocational Program and score an 80 percentile or higher on the Mississippi Career Planning and Assessment System (MS CPAS) in their secondary program of study.
- D. To be awarded Statewide Articulation credit a student must successfully complete 12 non-developmental career/technical or academic credit hours in the corresponding articulated postsecondary Career-Technical program of study.

Instructional Program

- E. To be awarded Local and Statewide Articulation credit a student must enroll at Mississippi Gulf Coast Community College.
- F. Verification of secondary grades will be by official transcript.
- G. All Tech Prep Articulation credit will be exempt from Mississippi Gulf Coast Community College fees.
- H. Credit awarded for Tech Prep Articulation courses will be identified on the transcript as "Tech Prep Articulated Credit." A letter grade will not be assigned and the semester hours will not be factored in the students' grade point average. Tech Prep Articulation credit may be used to meet Mississippi Gulf Coast Community College graduation requirements. Students must consult the university of their choice for specific transferability of "Tech Prep Articulation Credit."

III. Advanced Placement

Students entering Mississippi Gulf Coast Community College will be allowed credit on the Advanced Placement Examination administered by the College Entrance Examination Board and sponsored by participating high schools.

For an Advanced Placement score of 4 or 5, 6 or 8 semester hours will be awarded if offered by the college in the subject area. For scores of 3, 3 or 4 semester hours will be awarded if offered in the subject areas.

IV. Credit by Departmental Examination

- A. Credit may be obtained in courses on the basis of departmental examination only for courses other than those for which the CLEP credit is available. Exceptions must be approved by the Department, Dean of Instruction and the Vice President.
- B. Permission to take a departmental challenge examination must have the approval of all members of the department who teach the course and the appropriate Dean of Instruction. Students covered under the college adopted career and technical articulation agreement with high schools will not be charged a tuition fee. Cost for these examinations will be at the rate of \$25 per semester hour. No other tuition will be charged for the course. For courses with labs, a performance test may also be required at the discretion of the department concerned.

V. Credit For Life Experience Program

The credit for life experience process begins with the student meeting with the department chair in the area that the credit will be requested at the campus he/she is attending.

A. Prior Learning Portfolio

A prior learning portfolio is a written record presented by the student requesting college credit for learning outside the classroom. Credit is given only for college-level learning. Portfolios will require the following elements:

1. Identification and definition of specific prior learning for which college credit is being requested.

2. An essay or narrative explaining how this prior learning relates to the student's desired degree program, from what experiences it was gained and how it fits into his overall education and career plans.
3. Documentation that the student has actually acquired the learning he is claiming. This documentation must address each of the course objectives/learning outcomes as defined on the course syllabus for the course that the student is requesting credit for life experience.
4. A credit request listing exactly how much credit the student expects in each subject area.

B. Portfolio Review

1. The portfolio review will be done by the department chairs college-wide. In addition, the designated campus instructor that is teaching the course where credit is being determined will also be a member of the portfolio review committee.
2. The deadline dates for the student to apply for a portfolio review will be August 1 (review to be done prior to the beginning of fall semester), November 1 (review to be done prior to the spring semester), and April 1 (review to be done prior to the summer semester).
3. To be eligible for portfolio review, a student must be admitted and registered or a continuing MGCCC student.

C. Additional Requirements

1. If a CLEP exam is available in the subject area for which the student is requesting credit, the student must take the CLEP exam in order to earn any college credit. The portfolio method is not an option.
2. The maximum number of credits that a student can earn through the portfolio method is credit for three specific MGCCC courses with a maximum of 15 credit hours.
3. On the MGCCC transcript, the credit awarded will be designated as Credit for Life Experience/Portfolio.
4. The student receiving college credit for life experience must sign a statement indicating knowledge that this credit is applicable at MGCCC but may not be recognized by other institutions of higher learning.
5. The student will be charged a non-refundable fee of \$25 per credit hour for a portfolio review.

VI. Defense Activity for Non-Traditional Educational Support (DANTES)

Courses on the college level taken through DANTES are acceptable for credit as awarded provided the minimum recommended acceptable score is attained. Courses that are not specifically applicable to a particular program may be counted as elective credit.

The DANTES Subject Standardized Testing Program is an extensive series of examinations in college subjects that are comparable to the final or end-of-course examination in undergraduate courses. ACE recommends three college credits

Instructional Program

for each examination with four college credits awarded for some science courses. The DSSTs recommends three college credits for each examination. The DSSTs are:

Business

- Business, Introduction to
- Computing, Introduction to
- Financial Accounting, Principles of
- Organizational Behavior
- Personal Finance
- Human Resource Management
- Supervision, Principles of

Humanities

- Art of the Western World
- Ethics in America
- Introduction to World Religions
- Public Speaking, Principles of
- Technical Writing

Mathematics

- Business Mathematics
- College Algebra, Fundamentals
- Statistics, Principles of

Science

- Astronomy
- Physical Geology
- Physical Science I, Principles of

Social Sciences

- Anthropology, General
- Contemporary Western Europe
- Human/Cultural Geography
- Lifespan Developmental Psychology

Technical

- Criminal Justice
- Law Enforcement, Introduction to

VII. Credit for Military Service Experience and Training

Upon presentation of an official transcript of military experience (Community College of the Air Force – CCAF, Army American Council on Education Transcript System – AARTS, Sailor/Marine American Council on Education Registry Transcript – SMART, Coast Guard Institute), a student may have credit awarded as recommended for the lower division category or the career/technical category. In instances where a transcript is not available, students may submit copies of forms DD214 or DD295.

Students with a minimum of six months but less than one year of active military duty will receive 2 semester hours of physical education credit for basic training. Students with one year or more of active military duty will receive 4 semester hours of physical education credit. Students who present a Certificate of Basic Eligibility, Form 2384, will receive two semester hours credit in physical education.

Credit for Service Schools will be awarded in accord with the recommendations of the American Council on Education in the Guide to the Evaluation of Educational Experiences in the Armed Forces. This credit will be awarded as recommended for the lower-division category or the career/technical category as determined by the evaluating officer.

VIII. Credit in certain law enforcement courses

Credit may be allowed for completion of specific courses, programs, academies and workshops following departmental recommendation and approval by the Dean of Instruction and the Vice President. Specific credit recommendations are:

**Basic Law Enforcement Course for Sheriffs
or Basic Law Enforcement Course for Police:**

Introduction to Law Enforcement	CRJ 1313 3
Police Operations	CRJ 2313 3
Physical Education	HPR 2
Total Semester Hours	8

IX. Credit for Approved Apprenticeship Programs

MGCCC, in partnership with sponsoring companies, coordinates specific apprenticeship programs designed to meet the training needs of apprentices as outlined by the Bureau of Apprenticeship Training of the U.S. Department of Labor. Participants in these programs are employed by a sponsoring company and must meet all apprenticeship entry requirements specified by the Bureau of Apprentice Standards. Apprenticeship programs vary in length from 4,000 to 8,000 clock hours, including work experience training and classroom instruction. Classroom instruction includes related studies needed to perform on-the-job skills. Apprenticeship instructors monitor work experience training and insure rotations are maintained. Upon satisfactory completion of the apprenticeship, the participant is classified as a journeyman with the sponsoring company.

A person who has satisfactorily completed an approved apprenticeship program may receive 36 semester hours of credit toward the Associate of Applied Science in Occupational Education (AASOE) degree. Other requirements for the ASSOE degree are outlined under “Graduation information.”

Instructional Program

Cooperative Education Program

Cooperative Education is an educational process designed to integrate classroom study with planned and supervised on-the-job experience outside of the formal classroom environment. The student alternates periods of college with work periods, working in business, industry, social services and private agencies. These work periods are an integral part of the students' education and are arranged with the employers by Mississippi Gulf Coast Community College. Mississippi Gulf Coast Community College exercises supervision and control over the students' activities at the establishment to insure a comprehensive training experience.

Two approaches are available for Cooperative Education: the alternating plan and the parallel plan. The alternating plan provides for a semester of full-time (12 hours or more) study followed by a semester of full-time employment (40 hours per week) until completion of school. The parallel plan enables the student to attend classes for a part of the day and work for a part of the day. Under the parallel plan, students must work a minimum of 15 hours a week.

Students must complete a minimum of one semester, maintaining a grade point average of 2.0 or better to qualify for this program. The course credit earned for the Cooperative Education work experience can be used toward graduation from Mississippi Gulf Coast Community College.

The program is coordinated through the Office of Cooperative Education.

Community Campus Continuing Education

At MGCCC, continuing education is a delivery system for individual participation in lifelong learning offerings for self-enrichment, occupational or professional development, and/or keeping abreast of the changing world. Continuing education courses, whether taken for supplementary or preparatory reasons, are offered to the community as needs are realized. Continuing education courses are offered throughout the district through a consistent procedure to include: short term, non-credit classes, industry specific training courses, travel to learn, workshops and seminars, and non-credit basic skills classes. To enhance and market regular programs, the delivery of non-credit programs may be provided at all department levels in the college and online.

Mobile Training Unit

"Training for a World of Opportunity" is conducted using the college's 34-foot motor coach fully equipped for instructional purposes. The mobile training unit is geared for computer applications training, basic skills instruction, occupational assessment, and recruitment activities where employers can identify areas in which employees need improvement and training. This self-contained unit can provide training anywhere at any time to meet the needs of the community regardless of location and power source. This unit has provided industry up-to-date software training, on-site without a disruption of business or hardware/space constraints. Computer stations with dual monitors, LCD projector, VCR, and television are included in the equipment.

Developmental Studies

Before admission to any curriculum, entering freshmen must submit ACT scores or take basic skills tests in reading, writing and mathematics. If there is evidence of academic deficiency in any of these areas, students will be required to take developmental studies courses. Developmental studies classes utilize classroom and computerized instruction designed to prepare students for other college courses. The courses offered in Developmental Studies are not designed for transfer credit (these courses include MAT 0113, MAT 0123, MAT 1233, REA 0113, and ENG 0113). Developmental courses are not considered in calculating GPA and semester hours to meet graduation requirements.

Distance Learning

Mississippi Gulf Coast Community College offers credit and non-credit courses through the Mississippi Virtual Community College (MSVCC) Consortium. Delivered by qualified and well-trained faculty members, distance learning courses address the same student learning outcomes and are considered the same credit as the "on-site" equivalent courses. Distance learning courses may be used as credit to fulfill graduation requirements of Mississippi Gulf Coast Community College. For more information, visit the distance learning website at: http://www.mgccc.edu/distance_learning/.

Honors College

In order to provide services to meet the educational needs of the community as a whole, Mississippi Gulf Coast Community College established the Honors Program in 1987. The Honors College offers special courses and activities, along with full-tuition scholarships, to academically talented students. Students who wish to participate in the program must complete an application, attend an interview with the Honors College Director, and meet any two of the appropriate criteria. The Honors College only considers college-level coursework; therefore, developmental courses are excluded from all requirements.

Criteria for entering freshmen:

1. A minimum ACT Composite score of at least 25 (required for full-tuition scholarship),
2. The top 10 percent of their high school class in a college preparatory program, or
3. Recommendations from two instructors/faculty members

Criteria for students entering with previous college work:

1. A minimum ACT Composite score of 25,
2. A cumulative GPA of at least 3.5 with no grade lower than C on a minimum of 15 hours (required for full-tuition scholarship), or
3. Recommendations from two instructors/faculty members

Instructional Program

In order to remain in the program, honors scholars must maintain a cumulative GPA of at least 3.2 with no grade lower than a C and must take seven hours of honors credit each semester to include the honors forum. Students who drop below the required cumulative GPA of 3.2 but not below a cumulative GPA of 3.0 will be placed on probation for one semester to allow the student to regain the 3.2 cumulative GPA. The student will remain in the program and retain the scholarship while on probation. Only one probationary semester is allowed during the four-semester program.

All courses designated Honors must include the general course objectives and additional research that results in written assignments (8 to 10 pages) and an oral presentation or equivalent activity appropriate to the study of the course. Projects are subject to the approval of the Dean of Instruction, Department Chair, and Honors College Director. Participation in honors courses are by Honors College Director permission only. Honors courses are designated with an H on the transcript.

The following courses within the general education core are designated as Honors courses:

English

ENG 1113H	Honors English Composition I
ENG 1123H	Honors English Composition II

Social Science

ECO 2113H	Honors Macroeconomics
ECO 2123H	Honors Microeconomics
PSC 1113H	Honors American Government
PSY 1513H	Honors Psychology
SOC 2113H	Honors Sociology

Mathematics

MAT 1313H	Honors College Algebra
MAT 1613H	Honors Calculus I
MAT 1623H	Honors Calculus II
MAT 2613H	Honors Calculus III
MAT 2623H	Honors Calculus IV

Science

BIO 1134H	Honors General Biology I
BIO 1144H	Honors General Biology II
BIO 2514H	Honors Anatomy and Physiology I

Learning Resources Centers

The Learning Resources Center encompasses the Library, Media Services, and Learning Lab at Mississippi Gulf Coast Community College. Our goal is to provide learning resources which support and enhance all educational programs at Mississippi Gulf Coast Community College.

Library: The purpose of the library at Mississippi Gulf Coast Community College is to provide instructional support services that reinforce the curriculum of the college. We accomplish this by providing a well-trained staff, excellent resources, and accessible facilities. We both encourage and assist students to use the resources of our library to meet their personal needs and educational goals.

Media Services: The purpose of the Media Services Department at Mississippi Gulf Coast Community College is to foster the educational endeavors of the faculty, staff, and students. We accomplish this by providing high-quality audiovisual equipment, a wide variety of current media materials for curriculum support of classroom instruction, and extension video production for college use.

Learning Labs: The purpose of the Learning Labs at Mississippi Gulf Coast Community College is to support and advance teaching and learning by helping students develop the skills necessary to be successful learners through the creation of a supportive learning environment that fosters intellectual growth.

GRADUATION INFORMATION

Selection of Catalog for Graduation

Students must meet graduation requirements for each associate type degree or diploma as outlined in the current catalog or a catalog not more than six years old at the time of the anticipated graduation. Selection of the catalog must be approved by the Dean of Student Services. The catalog selected must contain the program of study for the year during which the student earned credit.

Instructional Program

Graduate College-Level Competencies

Mississippi Gulf Coast Community College identifies five college-level competencies within the general education core curriculum for all Associate of Arts, Associate of Applied Science and Associate of Applied Science in Occupational Education degree graduates. Graduates of Mississippi Gulf Coast Community College will be considered proficient in the following competencies:

- effective written communication
- mathematical problem solving
- effective oral communication
- critical thinking
- application of technology

General Graduation Requirements

General graduation requirements apply to all plans of graduation. These requirements include earning a minimum of 64 hours with a quality point average of at least 2.0 for all course work attempted (excluding developmental courses), including two semester hours of physical education. (Under certain conditions, other work may be substituted for physical education, provided a substitution-of-course form is completed and approved by appropriate college officials.) When a course is repeated, the higher grade is used in computing quality point average at Mississippi Gulf Coast Community College.

Transfer students must earn a minimum of 25 percent of the required semester credit hours at Mississippi Gulf Coast Community College to be eligible to receive a degree from the college.

All associate type degree programs include a core of general education courses (15-16 semester hours) that is outlined in the three degree programs. The core includes at least one course from each of the following areas: English, Humanities/Fine Arts, Natural Sciences/Mathematics, Public Speaking, and Social/Behavioral Sciences.

Students planning to receive an associate type degree or diploma must complete a formal application available in the Records Office or Counseling/Career Center of each Campus or Center. Candidates for fall, spring or summer graduation should consult Student Services for application deadlines. Students are strongly encouraged to work closely with faculty advisors and Student Services counselors so that appropriate courses are taken to meet graduation requirements. Ultimate responsibility, however, does rest with the individual student.

Computer Competency

All students who receive Associate degrees from Mississippi Gulf Coast Community College must demonstrate computer competency by one of the following:

- Successful completion of required computer courses in a degree program that meet the application of technology college-level competencies;
- Successful completion of 3 credit hour computer elective course;
Computer elective courses approved to meet the computer competency requirement will include all of the following skills which are identified in the application of technology

college-level competency.

1. File Management - Students will be able to save files, make folders and manage files for their educational area.
 2. Using E-mail - Students will be able to receive and send messages and documents.
 3. Using the Internet to find information and resources - Students will be able to efficiently use search engines to locate information from a variety of Internet resources.
 4. Using a Word Processor - Students will be able to manipulate text and format a variety of documents.
 5. Using Spreadsheets - Students will be able to create spreadsheets to record information, including skills such as using formulas and creating graphs.
 6. Software Application - Students will be able to use basic software applications.
- Computer course credit by a departmental examination, CLEP or other non-traditional credit as defined in the section of the catalog "Credit by Non-Traditional Means."

Upon successful completion of any of these MGCCC courses, a student will have met the computer competency requirement for graduation:

- BAD 2533 Microcomputers and Business Management
- BOT 1133 Microcomputer Applications
- BOT 1143 Word Processing
- BOT 2833 Integrated Computer Applications
- CAT 1213 Fundamentals of Graphic Computers
- CPT 1323 Survey of Microcomputer Applications
- CSC 1113 Introduction to Computer Concepts
- CSC 1123 Microcomputer Applications
- CSC 1213 BASIC Programming
- CSC 1223 BASIC Programming II
- CSC 1613 Computer Programming I with Java
- CSC 2134 Programming I with C/C++
- CSC 2144 Programming II with C/C++
- CSC 2323 FORTRAN Programming and Applications
- CSC 2413 COBOL Programming
- CSC 2623 Computer Programming II with Java
- DDT 1313 Principles of CAD
- IST 1113 Fundamentals of Information Technology

If the student does not meet the computer competency requirement through any of the above methods, he/she must successfully complete the Mississippi Gulf Coast Community College computer competency exam, which is administered by the campus Assessment Centers. When a student fails to pass the computer competency exam on their first two attempts, s/he cannot attempt the exam again for 6 months.

Honors and Special Honors Distinction

Graduation candidates who meet graduation requirements earning a grade point average between 3.30 and 3.69 will graduate with Honors. Candidates who meet graduation requirements and earn a GPA of 3.70 or higher will graduate with Special Honors. GPA will not be rounded to determine honors and special honors.

Instructional Program

Specific Graduation Requirements

I. Associate of Arts (AA)

The Associate of Arts degree is awarded for the successful completion of courses designed as the first two years of a four-year college/university curriculum leading to a baccalaureate degree. This degree encompasses programs listed under “University Parallel Programs” in this catalog.

- A. This degree requires the completion of 64 semester hours with an overall grade point average of 2.0 or above.
- B. The 64 hours must include the following:
 English, 6 semester hours (*English Composition I and II*)
 Social Science, 6 semester hours (*government, geography, economics, psychology, sociology, marriage and family, anthropology, human growth and development*)
 Math, 3 semester hours (*MAT 1313 or higher math – MAT 1713 does not count*)
 Science, 8 semester hours (*any science with a laboratory*)
 Physical Education, 2 semester hours
 Humanities, 6 semester hours (*any literature, history, foreign language, philosophy*)
 Fine Arts, 3 semester hours (*any appreciation course*)
 Public Speaking, 3 semester hours
Total, 37 semester hours.
- C. Computer competency must be demonstrated as defined above.
- D. Additional 27 hours cannot include career or developmental classes.

II. Associate of Applied Science (AAS)

The Associate of Applied Science degree is designed to meet the educational needs of students who are seeking preparation for employment in occupational fields not requiring a baccalaureate degree. This degree encompasses programs listed under “Technical Programs” in this catalog.

- A. Students must earn an overall 2.0 grade point average in their program requirements to earn an A.A.S. and have a cumulative G.P.A. of 2.0 to graduate.
- B. Each program must have a minimum of 64 hours including the general core requirements as follows:
 English, 3 semester hours (*English Composition I*)
 Social Science, 3 semester hours (*government, geography, economics, psychology, sociology, marriage and family, anthropology, human growth and development*)
 Math/Natural Science, 3 semester hours Math (*MAT 1313 or higher*) or 4 hours of Natural Science with laboratory
 Public Speaking, 3 semester hours
 Humanities/Fine Arts, 3 semester hours (*any literature, history, foreign language, philosophy, or appreciation course*)
- C. Computer competency must be demonstrated as defined above.
- D. Students must complete a minimum of 12 semester hours of required content-specific program coursework at Mississippi Gulf Coast Community College to be eligible for the AAS degree.
- E. Career or Developmental classes are not used toward graduation.

III. Associate of Applied Science Degree in Occupational Education (AASOE)

The Associate of Applied Science degree in Occupational Education is designed for students who earn a diploma or 36 semester hours in a career program listed under “Career Programs” in this catalog and elect to pursue a two-year associate degree.

- A. This degree requires the completion of a minimum of 64 semester hours with an overall grade point average of 2.0 or above.
- B. The 64 hours must include the following:
 36 hours of career courses, completion of a diploma program; and,
 28 hours of technical or academic courses to include the following courses/electives:
 English, 3 semester hours (*English Composition I*)
 Social Science, 3 semester hours (*government, geography, economics, psychology, sociology, marriage and family, anthropology human growth and development*)
 Math/Natural Science, 3 semester hours Math (*MAT 1313 or higher*) or 4 hours of Natural Science with laboratory
 Humanities/Fine Arts, 3 semester hours (*any literature, history, foreign language, philosophy, or appreciation course*)
 Public Speaking, 3 semester hours
 Elective courses, Must complete 12-13 hours in addition to the courses listed above (*must be technical or academic courses*). Consult advisor for additional courses.
- C. Computer competency must be demonstrated as defined above.
- D. Developmental classes are not used toward graduation.

Diplomas

Diplomas for specific programs are awarded to students who successfully complete requirements with a quality point average of at least 2.0 in a career program (see career section).

MS-CPAS

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Articulation Agreements

Articulation agreements are in place with all Mississippi public universities through the Board of Trustees of Institutions of Higher Learning (IHL), as well as with Tulane University, University of Phoenix, University of South Alabama, and William Carey University. For more information on a specific articulation agreement, please contact a counselor or advisor at any MGCCC campus or center.

Two-Plus-Two

The University of Southern Mississippi Gulf Coast, in cooperation with Mississippi Gulf Coast Community College, has designed bachelor's degrees in which the lower-division work is taken through Mississippi Gulf Coast Community College and upper-division work is completed at USM Gulf Coast. This concept has been formalized in the Two-Plus-Two agreement between the participating institutions. One of the many advantages of the Two-Plus-Two concept is that it assures a smooth transition for students who transfer from Mississippi Gulf Coast Community College to USM-Gulf Coast. Other state universities list on their websites the specific community college credits that will apply to various majors.

PROGRAMS OF STUDY

Mississippi Gulf Coast Community College is a comprehensive community college offering the following programs of study:

1. University parallel programs that may be transferred for full credit to senior institutions toward satisfaction of requirements for a Bachelor's degree.
2. Occupational programs in business, professional, career and technical areas to prepare persons for employment or advancement within respective fields.
3. Enrichment and/or technical courses given on a non-credit basis to enable an adult student to become more effective in use of leisure time or to increase occupational efficiency.

After reviewing the section of suggested studies, students should discuss their choices with a counselor/advisor who will assist in scheduling courses. Final responsibility for this rests with the student.

Numbering of Courses/Student Classification

Courses are identified by name and number. Those numbered from 1001 to 1999 are considered freshman courses and those from 2001 to 2999, sophomore courses. The courses offered in Developmental Studies are not designed for transfer credit (these courses include MAT 0113, MAT 0123, MAT 1233, REA 0113, and ENG 0113). Developmental courses are not considered in calculating GPA and semester hours to meet graduation requirements. A student who has earned less than 24 semester hours is designated a freshman; one who has earned 24 semester hours or more and 48 quality points is considered a sophomore. As a general rule, a student should choose courses in accordance with his/her class designation.

Instructional Program

UNIVERSITY PARALLEL PROGRAMS

The University Parallel Programs are designed to meet the needs of students who expect to transfer to a four-year college or university after graduating from Mississippi Gulf Coast Community College. Students enrolling in the University Parallel Programs should consult the college catalog and any applicable articulation agreements for the four-year college or university they plan to attend for assistance in planning the courses to be taken at Mississippi Gulf Coast Community College.

University parallel programs lead to the MGCCC Associate of Arts degree.

CAREER AND TECHNICAL EDUCATION PROGRAMS

Career and Technical Education Programs are designed to meet the educational needs of students who are seeking preparation for employment in occupational fields not requiring the four-year college/university baccalaureate degree. Technical programs require a minimum of four semesters for completion and lead to the Associate of Applied Science degree. Career programs vary in length from eight weeks to one-year and lead to MGCCC diplomas. Students completing some Career programs may elect to pursue the Associate of Applied Science in Occupational Education degree.

University Parallel Programs

At Mississippi Gulf Coast Community College, the difference isn't just in our eight locations serving the ever-changing needs of today's students. It's also in the instructors at those locations.

They're experts in their fields, delivering information like a broadband connection – quickly and efficiently. And they're ready to make a positive difference in your life.

Add that to the fact that we're one of the top-100 community colleges in the nation, and you're looking at a college that gives you what you need, when you need it.

University Parallel Programs

University Parallel Programs are designed as the first two years of four-year college/university curricula leading to a baccalaureate degree. Students who plan to transfer to a specific four-year institution are expected to obtain a catalog or bulletin from that college or university. MGCCC can then parallel freshman and sophomore courses required in the lower division of that institution according to various majors. Students undecided about which senior institution they will attend should consult either the B.A. or the B.S. Preparatory Curriculum listed below.

Any student who was not eligible for regular admission to a public Mississippi university must attain a 2.0 grade point average in the following courses at MGCCC to be eligible to transfer: English Composition I & II, College Algebra or above, two Sciences with laboratory, Humanities — 6 semester hours, and Fine Arts — 3 semester hours.

B.A. Preparatory Curriculum 1000

This curriculum is designed for the student who plans to complete requirements for the Bachelor of Arts degree but is undecided about a particular university or may be undecided on a future career. The student in this group should consult with his or her faculty advisor to plan a course of study to meet special curriculum needs. Foreign languages should be taken two semesters in sequence in order to obtain full credit.

Semester Hours

Science Electives	Any BIO, CHE or PHY course	4 4
Fine Arts Elective	Any Appreciation Course	3
CSC Elective	Any Computer Science Course	3
Electives	3 3

Curricula are designed as guides. Consult the university of your choice for specific transfer requirements.

University Parallel Programs

The Business and Office Administration curriculum is designed for students who plan to secure a degree in business at a senior institution. The community college Business Bachelor of Science preparatory curriculum will prepare business majors in fields such as accounting and auditing; business administration; economics; marketing; office management; personnel management; banking; life insurance; property and casualty insurance; and public administration.

The community college Business Education curriculum also offers the freshman and sophomore courses usually required by a senior institution for the Bachelor's Degree in Business Education.

Technical and Career Programs in Business and Office are also offered. See Technical Section.

Business B.S. Preparatory 2000

	Semester Hours	
Freshman Year	1 Sem.	2 Sem.
ENG 1113, 1123	English Composition I & II	3 3
HIS 1163, 1173	World Civilization I & II	3 3
BIO 1134, 1144	General Biology I & II or	
PHY 2244, 2254	Physical Science Survey I & II	4 4
MAT 1313, 1513	College Algebra, Bus. Cal.	3 3
BAD 2413	Legal Environment of Business	3 . . or . 3
HPR 1593	Physical Education	3

Sophomore Year 1 Sem. 2 Sem.

Students Should Select Either Option 1 or Option 2.

Option 1: For Students Who Plan to Transfer to a Mississippi University Other than the University of Southern Mississippi

ACC 1213, 1223	Accounting I & II	3 3
ECO 2113, 2123	Macroeconomics & Microeconomics	3 3
ENG 2423	World Literature	3
PSY 1513	General Psychology	3 . . or . 3
SOC 2113	Intro. to Sociology	3 . . or . 3
BAD 2533	Computer Applications in Business & Industry	3 . . or . 3
or		
CSC 1123	Computer Applications I	3 . . or . 3
SPT 1113	Public Speaking I	3 . . or . 3
Fine Arts	Any Appreciation Course	3 . . or . 3
GEO 1123	Principles of Geography	
or		
PSC 1113	American Government	3 . . or . 3

Option 2: For Students Who Plan to Transfer to the University of Southern Mississippi. (*Students should complete 6 semester hours in either #1 or #2 below as well as all other listed courses.*)

#1:		
ACC 2113	Financial Accounting and either	3
	MFL Foreign Language or ACC 1223	3
or		
#2:		
ACC 1213, 1223	Accounting I & II	3 3
ECO 2113, 2123	Macroeconomics & Microeconomics	3 3
ENG 2423	World Literature	3
PSY 1513	General Psychology	3 . . or . 3
SOC 2113	Intro. to Sociology	3 . . or . 3
BAD 2533	Computer Applications in Business & Industry	3 . . or . 3
or		
CSC 1123	Computer Applications I	3 . . or . 3
SPT 1113	Public Speaking I	3 . . or . 3
Fine Arts	Any Appreciation Course	3 . . or . 3
MFL elective	Foreign Language <i>not used above</i>	3 . . or . 3

Curricula are designed as guides. Consult the university of your choice for specific transfer requirements.

**ACC 2113 should be taken by students who plan to transfer only to the University of Southern Mississippi.*

Criminal Justice 5120

Criminal Justice is balanced between basic general education courses, common to all college programs, and requirements in administrative and specialized criminal justice courses. It is designed to meet the needs of various criminal justice agencies and to provide the student with the knowledge and attitudes needed to be an effective professional in the criminal justice system. It provides a complete course of study for those students intending to earn the Associate of Arts degree and will enable students to transfer into a bachelor's degree program.

Wildlife Science Option
 CHE 2424 Organic Chemistry I
 GEO 2313 Maps & Remote Sensing
 Electives: 3 hours Humanities**
 3 hours Social Science**

Completion of the special summer field program is prerequisite to enrollment in junior-level professional courses in the Wildlife and Fisheries Major. Prerequisites for the summer session are BIO 2314-Dendrology and AGR 2314-Soils. Prerequisite are strictly enforced.

*These course electives must be chosen from an approved list. Students should see Wildlife and Fisheries advisor.
 **These electives are covered in above curriculum.
 ***Will apply as Social Science electives toward graduation.

Curricula are designed as guides. Consult the university of your choice for specific transfer requirements.

Science

University Parallel Programs

This curriculum consists of general and basic professional education for the first two years of the four-year degree. It will be noted that courses recommended for the sophomore year differ from the elementary and secondary education majors.

Individuals who desire to be admitted to a professional teacher education program in a Mississippi university must pass the PRAXIS I test with required scores or have made, prior to entering college, a 21 composite on the ACT with no subscore less than 18. Typically, this would apply to students expecting to enter a full sequence of professional education courses in their junior year.

Technical Programs

The Mississippi Gulf Coast Community Colleges' statement of mission and role of the total career, technical, and adult education program are:

- A. To provide career, technical, and adult education to students according to their needs, abilities, and interests regardless of race, sex, creed, national origin, and to otherwise qualified handicapped persons.
- B. To provide career, technical, and adult education to students that are occupationally specific for job opportunities in skilled occupations. (Diploma programs)
- C. To provide career, technical, and adult education to students for job opportunities in occupations that are technical and/or paraprofessional. (Associate Degree programs)
- D. To provide career, technical, and adult education that is industry-specific for new and expanding industries and state-of-the-art instruction for employed persons.

Technical Programs

Technical education leading to MGCCC Associate of Applied Science degree.

Associate Degree Nursing 7000

(Jefferson Davis, Jackson County and Perkinston Campuses)

The Associate Degree Nursing (ADN) Program is a two-year course of study designed to prepare students to become registered nurses. The program is state accredited by the Mississippi Board of Trustees of State Institutions of Higher Learning and nationally accredited by the National League for Nursing Accrediting Commission (NLNAC), 61 Broadway – 33rd Floor, New York, NY 10006 (212-363-5555). Successful completion of the ADN program leads to the award of an Associate of Applied Science Degree and permits the graduate to apply to take the National Council Licensure Examination for Registered Nurses®. Permission to take the licensure examination may be denied by the Board of Nursing for reasons which include, but are not limited to, fraud/deceit in making application, felony or misdemeanor convictions or charges pending in any state, and drug and alcohol misuse.

Admission Requirements

All applicants are required to take the American College Test (ACT) and the Nurse Entrance Test (NET) and must meet the general admission requirements of the college.

To qualify for admission to the ADN Program, an applicant must:

1. Make application and be accepted to Mississippi Gulf Coast Community College.
2. Make a separate application to the ADN Program, specifying the campus to attend. Students may apply to attend the ADN Program on one MGCCC campus only.
3. Submit official copies of ACT scores and transcripts of all college work to the campus Admissions Office. A residual ACT is not accepted.
4. Achieve a Grade Point Average (GPA) of 2.5 or higher on the required pre-requisite courses (ENG 1113, PSY 1513, and BIO 2514) plus any other degree-required courses that have been completed.
5. Calculation of your GPA for admission to the ADN Program includes all courses listed in the Curriculum Plan that have been completed, including previously completed nursing courses. However, inclusion of science courses and previous nursing courses is limited to those completed within the last five years.
6. Achieve an ACT score of 18 or higher. To waive an ACT score of less than 18, applicant must complete twenty-three (23) semester hours of degree-required courses with a GPA of 2.5 or higher. The twenty-three (23) credit hours must include Anatomy and Physiology I & II. Science courses require a grade of “C” or better, must be less than five years old and may be repeated only once within a five year period.
7. Score a 69 or above on the Essential Math Skills section and a 59 or above on the Reading Comprehension section of the Nurse Entrance Exam (NET). Applicants who make less than the minimum scores may attempt the NET again as soon as designated remediation through the campus Learning Lab is completed. Without the remediation, individuals may re-take the NET only once every 12 months.

Selection Process

Applicants are admitted using a competitive selection process based on the ADN admissions requirement listed above and residency. Applicants are ranked according to ACT Composite Score, GPA on degree-required courses, NET math and reading scores and residency. All in-district applicants (Harrison, Jackson, Stone and George County residents) are admitted before any out-of-district applicants (Mississippi residents who live in counties other than Harrison, Jackson, Stone and George). Out-of-state residents are admitted after all in-district and out-of-district applicants are admitted. Application deadlines apply. Enrollments are limited. Applicants not selected for a class or who are unable to accept admission to a class must resubmit an application to be considered for admission to the next class. A student who has been dismissed from or leaves a nursing or allied health program under adverse circumstances (e.g. unsafe clinical practice, cheating on tests or paperwork, etc.) may be denied admission to the nursing program. Application information and details of the Selection Process are available from the ADN Division or Campus ADN Departments.

Prerequisites to the First Nursing Course

Prior to starting the first nursing course, the student must:

1. Comply with Mississippi law requiring a Criminal Background History.
2. Obtain a physical examination documented on the MGCCC ADN Health Form within three months prior to the first nursing class.
3. Provide proof of current immunizations against Measles, Rubella, Hepatitis B, Diphtheria-Tetanus, and Varicella.
4. Provide proof of a negative PPD Tuberculin test (or appropriate clearance for a positive Tuberculin test) dated within three months prior to the first nursing class.
5. Provide a current Cardiopulmonary Resuscitation (CPR) Card for Healthcare Providers issued by the American Heart Association (or equivalent).

Associate Degree Nursing 7000

Progression/Graduation Requirements

To progress, the student must:

1. Achieve a theory average of 78% or above.
2. Demonstrate mastery of clinical competencies.
3. Deliver safe, ethical client care.
4. Achieve a course grade of "C" or better in nursing and science courses.
5. Successfully complete pre- and corequisite courses as required.

To graduate, ADN students must meet the college requirements for graduation, achieve an overall GPA of 2.0 or higher on the degree-required courses, a cumulative GPA of 2.0 or higher and successfully complete the seventy-two (72) semester hours of degree-required courses. The ADN faculty recommends for progression and continuation in the program only those students who, in the judgment of the faculty, satisfy the requirements and aptitude for nursing. When a student's performance is not consistent with safe nursing practice, the student may be dismissed from the program.

General Information

1. In addition to college tuition and fees, ADN students have other expenses such as uniforms, workbooks, nursing achievement tests, professional liability insurance, substance testing, and fees for the licensure examination.
2. Performance standards and activities required for successful progression and program completion are listed in the Core Performance Standards in the ADN Student Handbook and the ADN Website.
3. ADN students must maintain Cardiopulmonary Resuscitation (CPR) Certification for Healthcare Providers (or equivalent) throughout enrollment in the program.
4. ADN students must maintain currency on required immunizations and provide proof of an annual negative PPD Tuberculin test (or clearance for positive TB tests).
5. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.
6. ADN students must provide their own transportation to and from clinical agencies.
7. ADN students must abide by the policies and procedures of healthcare agencies used for clinical experiences.
8. Evening and weekend clinical rotations may be required.
9. ADN students must be full-time.
10. ADN students must follow the latest version of the college catalog and ADN policies throughout enrollment in the ADN program.
11. The college reserves the right to make curriculum and policy changes as necessary. Written notification to prenursing/nursing students is sufficient to effect change.
12. The credit to clock hour ratio for the classroom in nursing is 1:1 (i.e., one clock hour of class per week is required for each credit hour assigned to class). The credit to clock hour ratio for lab/clinical is 1:3 (i.e., three clock hours of lab/clinical are required for each credit hour assigned to lab/clinical). For the ten (10) credit-hour clinical nursing courses, these ratios convert to six (6) clock hours of class per week and twelve (12) clock hours of lab/clinical per week.

Readmission/Transfer

Readmission to the ADN program is in accordance with the ADN Division Readmission Policy. Students are allowed two readmissions: one to NUR 1210 or NUR 2310 and one to NUR 2410. Students who do not successfully complete NUR 1110 must apply as a new student. Students cannot repeat any nursing or science course more than once.

Transfer admission for students who have credit in nursing courses from other colleges will be considered on an individual basis in accordance with the ADN Division Transfer Policy. Residency priorities apply to transfer applicants in the same manner as for all first time applicants to the ADN program. All in-district applicants (Mississippi residents of Harrison, Jackson, Stone and George Counties) are admitted before out-of-district applicants (Mississippi residents of counties other than Harrison, Jackson, Stone and George). Out-of-state applicants are not admitted until all in-state applicants are admitted. Transfer applicants who are not eligible for readmission at their previous school of nursing are not eligible for transfer to an advanced MGCCC ADN course but may apply for admission to NUR 1110 as a new student.

**Associate Degree
Nursing 7000**

Curriculum Plan

(For Students with an ACT Composite Score of 18 or Higher)**

Freshman Year **Semester Hours**

Prerequisites

The following three (3) courses are prerequisites to the ADN Program and must be completed by the applicant prior to approval of admission to the program:

BIO 2514*	Anatomy and Physiology I (with lab)	4
ENG 1113	English Composition I	3
PSY 1513	General Psychology	3

Freshman Year **Semester Hours**

1st Semester

NUR 1110	Nursing – Promotion of Health/Prevention of Illness I	10
NUR 1100	Nursing – Professional Development I	0
•BIO 2524*	Anatomy and Physiology II (with lab)	4
•EPY 2533	Human Growth and Development	3

1st Semester

NUR 2310	Nursing – Provision of Care I	10
NUR 2300	Nursing – Professional Development III	0
++SPT 1113	Public Speaking I	3
++SOC 2113	Introduction to Sociology	3

2nd Semester

NUR 2410	Nursing – Provision of Care II.	10
NUR 2401	Nursing – Professional Development IV	1
NUR 2421	Nursing – Comprehensive Seminar	1

TOTAL:72

*Advanced science courses have a pre-requisite requirement. See Biology Course Descriptions in the College Catalog for details about the prerequisite requirement. Science courses must be less than five years old and may be repeated once only. A grade of “C” or better is required in all science and nursing courses. Academic support courses may be taken prior to the listed semester.

**Applicants with less than an 18 Composite ACT score have additional prerequisite requirements. See ADN Course Descriptions in the College Catalog for nursing courses pre-/co-requisite requirements.

• Co-requisite course with NUR 1110 unless already successfully completed.

+ Prerequisite course to NUR 2310.
++ Prerequisite course to NUR 2410.

Technical Programs

**Associate Degree
Nursing 7000**

LPN-To-RN Mobility Track

The LPN-to-RN Mobility Track in the ADN Program is designed to assist qualified Licensed Practical Nurses with transition to Registered Nurses. LPNs accepted into the Mobility Track are awarded fourteen (14) semester hours of credit for previous nursing education. Enrollment is limited. After successfully completing a summer course NUR 1116, Mobility Track students are allowed to by-pass the first year of the required ADN courses (NUR 1100, 1110, 1200 and 1210) and enter the second year ADN course NUR 2310. To graduate, Mobility Track students must successfully complete the nine (9) degree-required academic support courses, the Transition Course (NUR 1116), and the second year nursing courses; credit for these courses plus the 14 credit hours for previous education equal the required seventy-two (72) semester hours for the degree. An overall GPA of 2.0 or higher on the degree-required courses and a cumulative GPA of 2.0 or higher are required for graduation. All ADN policies and procedures apply to Mobility Track students unless otherwise noted.

LPN-To-RN Mobility Track Admission Requirements

To qualify for the Mobility Track, the applicant must:

1. Be a graduate of an accredited Practical Nursing School.
2. Possess a current practical nursing license in good standing.
3. Make application and be accepted to Mississippi Gulf Coast Community College.
4. Make a separate application to the ADN Mobility Track, specifying the campus to attend. Students may apply to attend the Mobility Track on one MGCCC campus only.
5. Submit official copies of ACT scores and transcripts of all college work to the campus Admissions Office. Residual ACT scores are not accepted.
6. Achieve a GPA of 2.5 or higher on the required prerequisite courses (ENG 1113, ENG 1123, PSY 1513, EPY 2533, BIO 2514, and BIO 2524) plus any other degree-required courses that have been completed. Science courses require a grade of "C" or better, must be less than five years old and may be repeated only once within a five year period.
7. Calculation of your GPA for admission to the ADN Program includes all courses listed in the Curriculum Plan that have been completed, including previously completed nursing courses. However, inclusion of science courses and previous nursing courses is limited to those completed within the last five years.
8. Achieve an ACT score of 18 or higher. To waive an ACT score of less than 18, applicant must complete the prerequisite courses listed in #6 plus BIO 2924 with a GPA of 2.5 or higher.
9. Score a 69 or above on the Essential Math Skills section and a 59 or above on the Reading Comprehension section of the Nurse Entrance Test (NET). Applicants who make less than the minimum scores may attempt the NET again as soon as designated remediation through the campus Learning Lab is completed. Without the remediation, individuals may re-take the NET only once every 12 months.

LPN-To-RN Mobility Track Selection Process

Students are admitted to the Mobility Track once a year in the summer. Qualified applicants are selected based on academic merit and residency. In-district applicants (Mississippi residents of Harrison, Jackson, Stone and George Counties) are admitted before out-of-district applicants (Mississippi residents of counties other than Harrison, Jackson, Stone and George). Out-of-state applicants are not admitted until all in-state applicants are admitted. Students who successfully complete NUR 1116 may be placed in the fall or spring semester of NUR 2310. Students must enter NUR 2310 within one year of successful completion of NUR 1116.

**Associate Degree
Nursing 7000**

Prerequisites To The First Mobility Track Nursing Course

Prior to starting NUR 1116, the student must:

1. Comply with Mississippi law regarding a Criminal Background History.
2. Obtain a physical examination documented on the MGCCC ADN Health Form within three months prior to NUR 1116.
3. Provide proof of current immunizations against Measles, Rubella, Hepatitis B, Diphtheria-Tetanus, and Varicella.
4. Provide proof of a negative PPD Tuberculin test (or appropriate clearance for a positive Tuberculin test) dated within three months prior to NUR 1116.
5. Provide a current Cardiopulmonary Resuscitation (CPR) Card for Healthcare Providers issued by the American Heart Association (or equivalent).

Progression Requirements

To progress, the Mobility Track student must:

1. Achieve a theory average of 78% or above.
2. Demonstrate mastery of clinical competencies.
3. Deliver safe, ethical client care.
4. Achieve a course grade of "C" or better in nursing and science courses.
5. Successfully complete pre- and corequisite courses as required.

General Information

1. In addition to college tuition and fees, Mobility Track students have other expenses such as uniforms, workbooks, nursing achievement tests, professional liability insurance, substance testing, and fees for the licensure examination.
2. Performance standards and activities required for successful progression and program completion are listed in the Core Performance Standards in the ADN Student Handbook and the ADN Website.
3. Mobility Track students must maintain Cardiopulmonary Resuscitation (CPR) Certification for Healthcare Providers (or equivalent) throughout enrollment in the program.
4. Mobility Track students must maintain currency on required immunizations and provide proof of an annual negative PPD Tuberculin test (or clearance for positive TB tests).
5. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.
6. Mobility Track students must provide their own transportation to and from clinical agencies.
7. Mobility students must abide by the policies and procedures of healthcare agencies used for clinical experiences.
8. Evening and weekend clinical rotations may be required.
9. Mobility Track students must be full-time.
10. Mobility Track students must follow the latest version of the college catalog and ADN policies throughout enrollment in the ADN Program.
11. The college reserves the right to make curriculum and policy changes as necessary. Written notification to prenursing/nursing students is sufficient to effect change.
12. The credit to clock hour ratio for the classroom in nursing is 1:1 (i.e., one clock hour of class per week is required for each credit hour assigned to class). The credit to clock hour ratio for lab/clinical is 1:3 (i.e., three clock hours of lab/clinical are required for each credit hour assigned to lab/clinical). For the ten (10) credit-hour clinical nursing courses, these ratios convert to six (6) clock hours of class per week and twelve (12) clock hours of lab/clinical per week.
13. Students must successfully complete NUR 1116 to progress to NUR 2310. NUR 1116 may be taken one time only. If unsuccessful in NUR 1116, applicant may apply for admission to NUR 1110 as a new student.

Accounting Technology Concentration 7173

(Jackson County, Jefferson Davis and Perkinson Campuses and George County Center)

The Accounting Technology Concentration is designed to prepare students for employment opportunities in the accounting field. Upon successful completion, students should be prepared for accounting positions in business and industry, governmental agencies, and public accounting firms.

The Associate of Applied Science degree received upon successful completion of this concentration is not designed for transfer to a senior college or university. It is designed for immediate employment preparation.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

**Medical Office Technology
Concentration 7131**

**Medical Billing and Coding Option
(Jefferson Davis Campus)**

The Medical Office Technology Concentration provides training for career opportunities in private physician offices, clinics, hospitals, nursing homes, and other healthcare facilities.

The Associate of Applied Science degree received upon successful completion of this concentration is not designed for transfer to a senior college or university. It is designed for immediate employment preparation.

There are three options in the Medical Office Technology Concentration. The Medical Billing and Coding Option prepares the successful completer for employment in the field of patient billing and medical insurance coding. The Medical Transcription Option prepares the successful completer for employment in the field of medical transcription of patient records. The Medical Information Specialist Technology Option prepares individuals to perform medical office, electronic records management, medical billing and coding, electronic medical office administration, and medical law and regulations.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

**Prior to enrollment in BOT 1113 students will be required to key straight-copy material at a minimum of 35 GWPM, on a 5-minute timed writing with a maximum of 1 error per minute. Students who do not demonstrate this level of proficiency will be required to enroll in Introduction to Keyboarding BOT 1013.

***Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

****MAT 1313 or higher or any laboratory science

*****ECO 2113 recommended.

**Office Systems Tech.
Concentration 7165**

(Jackson County, Jefferson Davis and Perkinston Campuses and George County Center)

The Office Systems Technology curriculum is designed to give a broad overview of the entire office function, not only individual position; an opportunity to investigate the integration of systems, people, and technology; an exposure to career options available within the office which involves the coordination of people, equipment, and resources as well as an opportunity to recognize the relationship between worker and supervisor; and a concentration of skills in a specific area.

The Associate of Applied Science degree received upon successful completion of this concentration is not designed for transfer to a senior college or university. It is designed for immediate employment preparation.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Computer Programming Concentration 7032

(Jefferson Davis Campus)

The Computer Programming Technology curricula are designed as a two-year program of study to prepare the student for entry-level employment in Computer Programming.

The Computer Programming option offers training in the development of business application software. An associate of applied science degree is earned upon successful completion of the computer programming curriculum.

The associate of applied science degree received upon successful completion of this concentration is not designed for transfer to a senior college or university. It is designed for immediate employment preparation.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Computer Networking Technology 7036

(Jefferson Davis and Perkinston Campuses)

This instructional program will provide students with the required skills and expertise to be employable in the field of computer networking as Computer Networking Technicians and/or Network Administrators.

The required skill and expertise will be provided through course work in the design, telecommunications, installation, maintenance, network administration of client/server systems, and operation of computer networks.

The curriculum leads to an Associate of Applied Science Degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where a transfer to a senior college or university is desired, a conference should be scheduled with a community college counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Network Security Technology 7033

(Jefferson Davis Campus)

Network Security Technology is a two-year program which offers practical training in the areas of confidentiality, integrity and availability in information security. The program entails installation, design, management, operation, planning and troubleshooting of a secure information technology infrastructure. The knowledge will aid in providing a reliable, scalable, consistent, responsive and secure enterprise network.

With that training, you can deter and prevent cybercrime that plagues corporations and government agencies; identity and data theft, hacking and invasion of privacy. With Network Security training, you can handle web and network security exploits, intrusion prevention, network traffic analysis, cryptography and encryption. The training merges advanced skills in mathematics, networking, and programming – all talents that are in heavy demand by industries who fear cyber attacks on their most treasured assets: their data and network systems.

As a Network Security major, you learn to guard vital information systems vigilantly as you fight cyber crime.

The Associate of Applied Science degree received upon successful completion of the concentration is designed for immediate employment preparation, and the ability to transfer to a senior college or university.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

**Database Admin.
Technology 7070**

(Jackson County Campus)

Companies, small and large, use databases to store important information about its employees, customers, and products. Database Administration is one of the fastest-growing sectors in the information technology field. A Database Administrator (DBA) is employed to manage a company's relational database management system. The DBA would be in charge of database security and access by creating users and granting specific privileges to those users, as designated by company policy. Other responsibilities of the DBA include network administration and monitoring system performance.

The Database Administration Technology curriculum is designed to prepare the student for entry-level employment in the database administration field. Opportunities for students with experience in Oracle databases include state and federal government agencies, medium-to-large corporations, and Internet-based companies. Students will learn how to setup, administer, maintain, and troubleshoot a large-scale Oracle relational database system. Graduates of the Database Technology program will have completed all recommended courses to prepare for the Oracle Certified Professional (OCP) exams in Database Administration.

This curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where a transfer to a senior college or university is desired, a conference should be scheduled with a community college counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Web Development Technology 7080

(Perkinston Campus)

Web Development Technology is a two-year program which offers training in website design, e-commerce development, server administration, graphics manipulation, Internet programming, and database integration. Opportunities for students with expertise in web development include state and federal government, corporations, and Internet-based companies.

Certified Internet Webmaster (CIW) certifications from ProsoftLearning validate job-role skills competency for entry-level job seekers and seasoned professionals alike. CIW job roles are based on internationally recognized job-role standards accepted by employers around the world. IT workers in more than 100 countries have earned more than 40,000 CIW certifications since the program's inception in 1998. As one of the fastest growing IT certifications ever, CIW is accepted and endorsed by governments, employers, and academic institutions.

Mississippi Gulf Coast Community College is a CIW Authorized Academic Partner (AAP), which offers official CIW courseware that maps directly to the latest exam objectives and onsite CIW exam sessions. In addition, all CIW courses are taught by CIW Certified Instructors to provide a high-quality learning experience.

This curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where continued education at a senior college or university is desired, a conference should be scheduled with a program advisor to discuss articulation agreements that allow transfer of college credits into four-year programs.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Technical Programs

Early Childhood Education Tech. 7015

(Jackson County, Jefferson Davis and Perkinston Campuses)

The Early Childhood Education Technology program provides preparation for a professional career in the discipline of Early Childhood Education spanning a variety of career options. This discipline includes classroom instruction, supervised laboratory experiences, and work-based learning experiences. Students will develop competencies, that enable them to provide services, teach, and guide young children as related to various child development professions.

The Early Childhood Education Technology curriculum is a two-year discipline that leads to students becoming a Certified Childcare Director. This pre-school curriculum meets the National Association for the Education of Young Children Standards for Early Childhood Professional preparation and the Mississippi Department of Education Benchmarks for Pre-Kindergarten (3 and 4 year olds).

Jobs are available for all students who complete this discipline, in a public, private, or parochial Early Childhood Education Technology Program, including those in public and private childcare centers which serve children of all socioeconomic levels and abilities, commercial, industrial, institutional centers; and recreational and hospital childcare centers.

Students must comply with Mississippi State Department of Health Licensure Division regulations requiring a complete criminal background check and finger printing. Student must meet with advisor upon admission to CDT program for appropriate paper work and signatures. If student does not comply with licensure requirements, he/she will be dropped from program.

This curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Technical Programs

Computer Servicing Technology 7034

(Perkinston Campus)

This instructional program prepares individuals to install, operate, maintain, service, and diagnose operational problems in computer systems arising from mechanical or electrical malfunctions in computer units or systems. Courses in the Computer Servicing Technology program describe the electrical circuits and mechanical devices used in computer construction and their combination into a total computer system.

This curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from the Mississippi Gulf Coast Community College. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

**Construction Mgmt.
Technology 7115**

(Jefferson Davis Campus)

The Construction Management Technology program is an instructional program designed to prepare technicians for employment within the construction industries and firms in mid-level management operations as estimators, material specialists, planners, project managers, layout specialists, or other construction operations. Individuals currently employed as professionals will enhance their ability to perform their duties in the construction business.

This curriculum leads to an Associate of Applied Science degree. Students completing the program will be prepared for jobs in supervision, estimating, layout, handling, storing, monitoring, materials, safety, leadership, and organization of construction projects. In the program, students learn environment and workplace safety issues. They also learn how to identify safety hazards and notify the proper authorities. Through an internship program, students have the opportunity to work in a position related to construction management technology.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

CRJ 2393 Survey of Criminalistics; CRJ 2513 Juvenile Justice; HPR 1213 Health; HPR 2221 Lifesaving; HPR 2211 First Aid; ECO 2113 Macroeconomics; HIS 2213 American History; HIS 1163, 1173 World History; PHI 2113 Introduction to Philosophy; GEO 1113 World Geography; PHY 2244; 2254 Physical Science; BIO 1134, 1144 Biology; JOU 2312 Photography; ENG 2323, 2333 English Literature; or other subjects approved by the Department.

**Students must contact the Criminal Justice Department chairperson prior to enrolling in CRJ 1350.

Tech Prep credit may be awarded for approved courses. Please refer to “The Credit by Non-Traditional Means” section of this catalog regarding stipulations for receiving Tech Prep credit.

Technical Programs

Drafting and Design Technology 7050

(Jackson County and Jefferson Davis Campuses)

The Drafting and Design Technology program of study is designed to provide specialized occupational instruction in all phases of drafting technology in order to prepare students for positions in the drafting field. A combination of class work and laboratory experience is stressed.

The content of this curriculum framework is based on national standards as developed by the Foundation for Industrial Modernization (1994), National Skill Standards for Computer-Aided Drafting and Design. Also, the Computer Aided Drafting and Design Skill Standards, as developed by the National Coalition for Advanced Manufacturing (1999), was reviewed.

The curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Electronics Technology 7060

(Jackson County Campus)

Electronics Technology is an instructional program which prepares individuals to support electrical engineers and other professionals in the design, development, and testing of electrical circuits, devices, and systems. Included are instruction in model and prototype development and testing systems analysis and integration including design, development of corrective and preventive maintenance techniques; application of engineering data; and the preparation of reports and test results.

The purpose of the Electronics Technology curriculum is to provide instruction necessary for a student to become a competent electronic technician. A graduate of this curriculum will be eligible for entry-level employment into any of the options in electronics and will be capable of correlating the activities of scientific research, engineering, and production for a wide variety of occupational fields. A graduate of the Electronics Technology curriculum will possess the capability of working and communicating directly with engineers, scientists, and other technical personnel in their specialized area.

The curriculum for Electronics Technology was developed with the use of the competencies and objectives as prepared by the Electronic Technicians Association, International (2004), as recommended by the National Coalition for Electronics Education (NCEE) and the ETA's Associate C.E.T. Exam Development Committee for Basic Electronics.

This curriculum leads to an Associate in Applied Science Degree and is preparatory for employment upon graduation from the Mississippi Gulf Coast Community College. Where a transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

**Emergency Medical
Tech. - Paramedic 7065**

(Jefferson Davis Campus)

This program is designed to prepare qualified Emergency Medical Technicians (EMT-B) to become professional healthcare providers at the level of (EMT-P). The curriculum meets the requirements of local, state, and national accrediting agencies. The program is nationally accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Paramedic students successfully completing the program are eligible to write the National Registry Examination for EMT-Paramedic.

ADMISSION REQUIREMENTS

For those who are presently employed in the EMT field:

1. Must be at least 18 years of age.
2. Must be a high school graduate, or GED equivalent, with documentation.
3. Student must be deemed physically and emotionally able to meet the *Physical and Behavioral Expectations* of the program. Physical and behavioral expectations will be evaluated by a physician or nurse practitioner during the health exam.
4. Must be a Mississippi certified Emergency Medical Technician – Basic Level.
5. Must score at least a 77 on the COMPASS reading exam or provide documentation of a composite score of 16 on an ACT test taken after 10/89 (12 if taken before 10/89)
6. Must score at least 80% on an EMT-Basic review examination administered by the program.
7. EMT students must submit to substance testing in accordance with the Substance Testing Policy for Associate Degree Nursing and Allied Health Programs.
8. Must submit to a criminal background check.

Freshman Year

Semester Hours

Semester One

EMT 1122	Fundamentals of Pre-hospital Care	2
EMT 1315	Airway Management & Ventilation	5
EMT 1415	Patient Assessment	5
EMT 1513	EMS Clinical Internship I	3
EMT 1613	Pre-hospital Pharmacology	3
BIO 2514*	Human Anatomy & Physiology I	4

Semester Two

EMT 2714	Pre-hospital Trauma.	4
EMT 1825	Pre-hospital Cardiology	5
EMT 1523	Clinical Internship II	3
EMT 2552	Field Internship I	2
EMT 2855	Pre-hospital Medical Care	5
BIO 2524*	Human Anatomy & Physiology II	4

Semester Three

EMT 1423	EMS Special Considerations	3
EMT 2412	Pre-hospital OB/GYN	2
EMT 2423	Pre-hospital Pediatrics	3
EMT 2913	EMS Team Management	3
EMT 2564	Field Internship II	4
	TOTAL	60

An optional semester is available to students for the completion of an Associate Degree in Applied Sciences. To complete this degree, students must complete the following additional courses.

ENG 1113	English Composition I	3
SPT 1113	Public Speaking I	3
PSY 1513	General Psychology	3
Elective	Fine Arts/Humanities	3
	TOTAL	72

Students that have already completed the academic work outlined above before entry to the program may apply for their Associate Degree on successful completion of semester three.

*It is recommended that the courses with asterisk above be taken prior to entry to the program. If not, they are co-requisite and must be completed with a grade of 2.0 or better in order to be eligible to write the National Registry examination for Paramedic. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

**Funeral Service
Technology 7005**

(Perkinston Campus)

Candidates for admission into the Funeral Service Technology program must satisfactorily complete the following admission requirements:

- An official High School transcript verifying graduation or General Education (GED) test scores certifying high school graduation equivalency.
- A student must have a score of 16 or above in the reading and math sections on the enhanced ACT test. Students without ACT scores must take and achieve an equivalent score of 72 Reading/ 34 Math (Pre-Algebra) on the COMPASS test.

or

- If student does not meet testing requirements in reading, then successful completion of (1) REA0113, (2) LLS1413 and (3) ENG1113 with at least a grade of C in each course. If student does not meet testing requirements in math, then successful completion of (1) LLS1413 and (2) MAT1233 with at least a grade of C in each course.

or

- A Bachelor's degree from a regionally accredited Institution of Higher Learning.

The curriculum for educating prospective funeral service professionals is a structured series of course experiences.

The goal of the program is to provide training that prepares students for entry-level positions after graduation and licensure. The curriculum is designed to give students:

- Professional knowledge in Funeral Service Education.
- Exposure to career options available within the Funeral Services field which involves managing people, equipment and resources, as well as the opportunity to prepare an individual for burial.
- Exposure to the application of the above to the profession with special emphasis placed throughout on the public health aspects involved.

This curriculum leads to an Associate in Applied Science degree and is preparatory for employment upon graduation from the Mississippi Gulf Coast Community College. As a requirement for completion of the program, a student must take the National Board exam which is administered by the International Conference of Funeral Service Examining Boards, Inc. prior to graduation. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

The Funeral Service Technology program at Mississippi Gulf Coast Community College is accredited by the American Board of Funeral Service Education (ABFSE), 3414 Ashland Ave., Suite G, St. Joseph, Missouri 64506, (816) 233-3747. Web: www.abfse.org

**Funeral Service
Technology 7005**

(Perkinston Campus)

The Funeral Service Technology program aims and objectives are:

1. To provide an education program that will prepare the students to pass the National Board Examination or their respective state board examination.
2. To prepare the students with skills for successful employment as funeral directors and embalmers.
3. To teach the importance of maintaining public health measures and safety procedures necessary to public health in the care and disposition of dead human remains.
4. To teach the importance of ethics, law and a professional image in all aspects of Funeral Service including: pre-need, at-need, and after-care services.
5. To teach the skills needed in caring for individuals who are dying and in bereavement.
6. To teach skills necessary for mortuary management, financial accounting, and business law to enable a graduate to make financial and business decisions based on sound business principles and practices.
7. To teach students to be aware of the cultural heritage in the communities being served and changes taking place in society as well as changes in the funeral service profession. It is essential for students to stay abreast of current funeral service education and periodicals, public health suggestions and requirements, changes in local, state, and federal laws, rules and regulations.
8. To assist students with the application process for the NBE prior to graduation and transition into entry level positions in the funeral service industry.
9. To encourage and provide a forum where students, faculty, and industry professionals may conduct research in the field of Funeral Service.

The aims and objectives of the Funeral Service Technology program will be achieved through persistent teaching, drill and practice sessions, computer technology, research projects, active participation in funeral service and embalming clinicals, and observation of preceptors in funeral homes.

Graphic Design Technology 7045

(Perkinston Campus)

The Graphic Design Technology curriculum is a two-year program of study designed to prepare the student for entry-level employment and advancement in the field of graphic design, commercial art, media art, and Web graphics. Students receive instruction in the design and execution of printed publications, packaging, Web graphics, illustrations, rendering, logo design, and design principles necessary to produce designs for printed ads, books, posters, billboards, catalogs, brochures, and other forms of visual communications. Coursework references industry specifications, including the selection of ink and paper, screen printing, sign making, and other printing/binding techniques.

This curriculum leads to an Associate in Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

**Medical Laboratory
Technology 7130**

**Pre-Professional Phase 1703
(Jackson County Campus)**

This Medical Laboratory Technology program prepares individuals to work in a medical laboratory under the supervision of a medical technologist or pathologist and/ or other physicians. Included are routine laboratory procedures and tasks in the areas of hematology, bacteriology, immunohematology, chemistry, parasitology, immunology, and urinalysis.

This program is twenty-four months duration and is offered in affiliation with local hospitals. The clinical laboratories are recognized as extended campuses of the college. Students successfully completing this program are prepared for employment in hospitals, medical laboratories, clinics, and industry as Medical Laboratory Technicians.

The college is assisted and advised by a Medical Laboratory Technology Advisory Committee composed of pathologists, medical technologists and technicians, college administrators and instructors.

Graduates of this NAACLS accredited program are eligible to take the MLT certification examination. Upon passing the examination the graduate becomes a Registered/Certified Medical Laboratory Technician.

The curriculum grants an Associate in Applied Science Degree and is preparatory for employment upon graduating from the Mississippi Gulf Coast Community College. Where a transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

Admission Policies for the Medical Laboratory Technician Program

Admission into the Medical Laboratory Technician (MLT) program is competitive. Students seeking admission must complete all of the following requirements. Applicants will be screened on the basis of past educational performance and potential for the number of clinical openings available.

1. Applicants must complete all admission requirements to Mississippi Gulf Coast Community College, Jackson County Campus.
2. Applicants must complete application to the Medical Laboratory Technology (MLT) program and return to the MLT program faculty. Call (228)497-7846/7709 for submission deadline date.
3. Applicants must file official transcripts of all college work in the Office of Admission.
4. Applicants must have a minimum Grade Point Average (GPA) of 2.0 on college work. If no college work has been completed, have a minimum GPA of 2.0 for core courses from high school.
5. Applicants must have an interview with the MLT Admissions Committee and/or the MLT faculty.
6. Applicants must take the COMPASS (standardized test) administered at MGCCC prior to application deadline.
7. Student must be deemed physically and emotionally able to meet the *Technical Standards for the Medical Laboratory Technology Program*. *Technical Standards for the Medical Laboratory Technology Program* will be evaluated by a physician or nurse practitioner during the health exam.
8. Applicants must submit a completed Allied Health physical exam form and criminal background check prior to clinical practice.
9. Incomplete applications will not be considered.
10. Late applications may be considered depending upon the availability of openings.
11. Selection for entrance into the program is competitive and based on GPA, COMPASS score and interview.
12. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

Upon admission to the Medical Laboratory Technology Program, students must maintain a 2.0 GPA on the required courses and complete each course with a C or better.

**Petrochemical Refining
7207**

(Jackson County Campus)

The Petrochemical Refining program is designed to prepare technicians for employment in the diverse field of process operations in petroleum refineries, power generation facilities, pharmaceutical plants, chemical plants, waste water treatment plants, food and beverage process plants, offshore oil production facilities and a host of other industries. Individuals currently employed as process operations technicians will enhance their ability to perform their duties and increase opportunities to advance.

Graduates of this program are prepared for entry level positions at any processing facility. They will have acquired the basic technical skills in equipment and systems and have a broadened vocabulary to make the job specific learning less difficult. Graduates will also have the team building skills, safety awareness, environmental awareness, communication skill and computer skills so vital to performing well in industry today. A working knowledge of state and federal regulations on safety and the environment are provided. Through an internship program, most students will have the opportunity to work in a position related to process technology where they will receive work related application of their classroom training.

This curriculum leads to an Associate of Applied Science degree and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where a transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Radiologic Technology (Radiography)

Pre-Professional Phase 1702 Professional Phase 7200 (Jackson County Campus)

Radiographers perform imaging examinations and accompanying responsibilities at the request of physicians qualified to prescribe and/or perform radiologic procedures. They utilize equipment emitting ionizing radiation to produce radiographic images of the internal structures of human anatomy. These radiographic images are utilized by the physician for diagnostic and therapeutic purposes. The radiographer is responsible for all functions in the Radiology Department to insure consistent radiographic images and provide for personal and patient safety from ionizing radiation. In addition to producing diagnostic images and primary patient care, other responsibilities may include administrative and educational functions.

Graduates of this program will be awarded an Associate of Applied Science Degree in Radiologic Technology and are eligible to make application to the American Registry of Radiologic Technology in order to become a Registered Radiographer.

Mission Statement

The mission of the Mississippi Gulf Coast Community College (MGCCC) Radiologic Technology (RT) Program is to produce competent entry-level radiographers.

MGCCC RT Program Goals:

1. Students will demonstrate entry-level clinical performance and competence.
2. Students will demonstrate problem solving and critical thinking skills in the laboratory and/or clinical setting.
3. Students will develop oral and written communication skills.
4. Students and graduates will understand the importance of professional development and growth.

In addition, the RT Program faculty monitors program effectiveness.

Vision Statement

The vision for the MGCCC RT program is to not merely produce competent entry-level radiographers, but to educate healthcare professionals who inspire leadership, embrace emerging technological advancements, possess technical qualities that excel in the profession and demonstrate ethical behaviors, focus on personal and professional growth, and influence the healthcare community's knowledge for their state of well-being.

Admission Policies

Acceptance into the Radiologic Technology (RT) program is competitive (see "Selection Process"). GPA from high school and/or college work completed, ACT scores and scores on a personal interview will be considered as selection tools.

Students seeking admission must:

1. Make application and be accepted to Mississippi Gulf Coast Community College, Jackson County Campus prior to making application to the RT Program.
2. Make application to the Radiologic Technology (RT) Program by doing the following:
 - a. Pick up an application packet from the Allied Health secretary or RT program faculty.
 - b. Return completed application to the Allied Health secretary or the RT program faculty no later than 2:00p.m. on the second Friday in February.
 - c. Incomplete applications will not be considered.
3. File copies of ACT score in the MGCCC Office of Admissions.
4. File copies of official transcripts of all college work in the MGCCC Office of Admissions.
5. Have a minimum Grade Point Average (GPA) of 2.5 on college work with no grade less than "C" on any core courses in the current RT curriculum (see current college catalog). If no college work has been completed, have a GPA of 2.5 or higher for core courses from high school.
6. Achieve a composite score of 21 or higher on the enhanced version of the ACT (version after 1989). The program selection committee will not consider a score less than 16 (refer to special entrance requirements). SAT scores are not accepted or converted.

All academic and technical courses must be completed with a grade of "C" or better (core/cumulative GPAs must be 2.5 or higher) to make application to the Program.

Special Entrance Requirements

Applicants having a composite score between 16 and 20 on the enhanced version of the ACT or a GED equivalency should meet with the RT Program faculty or Career and Technical Counselor for guidance on special entrance requirements.

**Radiologic Technology
(Radiography)**

Pre-Professional Phase 1702
Professional Phase 7200
(Jackson County Campus)

Selection Process

The RT Program has a limited physical capacity for both didactic and clinical education courses. The Program's Selection Committee is made up of RT Program faculty, college counselors, and administrative officials representing clinical affiliates. The Program's Selection Committee has the responsibility of screening qualified applicants for those persons deemed most likely to successfully complete the Program and enter the profession as valued and contributing members of the Healthcare Team.

Selection for entrance into the RT Program is competitive, based on:

- Academic Core GPA10%
- Cumulative GPA30%
- ACT Composite30%
- Personal Interview30%

An application does not guarantee an interview. An interview does not guarantee acceptance into the RT Program. The Program does not maintain a waiting list.

The Selection process is a two-phase process. During Phase I, applications are screened and applicants are selected for Phase II of the Program's Selection Process. During Phase II, clinical observations, interviews with members of the Selection Committee and final notification of committee results occurs for applicants chosen in Phase I.

Important Substance Testing Information

MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

ARRT Certification Eligibility Information

The American Registry of Radiologic Technology (ARRT) recommends that students having a conviction record request a pre-application review of the violation before they enter the program, or at least before they complete, the educational program. The MGCCC RT Program faculty recommends that the pre-application review of the violation be completed prior to a student making application to the Program. The form is downloadable from the "Ethics" section of www.arrt.org or may be requested by phoning the ARRT at (651) 687-0048. After this review, students found in violation of the ethics code will be denied certification eligibility by the ARRT.

Health Requirements

- Student must be deemed physically and emotionally able to meet the *Professional Intellectual and Physical Requirements for Radiography Students*. *Professional Intellectual and Physical Requirements for Radiography Students* will be evaluated by a physician or nurse practitioner during the health exam.
- A completed health form, signed by a Medical Physician, is required prior to the first Clinical Education assignment (Fall Semester-First Year).
- Proof of current immunizations prior to the first Clinical Education assignment. Required immunizations: measles and rubella, diphtheria-tetanus (within last 10 years), chicken pox, and current TB skin test.
- The Hepatitis B series is recommended. (A waiver acknowledging this recommendation is required).

Effective for students beginning the RT program in 2008 and thereafter, MGCCC graduates will satisfy a mandatory computer competency requirement by taking a college-level computer course. Advisors will assist students with scheduling to meet the computer competency requirement.

Technical Programs

Respiratory Care Technology

Pre-Professional Phase 1707 Professional Phase 7048 (Jackson County Campus)

The Respiratory Care Technology Program prepares the individual to become a Respiratory Care Practitioner. Respiratory Care Practitioners are responsible for initiating cardiopulmonary resuscitation along with the setup and monitoring of life support systems. In addition, Respiratory Care Practitioners provide treatment for heart and lung disorders by administering inhalation treatments, oxygen and drugs.

These individuals are also trained to perform diagnostic tests that aid in determining the presence and extent of cardiopulmonary disease. Respiratory Care Practitioners conduct pulmonary function studies, obtain and analyze blood samples and perform electrocardiograms, exercise stress tests and sleep studies.

Upon completion of the Respiratory Care Practitioner program, candidates may take the National Board for Respiratory Care Entry Level Examination (CRT). Upon passing this exam, candidates may take the NBRC Advanced Level Examination (RRT).

Admission Requirements for Respiratory Care Program

Acceptance into the Respiratory Care Technology Program is competitive. GPA from high school and/or college work completed and scores on the personal interview will be considered as selection tools.

Students seeking admission must:

1. Complete all admissions requirements to Mississippi Gulf Coast Community College, Jackson County Campus.
2. Pick up an application packet from the office of the Program Director of the Respiratory Care Technology Program or Vocational Counselor at the Jackson County Campus.
3. Complete Application packets and drop them off in the office of the Vocational Counselor no later than 3:00 p.m. on the first Friday in April.
4. Have an interview with Program Director, Director of Clinical Education and/or members of the Respiratory Care Admissions committee.
5. Student must be deemed physically and emotionally able to meet the *Core Performance Standards* for the Respiratory Care Technology Program. *Core Performance Standards* will be evaluated by a physician or nurse practitioner during the health exam.
6. Have a minimum of a 2.0 GPA on prerequisite courses.
7. Have an ACT score of 20 or an 18 with the completion of Anatomy I & II, College Algebra, English Composition I, General Psychology, Microbiology, and Medical Terminology.
8. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

Upon admission to the Respiratory Care Technology Program students must maintain a 2.0 GPA on the required courses and complete each course with a C or better.

A completed health form signed by a Medical Physician and Hepatitis C are required immediately prior to the first Clinical assignment, with a TB skin test required every 6 months. A Background check including fingerprinting are due prior to admission in to the program.

Promotion Policies

The faculty of the Respiratory Care Technology Program recommends for progression and continuation only those students who in the judgment of the faculty satisfy the requirements and aptitude for Respiratory Care. When the performance of a student is not consistent with safe practice, the student may be asked to withdraw. Any student who fails or withdraws from a respiratory care course may reapply under the guidelines of the Respiratory Care Technology Policy for Readmission of Students. Students are allowed two readmissions. Students cannot repeat any respiratory care course more than once.

Readmission/Transfer

Readmission/transfer to the program is in accordance with the RCT Policy on Readmission/transfer and is determined on individual merit.

Note: Any student convicted of a felony will not be allowed to make application to the NBRC until all of his/her civil rights have been restored. Students convicted of a misdemeanor are subject to approval by the registry board before being allowed to sit for the board exam.

Telecommunications Technology 7215

(Jackson County Campus)

This two-year program is designed to prepare students for a wide range of technical positions within the telecommunications industry. Specific preparation is in modes, techniques, and mediums of voice, and data transmissions and reception. Emphasis is on the telephone instrument, key systems, PBX systems, analog and digital voice communications, data communications, fiber optic communications, and satellite and microwave communications. Graduates will be qualified to help select, install, operate, maintain, troubleshoot, and repair telecommunications systems.

This curriculum was developed using the Electronics Technicians Association, International standards from the National Coalition for Electronics Education and ETA's Associate C. E. T. Examination Development Committee. An Associate of Applied Science Degree is awarded upon successful completion of this curriculum and is preparatory for employment upon graduation from Mississippi Gulf Coast Community College. Where transfer to a senior college or university is desired, a conference should be scheduled with a community college guidance counselor for advisement.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

This program is accredited by The Association of Technology, Management, and Applied Engineering.

Career Programs

Career Programs

All career education programs lead to MGCCC diplomas. A two-year Associate of Applied Science in Occupational Education (AASOE) is optional for designated programs.

Auto Collision Repair Technology 8010

(West Harrison County Center)

Collision Repair Technology is an instructional program designed to prepare students for entry level into the collision repair and refinishing trade. Upon completion of this program, the students will be prepared for beginning positions as body, frame, and refinish technicians. Students will be provided theory and practical repair and refinish work beginning with basic applications and progressing on to heavy collision repairs requiring major body and frame alignment and panel replacement. The instruction includes all phases necessary to teach collision repair including glass replacement, welding, replacement of hardware and trim items, cosmetic repairs, and structural repairs.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit

Automotive Technology 8020

(West Harrison County Center)

Automotive Technology is an instructional program that prepares individuals to engage in the servicing and maintenance of all types of automobiles. Instruction includes the diagnosis of malfunctions of all 8 areas of ASE/NATEF certification (Engine Repair, Electrical and Electronic Systems, Engine Performance, Brakes, Steering and Suspension Systems, Manual Drivetrains and Axles, Automatic Transmissions and Transaxles, Heating and Air Conditioning).

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

Commercial/Residential Maintenance 8110

(Perkinston Campus)

The Commercial Residential Maintenance program is designed to prepare individuals for employment opportunities in commercial and residential building general maintenance and repairs. Content of the program includes federal, state, and local codes; and basic maintenance of heating and cooling systems, ice machines, refrigerators, electrical, plumbing, welding, irrigation, pools, spas, and building components.

Upon successful completion of the required minimum 32 semester hour credit, the student will be awarded a diploma in Commercial Residential Maintenance.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

Cosmetology 8195

(George County Center)

This program is accredited by the Mississippi State Board of Cosmetology. Applicants must have a high school diploma or acceptable scores on the GED. It is a 12-month diploma program consisting of a minimum of 1,500 clock hours. After successful completion, the student is qualified to take the State Board Examination for Cosmetology licenses. Graduates are prepared for a career in all phases of hair styling.

Cosmetology 8195

Cosmetology Teacher Training Option

This instructional program prepares individuals to teach others to care for hair, nails, and skin with emphasis on hygiene, sanitation, customer relations, and salon management. Satisfactory completion of the courses qualifies students for the Mississippi State Board of Cosmetology instructor licensing examination.

TEACHER TRAINING OPTION

Program Requirements

It is recommended that students complete twelve semester hours of college level education as approved by the Mississippi State Board of Cosmetology before enrolling in the Cosmetology Teacher Training Option. These hours must be completed before a student will be allowed to take the cosmetology instructor licensing examination. More information concerning these hours can be obtained from the Mississippi State Board of Cosmetology.

The curriculum is designed for students who have at least two years active practical experience as a licensed cosmetologist and currently hold a valid Mississippi cosmetology license. The curriculum complies with the standards of the Mississippi State Board of Cosmetology and the requirement for 750 contact hours for students.

Students are required to receive 12 hours of theory; 68 hours of skill preparation and clinic work; 164 hours concerning the professional teacher's skills and preparation techniques; 99 hours concerning student motivation and learning skills; 33 hours of methods, management, and material procedures and techniques; 65 hours of testing and evaluation skills; and 10 hours of cosmetology laws, rules, and regulation.

Successful completion of the program entitles students to a cosmetology Teacher Training diploma and, upon meeting the requirements of the Mississippi State Board of Cosmetology, qualifies them for licensing examinations as cosmetology instructors.

**Electrical Technology
8070**

(Jackson County and Jefferson Davis Campuses and West Harrison County Center)

The electrical technology program prepares individuals to install, operate, maintain, and repair electrically energized systems such as residential, commercial, and industrial electrical wiring; DC and AC motors and controls; and electrical distribution panels. Instruction in the use of test equipment and meters is included. Safety training is an integral part of the instructional program.

A student completing this program should be able to enter the workforce as a second or third year apprentice or a second or first class helper, requiring one or two years of on the job experience prior to receiving first class journeyman classification, based on local methods of certification.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

Heating, A/C and Refrigeration Tech. 8000

(Jefferson Davis Campus)

Heating, Air Conditioning, and Refrigeration Technology is an instructional program that prepares individuals to work in engineering departments or private firms installing, maintaining, and operating small or medium air conditioning, heating, and refrigeration systems. Instruction prepares individuals to work in a commercial organization performing special tasks relating to designing duct work, assembly, installation, servicing, operation, and maintenance of heating, cooling, and refrigeration systems according to the standards of the American Society of Heating, Refrigeration, and Air Conditioning Engineers, Inc. and Air Conditioning Refrigeration Institute (ARI). Included are air conditioning, heating, and refrigeration devices; equipment, techniques, and systems; and maintenance and operation of these systems.

Major units of instruction are to be taken in sequence. Exceptions will be approved on an individual basis.

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

Practical Nursing 8140

(Jackson County, Jefferson Davis and Perkinson Campuses and George County Center)

This intensive, one-year program prepares students to enter the nursing career ladder as a licensed practical nurse who can use the nursing process to care for patients and families. This care is performed under the direction of a registered nurse, physician, or dentist. The Practical Nursing program is accredited by the Mississippi Department of Education and the National League for Nursing Accrediting Commission (NLNAC). Students who complete the program requirements, as identified by the Mississippi Department of Education, will be eligible to apply for LPN licensure from the Mississippi Board of Nursing and take the National Council Licensure Examination for Practical Nursing (NCLEX-PN).

Admission to the Practical Nursing program is limited on each of the four campus sites. Candidates must complete a special application process and meet all admission requirements. The Mississippi Board of Nursing has some legal limitations for eligibility for the LPN Licensure; falsification of any part of the application process is reason for dismissal. Day and/or evening clinical rotations in local hospitals and community agencies are required.

Graduates of the PN program receive a MGCCC diploma. Those students who complete diploma requirements or 36 semester hours may elect to pursue an Associate of Science in Occupational Education. Some graduates choose to continue their education in the LPN/ADN Transition Program at MGCCC or other programs and become a Registered Nurse.

Admission Requirements

1. Students that wish to make application for the Practical Nursing Program must contact the Career/Counseling Office to make an appointment.
2. One of the three categories for admission must be satisfactorily completed before a student can qualify for a Practical Nursing Application Packet. These admission categories will include
 - A. ACT Testing: A student must have a score of 17 or above in the reading and math sections on the enhanced ACT test.
or
 - B. COMPASS: Students will take the Reading and Pre-Algebra sections of the COMPASS test and score at least a 77 in reading and a 47 in pre-algebra.
or
 - C. PREVIOUS COLLEGE CREDIT – on an official transcript to include the following courses:
 - EPY 2533 Human Growth and Development
 - BIO 2514 Human Anatomy and Physiology I
 - BIO 2524 Human Anatomy and Physiology IIThe student must have completed the coursework in the sciences listed above within the last five years and received a grade of “C” or better in all listed courses. (Previous college credit will not be factored in selective admissions process.)
3. All applicants must take the Test of Essential Academic Skills (TEAS). The TEAS test measures basic academic skills in Reading, Math, Science, and English. TEAS test scores will be used in the Selective Admissions of students to the Practical Nursing program.
4. CPR REQUIREMENT: Students must present a current CPR certification card on the first day of class. The CPR certification must follow the guidelines set forth by the American Heart Association for Healthcare Providers. CPR cards from the American Red Cross cannot be substituted for American Heart Association cards.
5. The student must be physically and emotionally able to meet the technical standards of the program as stated in the admissions packet.
6. After achieving satisfactory scores on all tests or courses, the applicants will complete and/or supply the following:
 - A. Application of admission to the college.
 - B. Notarized Allied Health application form.
 - C. An official high school transcript verifying graduation or General Education Development (GED) test scores certifying high school graduation equivalency.
7. Final notification of acceptance will be sent after the student submits the following:
 - A. A completed physical examination documented on the MGCCC Allied Health Medical Examination Form.
 - B. Evidence of compliance with Mississippi law regarding a Criminal Background History Check.
8. All students accepted for admission must agree to abide by the Practical Nursing departmental policies, procedures, and guidelines stated in the current PN Student Handbook.
9. MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

Selection Process

Applicants are admitted using a competitive selection process based on the PN Admissions Requirements listed above (except previous college credit), the TEAS test score, and residency.

Practical Nursing 8140

(Jackson County, Jefferson Davis and Perkinson Campuses and George County Center)

Progression and Readmission

A passing grade of 80% is required in EACH PNV COURSE to progress in the course of study. Selection of students for transfer into the program or readmission is competitive and based on individual merit and completeness of forms. All students accepted for admission must meet the Core Performance Standards for Admission and Progression developed by the Southern Council on Collegiate Education for Nursing and adopted by MGCCC.

Transfer Students: The Practical Nursing program accepts qualified transfer students from other NLNAC Practical Nursing, Associate Degree Nursing, and Bachelor of Science program. Students interested in this option must contact the counselor and fill out the appropriate application forms and submit an official transcript of prior college work. Acceptance is pending space available in the program. Accepted students will complete the Spring and Summer Semester at Mississippi Gulf Coast Community College to qualify for graduation from the Practical Nursing program and meet all admissions criteria stated in the catalog and Practical Nursing Student Handbook.

TOTAL SEMESTER HOURS 64

**Surgical Technology
8098**

(George County Center, West Harrison County Center)

This intensive, one year Surgical Technology program is designed to prepare the student to enter the surgical environment as a surgical technologist. The surgical technologist assists physicians, anesthesiologists, and registered nurses in the care of patients during operations. Students learn to apply the principles of sterile technique required during operative procedures, the use of instruments and equipment, related surgical anatomy and pathology, wound classifications and healing, standard precautions, and extensive study of procedures from surgical specialties and related areas.

Graduates will be eligible to take the national certifying examination to become certified surgical technologists. This program is nationally accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 35 East Wacker Dr, Suite 1970, Chicago IL 60601.

Admission Requirements

- I. Initial Requirements
 - A. Contact the Career and Technical Counselor's office prior to September 1 for admission in January (George County Center) or prior to May 1 for admission in August (West Harrison County Center)
 - B. Submit college application for admission indicating Surgical Technology major to the George County Center or West Harrison County Center
 - C. Submit official high school / GED transcript and official transcripts for all prior college work.
 - D. Submit appropriate test scores.
 - 1. ACT – Reading and Math score of 16 or above on ACT within the last five years.
or
 - 2. COMPASS (Computer-Adaptive Placement Assessment and Support System) – Pre-Algebra score of 34, Algebra score of 22, College Algebra score of 20, and a Reading score of 72.
- II. Interview
- III. Student must be deemed physically and emotionally able to meet the *Baseline Competencies* for the Surgical Technology Program. *Baseline Competencies* will be evaluated by a physician or nurse practitioner during the health exam.
- IV. Selection Requirements: Students who complete admission requirements by the deadline will be considered for selection on the following basis:
 - A. Timely completion of specific program documentation, including:
 - 1. Official background check letter
 - 2. Physical examination and immunizations (including HepB series)
 - 3. Allied Health application
 - 4. American Heart Association CPR for Healthcare Providers certification

MGCCC Nursing and the Allied Health Programs have a zero tolerance of illegal substance use/abuse and misuse of legal substance. All Nursing and Allied Health students must submit to substance testing in accordance with the Substance Testing Policy and Procedures for Associate Degree Nursing and Allied Health Programs. These tests reveal substance use within approximately the last three months.

Welding 8220

(Jackson County Campus, Perkinston Campus, Advanced Manufacturing and Technology Center)

The Welding and Cutting Technology curriculum is designed to prepare the student for entry level employment in the field of welding and cutting. The curriculum includes Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), Plasma Arc Cutting (PAC), Carbon Arc Cutting, Oxyfuel Cutting, and Gas Tungsten Arc Welding (GTAW). Electives are available in advanced levels of welding and cutting.

The welding competencies required in this curriculum were developed to coincide with the Guide for the Training and Qualification of Welding Personnel: Entry Level Welders (AWS EG2.0-95) and Specification for Qualification and Certification for Entry Level Welders (AWS QC 10-95).

MGCCC will administer the MS-CPAS (Mississippi Career Planning and Assessment System) prior to program completions in career and technical programs. All students completing a career and technical program must take the MS-CPAS.

Tech Prep credit may be awarded for approved courses. Please refer to "The Credit by Non-Traditional Means" section of this catalog regarding stipulations for receiving Tech Prep credit.

Career Programs

The following programs do not lead to an Associate of Applied Science in Occupational Education (AASOE) degree.

Apprentice Electric Lineman 8192

(George County Center)

Students will receive specialized instruction in areas covering special certification areas required by the power industry.

Students should contact the George County Center Counselor by June 1 for August admission and by October 1 for January admission.

Applicants must meet general admission requirements as well as the following special requirements:

- 18 years of age by April 1 for Spring semester, and by December 1 for Fall semester classes
- high school diploma or GED
- valid driver's license
- motor vehicle report with good driving record (for CDL)
- DOT physical with a substance test
- enjoy outdoor work
- physically able to climb
- COMPASS assessment with Pre-Algebra score of 34, Reading score of 72, Writing score of 32, or ACT Language, Reading, and Math minimum of 16 (within the last five years)

DIPLOMA OPTION

Major Units of Instruction

Semester Hours

AEL 1118	Apprentice Electric Lineman Training I	8
AEL 1128	Apprentice Electric Lineman Training II	8
TOTAL SEMESTER HOURS		16

Skills taught will include the following:

Basic Skills

- Basic Computer Applications
- Basic Electricity, Codes, etc.
- Basic Electricity I
- Basic Electricity II
- Interpersonal Skills
- National Electric Code Course
- National Electric Safety Code Course
- RUS Specifications (Overhead and Underground)
- Mississippi Class A Commercial Drivers License

OSHA

- CPR, First Aid, and Bloodborne Pathogens
- Hazardous Material Training and Material Safety Data Sheets
- Job Site Safety (Confined Space, Shoring, etc.)
- Personal Protective Equipment Rigging

Power Company Specific

- Pole Climbing
- Pole Top Rescue
- Bucket Truck System Protection and Operation
- Basic Transformer Change Out from Pole

AASOE OPTION

Not applicable for Apprentice Electric Lineman

Commercial Truck Driving 8016

(George County Center)

Commercial Truck Driving is an open admission program that prepares individuals to drive trucks and other commercial vehicles. It includes instruction in operating diesel powered vehicles; loading and unloading cargo; reporting delays or accidents on the road; verifying loads against shipping records; and keeping necessary records.

Program Requirements

A diploma in Commercial Truck Driving will be awarded at the culmination of a minimum of 8 semester hours of satisfactory study.

Special admission requirements for this program are:

1. Must be 18 years of age.
2. Must have received no more than 3 speeding tickets within the last 3 years.
3. Must be able to pass a DOT physical and drug screen.
4. Must have no DUI on record.
5. Must take the COMPASS.

This curriculum is based upon data as collected from curricula guides, input from the business, requirements of the Commercial Driver's License (CDL), and a revision team.

Students will be expected to obtain a Mississippi Commercial Driver's License and pass the Mississippi DOT Commercial Driver Written Examination in order to complete the course.

DIPLOMA OPTION

Major Units of Instruction

Semester Hours

DTV 1114	Commercial Truck Driving I	4
DTV 1124	Commercial Truck Driving II	4

Courses of Instruction

Maybe you've known what you wanted to do for a living since age 10. Maybe you only recently decided. Or maybe you want to take some classes because, well, you just want to. Whatever your case, Mississippi Gulf Coast Community College can fit your interests with courses that lead you to a degree, a career, a more fulfilled life.

It's been proven time and again that a college education means more money and more self-esteem. The instructors of our courses and programs know this, too, and that's why they keep pace with current trends and technology. And it's why they bring their knowledge and expertise to the classroom, the lab, the studio, the online course or wherever class may take you.

Courses of Instruction

The following are the official catalog designations used by Mississippi Gulf Coast Community College.

ABT – Auto Collision Repair	150
ACC – Accounting	150
ACT – Heating, Air Conditioning and Refrigeration.	151
AEL – Apprentice Electric Lineman	151
AGT – Agriculture	152
ART – Art.	152
ATT – Automotive Technology.	153
BAD – Business Administration	153
BCT – Billing and Coding Technology	154
BIO – Biology	155
BOT – Business and Office Cluster	156
CAT – Graphic Design Technology.	158
CDT – Early Childhood Education Technology	159
CHE – Chemistry	160
COE – Cooperative Education Programs.	161
CON – Construction Management Technology	161
COV – Cosmetology.	162
CPT – Computer Programming	163
CRJ – Criminal Justice	163
CRM – Commerical/Residential Maintenance	164
CSC – Computer Science	165
CST – Computer Servicing Technology	165
DAN – Dance	166
DDT – Drafting.	166
DTV – Commercial Truck Driving	168
ECO – Economics.	168
EDU – Education	169
EET – Electronics Technology	169
EGR – Engineering	170
ELT – Electrical Technology.	170
EMT – Emergency Medical Technician – Paramedic	171
ENG – English	172
EPY – Educational Psychology	173
FCS – Family and Consumer Studies.	173
FMT – Fashion Marketing	173
FPV – Food Production and Management Technology	174
FST – Funeral Services Technology	174
GEO – Geography	175
GRA – Graphics and Drawing.	176
GTT – Golf/Recreational Turf Management Technology.	176
HIS – History	176
HLT – Horticulture/Landscape.	176
HON – Honors.	178
HPR – Health, Physical Education, and Recreation	178
HRT – Hospitality and Tourism Management.	180
HUM – Humanities	181
HUS – Human Services	181
IDT – Interpreter Training.	181
IST – Information Systems Technology	183
JOU – Journalism	185
LEA – Leadership	186
LET – Legal Cluster	186
LGT – Logistics Technology.	187
LLS – Learning and Life Skills	188
MAT – Mathematics.	188

MET – Medical Terminology	189
MFL – Modern Foreign Languages.	189
MLT – Medical Laboratory Technology.	190
MMT – Business and Marketing Management Technology.	191
MST – Machine Tool Technology	192
MUA – Music.	193
MUO – Music.	194
MUS – Music	194
NUR – Associate Degree Nursing	195
PHI – Philosophy and Bible	197
PHY – Physical Science and Physics	197
PNV – Practical Nursing	198
PPT – Petrochemical Refining	199
PPV – Plumber/Pipefitter	199
PSC – Political Science	201
PSY – Psychology	201
RCT – Respiratory Care Technology.	201
REA – Reading	202
RGT – Radiologic Technology (Radiography)	202
SOC – Sociology	204
SPT – Speech and Theatre.	204
SUT – Surgical Technology	205
TCT – Telecommunications Technology.	206
WAN – Wide Area Network Technology	206
WDT – Web Development Technology.	206
WLV – Welding	207

The three figures in parentheses after the description of each academic and technical course indicate the number of semester hours credit for the course, the number of lecture hours each week, and the number of laboratory or activity hours each week, respectively. Instructional hours are indicated for career and technical courses.

AUTO COLLISION REPAIR (ABT)

ABT 1144 — Structural Analysis and Damage Repair I. This course covers the complete inspection and non — structural analysis of damaged vehicles. It is designed to enable the student to determine the conditions and severity of the damage, the repair or replacement of parts, the estimated repair time, and correct use of reference manuals. (4,2,4)

ABT 1153 — Structural Analysis and Damage Repair II. This course is a continuation of Structural Analysis and Damage Repair I. It provides instruction and practice in the removal and reinstallation of glass. (3,2,2)

ABT 1223 — Non — Structural Analysis and Damage Repair I. This course also covers the complete inspection and non — structural analysis of damaged vehicles. It is designed to enable the student to determine the conditions and severity of the damage, the repair or replacement of parts, the estimated repair time, and correct use of reference manuals. (3,2,2)

ABT 1233 — Non — Structural Analysis and Damage Repair II. This course is a continuation of Non — Structural Analysis and Damage Repair I. It provides instruction for preparation principles and practices. (3,1,4)

ABT 1314 — Refinishing I. This course provides skills and practices in vehicle preparation, cleaning, sanding, metal treatment, and masking. Included is determining imperfections in paint jobs. Emphasis is placed upon personal safety and environmental concerns. (4,2,4)

ABT 1324 — Refinishing II. This course is a continuation of Refinishing I. Included are types of paint defects and paint gun application and maintenance procedures. (4,2,4)

ABT 1443 — Mechanical and Electrical Components I. This course is designed to provide theory and practice in the areas of restraint systems, cooling systems, and air conditioning/heating systems. It is an introduction to small business management techniques as applied to the collision repair shop and includes computerized information and record systems. Also included are financial responsibilities, shop layout, inventory, and employee — employer relations. (3,3,0)

ABT 1453 — Mechanical and Electrical Components II. This course is designed to provide theory and practice in the areas of brakes and electrical. (3,3,0)

ABT 2163 — Structural Analysis and Damage Repair III. This course is a continuation of Structural Analysis and Damage Repair II. This course provides instruction and practice in unibody inspection, measurement, and repair. (3,2,2)

ABT 2243 — Non-Structural Analysis and Damage Repair III. This course is a continuation of Non-Structural Analysis and Damage Repair II. This course provides instruction for outer body panel repair, replacement, and adjustment principles and practices. (3,2,2)

ABT 2333 — Refinishing III. A continuation of Refinishing II with emphasis on advanced painting techniques including paint mixing, matching, and applying. (3,1,4)

ACCOUNTING (ACC)

ACC 1213 — Principles of Accounting I. A study of the financial accounting principles that relate to business. The topics to be covered include the accounting cycle, accounting systems and controls for service and merchandising businesses, assets, liabilities, and equity. Previous knowledge of accounting is not required for ACC 1213. (3,3,0)

ACC 1223 — Principles of Accounting II. A continuation of ACC 1213. The topics to be covered include corporate accounting concepts, managerial accounting concepts and internal business decision making. Prerequisite: ACC 1213. (3,3,0)

ACC 2113 — Introduction to Financial Accounting. Designed to give a basic understanding of the financial accounting process. Emphasis is placed on the recording, summarizing, reporting and interpreting economic data. Prerequisite is not required – course is designed for transfer to universities not requiring Principles of Accounting I and II. (3,3,0)

HEATING, AIR CONDITIONING, AND REFRIGERATION (ACT)

ACT 1125 — Basic Compression Refrigeration. An introduction to the field of refrigeration and air conditioning. Emphasis is placed on principles of safety, thermodynamics, and heat transfer. (5,2,6)

ACT 1133 — Tools and Piping. Various tools and pipe connecting techniques. Covers tools and test equipment required in heating, ventilation, air conditioning, and refrigeration. (3,2,2)

ACT 1213 — Controls. Fundamentals of gas, fluid, electrical, and programmable controls. (3,2,2)

ACT 1313 — Refrigeration System Components. An in — depth study of the components and accessories of a sealed system including metering devices, evaporators, compressors, and condensers. (3,2,2)

ACT 1432 — Refrigerant Recovery and Lubricants. Practical applications of refrigerants and lubricants according to the EPA standards. Includes recovery, recycling, and disposal. (2,1,2)

ACT 1713 — Electricity for Heating, Ventilation, Air Conditioning, and Refrigeration. Basic knowledge of electricity, power distribution, components, solid — state devices, and electrical circuits. (3,2,2)

ACT 1813 — Professional Service Procedures. Business ethics necessary to work with both the employer and customer. Includes resume', record keeping, and service contracts. (3,3,0)

ACT 2324 — Commercial Refrigeration. A study of various commercial refrigeration systems. It includes installation, servicing, and maintaining systems. (4,3,4)

ACT 2414 — Air Conditioning I. Various types of residential and commercial air conditioning, including hydronic, absorption, and desiccant systems. (4,2,4)

ACT 2424 — Air Conditioning II. An in — depth course in the installation, start — up, maintenance, and air quality of complete heating and air conditioning systems. Prerequisite: ACT 2414 Air Conditioning I. (4,2,4)

ACT 2433 — Refrigerant, Retrofit, and Regulations. Regulations and standards for new retrofit and government regulations. Includes OSHA regulations, EPA regulations, local, and state codes. (3,2,2)

ACT 2513 — Heating Systems. Various types of residential and commercial heating systems. Includes gas, oil, electric, compression, and hydroponic heating systems. (3,2,2)

ACT 2624 — Heat Load and Air Properties. Introduction to heat load calculations for residential and light commercial heating, ventilation, air conditioning, and refrigeration systems. Included are air distribution, duct sizing, selection of grills and registers, types of fans, air velocity, and fan performance. An introduction is provided to air testing instruments and computer usage. (4,2,4)

ACT 2913 — Special Project in Heating and Air Conditioning Technology I. A course designed to provide the student with practical application of skills and knowledge gained in the courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. (3,0,6)

APPRENTICE ELECTRIC LINEMAN (AEL)

AEL 1118 — Apprentice Electric Lineman Training I. This course covers basic electricity, OSHA standards, CPR instruction, and basic computer technology. (8,4,8)

AEL 1128 — Apprentice Electric Lineman Training II. Topics covered include transformer, electric codes, pole climbing and RUS specifications. (8,4,8)

AGRICULTURE (AGT)

AGT 1313 — Applied Principles of Plant Production. A course to provide information related to the growth, nutrition, and general culture of agricultural and horticultural crops. Includes instruction on photosynthesis and transpiration, plant nutrition, pest control, and reproduction. Diploma curriculum: ninety hours instruction. Three semester hours. (3,2,2)

AGT 1714 — Applied Soils — Conservation and Use. A course to introduce the student to the general principles of soil conservation and safe use. Includes instruction in the soil formation process, properties of soils, soil texture, and soil management for optimum safe use. Diploma curriculum: one hundred twenty hours instruction. Four semester hours. (4,3,2)

ART (ART)

NOTE: The department reserves the privilege to retain student work for exhibition purposes.

ART 1113 — Art Appreciation. A course designed to provide an understanding and appreciation of the visual arts. (3,3,0)

ART 1313 — Drawing I. Includes the study of the basic elements and principles of organization in two dimensions and the selection, manipulations and synthesis of these components to create an organized visual expression. Black and white media will be stressed. Required of art majors. (3,0,6)

ART 1323 — Drawing II. Continuation of rendering skills introduced in Drawing I with emphasis on color, composition and creative expression. Required of art majors. Prerequisite: ART 1313. (3,0,6)

ART 1433 — Design I. To provide students with an understanding of the elements and principles of design to enable development of an informed, intuitive sense as well as a highly informed skills base/methodology involving black and white design problems which apply principles and elements of visual design. Prerequisite or Corequisite: ART 1313. (3,0,6)

ART 1443 — Design II. To provide students with an understanding of color theory and applications of color so that there begins to be an informed as well as intuitive sense of seeing, mixing, and applying color and light to design problems. Prerequisite: ART 1433 or permission of instructor. (3,0,6)

ART 1453 — Three Dimensional Design. To provide students with an understanding of spatial form in three dimensions through the use of applied design elements and principles to studio problems in various media.

ART 1913 — Art for Elementary Teachers. Development of essential concepts of children's art education in compliance with the National Standards for Arts Education. (3,2,2)

ART 2513 — Painting I. Techniques used in painting media in a variety of subject matter. Prerequisite: ART 1313 & ART 1433 or permission of instructor. (3,0,6)

ART 2523 — Painting II. Advanced problems in painting media. Prerequisite: ART 2513 or permission of instructor. (3,0,6)

ART 2613 — Ceramics I. This course is directed toward an introduction to different aspects and materials of ceramic design. Instruction covers forming and shaping by hand and by mechanical means, various kiln operations, understanding the nature of clay and glazes and an appreciation of functional and non functional forms. (3,0,6)

ART 2623 — Ceramics II. Continuation of skills introduced in Ceramics I. Emphasis on individual problem solving. Prerequisite: ART 2613 or permission of the instructor. (3,0,6)

ART 2633 — Sculpture I. Study of 3 — D media and methods exploration of reduction and additive sculpture process. (3,0,6)

ART 2713 — Art History I. Survey course of historical background of art forms from Prehistoric to Renaissance. Emphasis is on painting, architecture, and sculpture as related to history. (3,3,0)

ART 2723 — Art History II. Survey course of historical background of art forms from Renaissance to present with special emphasis on contemporary expression. (3,3,0)

ART 2913 — Special Studio. Independent study in an area of special interest. Course designed for the exceptional student. Instructor approval dependent on discipline. Can only take twice. Prerequisite: Six semester hours of work in related studio.

AUTOMOTIVE TECHNOLOGY (ATT)

ATT 1124 — Basic Electrical/Electronic Systems. This is a course designed to provide advanced skills and knowledge related to all components of the vehicle electrical system including lights, battery, and charging components. (4,2,4)

ATT 1134 — Advanced Electrical/Electronic Systems. This is a course designed to provide advanced skills and knowledge related to all components of the vehicle electrical system including gauges, driver information systems, horn, wiper/wiper systems, and accessories. (4,2,4)

ATT 1213 — Brakes. This is a course designed to provide advanced skills and knowledge related to the repair and maintenance of brake systems on automobiles. It includes instruction and practice in diagnosis of braking systems problems and the repair of brake systems. (3,2,2)

ATT 1314 — Manual Drive Trains/Transaxles. This is a course designed to provide advanced skills and knowledge related to the maintenance and repair of manual transmissions, transaxles, and drive train components. It includes instruction in the diagnosis of drive train problems, and the repair and maintenance of transmissions, transaxles, clutches, CV joints, differentials, and other components. (4,2,4)

ATT 1424 — Engine Performance I. This is a course designed to provide advanced skills and knowledge related to the maintenance and adjustment of gasoline engines for optimum performance. It includes instruction, diagnosis, and correction of problems associated with in these areas. (4,2,4)

ATT 1715 — Engine Repair. This is a course designed to provide advanced skills and knowledge related to the repair and rebuilding of automotive engines. It includes instruction and practice in the diagnosis and repair of engine components including valve trains, blocks, pistons and connecting rods, crankshafts, and oil pumps. (5,2,6)

ATT 1811 — Introduction, Safety, and Employability Skills. This is a course designed to provide knowledge of classroom and lab policies and procedures. Safety practices and procedures associated with the automotive program and automotive industry. (1,1,0)

ATT 2325 — Automatic Transmissions/Transaxles. This is a course designed to provide technical skills and knowledge related to the diagnosis and repair of automatic transmissions and transaxles. It includes instruction and practice in testing and inspecting these devices and in disassembly, repair, and reassembly. (5,2,6)

ATT 2334 — Steering and Suspension Systems. This is a course designed to provide advanced skills and knowledge related to the inspection and repair of steering and suspension systems on automobiles. It includes instruction and practice in the diagnosis of steering system problems and the repair/replacement of steering systems components. (4,2,4)

ATT 2434 — Engine Performance II. This is a course designed to provide advanced skills and knowledge related to the ignition system, fuel, air induction, and exhaust systems. It includes instruction, diagnosis, and correction of problems associated with in these areas. (4,2,4)

ATT 2614 — Heating and Air Conditioning. This course is designed to provide advanced skills and knowledge associated with the maintenance and repair of automotive heating and air conditioning systems. It includes instruction and practice in the diagnosis and repair of heating and air conditioning system components, and control systems. (4,2,4)

BUSINESS ADMINISTRATION (BAD)

BAD 1113 — Introduction to Business. This course is designed to introduce students to the basic concepts of business. Students receive instruction regarding the current business and economic environment, entrepreneurship, marketing, management, financial management, and business careers. (3,3,0)

BAD 1123 — International Business Seminar. This course is designed to help today's student make the transition from the traditional closed economy to the New World of international trade and diverse markets. Emphasis is placed on the potential market modifications due to social, cultural and geographic differences. The new role of the entrepreneur, management, government and the consumers are all examined. (3,3,0)

BAD 1213 — Introduction to International Business. Introduction to international business theory and practices. Emphasis is placed on terminology and the importance of understanding cultural differences. (3,3,0)

BAD 2323 — Business Statistics. Introduction to statistical methods of collecting, presenting, analyzing, and interpreting quantitative data for business management and control. Topics include: central tendency and dispersion; probability; binomial, Poisson, and normal distributions; estimation and hypothesis testing. Prerequisite: MAT 1313. (3,3,0)

BAD 2413 — Legal Environment of Business. An introduction to interrelationships of law and society, jurisprudence and business. Topics include an introduction to law, law of contracts, agency, and employment. (3,3,0)

BAD 2513 — Principles of Management. This course is a study of basic management principles as applied to the functions of planning, organizing, directing, controlling, and coordinating with effective communication in business enterprise. (3,3,0)

BAD 2533 — Computer Applications in Business & Industry. This course is an introduction to MS Office Suite software, which is the industry standard. This software includes the components of an information system: spreadsheets, presentation graphics, database management, and word processing. Data entry and retrieval, records management, and electronic communications are skills taught in this course. (3,3,0)

BAD 2713 — Principles of Real Estate. The course deals with the nature of the real estate market, types of ownership of property, contracts, methods of transfer of title, instruments used in transfers, title closing, financing, property management, insuring, and appraising. (3,3,0)

BAD 2723 — Real Estate Law. Designed to give the student a general background in the law of real property and the law of real estate brokerage. (3,3,0)

BAD 2733 — Real Estate Finance. A study of principles and methods of financing real estate, sources of funds, types and contents of financing instruments, and the role of various institutions, both private and governmental. (3,3,0)

BAD 2743 — Real Estate Appraisal I. An introductory course. Includes purpose of appraisal, methods, and techniques to determine the value of the various types of property. Emphasis on residential and single unit property. Prerequisite: BAD 2713 or Real Estate Sales or Broker License. (3,3,0)

BAD 2853 — Business Ethics. An exploration of the ethical problems faced in business theory and practice through which the student will recognize and analyze ethical dilemmas and implement ethical decisions within the context of today's business environment. (3,3,0)

BILLING & CODING TECHNOLOGY (BCT)

BCT 1113 — The Medical Environment, Ethics and Legal Issues. An introductory course designed to orient the student to the field of allied health care and to employment in common types of medical facilities. Topics include administrative career paths in allied health care; current healthcare systems, organizations, and trends; ethical and legal responsibilities of the allied health employee as related to administrative duties; professionalism; patient rights and associated responsibilities; and professional organizations and certifications. (3,3,0)

BCT 2123 — CPT Coding. This course is an introduction to the field of procedural coding and requirements for insurance reimbursement. Prerequisite: BOT 1613, BOT 1623 or consent of instructor. (3,2,2)

BCT 2133 — ICD Coding. This course is an introduction to the field of diagnostic coding. Prerequisites: BOT 1613, BOT 1623. (3,2,2)

BCT 2143 — Advanced Coding. This course includes advanced analysis of diagnostic and procedural coding systems. Prerequisites: BCT 2123, BCT 2133. (3,2,2)

BCT 2153 — Medical Insurance Billing. This course is a culmination of skills and knowledge of appropriate procedures for generating, processing, and submitting health insurance claims to private and governmental health insurance programs. Prerequisite: BCT 2123. (3,2,2)

BIOLOGY (BIO)

**The prerequisites for advanced science courses identified by an * are the completion of one of the following: a) minimum ACT composite of 21 on the science component, b) completion of three high school science courses (biology or chemistry) with no grade lower than a "C", or c) credit for BIO 1134.*

BIO 1114 — Principles of Biology I. A combined lecture and laboratory course for non — science majors that provides an introduction to the basic principles of modern biology, and their relevance to modern life. Emphasis is placed on the nature and history of scientific thought, basic biological chemistry, cell structure and processes, genetics. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

BIO 1124 — Principles of Biology II. A combined lecture and laboratory course for non — science majors that emphasizes the relationship of humans to their environment, the diversity of life, classification of organisms, ecology and environmental concerns. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

BIO 1134 — General Biology I. A combined lecture and laboratory course for science majors that includes study of the scientific method, chemistry relevant to biological systems, cell structure and function, cell processes including photosynthesis and cellular respiration, cell division, genetics, and molecular genetics. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

BIO 1144 — General Biology II. A combined lecture and laboratory course for science majors that reinforces concepts introduced in BIO 1134 General Biology I, while emphasizing the diversity of life. Topics covered include adaptation by natural selection, classification, ecology, detailed consideration of each group of organisms and viruses, study of animals and plants including their basic anatomy and physiology. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: BIO 1134. (4,3,2)

BIO 1214 — Environmental Science. A combined lecture and laboratory course covering the relevance of ecological principles to environmental problems and the relationship of humans to their environment with emphasis on preservation of environmental quality. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

BIO 1314 — Botany I. A combined lecture and laboratory course covering the representative groups of the plant kingdom, their anatomy, physiology, taxonomy, and economic importance. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: * (4,3,2)

BIO 1613 — Nutrition. A lecture course covering the nutrients required for normal growth and prevention of major chronic diseases, and applied to the selection of food for ingestion, the metabolic process of digestion, assimilation, and absorption, and their applications for healthcare providers. Prerequisite: BIO 1134. BIO 2514 and BIO 2524 recommended. (3,3,0)

BIO 2214 — Introduction to Marine Science. A combined lecture and laboratory course providing an introduction to oceanography with an emphasis on the measurement of physical, chemical, and biological aspects of the marine environment as well as functional morphology and taxonomy of local marine biota. Labs associated with this course contain experiments and exercises that reinforce the principles. Prerequisite* (4,3,2)

BIO 2414 — Zoology I. A combined lecture and laboratory course that includes in — depth studies of phylogeny and classification systems, protozoa, and major invertebrate phyla. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: * (4,3,2)

BIO 2424 — Zoology II. A combined lecture and laboratory course that includes in — depth studies of animal phyla with emphasis on the vertebrates and animal systems. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: * (4,3,2)

BIO 2514 — Anatomy and Physiology I. A combined lecture and laboratory course that covers the anatomical and physiological study of the human body as an integrated whole. The course includes detailed studies of: biological principles; tissues; and the integumentary, skeletal, muscular and nervous systems. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: * (4,3,2)

BIO 2524 — Anatomy and Physiology II. A combined lecture and laboratory course that includes detailed studies of the anatomy and physiology of human special senses and the endocrine, circulatory, respiratory, digestive, and urinary systems, as well as reproduction and development. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisites: BIO 2514. (4,3,2)

BIO 2924 — Microbiology. A combined lecture and laboratory course providing a survey of the microbes (microscopic organisms) with emphasis on those affecting other forms of life, especially man. Labs associated with this course are devoted to lab safety and gaining hands — on experience in the areas of: microscopy, culturing techniques (pure culture and isolation and media preparation), staining techniques, aseptic technique, diagnostic procedures and effectiveness of antimicrobial agents. Prerequisite: * (4,3,2)

BUSINESS AND OFFICE CLUSTER (BOT)

BOT 1013 — Introduction to Keyboarding. This course provides essential skill development using the touch system on the alphabetic keyboard and an introduction to basic word processing commands. Course emphasis will be on speed and accuracy when keying documents and timed writings. (3,3,0)

BOT 1113 – Document Formatting and Production. This course focuses on improving keyboarding techniques using the touch method and on production of documents using word processing functions. Prerequisite: Prior to enrollment in this course, students will be required to key straight-copy material at a minimum of 35 GWPM on a 5-minute timed writing, with a maximum of 1 error per minute OR successfully complete Introduction to Keyboarding (BOT 1013). (3,2,2)

BOT 1123 — Keyboard Skillbuilding. This course further develops keyboard techniques emphasizing speed and accuracy. Prerequisite: BOT 1113. (3,2,2)

BOT 1133 — Microcomputer Applications. This course will introduce an operating system and word processing, spreadsheet, database management, and presentation software applications. Prerequisite: BOT 1013 or consent of instructor (3,2,2)

BOT 1143 — Word Processing. This course focuses on production of documents using word processing functions. Production with accuracy is stressed and practice is given through a variety of documents for skillbuilding. Prerequisites: BOT 1113, BOT 1713, and BOT 1133 or by consent of the instructor. (3,2,2)

BOT 1213 — Professional Development. This course develops an awareness of interpersonal skills essential for job success. (3,3,0)

BOT 1313 — Applied Business Math. This course is designed to develop competency in mathematics for business use with emphasis on the touch method. (3,3,0)

BOT 1413 — Records Management. This course focuses on the systems approach to managing recorded information in any form. Emphasis is placed on the three categories into which records generally fall and the treatment of these categories in proper management, storage, and retrieval. (3,3,0)

BOT 1433 — Business Accounting. This course is designed to develop an understanding of analyzing, recording, classifying, and summarizing financial information of a sole proprietorship with insight into interpreting and reporting the resulting effects upon the business. (3,3,0)

BOT 1443 — Advanced Business Accounting. This course is designed as a continuation of Business Accounting with an emphasis in accounting for corporations. Prerequisite: BOT 1433. (3,3,0)

BOT 1513 — Machine Transcription. This course is designed to teach transcription of a wide variety of business communications from machine dictation. Prerequisite: BOT 1143. (3,2,2)

BOT 1613 — Medical Terminology I. This course is a study of medical language relating to the various body systems including diseases, procedures, clinical specialties, and abbreviations. Emphasis is placed on correct spelling and pronunciation. (3,2,2)

BOT 1623 — Medical Terminology II. This course presents medical terminology pertaining to human anatomy in the context of body systems. The emphasis is directed toward medical terminology as it relates to Medical Office Technology. Prerequisite: BOT 1613 or by consent of the instructor. (3,2,2)

BOT 1713 — Mechanics of Communication. This course is designed to develop the basic English competencies necessary for success in the business world. A study of the parts of speech, sentence structure, sentence types, capitalization, punctuation, and spelling is emphasized. (3,3,0)

BOT 1813 — Electronic Spreadsheet. This course focuses on applications of the electronic spreadsheet as an aid to management decision making. Prerequisite: BOT 1313, BOT 1133, or by consent of instructor. (3,2,2)

BOT 2133 — Desktop Publishing. This course will present graphic design techniques, principles of page layout and design, and electronic publishing terminology and applications to create a variety of documents such as flyers, brochures, newsletters, and business cards using advanced features of word processing software. Prerequisite: BOT 1143 or by consent of instructor. (3,2,2)

BOT 2323 — Database Management. This course applies database concepts for designing and manipulating data files and formatting output as complex documents and reports. Prerequisite: BOT 1413, BOT 1133, or by consent of instructor. (3,2,2)

BOT 2413 — Computerized Accounting. This course applies basic accounting principles using a computerized accounting system. Prerequisites: BOT 1433 or ACC 1213. (3,2,2)

BOT 2423 — Income Tax Accounting. This course introduces tax accounting including federal income tax laws and report preparation. Prerequisite: BOT 1433 or ACC 1213. (3,2,2)

BOT 2463 — Payroll Accounting. This course provides an in-depth study of payroll accounting. Prerequisite: BOT 1433 or ACC 1213. (3,2,2)

BOT 2473 — Cost Accounting. This course provides an in-depth study of cost accounting for manufacturing businesses. Prerequisite: ACC 1213 or BOT 1433. (3,2,2)

BOT 2523 — Medical Machine Transcription I. This course is designed to teach transcription of various medical documents. Prerequisite: BOT 1113. (3,1,4)

BOT 2533 — Medical Machine Transcription II. This course is designed to continue teaching transcription of various medical documents including dictation given by doctors with foreign accents and additional medical specialties. Prerequisite: BOT 1513, BOT 2523. (3,1,4)

BOT 2543 — Medical Machine Transcription III. This course is designed to continue the development of the student's transcription skills including more difficult dictation, longer and more complex medical records and more difficult physician dictation (foreign accent, dialects). All medical specialties are included. Prerequisites: BOT 2523 and BOT 2533. (3,1,4)

BOT 2553 — Medical Machine Transcription IV. This course is designed to maximize the student's transcription skills, including the most difficult dictation and most complex medical records, including autopsies. All medical specialties are included, with concentration in pathology, radiology, gastroenterology, orthopedics, and cardiology. Prerequisites: BOT 2543. (3,1,4)

BOT 2613 — Entrepreneurial Problem Solving. Designed to develop business students into entrepreneurs capable of operating their own companies and to reduce the high failure rate of starting, conducting, and expanding a business. Students will gain experience in problem solving through visits to businesses, analyses of case studies, and projects and surveys of current business practices. (3,3,0)

BOT 2623 — Principles of Business Finance. Study of how financial data are gathered, analyzed, and used by management in planning and controlling business activities. (3,3,0)

BOT 2663 — Advanced Coding. This course includes advanced analysis of diagnostic and procedural coding systems. Prerequisites: BOT 2643 or BCT 2123 and BOT 2653 or BCT 2133. (3,2,2)

BOT 2673 — Medical Insurance Billing. This course is a culmination of skills and knowledge of appropriate procedures for generating, processing, and submitting health insurance claims to private and governmental health insurance programs. Prerequisites: BOT 2643 or BCT 2123 and BOT 2653 or BCT 2133. (3,2,2)

BOT 2723 — Administrative Office Procedures. This course will provide comprehensive coverage and integration of business skills and issues, develop critical-thinking and problem-solving skills, and establish a foundation in business procedures. Prerequisites: BOT 1143. (3,2,2)

BOT 2743 — Medical Office Concepts. This course will provide coverage and integration of medical office skills and issues using knowledge of medical terminology. Problem solving will be emphasized. Prerequisite: BOT 1613, BOT 1623, or consent of instructor. (3,2,2)

BOT 2753 — Medical Information Management. This course will continue coverage of medical office issues with emphasis on health insurance filing and medical office software. Prerequisite: BOT 2743. (3,2,2)

BOT 2813 — Business Communication. This course develops communication skills with emphasis on principles of writing business correspondence and reports, and preparing presentations using electronic media. Prerequisite: BOT 1713, BOT 1113, or by consent of instructor. (3,3,0)

BOT 2823 — Communication Technology. This course will present an overview of the resources available for online communication using current technology. Prerequisite: BOT 1143 or by consent of instructor. (3,3,0)

BOT 2833 — Integrated Computer Applications. This course integrates activities using application software including word processing, database, spreadsheets, graphics, and multimedia. Prerequisite: BOT 1143, BOT 1813, BOT 2323, BOT 2813, or by consent of instructor. (3,2,2)

GRAPHIC DESIGN TECHNOLOGY (CAT)

CAT 1113 — Graphic Design and Production I. An introduction to the graphic design skills of combining text and graphics with the production requirements of industry. The course will provide selected experiences related to the creative process, typography, color models, simple renderings, printing processes, printing inks, paper selection, assembly and binding processes. Co — requisite: CAT 1213 or by consent of instructor. (3,0,6)

CAT 1123 — Graphic Design and Production II. A continuation of Graphic Design and Production I with concentration on color printing, mechanical processes, color separations, screens, cropping and scaling photographs/artwork for reproduction with continued emphasis on design, typography, assembly, and binding. Prerequisite: CAT 1113, CAT 1213 or by consent of instructor. (3,0,6)

CAT 1143 — Typography. An in — depth exploration of type with emphasis on creating, selecting and manipulation for use in commercial applications. Prerequisite: CAT 1113, CAT 1213 or by consent of instructor. (3,2,2)

CAT 1213 — Fundamentals of Graphic Computers. An introduction to graphic computer systems, industry hardware, software and techniques related to graphic design/commercial art and Web design, utilizing Adobe software and Apple Macintosh computers. (3,2,2)

CAT 2133 — Graphic Design Studio. A concentrated study in graphic design/commercial art specifically related to regional industry needs. Emphasis will be placed on projects such as printed publications, advertisements, story boards, signage, vehicle graphics and packaging. Each project is designed to the particular industry specification. Prerequisite: CAT 1113, CAT 1213 or by consent of instructor. (3,1,4)

CAT 2263 — Web Graphic Production. An in — depth study of producing and utilizing graphic elements designed for Internet or web application. Emphasis is placed equally on aesthetics, technical requirements, and principles of interactive design. The course will provide a concentrated study related to color management, typography, graphic development and manipulation, digital imaging, and creating dynamic web experiences. The focus is on the production and manipulation of individual elements and is recommended as a supplement to a web design application course or previous experience. Prerequisite: CAT 1213. (3,2,2)

CAT 2313 — Basic Advertising Design (Adobe software). Concepts and methodology related to the graphic design/commercial art industry. Student will utilize current industry software and related hardware beyond a fundamental/consumer level. Prerequisite: CAT 1113, CAT 1213 or by consent of instructor. (3,0,6)

CAT 2323 — Advanced Advertising Design (Advanced Techniques using Adobe software). A continuation of Basic Advertising Design, with emphasis on graphic computers to develop and produce advanced graphic design/commercial art projects. This course utilizes equipment and software used in industry. Prerequisite: CAT 2313 (3,0,6)

CAT 2334 — Practical Advertising Techniques. Performance skills needed for productive employment in the graphic design/commercial art field. Student interaction with local industry is required. A portfolio of students' work and graphic resume' will be produced. Industry review is required for final grade. Prerequisite: CAT 2313 or by consent of instructor. (4,2,4)

CAT 2413 — Rendering Techniques and Visual Production. A study of various illustration and rendering techniques with emphasis on creating visuals using traditional media, computer systems, digital cameras and projection devices. Students will produce visuals through a process of experimentation and creative problem solving. Prerequisite: CAT 1113, CAT 1213 or by consent of instructor. (3,2,2)

CAT 2914 — Special Project in Graphic Design Technology. Practical applications of skills and knowledge gained in other Graphic Design Technology courses. The instructor works closely with the student to ensure that selection of a special project enhances the student's learning experiences. Prerequisite: Completion of one semester of coursework in the Graphic Design Technology program. (4,2,4)

EARLY CHILDHOOD EDUCATION TECHNOLOGY (CDT)

CDT 1113 — Early Childhood Profession. This course provides an introduction to the profession of early childhood types of early childhood programs, and theories of child development. Students are required to observe, assess, and record child behavior through laboratory experience. Room arrangements, software, play, and safety are explored. (3,2,2)

CDT 1214 — Child Development I. This course provides knowledge concerning the care and development of infants and toddlers in group settings. Practice is given in infant and toddler care — giving in group settings through classroom laboratory or collaborative centers. (4,3,2)

CDT 1224 — Child Development II. The cognitive, physical, emotional, and social developmental characteristics of young children (ages 3 — 8). (4,3,2)

CDT 1314 — Creative Arts for Young Children. Students learn to plan and develop creative art activities with children. Activities with the children are implemented during Student Teaching. (4,4,0)

CDT 1343 — Child Health and Safety. Health and safety practices in the care and education of young children. Includes health and safety issues such as first aid, CPR, universal precautions, communicable diseases, and child abuse. As per State Department of Education requirements for this course, First Aid and CPR certification will be required. The student will be responsible for any additional charges required for certification. (3,3,0)

CDT 1513 — Nutrition for Young Children. This course focuses on fundamental principles of child nutrition and the practical application of this knowledge in the selection of balanced diets. (3,3,0)

CDT 1713 — Language and Literacy Development for Young Children. A study of language development and the implementation of a developmentally appropriate language arts curriculum for young children. (3,3,0)

CDT 2233 — Guiding Social and Emotional Behavior. To Identify and practice effective techniques in guiding young children's behavior. Lab activities with the children are implemented during Student Teaching. (3,3,0)

CDT 2413 — Atypical Child Development. This course provides information concerning growth and development, identification, intervention strategies, and management of atypical children. Legal, ethical, and legislative issues will be explored. Family issues will be explored. Prerequisites: CDT 1214 and CDT 1224. (3,2,2)

CDT 2613 — Methods and Materials. Appropriate methods and materials for young children in a learning environment. Lab activities with — the children are implemented during Student Teaching I and II. (3,3,0)

CDT 2714 — Social Studies, Math, and Science for Young Children. Planning developmentally appropriate activities in social studies, math, and science for the young child. Lab activities with the children are implemented during Student Teaching I and II. (4,4,0)

CDT 2813 — Administration of Programs for Young Children. Development and administration of programs for young children to include an emphasis on evaluation of policies and procedures, organizational structure, and management. Prerequisites: First three semesters of core courses. (3,2,2)

CDT 2915 — Student Teaching I. This course allows advanced early childhood students to implement knowledge and experience in preparing and implementing positive experiences for young children. Completion of the competencies provides opportunities for students to implement experiences planned in the pre — requisites and ensures a balance of all curriculum areas. Not all competencies will be achieved at the end of this course due to the variance that exists in the childhood settings used for student experiences. Other competencies will be achieved and documented by the end of the two — year program of study. Prerequisites: CDT 1214, CDT 1224, CDT 1314, CDT 1713, and CDT 1343 Corequisite: CDT 1513. (5,0,10)

CDT 2925 — Student Teaching II. This course is a continuation of Student Teaching I which allows advanced early childhood students to implement knowledge and experience in preparing and implementing positive experiences for young children. Completion of the competencies provides opportunities for students to implement experiences planned in the pre — requisites and ensures a balance of all curriculum areas. All competencies will be achieved and documented by the completion of the two student teaching courses. Prerequisites: CDT 1314, CDT 2613, CDT 2714 Corequisite: CDT 2813. (5,0,10)

CHEMISTRY (CHE)

CHE 1214 — General Chemistry I. A combined lecture and laboratory course that covers atomic and molecular structure, nomenclature and chemical formulas, chemical reactions, mole concept and stoichiometry, bonding, and gases. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisites: The student must meet one or more of the following requirements: (1) completed CHE 1314, (2) completed one year of high school chemistry and one year of algebra, (3) ACT composite of 19 and math score of 21, (4) satisfactory score on challenge exam. (4,3,2)

CHE 1224 — General Chemistry II. A combined lecture and laboratory course that covers solutions, kinetics, equilibria, thermodynamics, acid — base chemistry, and electrochemistry. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: CHE 1214. (4,3,2)

CHE 1314 — Principles of Chemistry I. A combined lecture and laboratory course that emphasizes basic terminology, measurement, atomic structure, periodic table, chemical bonding, stoichiometry, energy and states of matter. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

CHE 1324 — Principles of Chemistry II. A combined lecture and laboratory course that emphasizes chemical stoichiometry, gases, solutions, acids/bases, and an introduction to organic chemistry. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: CHE 1314 or CHE 1214. (4,3,2)

CHE 2425 — Organic Chemistry I. A combined lecture and laboratory course that covers carbon chemistry, bonding structure and behavior, aliphatic compounds, stereochemistry, and reaction mechanisms. Labs associated with this course acquaint students with important manipulations and procedures, and the preparation and study of organic compounds. Prerequisite: CHE 1214 and 1224. (5,3,4)

CHE 2435 — Organic Chemistry II. A combined lecture and laboratory course that covers spectroscopy, aromatic compounds, carbonyl compounds and other complex compounds, with emphasis on reactions, reaction mechanisms, and nomenclature. Labs associated with this course acquaint students with important manipulations and procedures, as well as the preparation and study of aromatic and complex organic compounds. (5,3,4)

COOPERATIVE EDUCATION PROGRAMS (COE)

The Cooperative Education Program is available to students enrolled in academic, technical, or career programs. The following courses provide credit for Cooperative Education work experience.

COE 1013 — Cooperative Education Work Experience I. First supervised work experience performed in a job setting related to student's major field of study. The work experience is under the supervision of the Cooperative Education Coordinator. Two hundred fifty — five hours. Three semester hours.

COE 1023 — Cooperative Education Work Experience II. (Prerequisite: COE 1013). Second supervised work experience. Two hundred fifty-five hours. Three semester hours.

COE 1033 — Cooperative Education Work Experience III. (Prerequisite: COE 1023). Third supervised work experience. Two hundred fifty-five hours. Three semester hours.

COE 1043 — Cooperative Education Work Experience IV. (Prerequisite: COE 1033). Fourth supervised work experience. Two hundred fifty-five hours. Three semester hours.

CONSTRUCTION MANAGEMENT TECHNOLOGY (CON)

CON 1113 — Survey of Modern Construction. Fundamentals of the construction environment, methods, materials, and processes from a historical perspective, and the impact on the construction industry. (3,2,2)

CON 1213 — Construction Materials. Study and testing of the various materials used in the construction industry including on-site asphaltic and Portland cement concrete, reinforced concrete, pre-stressed concrete, and soils. (3,2,2)

CON 1223 — Plans and Document Interpretation. Graphic techniques used in the construction industry. Includes computation of areas and volumes, interpretation of building plans and specifications, and symbols and terms used in the residential and commercial construction industry. (3,2,2)

CON 1233 — Construction Systems I. Common practices of design and construction of commercial and heavy structures. (3,2,2)

CON 2113 — Construction Job Site Management. Basic techniques of the modern methods of managing construction projects including critical path scheduling, resource allocation, and funds flow. Practical applications are made through simulated projects. (3,2,2)

CON 2123 — Construction Cost Estimation. Theory of estimating; quantity survey; unit cost synthesis and analysis; bid organization and planning; competitive simulations and exercises. Computer software programs are utilized to develop simulated construction bid. (3,2,2)

CON 2233 — Construction Systems II. A study of material properties and common practices of design and construction of civil/highway structures. Also, the operation and cost of construction machinery and equipment, power generating equipment, and powered fastening systems will be covered. (3, 2,2)

CON 2313 — Construction Layout. Principles of site preparation and layout of structures. Use of levels, tapes, and surveying instruments. Triangle calculations, differential leveling, and erection of batter boards and markers are included. (3,1,4)

CON 2413 — Construction Safety Standards. Management of safety and health in the construction environment. Basic elements of a safety and health program for the construction general contractor are examined to include Occupational Safety and Health administration (OSHA). (3,2,2)

CON 2513 — Leadership and Organization. Study of the effective leadership and management styles in the construction industry. Also, how the construction industry is organized at the local, state, and national levels. (3,2,2)

CON 2613 — Internship I. A cooperative program between the construction industry and education which is designed to integrate the student's technical studies with on-site construction experiences. Offer only in the summer term. Credit is awarded on the basis of 1 semester hour per 45 hours of on-site experience. (3 sch: 135 work hrs.)

CON 2623 — Internship II. Continuation of CMT 2616 with advanced placement in the on-site construction. Offer only in the summer term. Credit is awarded on the basis of 1 semester hour per 45 hours of on-site experience. (3 sch: 135 work hrs.)

CON 291(1-3) — Special Problem in Construction Engineering Technology. A course to provide students with an opportunity to utilize skills and knowledge gained in other Construction Engineering Technology courses. The instructor and student work closely together to select a topic and establish criteria for completion of the project. (1- sch: 2-6 hr. lab)

COSMETOLOGY (COV)

COV 1122 — Cosmetology Orientation. This course will cover the history, career opportunities, life skills, professional image, and communicating for success in the cosmetology industry. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,2,0)

COV 1245 — Cosmetology Sciences I. This course consists of the study of bacteriology, sterilization, and sanitation. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (5,3,6)

COV 1255 — Cosmetology Sciences II. This course consists of the study of anatomy and physiology. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (5,3,6)

COV 1263 — Cosmetology Sciences III. This course consists of the application and demonstration of chemistry and electricity. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (3,2,3)

COV 1426 — Hair Care I. This course consists of the study of properties of the hair and scalp; principles of hair design; shampooing, rinsing, and conditioning; haircutting; hairstyling; braiding and braid extensions; wigs and hair enhancements; chemical texture services; and hair coloring. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (6,2,12)

COV 1436 — Hair Care II. This course consists of the advanced study of properties of the hair and scalp; principles of hair design; shampooing, rinsing, and conditioning; haircutting; hairstyling; braiding and braid extensions; wigs and hair enhancements; chemical texture services; and hair coloring. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (6,2,12)

COV 1443 — Hair Care III. This course consists of the practical applications of the study of properties of the hair and scalp; principles of hair design; shampooing, rinsing, and conditioning; haircutting; hairstyling; braiding and braid extensions; wigs and hair enhancements; chemical texture services; and hair coloring. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (3,0,9)

COV 1522 — Nail Care I. This course consists of basic nail care services including nail structure and growth, manicuring and pedicuring, and advanced nail techniques. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices a safety precautions associated with each. (2,1,3)

COV 1532 — Nail Care II. This course consists of basic nail care services including nail structure and growth, manicuring and pedicuring, and advanced nail techniques. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices a safety precautions associated with each. (2,1,3)

COV 1542 — Nail Care III. This course consists of basic nail care services including nail structure and growth, manicuring and pedicuring, and advanced nail techniques. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices a safety precautions associated with each. (2,0,6)

COV 1622 — Skin Care I. This course consists of the introduction to basic skin care services including anatomy of skin, disorders of skin, hair removal, facials, and facial makeup. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,1,3)

COV 1632 — Skin Care II. This course consists of the introduction to basic skin care services including anatomy of skin, disorders of skin, hair removal, facials, and facial makeup. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,1,3)

COV 1642 — Skin Care III. This course consists of the introduction to basic skin care services including anatomy of skin, disorders of skin, hair removal, facials, and facial makeup. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,0,6)

COV 1722 — Salon Business I. This course will cover preparing to operate a successful salon. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,1,3)

COV 1732 — Salon Business II. This course will cover preparing to operate a successful salon. Included are classroom theory and lab practice as governed by Mississippi cosmetology laws, rules, and regulations involved in cosmetology practices and safety precautions associated with each. (2,1,3)

COV 2816 — Cosmetology Teacher Training I. Instruction will be given in developing appropriate communication skills, effective use of visual aids, identification of various teaching styles, and practical application of cosmetology instruction. (6,3,9)

COV 2826 — Cosmetology Teacher Training II. Instruction will be given in development of instructional methods, development of visual aids, development of effective evaluation, and practical application of cosmetology instruction. (6,3,9)

COV 2836 — Cosmetology Teacher Training III. Instruction will be given in development of appropriate lesson plans and practical application of cosmetology instruction. (6,3,9)

COV 2846 — Cosmetology Teacher Training IV. Instruction will be given in classroom management techniques; cosmetology laws, rules, and regulations; and practical application of cosmetology instruction. (6,3,9)

COMPUTER PROGRAMMING (CPT)

CPT 1323 — Survey of Microcomputer Applications. This course will introduce word processing, spreadsheet, and database management software with integration of these applications. (3,2,2)

CRIMINAL JUSTICE (CRJ)

CRJ 1313 — Introduction to Criminal Justice. History, development, philosophy and constitutional aspects of law enforcement in a democratic society; introduction to and survey of the agencies and processes, purposes and functions involved in the administration of criminal justice. (3,3,0)

CRJ 1323 — Police Administration and Organization. Introduction to principles of organization and management as applied to law enforcement agencies; introduction to concepts or organizational behavior, administration of staff units, personnel recruitment, training, and discipline with relationship of agencies and the public. (3,3,0)

CRJ 1353 — Internship in Criminal Justice. Internship in an approved criminal justice agency under supervision of the agency concerned and college instructor. Written report required of student and written evaluation of student made by agency furnishing training. Prerequisites for the 3 hour internship are: CRJ 1313, CRJ 1323. Must be a minimum of 18 years of age. (3,0,9) Prerequisites for the 12 hour internship are: Completion of all lecture courses. Must be a minimum of 21 years of age. (12,0,40)

CRJ 1363 — Introduction to Corrections. This course is intended to give the student an overview of the correctional field: its origins, historical and philosophical background, development, current status, relationship with other facets of the criminal justice system and future prospects. (3,3,0)

CRJ 1383 — Criminology. This course is designed to give the student an overview of the theories of criminality exploring theories of crime causation, crime typologies, and the criminal justice system. (3,3,0)

CRJ 2313 — Police Operations. A study of the operation and administration of law enforcement agencies. Particular emphasis is placed on the functions of the patrol division. (3,3,0)

CRJ 2323 — Criminal Law. Basic elements of criminal law under the Constitution of the United States, state Constitutions, and federal and state statutes. (3,3,0)

CRJ 2333 — Criminal Investigation. Fundamentals, search and recording, collection and preservation of evidence, finger printing, photography, sources of information, interviews and interrogation. Follow up. (3,3,0)

CRJ 2393 — Survey of Criminalistics. The study of scientific crime detection methods; modus operandi, crime scene search, preservation of evidence, research projects and class participation required. (3,3,0)

CRJ 2413 — Administration of Criminal Justice. A study of the legal concepts and procedures, including laws of arrest and search warrant procedure, beginning with issuance of legal process to ultimate dispositions, including information, indictments, arraignments, preliminary hearings, bail, juries and the trial. (3,3,0)

CRJ 2513 — Juvenile Justice. The role of police in juvenile delinquency and control. The organization, functions and jurisdiction of juvenile agencies; the processing and detention of juveniles; juvenile care disposition and juvenile statutes and court procedures. (3,3,0)

COMMERCIAL/RESIDENTIAL MAINTENANCE (CRM)

CRM 1112 — Fundamentals of Maintenance Services. Emphasis on basic concepts and practices in the maintenance programs for commercial and residential facilities including scheduling, work order systems, workforce management, inventory control, and safety and right-to-know programs. (2,1,2)

CRM 1121 — Maintenance Regulations. Basic information on the various federal, state, and local regulations agencies that govern maintenance operations and practices, including Occupational and Safety Health Act (OSHA), Environmental Protection Agency (EPA), and American with Disabilities Act (ADA). (1,0,2)

CRM 1133 — Mathematics and Blueprint Interpretation. Basic instruction in mathematics and the methods of interpreting information and the relationship of details and sections to an overall blueprint utilizing scale drawings, symbols, abbreviations, floor plans, elevations, and specifications tables. (3,1,4)

CRM 1214 — Carpentry. Basic course in carpentry skills required to perform building maintenance activities. Covers the installation methods and materials available to make repairs to building structures using accepted trade practices. (4,1,6)

CRM 1222 — Surface Finishes. Various techniques and processes of surface cleaning, preparation, and repair. (2,1,2)

CRM 1313 — Masonry. Techniques of brick, block, and ceramic tile laying and repair processes to include safety practices. (3,1,4)

CRM 1414 — Plumbing. Basic design, function, maintenance, repair, and replacement of all types of light commercial and residential plumbing fixtures. (4,1,6)

CRM 1432 — Landscape Irrigation. Basic use of irrigation in residential and light commercial applications. Sprinkler designs and plans, practices, equipment, and maintenance for single-family dwellings, light commercial buildings, and apartment/townhouse complexes. (2,1,2)

CRM 1514 — Electrical. Basic electrical diagnosis and repair techniques including basic circuit theory, safety and grounding essentials, wiring systems, circuitry, and electrical troubleshooting. (4,1,6)

CRM 1615 — Heating, Ventilating, and Air Conditioning (HVAC). Basic principles, operation, maintenance, and repair of heating, ventilation, air conditioning, ice machines, and refrigerators in residential and light commercial buildings. (5,1,8)

CRM 291(1-3) — Special Project in Commercial Residential Maintenance. Practical application of skills and knowledge gained in other building maintenance courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Prerequisites: Consent of the instructor. (1-3,0,2-6)

COMPUTER SCIENCE (CSC)

CSC 1113 — Computer Concepts. A computer competency course which introduces concepts, terminology, operating systems, electronic communications, and applications. Concepts are demonstrated and supplemented by hands-on computer use. (This course is designed for students who are not ready for CSC 1123. Students who take this course should have the ability to type and to operate a mouse.) (3,3,0)

CSC 1123 — Computer Applications I. This course is designed to teach computer applications to include: word-processing, electronic spreadsheet, database management, presentation design, and electronic communications with integration of these applications. (This will satisfy most university requirements for a “computer science” course although some university programs require only CSC 1113. Check with your specific university program for their computer literacy requirement.) (3,3,0)

CSC 1213 — VISUAL BASIC Computer Programming I. This course is designed to introduce the writing of event-driven programs using the VISUAL BASIC computer programming language with emphasis on problem solving, documentation, program statements, algorithms, and common routines. Prerequisite: MAT 1213 or high school algebra I. (3,3,0)

CSC 1223 — VISUAL BASIC Computer Programming II. This course is designed as a continuation of CSC 1213 with advanced event-driven programming concepts using the VISUAL BASIC language with emphasis on functions, modules, search and sort algorithms, sequential access, random access, and external file management. Prerequisites: CSC 1213 and MAT 1233 or equivalent. (3,3,0)

CSC 1613 — Computer Programming I. Introduction to problem-solving methods and algorithm development which emphasizes the imperative first approach; designing, debugging, looping, scope rules, functions, and a variety of applications in an object-oriented programming language. Prerequisite: CSC 1213 or previous programming experience or permission of instructor. (3,3,0)

CSC 2134 — Programming I with C++. An introduction to problem solving methods, algorithm development, designing, debugging, and documentation in C++ language with a variety of applications including: I/O statement, arithmetic, logical, conditional, looping, methods/functions, and array processing. Prerequisite: MAT 1313 and CSC 1213, previous programming experience or permission of instructor. (4,3,2)

CSC 2144 — Programming II with C++. Continued program and algorithm development and analysis; search/sort methods; abstract data types and object-oriented design; designing and debugging larger programs using C++ language. Prerequisite: CSC 2134. (4,3,2)

CSC 2323 — FORTRAN Programming. This course is a programming course with emphasis on the syntax and structure of FORTRAN programming using problem solving applications in mathematics, engineering and science. Prerequisite: MAT 1233 or higher. (3,2,2)

CSC 2413 — COBOL Programming. An introduction to structured COBOL language includes design and debugging, I/O processing, arithmetic statements, report generating, looping, conditional statements, control breaks, and table processing with emphasis on problem solving application in business. (3,2,2)

CSC 2623 — Computer Programming II. Continuation of the object-oriented language from CSC 1613 and advanced program development; algorithm analysis; string processing; recursion; internal search/sort methods; simple data structures; debugging, and testing of large programs. Prerequisite: CSC 1613. (3,3,0)

COMPUTER SERVICING TECHNOLOGY (CST)

CST 1114 — Electronics for Computer Servicing. This course discusses the concepts of electronics. Topics include DC and AC fundamentals, instrument and test equipment familiarization, soldering, and terminology. (4,2,4)

CST 1123 — Basic Computer Systems. A survey of computer components. Topics include hardware compatibility, system architecture, memory, input devices, video displays, disk drives, modems, and printers. (3,2,2)

CST 1333 — Operating Platforms. Study of operating platforms. Emphasis will be placed on support personnel interaction with the platform to assist users in business environments. (3,2,2)

CST 2113 — Computer Servicing Lab I. Fundamentals of computer servicing. Includes configuration, test equipment usage, basic disassembly and assembly methods, preliminary tests and diagnostics, schematic interpretation, and building cables. Prerequisite or Corequisite: CST 1123. (3,0,6)

CST 2123 — Computer Servicing Lab II. A continuation of Computer Servicing I with increased emphasis on system analysis and diagnosis of board and component failures. Emphasis on laboratory experience with computer repair. Prerequisite: CST 2113. (3,0,6)

CST 2134 — Diagnosing and Troubleshooting. Diagnosing and troubleshooting operating systems, common hardware problems, and system malfunctions, including peripherals. Prerequisite/Corequisite: CST 2113. (4,2,4)

CST 2913 — Special Project. Practical application of skills and knowledge gained in other electronics or electronics-related technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Prerequisite: Instructor approval. (3,2,2)

DANCE (DAN)

DAN 1113 — Dance Appreciation. A survey of Dance as a worldwide phenomenon of human behavior and its function in human society, past and present. (3,3,0)

DAN 1321 — Jazz Dance II. The study and application of jazz movement. Open to non-majors with consent of the instructor. (1,1,0)

DAN 1571 — Dance I. Lecture and participation in beginning Modern Dance Technique. May count for HPR credit for graduation purposes at MGCCC. (1,0,2)

DAN 1581 — Dance II. Lecture and participation in Ballet Dance Technique. May count for HPR credit for graduation purposes at MGCCC. (1,0,2)

DAN 2571 — Dance III. Lecture and participation in beginning Tap Dance Technique. May count for HPR credit for graduation purposes at MGCCC. (1,0,2)

DAN 2581 — Dance IV. Lecture and participation in beginning Jazz Dance Technique. May count for HPR credit for graduation purposes at MGCCC. (1,0,2)

DRAFTING (DDT)

DDT 1114 — Fundamentals of Drafting. Fundamentals and principles of drafting to provide the basic background needed for all other drafting courses. (4,2,4)

DDT 1133 — Machine Drafting I. Emphasizes methods, techniques, and procedures in presenting screws, bolts, rivets, springs, thread types, symbols for welding, materials, finish and heat treatment notation, working order preparation, routing, and other drafting room procedures. Prerequisite: DDT 1114 and DDT 1313. (3,1,4)

DDT 1153 — Descriptive Geometry. Theory and problems designed to develop the ability to visualize points, lines, and surfaces of space. Prerequisite: DDT 1114. (3,1,4)

DDT 1213 — Construction Materials. Physical properties of the materials generally used in the erection of a structure, with a brief description of their manufacture. (3,2,2)

DDT 1313 — Principles of CAD. Basic operating system and drafting skills on CAD. (3,2,2)

DDT 1323 — Intermediate CAD. Continuation of Principles of CAD. Subject areas include dimensioning, sectional views, and symbols. Prerequisite: DDT 1313. (3,2,2)

DDT 1353 — Total Quality Management. Philosophy, principles, and techniques for the foundation and maintenance of a continuously-improving environment. (3,2,2)

DDT 1413 — Elementary Surveying. Basic course dealing with principles of geometry, theory, and use of instruments, mathematical calculations, and the control and reduction of errors.(3,1,4)

DDT 1513 — Blueprint Reading I. Terms and definitions used in reading blueprints. Basic sketching, drawing, and dimensioning of objects will be covered. (3,2,2)

DDT 1613 — Architectural Design I. Presentation and application of architectural drafting room standards. Also the study of architectural design of a residential structure. Prerequisites: DDT 1114 and DDT 1313. (3,1,4)

DDT 2153 — Civil Drafting. Course dealing with basic principles of surveying and the development of topographical maps. Prerequisite: DDT 1114, DDT 1313. (3,2,2)

DDT 2163 — Machine Drafting II. A continuation of Machine Drafting I with emphasis on advanced techniques and knowledge employed in the planning of mechanical objects. Includes instruction in the use of tolerance and dimensioning techniques. Prerequisite: DDT 1133. (3,2,2)

DDT 2213 — Structural Drafting II. Study of the miscellaneous areas of structural drafting including stairs, handrails, and cage ladders. Prerequisites: DDT 1323 and DDT 2233. (3,1,4)

DDT 2233 — Structural Drafting I. Structural section, terms, and conventional abbreviations and symbols used by structural fabricators and erectors are studied. Knowledge is gained I the use of the A.I.S.C. Handbook. Problems are studied that involve structural designing and drawing of beams, columns, connections, trusses, and bracing (steel, concrete, and wood.) Prerequisites: DDT 1114 and DDT 1313. (3,1,4)

DDT 2243 — Cost Estimating. Preparation of material and labor quantity surveys from actual working drawings and specifications. Prerequisite: DDT 1213. (3,2,2)

DDT 2253 — Statics and Strength of Materials. Study of forces acting on bodies; moments of forces; stress of materials; basic machine design, beams, columns, and connections. Prerequisite: MAT 1313. (3,2,2)

DDT 2273 — Facilities Planning. This course deals with the techniques and procedures for developing an efficient facility layout and introduces some of the state — of — the — art tools involved, such as 3D design and computer simulation. (3,2,2)

DDT 2343 — Advanced CAD. A continuation of Intermediate CAD. Emphasis is placed on the user coordinate system and 3D modeling. Prerequisite: DDT 1323. (3,1,4)

DDT 2353 — CAD Management. Topics include technical and business aspects of CAD. Standards, customization, networking, Internet integration, and employee support will be covered. Prerequisite: DDT 1323. (3,2,2)

DDT 2423 — Mapping and Topography. Selected drafting techniques are applied to the problem of making maps, traverses, plot plans, plan drawings, and profile drawings using maps, field survey data, aerial photographs, and related references and materials including symbols, notations, and other applicable standardized materials. Prerequisites: DDT 1413 and DDT 1323. (3,2,2)

DDT 2433 — Legal Principles of Surveying. Legal aspects of boundary controls for the survey and resurvey of real property. Prerequisite: DDT 1413. (3,2,2)

DDT 2443 — Advanced Surveying. Principles of land surveying, methods of boundary locations, and land description in accordance with original surveys and resurveys. Prerequisite: DDT 1413. (3,1,4)

DDT 2453 — GPS/GIS Surveying. Principles of surveying utilizing artificial earth orbit satellites and digitizing the information obtained to establish a useful database. Prerequisite: DDT 1413. (3,1,4)

DDT 2523 — Pipe Drafting. Instruction in the basic knowledge needed to create process piping drawings using individual piping components. Prerequisites: DDT 1114 and DDT 1313. (3,2,2)

DDT 2533 — Highway Drafting. A basic study of highway drafting. Horizontal alignment of route surveys in the plan view, vertical alignment of route surveys in the profile view, typical sections, cross sections, and area calculations and estimation of quantities. Prerequisites: DDT 1114 and DDT 1323. (3,2,2)

DDT 2543 — Steel Ship Building and Design. Instruction in the basic steel ship building and the process of ship design and planning. Prerequisite: DDT 1114. (3,2,2)

DDT 2563 — Introduction to Shipbuilding and Blueprint Reading. Introduction to basic shipbuilding and the process of ship design and planning. This course will also provide students with terms, definitions and reading basic blueprints. Utilizing skills in basic drawing and dimensioning of objects will be covered. (3,2,2)

DDT 2623 — Architectural Design II. Emphasizes standard procedures and working drawings. Details involving architectural, mechanical, electrical, and structural drawings are covered, along with presentation of drawings and computer-aided design assignments. Prerequisite: DDT 1613. (3,1,4)

DDT 2664 — Marine Systems Integration. The contents of this course are developed for a designer apprentice position. This course places emphasis on the integration of hull and machinery systems into a complete vessel package. The design and analysis of general guidance, hull structure, propulsion, electrical, command and surveillance, auxiliary systems, outfitting and furnishings, and armament are investigated. Included is the study of equipment installation, plating and bulkheads, propulsion systems, power generation, combat systems, HVAC and weapons management. (4,4,0)

DDT 2713 — Fundamentals of Multimedia. A general overview of current issues in multimedia. Study of how multimedia can assist in the work environment, provides a basis for further study in multimedia design and production. (3,1,4)

DDT 2913 — Special Project. Practical application of skills and knowledge gained in other drafting courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Prerequisite: Consent of instructor. (3,0,6)

COMMERCIAL TRUCK DRIVING (DTV)

DTV 1114 — Commercial Truck Driving I. A course to provide fundamental instruction on safety, rules and regulations, driving practices, air brakes, hazardous materials, and emergencies. This course also includes instruction and practice in performing vehicle inspections, coupling and uncoupling, maneuvering, backing, and driving a tractor-trailer truck under varying road and climate conditions. One hundred and twenty hours of instruction. Four semester hours.

DTV 1124 — Commercial Truck Driving II. Continuation of Commercial Truck Driving I with additional instruction on safety, rules and regulations, driving practices, air brakes, hazardous materials, and emergencies. This course also includes instruction and practice in performing vehicle inspections, coupling and uncoupling, maneuvering, backing, and driving a tractor-trailer truck under varying road and climate conditions. One hundred and twenty hours of instruction. Four semester hours.

ECONOMICS (ECO)

ECO 2113 — Principles of Macroeconomics. The study of a nation's economy to include the following topics: supply and demand, production possibilities, monetary and fiscal policies, factors of production, GDP/business cycles and economic growth, circular flow of market economies and international trade. (3,3,0)

ECO 2123 — Principles of Microeconomics. The study of firms, industries and consumers to include the following topics: supply and demand, elasticity of demand and supply, consumer choice theory, production and cost theory and market structures. (3,3,0)

EDUCATION (EDU)

EDU 2513 — Introduction to Elementary Education. An introduction to elementary schools and the role of teachers. Study of philosophical thought and inquire in relation to educational assumptions, questions, problems and alternatives. Includes a minimum of 40 hours field experience in the elementary schools. (3,3,0)

EDU 2613 — Introduction to Secondary Education. Early field experience in the secondary school, formulation of a basic philosophy of education. Includes a minimum of 40 hours field experience in junior and/or senior high schools. (3,3,0)

ELECTRONICS TECHNOLOGY (EET)

EET 1114 — DC Circuits. This course is designed for students to know the principles and theories associated with DC circuits. This course includes the study of electrical circuits, laws and formulae, and the use of test equipment to analyze DC circuits. Co-requisite: EET 1192. (4,2,4)

EET 1123 — AC Circuits. This course is designed to provide students with the principles and theories associated with AC circuits. This course includes the study of electrical circuits, laws and formulae, and the use of test equipment to analyze AC circuits. Pre/corequisite: EET 1114 (3,2,2)

EET 1192 — Fundamentals of Electronics. This course is designed to provide fundamental skills associated with all electronics courses. This course includes safety, breadboarding, use of calculator, test equipment familiarization, soldering, electronic symbols, and terminology. (2,1,2)

EET 1214 — Digital Electronics. A course designed to introduce the student to number systems, logic circuits, counters, registers, memory devices, combination logic circuits, Boolean algebra, and a basic computer system. Prerequisite: EET 1192. (4,3,2)

EET 1324 — Microprocessors. This course is designed to provide students with skills and knowledge of microprocessor architecture, machine and assembly language, timing, interfacing, and other hardware applications associated with microprocessor systems. Prerequisite: EET 1214. (4,2,4)

EET 1334 — Solid State Devices and Circuits. This course is designed to introduce the student to active devices, which include PN junction diodes, bipolar transistors, bipolar transistor circuits, and unipolar devices with emphasis on low frequency application and troubleshooting. Pre/corequisites: EET 1123, EET 1114. (4,2,4)

EET 1613 — Computer Fundamentals for Electronics/Electricity. This course introduces the student to basic computer science as used in electricity/electronics areas. Computer nomenclature, logic, numbering systems, coding, operating systems commands, editing, and batch files are covered. This course may be substituted for Introduction to Computers CPT 1113. (3,2,2)

EET 1713 — Drafting for Electronic/Electrical Technology. This course is designed to provide instruction on the preparation and interpretation of schematics. (3,1,4)

EET 2334 — Linear Integrated Circuits. This course is designed to provide the student with skills and knowledge associated with advanced semiconductor devices and linear integrated circuits. Emphasis is placed on linear integrated circuits used with operational amplifiers, active filters, voltage regulators, timers and phase-locked loops. Prerequisite: EET 1334. (4,3,2)

EET 2414 — Electronic Communications. This course is designed to provide the student with concepts and skills related to analog and digital communications. Topics covered include amplitude and frequency modulation, transmission, and reception, data transmission formats and codes and modulation-demodulation of digital communications. Prerequisite: EET 1334. (4,2,4)

EET 2423 — Fundamentals of Fiber Optics. This course is designed to provide skills and knowledge concerning the use of fiber optic cable in modern industry applications. Pre/corequisite: EET 2414. (3,2,2)

EET 2514 — Interfacing Techniques. This course is a study of data acquisition devices and systems including their interface to microprocessors and other control systems. Prerequisite: EET 1214. (4,2,4)

EET 2913 — Special Project. This course is designed to provide the student with practical application of skills and knowledge gained in other electronics or electronics-related technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Prerequisite: Consent of instructor. (3,0,6)

ENGINEERING (EGR)

EGR 2413 — Engineering Mechanics I: Statics. A lecture course covering the equilibrium of point objects and extended objects in two and three dimensions using vector algebra. Also discussed are distributed forces, structures, friction, and moments of inertia in two and three dimensions. Prerequisite: Credit or enrollment in MAT 1623. (3,3,0)

ELECTRICAL TECHNOLOGY (ELT)

ELT 1113 — Residential/Light Commercial Wiring. This course provides advanced skills related to the wiring of multi-family and small commercial buildings. This course includes instruction and practice in service entrance installation, specialized circuits, and the use of commercial raceways. Prerequisite: ELT 1192. (3,2,2)

ELT 1123 — Commercial and Industrial Wiring. This course provides instruction and practice in the installation of commercial and industrial electrical services including the types of conduit and other raceways, NEC code requirements, and three-phase distribution networks. Prerequisites: ELT 1192. (3,2,2)

ELT 1133 — Introduction to the National Electric Code. This is a course in the layout, format, rules, and regulations set forth in the National Electric Code. Emphasis is placed on developing the student's ability to find information in the National Electric Code and apply that information in real world applications. (3,2,2)

ELT 1144 — AC and DC Circuits for ELT. Principles and theories associated with AC and DC circuits used in the electrical trades. Includes the study of electrical circuits, laws and formulas, and the use of test equipment to analyze AC and DC circuits. (4,2,4)

ELT 1192 — Fundamentals of Electricity. This is a basic course designed to provide fundamental skills associated with all electrical courses. It includes safety, basic tools, special tools, equipment, and introduction to simple AC and DC circuits. (2,1,2)

ELT 1213 — Electrical Power. This course provides skills related to electrical motors and their installation. This course includes instruction and practice in using the different types of motors, transformers, and alternators. Prerequisite: ELT 1192. (3,2,2)

ELT 1223 — Motor Maintenance and Troubleshooting. This course provides instruction in the principles and practice of electrical motor repair. This course includes topics on the disassembly/assembly and preventive maintenance of common electrical motors. Prerequisite: ELT 1192. (3,2,2)

ELT 1253 — Branch Circuit and Service Entrance Calculations. This is a course in calculating circuit sizes for all branch circuits and service entrances in residential installation. (3,2,2)

ELT 1263 — Blueprint Reading/Planning the Residential Installation. This course provides knowledge of architectural symbols and electric symbols needed to read blueprints. All elevations and various plans associated with electrical wiring will be studied. Blank blueprints will be provided and a list of all appliances and their amperage will be supplied. The blanks will be filled with receptacles, switches, and lighting outlets as required by NEC. Circuit layouts for all switching will be demonstrated. All branch circuits will be plotted on the blueprint. (3,2,2)

ELT 1273 — Switching Circuits for Residential, Commercial, and Industrial Application. This course is designed to introduce the student to the various methods by which single pole, 3-way, and 4-way switches are used in residential, commercial, and industrial installations. This course also includes the installation and operation of low voltage, remote control switching. (3,2,2)

ELT 1283 — Estimating the Cost of a Residential Installation. A course to provide a probable cost of a residential installation. It will include a study of the specifications set forth for a particular structure. (3,2,2)

ELT 1413 — Motor Control Systems. This is a course in the installation of different motor control circuits and devices. Emphasis is placed on developing the student's ability to diagram, wire, and troubleshoot the different circuits and mechanical control devices. Prerequisite: ELT 1102. (3,2,2)

ELT 2424 — Solid State Motor Control. This course deals with the principles and operation of solid — state motor control. This course includes instruction and practice in design, installation, and maintenance of different solid — state devices for motor control. Prerequisite: ELT 1413. (4,2,4)

ELT 2613 — Programmable Logic Controllers. This course provides instruction and practice in the use of programmable logic controllers (PLC's) in modern industrial settings. This course includes instruction in the operating principles of PLC's and practice in the programming, installation, and maintenance of PLC's. Prerequisite: ELT 1413. (3,2,2)

ELT 2623 — Advanced Programmable Logic Controllers. This is an advanced PLC course, which provides instruction in the various operations, installations, and maintenance of electric motor controls. This course will provide information in such areas as sequencer, program control, block transfer used in analog input and output programming, and logical and conversion instructions. Prerequisites: ELT 2613 and ELT 1413. (3,2,2)

ELT 2913 — Special Project. This course is designed to provide the student with practical application of skills and knowledge gained in other electronics or electronics — related technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Prerequisite: Consent of instructor. (3,0,6)

EMERGENCY MEDICAL TECHNICIAN — PARAMEDIC (EMT)

**The Prerequisite for all advanced-level EMT courses identified by an * is the successful completion of EMT-Basic (EMT-1116). Further, all first semester EMT-prefaced courses are prerequisite for second semester courses, and all second semester courses are prerequisite for third semester courses.*

EMT 1116 — EMT Basic Course. This course is an instructional program that prepares individuals to function in the prehospital environment. The EMT-Basic program provides instruction in basic life support care of sick and injured persons, including airway assessment, shock management, communications, documentation, general pharmacology for the basic provider, hemorrhage control, ambulance operations, and splinting of adult, pediatric and infant patients, as well as special care of patients exposed to heat, cold, radiation, hazardous materials, poisons or contagious disease. This course is prerequisite for entry to the EMT-Paramedic Training Program.

Upon completion of this course, the student is eligible to write the National Registry examination for EMT-Basic and if successful, may then petition the state of Mississippi for certification as an EMT-Basic.

EMT 1122 — Fundamentals of Pre-hospital Care. This course introduces the student to the EMS systems, roles and responsibilities of the paramedic, well being of the paramedic, illness and injury prevention, medical/legal issues, ethical issues, therapeutic communications, and life span development. Prerequisite: * (3,2,2)

EMT 1315 — Airway Management and Ventilation. This course will provide the student with the essential knowledge to attain a patent airway and managing the respiratory system using advanced techniques. (3,1,4)

EMT 1415 — Patient Assessment. This course will teach comprehensive history taking and physical examination techniques. (4,2,4)

EMT 1423 — EMS Special Considerations. This course will provide a comprehensive overview of providing care for the patient with special needs. (3,1,4)

EMT 1513 — Clinical Internship I. This course will provide clinical training on the skills and knowledge obtained in the classroom and laboratory. This will be a supervised activity carried out in the clinical setting at approved sites. (1,0,3)

EMT 1523 — Clinical Internship II. This course will provide clinical training on the skills and knowledge obtained in the classroom and laboratory. This will be a supervised activity carried out in the clinical setting at approved sites. (1,0,9)

EMT 1613 — Pre-hospital Pharmacology. This course will teach comprehensive pharmacodynamics and pharmacokinetics. (3,2,2)

EMT 1825 — Pre-hospital Cardiology. This course will teach comprehensive approach to the care of patients with acute cardiovascular compromise. (5,2,6)

EMT 2412 — Pre-hospital OB/GYN. This course will provide training in the management of emergency childbirth and complications encountered with childbirth in the field. The course will also address the treatment and management of the newborn. (2,2,0)

EMT 2423 — Pre-hospital Pediatrics. This course will give an understanding of the special problems and considerations in the management of pediatric emergencies.

EMT 2552 — Field Internship I. This course will provide clinical training in the skills and knowledge obtained in the classroom. These will be supervised activities carried out in the out-of-hospital (field) setting at approved sites with an approved preceptor. (2,0,6)

EMT 2564 — Field Internship II. This course will provide advanced clinical training in the skills and knowledge obtained in the classroom with an emphasis on leadership skills. These will be supervised activities carried out in the out-of-hospital (field) setting at approved sites with an approved preceptor. (4,0,12)

EMT 2714 — Pre-hospital Trauma. This course will provide instruction in the integration of pathophysiological principles and assessment findings to formulate a field impression and implement a treatment plan for a suspected trauma patient. (4,1,6)

EMT 2855 — Pre-hospital Medical Care. This course will provide a detailed understanding of the anatomic structure, physiology, and pathophysiology encountered when providing care in medical emergencies.

EMT 2913 — EMS Team Management. This course teaches the skills necessary to manage complex and/or multipatient situations. (3,1,4)

ENGLISH (ENG)

ENG 0113 — Beginning English. ENG 0113 is designed to meet the needs of students whose skills in written communication require some standardization. Emphasis is on basic English grammar through varied writing assignments with a review of mechanics, sentence patterns, and correct usage. (3,2,2)

ENG 1113 — English Composition I. English 1113 is designed to prepare the student for writings required in college and the workplace with an emphasis on effective paragraph and essay development. Prerequisite: ACT English 14 or higher or Equivalent COMPASS score in writing or successful completion of ENG 0113. (3,3,0)

ENG 1123 — English Composition II. Eng 1123 is a continuation of ENG 1113 with emphasis on research and composition. Readings, essays, and a research paper are required. Prerequisite: ENG 1113

ENG 2133 — Creative Writing I. ENG 2133 involves writing poetry, short fiction, creative nonfiction, and drama. Prerequisite: ENG 1123. (3,3,0)

ENG 2143 — Creative Writing II. ENG 2143 is a continuation of writing poetry, short fiction, creative nonfiction, and drama. Prerequisite: ENG 2133. (3,3,0)

ENG 2153 — Traditional Grammar. ENG 2153, a course for serious writers and teachers of writing, focuses on the basic elements of English grammar. Beginning with parts of speech, it covers sentence patterns, pronouns, troublesome verbs, subject-verb agreement, spelling, diction, punctuation and mechanics: all of the aspects of traditional grammar that writers—including elementary teachers introducing language skills to children—may encounter. Prerequisite: ENG 1123. (3,3,0)

ENG 2223 — American Literature I. ENG 2223 surveys representative prose and poetry of the United States from its beginnings to the Civil War. Prerequisite: ENG 1123. (3,3,0)

ENG 2233 — American Literature II. ENG 2233 surveys representative prose and poetry of the United States from the Civil War to the present. Prerequisite: ENG 1123. (3,3,0)

ENG 2323 — British Literature I. ENG 2323 surveys British Literature from the Anglo-Saxon Period through the Restoration and Eighteenth Century. Prerequisite: ENG 1123. (3,3,0)

ENG 2333 — British Literature II. ENG 2333 surveys British Literature from the Romantic Period through the Twentieth Century. Prerequisite: ENG 1123. (3,3,0)

ENG 2423 — World Literature I. ENG 2423 surveys literature from the ancient world through the Renaissance. Prerequisite: ENG 1123. (3,3,0)

ENG 2433 — World Literature II. ENG 2433 surveys literature from the Neoclassical Period through the Twentieth Century. Prerequisite: ENG 1123. (3,3,0)

ENG 2613 — Film as Literature. ENG 2613 involves the study of current and classic motion pictures as a form of literary, historic, and cinematic expression. Prerequisite: ENG 1113. (3,3,0)

EDUCATIONAL PSYCHOLOGY (EPY)

EPY 2513 — Child Psychology. A study of the various aspects of human growth and development during childhood. Topics include physical, psychosocial & cognitive development from conception into emerging adolescence. Prerequisite: PSY 1513. (3,3,0)

EPY 2533 — Human Growth and Development. A study of human growth and development from conception through late adulthood, including death and dying. Topics include physical, psychosocial and cognitive development with implications for health professionals and others who work with people. Prerequisite: PSY 1513. (3,3,0)

FAMILY AND CONSUMER STUDIES (FCS)

FCS 1253 — Nutrition. This course is a study of nutrients required for normal growth, the selection of foods for ingestion metabolic processes of digestion, assimilation and absorption. Prerequisite: BIO 1134, BIO 2514, and BIO 2524 recommended. (3,3,0)

FASHION MARKETING (FMT)

FMT 1113 — Fashion Design Fundamentals. Examines factors influencing fashion color, line, and design. Includes applications of principles of art to clothing creation and selection. (3,2,2)

FMT 1213 — Fashion Marketing. An introduction to the fashion industry, fashion terminology, nature of fashion, and the creating, manufacturing, and marketing of fashion. (3,2,2)

FMT 1233 — Buying. Study of the functions of the buyer within the retail operation including logical sequences for activities and information necessary for buying fashion merchandise. (3,2,2)

FMT 1313 — Textiles in Fashion. Examination of fibers, yarns, fabric construction, finishes, and design as applied to the selection of clothing and household fabrics. (3,2,2)

FMT 2414 — Visual Merchandising. Application of fundamental principles of design, perspective, and color theory to advanced projects in merchandise presentation. (4,2,4)

FMT 2513 — Image and Wardrobe Consulting. Assessing and developing an appropriate client image for individuals in a variety of occupations and careers. Emphasis on solving figure problems, makeup techniques, wardrobe coordination, and the use of modeling techniques to improve image. (3,1,4)

FMT 2613 — Fashion Sales Direction. Principles and application of retail sales promotion with emphasis on in — store activities, advertising, publicity, fashion shows, and other special events. (3,1,4)

FMT 2936 — Supervised Work Experience in Fashion Marketing. Direct application of concepts, terminology and theory of fashion technology. Students must be employed in a work environment where they will have to solve problems as encountered in industry. (6,0,18 externship)

FOOD PRODUCTION AND MANAGEMENT TECHNOLOGY (FPV)

FPV 1113 — Fundamentals of Operational Procedures in Food Service. Operational procedures for food services personnel with emphasis on using math skills for standard and metric weights and measures, portion control, converting recipes, production formulas, and utilizing manual and computerized applications. (3,2,2)

FPV 1123 — Management Procedures and Recordkeeping. A study of the principles of menu management and cost Control with emphasis on nutritional adequacy, trends, cost analysis, and profit as they relate to menu design. (3,2,2)

FPV 1213 — Food Service Sanitation. Instruction in the area of sanitation to aid in the prevention of food poisoning and food — borne diseases including the Hazard Analysis Critical Control Point (HACCP) system. (3,2,2)

FPV 1315 — Culinary Arts I. Study of principles, techniques, and practices of food preparation and their effects on food products with emphasis on the performance of culinary techniques, use of equipment, and quality controls in preparing and serving meals. (5,2,6)

FPV 1326 — Culinary Arts II. A continuation of the study of principles, techniques, and practices of food preparation and their effects on food products with emphasis on the performance of culinary techniques, use of equipment, and quality controls in preparing and serving meals. (6,2,8)

FPV 1413 — Front of the House. Management of the front of the house in order to fulfill the needs of the guest and the establishment. Emphasis is placed on the types and styles of dining service merchandising, customer service, and employee training techniques. (3,2,2)

FPV 2223 — Purchasing and Storage. An introduction to selection and procurement of food and nonfood materials in hospitality and related industries. (3,2,2)

FPV 2336 — Bakery Production and Management. Skills needed for baking and bakery merchandising. Emphasis is placed on preparation, advertising, marketing, decorating, costing, and serving baked products. (6,2,8)

FPV 2515 — Catering Management. An overview of the background of catering and banquet management. Offers options in catering styles, pricing, menu design, operational controls, computerized management programs, and marketing. (5,2,6)

FPV 2613 — Menu Planning and Cost Control. A study of the principles of menu management and cost Control with emphasis on nutritional adequacy, trends, cost analysis, and profit as they relate to menu design. (3,2,2)

FPV 2713 — Nutrition. A study of nutrients as related to personal health, foods and food preparation, recipe or menu modification for special customer needs, and merchandising techniques associated with nutritious meals. (3,1,4)

FPV 2813 — Food Service Management. Management duties such as recruiting, interviewing, hiring, scheduling, job evaluations, employee orientation and training, payrolls, and rating employees performance. This course will explore the by which the manager can enable his/her employees to function efficiently and effectively. These processes will include incentive and benefit programs, discipline, and termination. (3,2,2)

FUNERAL SERVICE TECHNOLOGY (FST)

FST 1113 — Mortuary Anatomy I. A study of human anatomical structure with orientation to the embalming process. (3,3,0)

FST 1123 — Mortuary Anatomy II. Continuation of Mortuary Anatomy I, including all remaining body systems. Major emphasis is on the circulatory system. (3,3,0) Prerequisite: FST 1113.

FST 1214 — Embalming I. Basic orientation to embalming. Included are the terminology, safety procedures, and ethical protocols in preparation of human remains, physical and chemical changes in the dying process, and a study of the chemical compositions of embalming fluid. (4,3,2) Prerequisites: FST 1113 and FST 1123. Corequisite: FST 1232.

FST 1224 — Embalming II. This course is a continuation of FST 1214 with emphasis placed on the principles and techniques of embalming. (4,2,4) Prerequisites: FST 1214. Corequisite: FST 1242.

FST 1232 — Clinical Embalming I. Practically apply the theoretical principles taught in the Funeral Service Technology curriculum in the funeral establishment/commercial mortuary. During enrollment in this course, students are required to actively participate in and document five (5) embalming clinicals at approved, affiliating funeral homes. Corequisite: FST 1214. (2, 6 hrs. clinical)

FST 1242 — Clinical Embalming II. A continuation of the application of the theoretical principles taught in the Funeral Service Technology curriculum in the funeral establishment/commercial mortuary. During enrollment in this course, students are required to actively participate in and document six (6) embalming clinicals at approved, affiliating funeral homes. Prerequisite: FST 1232. Corequisite: FST 1224. (2, 6 hrs. clinical)

FST 1313 — Funeral Directing. A study of the total funeral service education environment. Includes history, duties, responsibilities, ethical obligations, and communication skills. (3,3,0)

FST 1413 — Funeral Service Ethics and Law. Comprehensive review of the ethical and legal aspects involved in funeral service. (3,3,0)

FST 1523 — Restorative Art/Color and Cosmetics. An in-depth study of anatomical modeling, including familiarization with instruments, materials, and techniques of rebuilding human features. Study of color theory and application of restorative techniques in the funeral setting, which includes cosmetics and hair treatment. (3,2,2)

FST 2273 — Thanatochemistry. A survey of the principles of general organic, biology, and embalming chemistry, as they relate to the embalming process. (3,3,0)

FST 2325 — Funeral Merchandising and Management. Study of merchandising and management procedures necessary to operate a successful funeral practice. (5,5,0)

FST 2423 — Funeral Business Law. Designed to introduce the student to the bodies of law and the judicial system as applied to day-to-day operations of a funeral home. (3,3,0)

FST 2623 — Microbiology. Designed to present the basic principles of microbiology and prevention of the spread of microorganisms as related to the embalming procedure and protection of the public health. (3,3,0)

FST 2633 — Pathology. Designed to present the nature and cause of diseases. (3,3,0)

FST 2713 — Psychosocial Aspects of Grief and Death. A study of various social groups and their relationship to the funeral, death, and disposition. Includes psychological aspects of emotions with emphasis on counseling techniques and grief resolution. (3,3,0)

FST 2812 — Comprehensive Review. Review of the entire curriculum, culminating with an exam designed to prepare students for the National Board or various state board examinations. (2,2,0) Prerequisite: To be taken during the final semester of coursework and must be taken at MGCCC. Student must have a cumulative GPA of 2.0 or better.

GEOGRAPHY (GEO)

GEO 1113 — World Geography. A regional survey of the basic geographic features and major new developments of the nations of the world. (3,3,0)

GEO 1123 — Principles of Geography. This course deals with human adjustment to fundamental elements of geography such as climate, bodies of water, landforms, location and natural resources and how, with human adjustment to them, they help to shape world history. (3,3,0)

GRAPHICS AND DRAWING (GRA)

GRA 1112 — Engineering Drawing. Preliminary training in freehand drawing, the use of instruments, geometric construction, iso — metric and orthographic projection, section drawings and dimensioning. Preliminary and special lettering exercises are given. (2,0,4)

GRA 1122 — Engineering Drawing. This course offers advanced study of working, drawings, detail and assembly, requiring self — reliance in the selection of views, sheet layout and manner of representations. Neatness, accuracy and economy of time are stressed. (2,0,4)

GRA 1143 — Graphic Communication. This course consists of instrumental drawing, geometric construction, and orthographic projection; includes instruction in geometrical and graphical problems dealing with lines and planes in determining true relations of one element to another. Computer-assisted design (CAD) and drafting problems are also included. (3,1,4)

GOLF/RECREATIONAL TURF MANAGEMENT TECHNOLOGY COURSES (GTT)

GTT 1614 — Golf Course Equipment Operation and Maintenance. A course to provide instruction in the safe and proper operation and maintenance of golf course equipment to include reel mowers, reel grinder/lapping machine, spraying equipment, top dressing equipment, aerator, small engines, tractors, and tractor attachments. (4,2,4)

GTT 2124 — Landscape/Golf Course Maintenance and Weed Control. A course to provide instruction and practice in the maintenance of trees, shrubs, and golf course features. Includes instruction in the use of herbicides and other weed control measures. (4,2,4)

GTT 2313 — Golf Course Business Management. A course to provide instruction and practice regarding the management of a golf course operation. Includes instruction in estimating and bidding; personnel management and supervision; and business practices. (3,3,0)

GTT 2813 — Turfgrass Management for Golf Courses. A course to provide instruction and practice in the identification, selection, installation, and management/maintenance of turfgrass for golf courses. (3,2,2)

GTT 2824 — Irrigation Systems: Design and Maintenance. A course designed to investigate the types of irrigation systems. Discussion will include the installation and maintenance of these systems. (4,2,4)

HISTORY (HIS)

HIS 1163 — World Civilization I. A general survey of world history from ancient times to the 1500s. (3,3,0)

HIS 1173 — World Civilization II. A general survey of world history from the 1500s to modern times. (3,3,0)

HIS 2213 — American History I. This is a survey of American (US) history from pre-history through reconstruction. (3,3,0)

HIS 2223 — American History II. This course is a survey of U.S. history from Reconstruction to the present. (3,3,0)

HORTICULTURE/LANDSCAPE (HLT)

HLT 1114 — Plant Materials I. A survey of common ornamental plants used in landscaping including deciduous and evergreen trees, shrubs, and vines, ground covers, annuals and perennials. Includes instruction in basic classification and identification procedures and in the identifying characteristics, maintenance, and use of the plants in a horticulture setting. This course is designed to be offered in the fall semester. Diploma curriculum: one hundred twenty hours instruction. (4,2,4)

HLT 1124 — Plant Materials II. A continuation of Plant Materials I with an emphasis on foliage and interior and flowering plants. Designed to be taught in the spring semester. Diploma curriculum: one hundred twenty hours instruction. (4,2,4)

HLT 1213 — Applied Principles of Plant Propagation. A course which develops expertise and knowledge in the advanced asexual methods of plant reproduction including separation and division, grafting, and layering. Includes an introduction to tissue culture methods. (3,1,4)

HLT 1222 — Horticulture Principles. A course designed to provide an overview of current Green Industry events and job opportunities in the industry and specific landscape and horticulture related topics. (2,2,0)

HLT 1313 — Greenhouse and Nursery Production I. A course which develops skills and expertise in the selection, equipping, and management of a greenhouse facility. Emphasis is placed on different media, supplies, and chemicals used in greenhouses and on the scheduling and production of greenhouse crops. Diploma curriculum: ninety hours instruction. (3,1,4)

HLT 1411 — Survey of Landscape Management. A course to provide opportunities for students to gain knowledge of current trends in landscape contracting. Includes the preparation and delivery of reports on current topics, field trips, guest speakers, and other activities. Thirty hours instruction. One semester hour.

HLT 1513 — Landscape Design I. An introduction to the concepts, principles, and elements of landscape design. Includes instruction and practice in the use of drawing instruments and supplies and in conducting a site analysis. Prerequisite: GRA 1112. Diploma curriculum: ninety hours instruction. (3,1,4)

HLT 1614 — Landscape Equipment Operation and Maintenance. A course to provide instruction and practice on the safe and proper operation and maintenance of landscaping equipment to include power tools, small engines, tractors, and tractor attachments. Diploma curriculum: one hundred twenty hours instruction. (4,2,4)

HLT 2113 — Turfgrass Management. A course to provide instruction and practice in the identification, selection, installation, and management/maintenance of turfgrasses. Diploma curriculum: ninety hours instruction. (3,0,6)

HLT 2124 — Landscape Maintenance and Weed Control. A course to provide instruction and practice in the maintenance of trees, shrubs, and other greenscape features. Includes instruction in the use of herbicides and other weed control measures. Diploma curriculum: one hundred twenty hours instruction. (4,2,4)

HLT 2313 — Landscape Business Management. A course to provide instruction and practice regarding the management of a landscape operation. Includes instruction in estimating and bidding; personnel management, supervision, and development; and business practices. Diploma curriculum: ninety hours instruction. (3,3,0)

HLT 2323 — Greenhouse and Nursery Production II. A continuation of Greenhouse and Nursery Production I with emphasis on production practices associated with fertilization, pest control, environment control, and marketing. Prerequisite: HLT 1313. (3,1,4)

HLT 2513 — Garden Center Management. A course to develop knowledge and skills associated with management of a retail garden center. Includes instruction in basic principles of entrepreneurship as applied to garden centers, product display and advertising, and facilities. (3,2,2)

HLT 2523 — Landscape Design II. A continuation of Landscape Design I with emphasis on planting design and preparation and presentation of landscape plans using computer-aided landscape software. Ninety hours instruction. (3,1,4)

HLT 2713 — Landscape Construction. A course which provides instruction and practice in the installation of a landscape plan to include site preparation, installation of site amenities, bed preparation and planting, and shrub and tree planting. Diploma curriculum: ninety hours instruction. (3,1,4)

HLT 2724 — Integrated Production Systems. Utilizes basic horticulture practices and aquaculture facilities to provide techniques and procedures to maintain a recirculating hydroponics system. (4,1,6)

HLT 2734 — Water Garden Design. A study of the design and construction of water gardens. (4,1,6)

HLT 2744 — Aquarium and Water Garden Production. This course will include basic production of the aquarium trade and water garden trade species. (4,1,6)

HLT 2813 — Ornamental and Turf Pest Management. Provides instruction and practice in the identification and control of common turf pests and diseases. Includes instruction in pest identification, pesticide use and safety, and legal aspects of pest control. Diploma curriculum: ninety hours instruction. (3,2,2)

HLT 2824 — Irrigation and Lighting Systems. A course designed to investigate the types of irrigation/lighting systems. Discussion will include the installation and maintenance of these systems. Diploma curriculum: one hundred twenty hours instruction. (4,2,4)

HLT 2913 — Special Problem in Horticulture Cluster. A course designed to provide the student with practical application of skills and knowledge gained in other vocational-technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. (3,1,4)

HONORS (HON)

HON 1911 — Honors Forum I. Interdisciplinary study of issues confronting the individual and society. Approached through a diverse range of experiences to include research, community service projects, and opportunities for educational contacts beyond the normal classroom. (Open through invitation only.) (1,1,0)

HON 1921 — Honors Forum II. A continuation of HON 1911. (1,1,0)

HON 2911 — Honors Forum III. A continuation of HON 1921. (1,1,0)

HON 2921 — Honors Forum IV. A continuation of HON 2911. (1,1,0)

HEALTH, PHYSICAL EDUCATION, AND RECREATION (HPR)

NOTE: Every student in an Associate of Arts Program is required to take two hours of physical education. Students may, however, take additional semester hours of physical education as elective credit and are encouraged to do so. Students unable to take physical education courses may request a substitute. All students must wear appropriate dress for physical education classes. Physical education activity courses will earn one semester hour with academic credit. HPR 1591, HPR 1593, and HPR 1751 will satisfy the two hour requirement at some universities.

HPR 1113 – Foundations of Leisure. Analysis of the Parks and Recreation profession to provide a basic understanding of leisure as an increasingly important component of our society.

HPR 1213 — Personal Health. The function of the human body as related to problems of health and disease. Designed to give the individual an understanding and awareness of modern, contemporary health issues as they affect adult life. (3,3,0)

HPR 1313 — Introduction to Physical Education. A complete survey is made of the history, objectives, methods, psychology and philosophy of physical education. (3,3,0)

HPR 1591 — Health Concepts of Physical Activity. A thorough investigation of contemporary health fitness concepts as they pertain to the individual student. This course contains three phases: (1) scientific information concerning values and preventative medical benefits of exercise, (2) individual (personal) evaluations and experiments to determine present health fitness, status; (3) development of a personal exercise program based on a student's needs. (1,1,0)

HPR 1593 — Health Concepts / Wellness. This course is designed to help students develop an understanding of physical fitness and nutrition as they contribute to a healthy lifestyle and reduce disease risk. The student will better understand wellness concepts and engage in assessments with emphasis on personal fitness, disease prevention, nutrition, and weight control. (3,3,0)

HPR 1751 — Nutrition and Weight Control. A survey course designed to expose the student to the importance and significance of nutrition in health and physical education, with emphasis on weight control through diet and therapeutic exercise. (1,1,0)

HPR 2113 – Parks and Recreation Program Leadership. Planning and leadership techniques for conducting organized parks and recreation programs for all age groups. (3,3,0)

HPR 2211 — First Aid. This course is the standard first aid course of the American Red Cross. Emphasis is placed on preparing students in the knowledge and skills needed in preventing accidents as well as rendering aid to the sick and injured. Does not transfer to some colleges/universities to meet physical education requirements. (1,0,2)

HPR 2212 — First Aid and CPR. This course is the standard first aid and CPR course of the American Red Cross. Emphasis is placed on preparing students in the knowledge and skills needed in preventing accidents as well as rendering aid to the sick and injured. Does not transfer to some colleges/universities to meet physical education requirements. (2,0,4)

HPR 2221 — Water Safety and Lifesaving. This is the American Red Cross lifeguarding course. The purpose of this course is to provide minimum skills training for a person to serve as a non-surf lifeguard. Red Cross certification (C-3416) will be awarded for successful completion. Prerequisite: Completed American Red Cross swimmer level course or have equivalent skills. (1,0,2)

HPR 2223 — Program Planning and Development. Techniques and processes in program planning, implementation, development, and evaluation in recreation settings. (3,3,0)

HPR 2231 — Water Safety Instructor. Emphasis on knowledge and skills beyond the scope of lifeguard training, certifying personnel to conduct water safety courses in schools and communities. Prerequisite: Pass swim test. (1,0,2)

HPR 2323 — Recreation Leadership. This course is an introduction to the history, principles, programs, opportunities and values of recreation. The contributions and responsibilities of community recreation departments and programs are described. Field work with local area recreation programs is an essential part of this course. (3,3,0)

HPR 2443 — Athletic Training & Treatment of Injuries. A practical study of safety and first aid, taping, bandaging, and use of massage, and the uses of heat, light, and water in the treatment and prevention of injuries; conditioning of athletes as to diet, rest, work, and proper methods of procedures in training for sports. (3,3,0)

Courses will be specified on the semester schedule and on the student's transcript.

HPR 1111, 1121, 2111, 2121 — General Activity Course. These courses include varied exercises and activities such as volleyball, etc. No lecture is involved. Not designed for physical education majors. (1,0,2)

HPR 1112, 1122, 2112, 2122 — General Physical Education Activities. These courses include varied exercises and activities such as volleyball, etc. No lecture is involved. Not designed for physical education majors. (2,0,4)

HPR 1131, 1141, 2131, 2141 — Varsity Sports. Participation in varsity sports. (1,0,2)

HPR 1511, 1521, 2511, 2521 — Team Sports. Lectures on rules and techniques. Participation in activities. (1,0,2)

HPR 1531, 1541, 2531, 2541 — Individual and Dual Sports. Lecture and participation in activities. (1,0,2)

HPR 1551, 1561, 2551, 2561 — Fitness and Conditioning Training. Lecture and practice in body mechanics, weight training, or gymnastics. (1,0,2)

HPR 1571, 1581, 2571, 2581 — Dance. Lecture and participation in jazz, tap, modern, and ballet. (1,0,2)

HPR 1711 — Sports Appreciation. Designed to develop spectator awareness and appreciation of the major spectator sports in our society today. Covering a brief history of the sport, rules, equipment and etiquette associated with the sport. (1,1,0)

HPR 2423 — Football Theory. A survey of the leading coaching methods in use of football. A discussion of strategy, conditioning, scheduling making, and other coaching problems in football. (3,3,0)

HPR 2453 — Baseball Theory. A theoretical study of baseball from a coaching standpoint; study of fundamentals and team play; methods of teaching fundamentals; team organization. (3,3,0)

HOTEL AND RESTAURANT MANAGEMENT CONCENTRATION, TRAVEL AND TOURISM MANAGEMENT CONCENTRATION (HRT)

HRT 1114 — Culinary Principles I. Fundamentals of food preparation and cookery emphasizing high standards for preparation of meat, poultry, seafood, vegetables, soups, stocks, sauces, and farinaceous items. (4,2,4)

HRT 1123 — Hospitality and Tourism Industry. An introduction to the hospitality and tourism industry. Discussions and industry observations to discover the opportunities, trends, problems, and organizations in the field. (3,3,0)

HRT 1213 — Sanitation and Safety. Basic principles of microbiology, sanitation, and safety for a food service operation. The course studies the environmental control application through the prevention of food — borne illnesses, cleaning materials and procedures, general safety regulations, food processing methods, first aid, and fire prevention. (3,2,2)

HRT 1224 — Restaurant and Catering Operations. Principles of organizing and managing a food and beverage operation. (4,2,4)

HRT 1413 — Rooms Division Management. A systematic approach to room's division management in the hospitality industry including front office management and housekeeping operations. (3,2,2)

HRT 1511, 1521, 1531, 1541 — Hospitality Seminar. Leadership and management skills necessary for success in hospitality and tourism management. The course addresses computer based management systems. (1,1,0)

HRT 1813 — The Professional Tour Guide. Activities associated with organizing, booking, and conducting group tours. (3,2,2)

HRT 1823 — The Travel Agency. A detailed exploration of travel agency operation to include physical structure, staffing needs, legal implications, interaction with travel and lodging, and accreditation. (3,2,2)

HRT 1833 — Travel and Tourism Geography. Location, currency, port of entry, and form of governments in various countries around the world. Exercises involve itinerary planning, knowledge of time zones, and familiarity of the countries' natural, cultural, and entertainment attractions. (3,2,2)

HRT 2233 — Food and Beverage Control. Principles and procedures involved in an effective food and beverage control system, including standards determination, the operating budget, cost-volume-profit analysis, income and cost control, menu pricing, labor cost control, and computer applications. (3,2,2)

HRT 2323 — Hospitality Facilities Management and Design. Design and manage the physical plant of a hotel or restaurant. (3,2,2)

HRT 2423 — Security Management. Issues surrounding the need for individualized security programs. Examines a variety of security equipment and procedures and discusses internal security for food service and lodging operations. (3,2,2)

HRT 2613 — Hospitality Supervision. Supervisory skills in leadership styles, communication skills, motivational techniques, employee training techniques, and evaluation methods. (3,2,2)

HRT 2623 — Hospitality Management. Principles of hospitality management with an emphasis placed on the study of human behavior and human relations in the hospitality industry. (3,2,2)

HRT 2713 — Marketing Hospitality Services. Practical sales techniques for selling to targeted markets and developing strategic marketing plans for hospitality and tourism operations. (3,2,2)

HRT 2723 — Hospitality Sales and Marketing. Advertising, sales, and promotional techniques as related to the hospitality industry. (3,2,2)

HRT 2843 — Seminar in Travel and Tourism. Simulations of activities related to travel and tourism including reservation tasks and services. (3,2,2)

HRT 2853 — Convention and Meeting Planning. Planning, promotion, and management of meetings, conventions, expositions, and events. (3,2,2)

HRT 2916 — Supervised Work Experience in Hotel and Restaurant Management. A course which is a cooperative program between industry and education and is designed to integrate the student's technical studies with industrial experience. (6,0,18)

HRT 2926 — Supervised Work Experience in Travel and Tourism. A course which is a cooperative program between industry and education and is designed to integrate the student's technical studies with industrial experience. Variable credit is awarded on the basis of one semester hour per 45 industrial contact hours (6,0,18)

HUMANITIES (HUM)

HUM 1113 — Humanities I. A humanistic approach to man's and woman's creative achievements in music, art, literature, and philosophy in western civilization. (3,3,0)

HUMAN SERVICES (HUS)

HUS 1113 — Introduction to Human Services. This course is designed to enable students to gain knowledge of the history of Human Services; understand the present Human Services concepts; identify varying roles of the HUS worker and understand contemporary strategies in the helping professions; develop skills in problem assessment and in determining appropriate responses to client needs; understand ethics and the law as they relate to the helping professions. (3,3,0)

HUS 1123 — Interpersonal Communication. The course covers self-concept, listening skills, verbal and nonverbal communication, skills to help resolve interpersonal conflict, and skills in self-understanding and acceptance. (3,3,0)

HUS 1133 — Social Problems. A study of the nature, scope, and effects of the social problems of today and the suggested remedies for dealing with them. Course includes such problems as unemployment, urbanization, crime, juvenile delinquency, alcoholism, drug addiction, and disaster; family problems include the aged, mentally ill, and retarded. Field trips to more fully acquaint students with social problems. (3,3,0)

HUS 1143 — Envisioning a Better Society. This course is designed to assist the student in recognizing the reality of interconnection and the need for a holistic approach in meeting personal and societal needs. Students are required to complete 60 hours of field work in an appropriate agency. (3,1,4)

HUS 2113 — Developing Interviewing Skills. This class is designed to enable the student to effectively use interviewing skills, (i.e., open-ended questions, clarification, reflection, silence, interpretation, summarization, body language, etc.) with normal and disturbed persons; demonstrate appropriate interpersonal skills for one-to-one helping relationships (genuineness, accurate empathy, non-possessive warmth, establishing rapport, constructive confrontation); and demonstrate skill in keeping clinical records and in keeping simple statistics. (3,3,0)

HUS 2123 — Affecting Social Change. This seminar is designed to assist students to become more effective as members of groups which interact with community change processes; analyze the ways groups operate; learn to organize successful meetings; learn to use tension creatively; learn how to utilize action planning and evaluation; develop group leadership skills; develop skill in making referrals to and counseling with other community agencies; and stay abreast of current social issues which affect the community. Students are required to complete 60 hours of field work in an appropriate agency. (3,1,4)

HUS 2133 — Exploring Social Issues. This class is designed to expose students to conflicting views on major controversial social issues; to assist them in analyzing and understanding both sides of an issue; and to enable them to reach their own conclusions in an atmosphere free of stereotypes and reactionary responses. (3,3,0)

INTERPRETER TRAINING (IDT)

IDT 1113 — Introduction to Interpreting. Define interpreting terms, list and discuss RID code of ethics, placement of interpreter in various settings, discuss environmental factors, which are considered in assignments, describe the assessment and certification process. (3,3,0)

IDT 1131 — Expressive and Receptive Fingerspelling. This course will develop beginning expressive and receptive fingerspelling skills based on word and phrase recognition principles. Fingerspelling is an important part of communicating. (1,1,0)

IDT 1143 — Foundations of Deafness. This course will provide students with knowledge in types of communication problems resulting from deafness, ease in mixing with deaf persons, occupational trends for the deaf, causes and physiological aspects of deafness, and social barriers faced by deaf individuals. Deaf individuals and leaders in the community will be invited into the classroom to discuss these topics along with professionals working with the deaf in various situations. Also designed for students majoring in interpreting for the deaf, teachers, teachers' aides, and school counselors, etc. Review of a normal mechanism of speech and hearing and how they are affected by hearing loss. Emphasis on the history of deafness, trends in deaf education, and the deaf community and its culture. (3,3,0)

IDT 1164 — American Sign Language I. A developmental course — meaning that the student (whatever his or her competency level at the beginning of the course) is expected to grow continuously throughout the semester. The student will develop a high degree of familiarity with and a respect for the usage of the basic principles of ASL through nonverbal communication techniques, eye training, and fingerspelling. Student will also, through discipline and instruction, be introduced to the basic patterns of American Sign Language (ASL). Corequisite: ENG 1113. (4,3,2)

IDT 1173 — Transliterating I. Studies the skills required to transmit English into a manual code and visa versa. Introduces a variety manual codes and their relationship to American Sign Language. Prerequisite: IDT 1164. (3,2,2)

IDT 1174 — American Sign Language II. An introduction to Sign Language idioms and English idioms. This course will introduce ways to express English idioms in signs and also the vocabulary for the sign language idioms. Continuation of building student's sign language vocabulary is a primary interest of this course. Deaf resource persons, videotapes and other related materials will be included. Prerequisite: IDT 1164. (4,3,2)

IDT 2123 — American Sign Language III. An advanced level course in American Sign Language. An expansion of sign vocabulary to include English and Deaf idioms and their proper use in both languages. Concentration will be given toward proficiency in both ASL and methods of simultaneous translation of hearing — impaired people who communicate in various forms of manual English. Increased emphasis will be placed on the development of native — like fluency. Instructions through conversational techniques incorporating additional principles and vocabulary items. Prerequisite: IDT 1174. (3,3,0)

IDT 2153 — Interpreting in Special Situations. This course includes lectures and observation of interpreters in various settings: educational, legal, medical, religious, and social work. Visits to schools for the deaf, clubs for the deaf, interpreters' meetings and workshops, and other possible contacts involving deaf individuals and interpreters. Reports of each observation will be required. (3,3,0)

IDT 2163 — Sign-to-Voice Interpreting I. Classroom work giving verbatim translations and reversing materials. There is an emphasis on the use of tapes and simulated situations. Vocabulary development, work endings, and use of temporary signs are discussed. The student will become skilled in reading and translating the manual alphabet, and become skilled in interpreting from various forms of manual communication into appropriate English diction. Prerequisite: IDT 2123. (3,2,2)

IDT 2173 — Interpreting. Accuracy and clarity in expressive interpreting at a speed of 80-125 wpm, a receptive ability in understanding intent and content of a deaf speaker using ASL. Role play in actual experiences. Prerequisites: IDT 1164, IDT 1174. (3,2,2)

IDT 2183 — Transliterating II. Further studies the skills to transmit English into a manual code and visa versa. Introduces other sign English codes and how they relate to American Sign Language. Prerequisites: IDT 1164, IDT 1173, IDT 1174. (3,3,0)

IDT 2223 — Educational Interpreting. Studies techniques and ethics involved in educational interpreting, focusing on special settings, code of ethics, physical arrangements and resources for interpreters. Prerequisites: IDT 1164, IDT 1174, IDT 2123. (3,3,0)

IDT 2263 — Sign-to-Voice II. Continuation of classroom work giving verbatim translations and reversing materials. There is an emphasis on the use of tapes; and simulated situations. Vocabulary development, word endings, and use of temporary signs are discussed. The student will become skilled in reading and translating the manual alphabet, and become skilled in interpreting from various forms of manual communication into appropriate English diction. Prerequisites: IDT 2163. (3,2,2)

IDT 2323 — Artistic Interpreting. Study the principles and techniques of artistic interpreting including literary and musical works. Prerequisite: Approval of Instructor. (3,2,2)

IDT 2333 — Legal Interpreting. This is a preparation course for legal interpreting. The student will learn to anticipate settings, assess linguistic systems, determine and study specialized vocabulary, identify problems and apply ethical solutions, and practice interpreting legal texts. Prerequisite: Approval of Instructor. (3,3,0)

IDT 2424 — Interpreting Practicum. Application of interpreting/transliterating skills in a minimum of three supervised, approved practicum sites. All contact hours will be verifiable and direct observation will be administered by practicum supervisor. Prerequisite: Approval of Instructor. (1 hr. lecture, 9 hrs. Supervised work experience)

INFORMATION SYSTEMS TECHNOLOGY (IST)

IST 1113 — Fundamentals of Information Technology. This course introduces microcomputer operation, word processing, spreadsheets, database management, and online applications. It is designed for students with limited computer proficiency and is to be taken by those students in addition to the courses listed in the course sequence. (3,2,2)

IST 1124 — IT Foundations. This course covers the diagnosis, troubleshooting, and maintenance of computer components and interpersonal communications for IT professionals. Topics include hardware compatibility, system architecture, memory, input devices, video displays, disk drives, modems, printers, safety and environmental issues, communication, and professional behavior. (4,2,4)

IST 1134 — Fundamentals of Data Communications. This course presents basic concepts of telephony, local area networks, wide area networks, data transmission, and topology methods. Online version not acceptable. (4,2,4)

IST 1143 — Security Principles and Policies. This course is an introduction to the various technical and administrative aspects of information security and assurance. This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system with appropriate intrusion detection and reporting features. (3,2,2)

IST 1154 — Web and Programming Concepts. This course is an introduction to Web site development and programming logic. Students will gain hands-on experience in the development of computer programs. Upon completion of this course, students will be able to create a Web site and post it on the Internet. (4,2,4)

IST 1163 — Concepts of Database Design. This course is an introduction to the design and manipulation of relational databases. Emphasis is placed on creation, manipulation, extraction, and display of data from existing databases. QBE and SQL are explored. (3,2,2)

IST 1213 — Client Installation and Configuration. This course is designed to help the student install, support, and troubleshoot a current client operating system. Emphasis will be placed on common user operations as well as the network administrator's support of the client. (3,2,2)

IST 1224 — Network Components. This course presents local area network and wide area network connectivity. It focuses on architectures, topologies, protocols, and transport methods of a network. Prerequisites: IST 1134. (4,2,4)

IST 1244 — Network Administration Using Microsoft Windows Server. This course focuses on the management of a computer network using the Microsoft Windows Server network operating system. Emphasis will be placed on daily administrative tasks performed by a network administrator. (4,2,4)

IST 1254 — Network Administration Using Linux. This course focuses on the management of a computer network using the Linux operating system. Emphasis is placed on installation, configuration, implementation, and administrative tasks of a functional server. (4,2,4)

IST 1314 — Visual BASIC Programming Language. This introduction to the Visual BASIC programming language introduces the student to object-oriented programming and a graphical integrated development environment. (4,2,4)

IST 1414 — Client-side Programming. This course offers a comprehensive understanding of programming using JavaScript. Prerequisites: IST 1154. (4,2,4)

IST 1424 — Web Design Applications. Application of various professional and personal Web design techniques. Students will work with the latest WYSIWYG editors, HTML editors, animation/multimedia products, and photo editors. Prerequisites: IST 1154. (4,2,4)

IST 1513 — SQL Programming. This course is the first of a two-part series that offers students an extensive introduction to data server technology, covering the concepts of both relational and object relational databases and the Structured Query Language (SQL). Students are taught to store, retrieve, and manipulate data. (3,2,2)

IST 1523 — Advanced SQL Programming. This course is the second of a two-part series that offers students an extensive introduction to data server technology. Students are taught advanced concepts of both relational and object relational databases and the Structured Query Language (SQL). Students are taught to create and maintain database objects and control user access. Prerequisites: IST 1513. (3,2,2)

IST 1534 — Database Architecture and Administration. This course is designed to give students a firm foundation in basic database tasks enabling them to design, create, and maintain a database. Students will gain a conceptual understanding of database architecture and how its components work and interact with one another. Students will also learn how to create an operational database and properly manage the various structures. Prerequisites: IST 1513. Corequisite: IST 1523. (4,3,2,)

IST 1613 — Computer Forensics. This course is an introduction to the various technical and administrative aspects of computer forensics and laws pertaining to cybercrime. This course provides the foundation for understanding the key issues associated with computer forensic investigations, understanding the boot processes and disk structure for multiple operating systems, and understanding the processes related to data acquisition during investigations. (3,2,2)

IST 1624 — Network Security Fundamentals. This course provides the fundamental understanding of network security principles, implementations, and the technologies and principles involved in creating a secure computer network environment. Topics include authentication, types of attacks and malicious code against Web applications, e-mail, and file and print services. Prerequisites: IST 1134 and IST 1143. (4,2,4)

IST 1633 — Wireless Security and Privacy. This course provides the fundamental understanding of wireless architecture, security principles, and the technologies and principles involved in creating a secure wireless computer network environment. Topics include wireless hardware, protocols, encryption, and how to prevent weaknesses in wireless technology. Prerequisites: IST 1134 and IST 1143. (3,2,2,)

IST 1643 — Network Defense and Countermeasures. This course provides a solid foundation of network security and the understanding of the process to create a network defense and countermeasure policy obtained from intrusion detection. Topics include Network Address Translation, packet filtering, proxy servers, firewalls, and Virtual Private Networks used to design a network defense strategy. Prerequisites: IST 1134 and IST 1624. (3,2,2)

IST 1714 — Java Programming Language. This introduction to the Java Programming Language is to include sort, loops, arrays, and applets. (4,2,4)

IST 2224 — Network Planning and Design. This course involves applying network concepts in planning and designing a functioning network. Emphasis is placed on recognizing the need for a network, conducting an analysis, and designing a solution. Prerequisites: IST 1223. (4,2,4)

IST 2234 — Network Implementation. This course is the culmination of all concepts learned in the network curriculum. Topics include planning, installation, evaluation, and maintenance of a network solution. Prerequisites: IST 2224. (4,2,4)

IST 2254 — Advanced Network Administration Using Microsoft Windows Server. This course is a continuation of Network Administration Using Microsoft Windows Server. Emphasis is placed on installation, configuration, and implementation of a functional server. (4,2,4)

IST 2314 — Systems Analysis and Design. This course introduces techniques used in systems analysis and design. Emphasis will be placed on the design, development, and implementation of an information system. (4,2,4)

IST 2324 — Script Programming Language. This course is an introduction to the use of integrating scripts to add functionality to Web pages. Prerequisites: IST 1154 or instructor permission. (4,2,4)

IST 2334 — Advanced Visual BASIC Programming Language. This course is a continuation of the Visual BASIC programming language. Prerequisites: IST 1314. (4,2,4)

IST 2344 — Database Programming and Design. This course will introduce programming using a database management software application. Emphasis will be placed on menus and file maintenance. Prerequisites: IST 2334 or instructor permission. (4,2,4)

IST 2374 — C Programming Language. This course is designed to introduce the student to the C programming language and its basic functions. Prerequisite: Any IST programming language course or instructor permission. (4,2,4)

IST 2384 — Advanced C Programming Language. This course is a continuation of the study of the C programming language. Prerequisites: IST 2374 (4,2,4)

IST 2424 — XML Programming. This course provides a comprehensive understanding of the Extensible Markup Language (XML). Prerequisites: IST 1154. (4,2,4)

IST 2483 — Web Server. Introduces students to Web, e-mail, and proxy servers and the platforms on which they reside. Students will be able to install and configure Web, e-mail, and proxy servers. Prerequisites: IST 1124 and IST 1134. (3,2,2)

IST 2514 — Advanced Database Architecture and Administration. This course is a continuation of Database Architecture and Administration. It is designed to provide a firm foundation in basic database tasks enabling students to design, create, and maintain a database. Students will gain a conceptual understanding of database architecture and how its components work and interact with one another. Students will also learn how to create an operational database and properly manage the various structures. Prerequisites: IST 1534 (4,3,2)

IST 2524 — Linux Operating System Fundamentals. In this course, students develop proficiency in using and customizing a Linux operating system for common command line processes and desktop productivity roles. Prerequisites: IST 1124 (4,2,4)

IST 2534 — IT Project Management. In this course, students develop proficiency in using and customizing a Linux operating system for common command line processes and desktop productivity roles. Prerequisites: IST 1124 and IST 2524 (4,2,4)

IST 2613 — Windows Security. This course provides the knowledge and fundamental understanding of Windows security, how to harden current Windows operating systems, and how to defend against attacks. Topics include designing Active Directory, authentication for Windows, group security and policy, service security, remote access security, planning a public key infrastructure, securing file resources, Internet Protocol Security, and additional Windows security topics. Prerequisites: IST 1244 and IST 1624. (3,2,2)

IST 2623 — Linux/Unix Security. This course provides the knowledge and fundamental understating of Linux/Unix security, how to harden Linux/Unix, and how to defend against potential attacks against vulnerabilities and unused system services. Topics include how to protect password files, monitor log files, and use port scanners and network scanners, and additional Linux/Unix security topics. Prerequisites: IST 1254 and IST 1624. (3,2,2)

IST 2634 — Security Testing and Implementation. This course provides an in-depth exploration of various methods for gaining unauthorized access and explores network security concepts from the point of view of hackers and their methodologies. Topics include hackers, crackers, ethical hackers, attacks, intrusion detection systems, malicious code, computer crime, and industrial espionage. Prerequisites: IST 1613 and IST 1643 and any programming course. (4,2,4)

JOURNALISM (JOU)

JOU 1111, 1121, 2111, 2121 — College Publications. Courses are designed to give practical experience in working with college newspaper and yearbook production. News, feature, and editorial writing, make-up and layout, editing, advertising and photography will be emphasized according to student need. (1,0,2)

JOU 1223 — Basic News Reporting. A course designed to teach news writing and editing with emphasis on news, features, sports and interview stories and editorials. (3,3,0)

JOU 1313 — Principles of Journalism I. A course designed to introduce basic principles and careers in mass communications with emphasis on the newspaper. (3,3,0)

JOU 2513 — Beginning Photography. JOU 2513 is an introduction to basic photography. Students learn to take pictures, process film and print pictures. No previous experience is required. (3,3,0).

JOU 2523 — Advanced Photography. JOU 2523 covers advanced camera and darkroom techniques. Emphasis is placed on the composition and use of photographs. Color film processing. Prerequisite: JOU 2513 or permission of the instructor. (3,3,0)

LEADERSHIP (LEA)

LEA 1811 — Leadership and Organization Skills I. A study of leadership styles and skills, roles and functions of officers of student organization. Includes parliamentary procedure, communication, conducting effective meetings, and working with volunteers. (1,1,0)

LEA 1813 — Leadership Development I. A study of leadership styles and skills, roles and functions of officers of student organization. Includes parliamentary procedure, communication, conducting effective meetings, and working with volunteers. (3,3,0)

LEA 1821 — Leadership Organization Skills II. This course is designed for ice breakers, traits of members and joiner, non-verbal communication, role functions in groups, time management, stress management, and role of constitution. Prerequisite: LEA 1811. (1,1,0)

LEA 1823 — Leadership Development II. This course is designed for ice breakers, traits of members and joiner, non-verbal communication, role functions in groups, time management, stress management, and role of constitution. Prerequisite: LEA 1813.

LEA 1831 — Leadership and Organization Skills III. Experiential roles chairing committees and events, lead decision making techniques, nominal group technique, and consensus building. Prerequisite: LEA 1811, LEA 1821. (1,1,0)

LEA 1841 — Leadership and Organization Skills IV. This course is a continuation of activities and events of LEA 1811, LEA 1821, and LEA 1831. Prerequisite: LEA 1811, LEA 1821, LEA 1831. (1,1,0)

LEA 1911, 1921, 2911, 2921 — Leadership and Communication Skills I, II, III, IV. This course is primarily designed for Reflection Team members, student workers, and resident assistants. Its purpose is to teach leadership skills and give the student a better understanding of the overall operation of the college. Among the leadership skills to be taught are listening skills, time management, salesmanship, and information giving techniques. (1,1,0)

LEGAL CLUSTER (LET) PARALEGAL

LET 1113 — Introduction to Law. This course provides an overview of major principles and functions of the state and federal legal systems, introduces various legal fields for professional opportunities, presents legal vocabulary, gives an overview of different areas of law, and presents ethics. (3,3,0)

LET 1213 — Legal Research. This course is an introduction to basic sources of law and the methods of legal research, including ethics. (3,2,2)

LET 1513 — Family Law. This course is a study of the areas of law pertaining to domestic relations, emphasizing ethics. Prerequisites: LET 1113, LET 1213. (3,3,0)

LET 1523 — Wills and Estates. This course is an introduction to the laws of inheritance and estates, basic concepts of estates and wills, probate procedures, and preparation of documents while emphasizing ethics. Prerequisites: LET 1113, LET 1213. (3,3,0)

LET 1713 — Legal Writing. This course includes composition of legal communications, briefs memoranda, and other legal documents with an emphasis on ethical considerations. Prerequisite: LET 1113, LET 1213. (3,2,2)

LET 2313 — Civil Litigation I. This course is designed to study the litigation process. Emphasis is on the structure of the Mississippi Court System and on gathering information and evidence, summarizing and arranging materials, maintaining docket and file control, developing a litigation case, and interviewing clients and witnesses, using ethical standards. Prerequisite: LET 1113, LET 1213. (3,2,2)

LET 2323 — Torts. This course provides instruction in the area of law, which deals with private and civil wrongs and injuries as distinguished from breach of contract. Concentrates on the elements of a tort, type of tort, damages, ethics, and remedies. Prerequisites: LET 1113, LET 1213. (3,3,0)

LET 2333 — Civil Litigation II. This course is designed to continue the study of the litigation process from discovery through appeal. Prerequisites: LET 1113, LET 1213, LET 2313. (3,2,2)

LET 2453 — Real Property I. This course is an introduction to real property law including ownership and transfer, employing ethics. Prerequisites: LET 1113, LET 1213. (3,2,2)

LET 2463 — Real Property II. This course examines legal documents related to real property as recorded in the chancery clerk's office, the tax assessor's office, and the circuit clerk's office and compile a title abstract and complete an assignment to prepare a real estate file from transaction through closing and post — closing implementing ethics. Prerequisites: LET 1113, LET 1213, LET 2453. (3,2,2)

LET 2633 — Law Office Management. This course provides practical application of daily legal office skills needed in the legal field, professional enrichment presentations, history of the profession, professional ethics through fact analysis, and an overview of law office management. Prerequisite: LET 1113 (3,3,0)

LET 2923 — Internship for Paralegals. Supervised practical experience in a private law office, courts, government offices and agencies, corporations or trust departments of banks. Provides students the opportunity to apply theory presented in the classroom in a supervised work setting. (3,135 clock hours)

LOGISTICS TECHNOLOGY (LGT)

LGT 1113 — Introduction to Logistics. This course is designed to give the student a firm foundation in the systems approach to managing activities associated with forecasting, procurement, inventory management, life cycle costing, and product support. (3,3,0)

LGT 1213 — Transportation and Distribution. This course is designed to give an overview of transportation and distribution issues. Emphasis is placed on domestic and international transportation, third party selection, regulations, route and schedule development and planning for shipments. (3,3,0)

LGT 1233 — Materials Management. This course provides managerial information concerning inventory information systems, managerial tools and techniques, the warehouse environment and distribution planning and control. (3,3,0)

LGT 1243 — Purchasing. This course provides information about the purchasing function. Emphasis will be placed on vendor analysis, negotiations, systems contracts, public purchasing, competitive bidding and personnel. (3,3,0)

LGT 1253 — Traffic Management. This course is designed to provide managerial information concerning the movement of freight through the entire supply chain. (3,3,0)

LGT 1313 — Supply Chain Management. This course provides information concerning the flow of products and information among producers, suppliers, and customers. Emphasis is placed on acquiring, purchasing and distribution of goods and services throughout the supply chain. (3,3,0)

LGT 1413 — Logistic Support Analysis. This course is a study of the support function and the development of analytical tools to support managerial decisions. Topics covered are maintenance planning, provisioning and support, system safety, and life cycle cost. (3,3,0)

LGT 1513 — Production Planning & Control. This course provides managerial information regarding material requirements, capacity planning and control techniques, master production scheduling, and techniques in cost analysis. (3,3,0)

LGT 2113 — Logistics Management. This course is designed to help the student solve actual challenges they will encounter in the marketplace. Basic decision making tools and concepts will be used for finding cost reduction and strategic opportunities. (3,3,0)

LGT 2313 — Supply Chain Management II. This course is a continuation of Supply Chain Management. Students will learn about emerging trends and drivers in supply chain management, map existing networks, integrate information flow, and incorporate strategic cost management techniques to an efficient supply chain. (3,3,0)

LGT 2323 — Supply Chain Information Systems. This course outlines key project management concepts and demonstrates how to apply them to real world problems. (3,3,0)

LGT 2513 — Maintenance Management. This course enables the student to understand the relationship between reliability and maintainability (R&M) and acquisition logistics and to evaluate the impact of R&M decisions. (3,3,0)

LGT 2533 — Configuration Management. This course is designed to give the student a foundation of the interrelationship of configuration management to life cycle activities and logistics support. Emphasis will be placed on configuration identification, audits, controls, as well as data management. (3,3,0)

LGT 2813 — Special Project. This course provides practical application of skills and knowledge gained in other logistics courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. (3,3,0)

LEARNING AND LIFE SKILLS (LLS)

LLS 1311 — Orientation. This course is designed to help the new college student adjust to college life. It includes a study of personal and social adjustments. It teaches effective study habits, reading methods, use of the library, note taking, report writing, and gives the student guidance in collegiate life. (1,1,0)

LLS 1323 — Career Education. A course designed to assist students in determining career goals through self-awareness and career/education information. Students are prepared for the world of work with personal management skills. (3,3,0)

LLS 1413 — Improvement of Study: College Survival and Study Skills. A college survival and study skills course designed to promote student success. Major emphases will be on study/learning skills including memory training and listening techniques, career development and decision making, self — esteem, critical thinking, and time management strategies. (3,3,0)

MATHEMATICS (MAT)

NOTE: Placement into mathematics courses is based on ACT or COMPASS test scores and/or successful completion of identified high school mathematics classes.

MAT 0113 — Fundamentals of Mathematics. A review of fundamental arithmetic skills. A study of the four basic operations with whole numbers, fractions, decimals, and percentages. Also covered are ratio and proportions, order of operations, and applications. (3,2,2)

MAT 0123 — Beginning Algebra. A course in algebra to include operations with real numbers, linear equations, the coordinate system, linear inequalities, exponents, operations with polynomials, and factoring. Prerequisite: MAT 0113 or Basic Math Competency. (3,2,2)

MAT 1233 — Intermediate Algebra. The topics include linear equations and their graphs; inequalities and number line graphs; rational expressions; factoring; exponents; radicals; polynomials. Prerequisite: High School Algebra I or MAT 0123. (3,2,2)

MAT 1313 — College Algebra. This course includes inequalities; functions; linear and quadratic equations, circles, and their graphs; applications; polynomial and rational functions; logarithmic and exponential functions; systems of equations. Prerequisite: MAT 1233 or two years of high school algebra. (3,3,0)

MAT 1323 — Trigonometry. This course includes trigonometric functions and their graphs; functions of composite angles; fundamental relations; trigonometric equations; radian measurement; solutions of right and oblique triangles; inverse trigonometric functions; applications. Prerequisite: Two years of high school algebra and one year of geometry. Corequisite: MAT 1313. (3,3,0)

MAT 1343 — Pre-Calculus. A review of college algebra and trigonometry in preparation for Calculus I. Topics include functions; solving equations; logarithmic and exponential functions; trigonometric function; solving trigonometric equations. Prerequisite: Two years of high school algebra and trigonometry. *This course is intended for those students requiring a review of both algebra and trigonometry before beginning the calculus sequence.* (3,3,0)

MAT 1513 — Business Calculus I. A study of functions, limits, continuity, derivatives, and their applications to business and economics. Prerequisite: MAT 1313 (3,3,0)

MAT 1613 — Calculus I. This course includes the following topics: limits; continuity; the definition of the derivative; differentiation; applications; anti-derivatives. Prerequisites: Two years of high school algebra and trigonometry or MAT 1313 and MAT 1323 or MAT 1343. MAT 1613 and MAT 1323 may be taken during the same semester. (3,3,0)

MAT 1623 — Calculus II. This course includes the following topics: the definite integral; differentiation and integration of transcendental functions; techniques of integration; applications. Prerequisite: MAT 1613. (3,3,0)

MAT 1723 — Real Number System. Designed for elementary and special education majors, this course includes set theory, numeration systems, foundations of number theory, and properties and operations of real numbers. Corequisite: MAT 1313. (3,3,0)

MAT 2113 — Introduction to Linear Algebra. This course includes the following topics: systems of linear equations; matrices; Vector spaces; determinants; linear transformation; Eigenvalues and Eigenvectors. Prerequisite: MAT 1623. (3,3,0)

MAT 2323 — Statistics. Introduction to statistical methods of describing, summarizing, comparing, and interpreting data to include probability distributions, sampling, estimation, confidence intervals, and hypothesis testing. Prerequisite: MAT 1313. (3,3,0)

MAT 2613 — Calculus III. This course includes the following topics: analytical geometry; parametric equations; polar coordinates; improper integrals; infinite series. Prerequisite: MAT 1623. (3,3,0)

MAT 2623 — Calculus IV. This course includes the following topics: partial differentiation; multiple integration; vector calculus; quadric surfaces. Prerequisites: MAT 2613. (3,3,0)

MAT 2913 — Differential Equations. This course includes the following topics: solution of first and higher order differential equations; existence theorems; Laplace transforms; applications. Prerequisite: MAT 2623 or enrollment in MAT 2623. (3,3,0)

MEDICAL TERMINOLOGY (MET)

MET 1113 — Medical Terminology. This course is a study of medical language relating to the various body systems including diseases, physical conditions, procedures, clinical specialties, and abbreviations. Emphasis is placed on correct spelling and pronunciation, and the use of computer assisted software. (3,2,2)

MODERN FOREIGN LANGUAGES (MFL)

MFL 1113 — French I. MFL 1113, an oral-aural approach, stresses conversation, pronunciation, comprehension, reading, writing, and functional grammar with emphasis on the practical aspects of the language. (3,3,0)

MFL 1123 — French II. MFL 1123 continues MFL 1113 with wider vocabulary and more complex structures and functions. Prerequisite: MFL 1113 or 1 year of previous language study. (3,3,0)

MFL 1213 — Spanish I. MFL 1213, an oral-aural approach stresses conversation, pronunciation, comprehension, reading, writing, and functional grammar with emphasis on the practical aspects of the language. (3,3,0)

MFL 1223 — Spanish II. MFL 1223 continues MFL 1213 with wider vocabulary and more complex structures and functions. Prerequisite: MFL 1213 or 1 year of previous language study. (3,3,0)

MFL 2113 — French III. MFL 2113 continues MFL 1123 with additional materials of literary and cultural value. Prerequisite: MFL 1113 and 1123 or two years of high school French. (3,3,0)

MFL 2123 — French IV. MFL 2123 continues MFL 2113 with additional literary and cultural readings and compositions as well as a review of essential elements of grammar. Prerequisite: MFL 2113. (3,3,0)

MFL 2213 — Spanish III. MFL 2213 continues MFL 1223 with additional materials of literary and cultural value. Prerequisite: MFL 1213 and 1223 or two years high school Spanish. (3,3,0)

MFL 2223 — Spanish IV. MFL 2223 continues MFL 2213 with additional literary and cultural readings and compositions as well as a review of essential elements of grammar. Prerequisite: MFL 2213. (3,3,0)

MFL 2243 — Spanish Conversation I. MFL 2243, Conversational Spanish I, is an advanced-level course designed to further develop language proficiency. (3,3,0)

MFL 2253 — Spanish Conversation II. MFL 2253, Conversational Spanish II, continues MFL 2243 and is an advanced-level course designed to further develop language proficiency. (3,3,0)

MFL 2513 — Occupational Spanish. This course is designed to teach basic oral communication skills for interaction in Spanish in an occupational setting. Specialized variations of this course include: Law Enforcement, Medical and Business. (3,2,2)

MEDICAL LABORATORY TECHNOLOGY (MLT)

MLT 1013 — Introduction to MLT I. This course contains the baseline competencies and suggested objectives from the high school Allied Health curriculum, which directly relate to the community college Medical Laboratory Technology program. This course is designed for students entering the community college who have had no previous training or documented experience in the field. (3,1,4)

MLT 1023 — Introduction to MLT II. This course contains the baseline competencies and suggested objectives from the high school Allied Health curriculum, which directly relate to the community college Medical Laboratory Technology program. This course is designed for students entering the community college who have had no previous training or documented experience in the field. (3,1,4)

MLT 1111 — Fundamentals of Medical Laboratory Technology/Phlebotomy. A course designed to give an overview of the field of Medical Laboratory Technology, familiarize one with laboratory safety, microscopes, glassware, and equipment. Basic laboratory specimen collection techniques are also introduced. Prerequisite or Corequisite: MLT 1013. (1,0,2)

MLT 1212 — Urinalysis/Body Fluids. Introduction to urinalysis and laboratory analysis of miscellaneous body fluids. Basic principles of routine and special urine tests, specimen examination through laboratory work. Theory and test profiles presented for miscellaneous body fluids with correlation to diseased states. Prerequisite or Corequisite: MLT 1013. (2,1,2)

MLT 1313 — Hematology I. A study of the function of blood; morphology, and maturation of normal cells; blood cell counts, differentiation of white cells; blood collection and handling. Prerequisites: MLT 1013, MLT 1111, MLT 1212, MLT 1413, MLT 2512. (3,2,2)

MLT 1324 — Hematology II. The study of abnormal cell morphology and diseases involving blood cells, test procedures used in laboratory diagnosis of hematological disease, normal and abnormal hemostasis, and diagnostic procedures for evaluation of bleeding abnormalities and anticoagulant therapy. Prerequisites: MLT 1313. (4,2,4)

MLT 1413 — Immunology/Serology. Basic principles of serology/immunology; theory and performance of routine serology tests. Prerequisites or Corequisite: MLT 1013, MLT 1111, 1212, 2512. (3,2,2)

MLT 1515 — Clinical Chemistry. Study of human biochemistry as an aid in the diagnosis of disease processes. Chemistry procedures performed on body fluids or aiding in diagnosis of disease processes. Prerequisites: MLT 1313. (5,3,4)

MLT 2424 — Immunoematology. Collection, processing, storage, and utilization of blood components. Study of immunological principles and procedures for blood typing, cross matching, antibody detection, and identification. Investigation of hemolytic disease of the newborn. Prerequisites: MLT 1313. (4,2,4)

MLT 2512 — Parasitology. This course covers the morphology, physiology, life cycles, and epidemiology of parasites of animals with emphasis on human pathogenic parasites. Identification of the parasites from human material is also included. Prerequisite/Corequisite: MLT 1013. (2,1,2)

MLT 2614 — Pathogenic Microbiology. Basic skills, principles, and techniques for staining, culturing, isolation, and identification of microorganisms of medical importance are emphasized in this course. Included are techniques used in determining the sensitivity of pathogenic bacteria to different antibiotic and other drugs. Prerequisites: MLT 1313. (4,2,4)

MLT 2711 — Medical Laboratory Technology Seminar. This course represents a synthesis of previous didactic, laboratory, and clinical experiences. It is designed to facilitate activities incorporated in student and professional organizations and to allow students to select and present a case study. Prerequisites: Completion of all didactic Medical Laboratory Technology courses. (1,0,2)

MLT 2713 — Registry/Certification Exam Prep. An in-depth study and review of material covered in the MLT curriculum. Designed to prepare the student for the national registry/certifying exams. Prerequisites: MLT 2916 and MLT 2926. (3,3,0)

MLT 2916 — Clinical Practice I. Clinical practice and didactic instruction in a clinical affiliate. Areas covered are hematology, clinical chemistry, immunohematology, urinalysis, microbiology, coagulation, and serology. Prerequisites: MLT 1023, MLT 1324, 1515, 2424, and 2614. (6,0,18)

MLT 2926 — Clinical Practice II. A continuation of MLT 2916. Prerequisite: Simultaneous enrollment in MLT 2916. (6,0,18)

MLT 2936 — Clinical Practice III. A continuation of MLT 2926. Prerequisite: MLT 2926. (6,0,18)

BUSINESS AND MARKETING MANAGEMENT TECHNOLOGY (MMT)

MMT 1113 — Principles of Marketing. Study of principles and problems of marketing goods and services and methods of distribution from producer to consumer. Types, functions, and practices of wholesalers and retailers and efficient techniques in the development and expansion of markets. (3,3,0)

MMT 1123 — Marketing Management. A continuation of MMT 1113. Prerequisite: MMT 1113 (3,3,0)

MMT 1313 — Personal Selling. Basic principles and techniques of salesmanship and their practical application. Topics include basic elements of consumer behavior, developing selling, strategies, closing and servicing a sale, and developing consumer relations. (3,3,0)

MMT 1323 — Advertising. The role of advertising as a promotional tool. Topics included are product and consumer analysis, media selection, and creation of advertising. (3,3,0)

MMT 1413 — Merchandising Math. Study of the mathematical calculations involved in the merchandising process. Fundamental principles and operations in buying, pricing, and inventory control. (3,3,0)

MMT 1753 — Marketing Seminar. Develops leadership skills and human relations skills necessary for success in the field of marketing management. A minimum of six outside speakers will address the class on topics directly related to marketing careers. Emphasis will be placed on developing civic, social, and business responsibilities. (3,2,4)

MMT 2213 — Principles of Management. Study of the basic principles and functions of management. Special emphasis on planning, organizing, directing, staffing and controlling. (3,3,0)

MMT 2233 — Human Resource Management. Objectives, organization, and functions of human resource management. Emphasis is placed on selection and placement, job evaluation, training, safety, health, employer-employee relationships, and employee services. (3,3,0)

MMT 2243 — Marketing Case Studies Decision Making. The study of effective marketing management decision making through case study analysis. (3,3,0)

MMT 2313 — E-Commerce Marketing. This course introduces the fundamental opportunities and challenges associated with e-commerce activities. Topics include: Designing the user interface, web security, electronic payment systems, promotion, and legal issues involved in creating a functioning online business. (3,3,0)

MMT 2333 — Multimedia Presentations for Marketing. Design and deliver multimedia marketing presentations through the use of appropriate multimedia software and tools. Topics include marketing design concepts and related marketing communication strategies. (3,2,2)

MMT 2343 — Marketing Web Page Design. Use creative marketing strategies, concepts, and techniques to design web sites, which will reach designated target markets. (3,2,2)

MMT 2423 — Retail Management. Study of retailing processes, including functions performed, principles governing effective operation, and managerial problems resulting from current economic and social trends. (3,3,0)

MMT 2513 — Entrepreneurship. Overview of activities that are involved in planning, establishing, and managing a small business enterprise. Topics to be covered will include planning, location, analysis, financing, and development of a business plan. (3,3,0)

MMT 2523 — Event Management. Design a plan for special events, trade and consumer shows, exhibitions, and conventions. (3,2,2)

MMT 2613 — International Marketing. Provide students with an overview and understanding of international marketing. This involves an analysis of world markets, their respective consumers and environments, and the marketing management required to meet the demands of constantly changing foreign markets. (3,3,0)

MACHINE TOOL TECHNOLOGY (MST)

MST 1013 — Introduction to Machine Tool Operation/Machine Shop I. This course is designed for the student entering the community college who has had no previous training or documented experience in the field. (3,2,2)

MST 1023 — Introduction to Machine Tool Operation/Machine Shop II. This course is designed for the student entering the community college who has had no previous training or documented experience in the field. (3,2,2)

MST 1117 — Power Machinery I. A course in the operation of power machinery. Includes instruction and practice in the operation of lathes, drill presses, power saws, and vertical mills. Two hundred ten clock hours. (7,2,10)

MST 1127 — Power Machinery II. A continuation of Power Machinery I with emphasis on more advanced applications of lathes, mills, shapers, and precision grinders. (7,2,10)

MST 1313 — Machine Tool Mathematics. An applied mathematics course designed for machinists. Includes instruction and practice in algebraic and trigonometric operations essential for successful machining. (3,2,2)

MST 1413 — Blueprint Reading. A course in blueprint reading designed for machinists. Includes instruction and practice in reading industrial blueprints. (3,2,2)

MST 1423 — Advanced Blueprint Reading. A continuation of Blueprint Reading with emphasis on advanced feature of technical prints. Includes instruction of the identification of various projects and views and on different assembly components. (3,2,2)

MST 1613 — Precision Layout. An introduction to the concepts and practice of precision layout for machining operations. Includes instruction and practice in the use of layout instruments. (3,2,2)

MST 2135 — Machinery III. A continuation of the Power Machinery II course with emphasis on advanced applications of the engine lathe, milling machine, and grinding machine. (5,2,6)

MST 2144 — Power Machinery IV. A continuation of Advanced Power Machinery III with emphasis on highly advanced operations on the radial arm drill, milling machine, engine lathe, and precision grinder. (4,2,4)

MST 2714 — Computer Numerical Control Operations I. An introduction to the application of computer numerical control (CNC) and computer assisted manufacturing (CAM) techniques and practices. Includes instruction and practice related to the use of the Cartesian coordinate system, programming codes and commands and tooling requirements for CNC/CAM machines. (4,3,2)

MST 2725 — Computer Numerical Control Operations II. A continuation of Computer Numerical Control Operations I. Includes instruction in writing and editing CNC programs, machine setup and operation, and use of CAM equipment to program and operate CNC machines. (5,2,6)

MST 2812 — Metallurgy. An introduction to the concepts of metallurgy. Includes instruction and practice in metal identification, heat treatment, and hardness testing. (2,1,2)

MST 2913 — Special Problem in Machine Tool Operation/Machine Shop. A course designed to provide the student with practical application of skills and knowledge gained in other Machine Tool Operation/Machine Shop courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. (3,0,6)

MUSIC (MUA, MUO, MUS)

MUA 1141, 1151, 2141, 2151 — Brass for Non Majors (Elective Brass) I, II, III, IV. Brass instruction for non-brass/music education majors. Designed to teach the fundamental principles of playing, explore moderate levels of literature and develop the student's interest in playing. (1,1/2,0)

MUA 1172, 1182, 2172, 2182 — Brass for Music Education Majors I, II, III, IV. Brass instruction for music education majors with an emphasis on brass instrumental playing. Designed to teach the fundamental principles of playing, explore moderate to advanced levels of literature, develop the student's interest in playing and strengthen the student's playing ability. (2,1,0)

MUA 1211, 1221, 2211, 2221 or 1212, 1222, 2212, 2222 — Class Guitar I, II, III, IV. Instruction for beginning guitar player's that includes basic accompanying styles and an introduction to classical guitar technique. (1,1,0) or (2,2,0)

MUA 1241, 1251, 2241, 2251 — Guitar for Non Majors (Elective Guitar) I, II, III, IV. Guitar instruction for music education majors with guitar as a secondary area of emphasis. Introduction to classical guitar technique, literature, and performance of standard literature. (1,1/2, 0)

MUA 1272, 1282, 2272, 2282 — Guitar for Music Education Majors I, II, III, IV. Guitar instruction for music education majors with guitar as their area of emphasis. Introduction to classical guitar technique, literature and performance of standard literature. (2,1,0)

MUA 1362, 1372 — Organ for Music Education Majors I, II. Private lessons include the fundamental techniques, reading, interpretation, registration, performance, as well as hymns and service-playing. Compositions are selected to suit the individual's background and ability. Prerequisite: MUA 1511, 1521 or equivalent. (2,1,0)

MUA 1441, 1451, 2441, 2451 — Percussion for Non Majors I, II, III, IV. Percussion instruction for non-percussion/music education majors. Designed to teach the fundamental principles of playing, explore moderate levels of literature and develop the student's interest in playing. (1,1/2,0)

MUA 1472, 1482, 2472, 2482 — Percussion for Music Education I, II, III, IV. Percussion instruction for music majors with an emphasis on percussion instrumental playing. Designed to teach the fundamental principles of playing, explore moderate to advanced levels of literature and develop the student's interest in playing. (2,1,0)

MUA 1512, 1522 — Class Piano I, II. Class study in keyboard training is designed for students who have had no previous piano instruction. Fundamentals are taught through class participation and discussion, including major and minor scales, chord progressions, harmonization of melodies, open score reading, accompanying, transposition and elementary repertoire. This plan may, upon arrangement with the instructor, include individual instruction. (2,2,0)

MUA 1541, 1551, 2541, 2551 — Piano for Non Majors I, II, III, IV. Piano instruction for music education majors with piano as a secondary area of emphasis. Introduction to technique, literature, and performance of standard literature. (1,1/2,0)

- MUA 1571, 1581 or 1572, 1582 — Piano for Music Education Majors I, II.** Private lessons include fundamental techniques, reading, interpretation and performance. Compositions are selected to suit the individual's background and ability. (1,1/2,0) or (2,1,0)
- MUA 1711, 1721, 2711, 2721 — Class Voice I, II, III, IV.** Class voice is designed to teach the fundamental principles of singing, explore elementary to moderate levels of vocal literature and develop and improve the student's vocal ability in a group setting. (1,1,0)
- MUA 1741, 1751, 2741, 2751 — Voice for Non-Majors I, II, III, IV.** Voice for non-major/music education majors is designed to teach the fundamental principles of singing, explore moderate levels of vocal literature and develop and improve the student's vocal ability. (1,1/2,0)
- MUA 1772, 1782, 2772, 2782 — Voice for Music Education Majors I, II, III, IV.** Voice for majors is designed to teach the fundamental principles of singing, explore varied vocal repertoire, and develop and improve the student's vocal ability. (2,1,0)
- MUA 1841, 1851, 2841, 2851 — Woodwinds for Non Majors I, II, III, IV.** Woodwind instruction for non-woodwind/music education majors. Designed to teach the fundamental principles of playing, explore moderate levels of literature, and develop the student's interest in playing. (1,1/2,0)
- MUA 1872, 1882, 2872, 2882 — Woodwinds for Music Education Majors I, II, III, IV.** Woodwind instruction for music education majors with an emphasis on woodwind instrumental playing. Designed to teach the fundamental principles of playing, explore moderate to advanced levels of literature, develop the student's interest in playing, and strengthen the student's playing ability. (2,1,0)
- MUA 2512, 2522 — Class Piano III, IV.** A continuation of MUA 1521 or 1522, MUA 2511 or 2522 Class Piano II, III. (2,2,0)
- MUA 2571, 2581 or 2572, 2582 — Piano for Music Education Majors III, IV.** A continuation of MUA 1582 & 2572 with selections from the masterpieces of classical, romantic and modern composers as well as continued work on technical and interpretative skills. (1,1/2,0) or (2,1,0)
- MUO 1112, 1122, 2112, 2122 — Band I, II, III, IV.** Designed to teach the fundamental principles of playing, musical instrument's, explore varied levels of literature and develop the student's knowledge of performance techniques. May count for HPR credit for graduation purposes at MGCCC. (2,0,4)
- MUO 1141, 1151, 2141, 2151 — Small Band Groups I, II, III, IV.** Designed to teach the fundamental principles of playing musical instruments, explore varied levels of literature and develop the student's knowledge of performance techniques in small ensembles and auxiliary groups. Open to all students by audition. (1,1,0)
- MUO 1171, 1181, 2171, 2181 — Stage Band I, II, III, IV.** A course designed for members selected from marching band members by audition to perform instrumental music from a variety of style periods. Emphasis on jazz. (1,1,0)
- MUO 1211, 1221, 2211, 2221 — Choir I, II, III, IV.** A course for music majors and non-majors focused on performing choral music from a variety of style periods. (1,1,0)
- MUO 1241, 1251, 2241, 2251 — Small Singing Groups I, II, III, IV.** A course for select singers focused on performing from one or more genres of music. Open to all students by audition. (1,1,0)
- MUS 1113 — Music Appreciation.** Listening course designed to give the student, thorough aural perception, understanding and appreciation of music as a moving force in Western Culture. (3,3,0)
- MUS 1123 — Music Survey (Majors).** Advanced listening course, designed to acquaint the music major with a broad overview of musical style and repertoire from antiquity to the present. (3,3,0)
- MUS 1133 — Fundamentals of Music.** Provides the student with basic knowledge of notations, scales, keys, rhythm, intervals, triads, and their inversions. (3,3,0)
- MUS 1214 — Music Theory I.** Study of functional harmony through analysis and part writing, sight-singing, and ear training. (4,3,2)
- MUS 1224, 2214, 2224 — Music Theory II, III, IV.** Continued study of functional harmony through analysis and part writing, sight-singing, and ear training. Prerequisites: MUS 1214, 1224 and MUS 2214 (4,3,2)

MUS 1811 — Music Theatre Workshop I. The workshop is designed to introduce the student to all facets of music theatre. One public performance will be given each semester. Open to music majors and non-music majors. (1,1,0)

MUS 1821, 2811, 2821 — Music Theatre Workshop II, III, IV. The workshop is designed to introduce the student to all facets of music theatre. One public performance will be given each semester. Open to all students. (1,1,0)

MUS 1910 — Recital Class I. Required performance of solo and ensemble literature by students majoring in music. Attendance at a prescribed minimum number of departmentally approved musical performances per semester also required.

MUS 1920, 2910, 2920 — Recital Class II, III, IV. Attendance at a prescribed minimum number of departmentally approved musical performances per semester also required.

MUS 2313 — Music History I. Study of Western music beginning in ancient Greece and continuing through the Baroque. Study includes early music, Middle Ages, Renaissance, Baroque and the various aspects of style analysis as exemplified in the works of the major composers of each period. (3,3,0)

MUS 2323 — Music History II. Study of Western music beginning in ancient Greece and continuing through the Baroque. Study includes early music, Middle Ages, Renaissance, Baroque and the various aspects of style analysis as exemplified in the works of the major composers of each period. (3,3,0)

MUS 2513 — Music for Elementary Teachers. Designed for the needs of the elementary education student. Essentials of public school music; study of the fundamentals of music. Reading music notations and terminology. (3,3,0)

ASSOCIATE DEGREE NURSING (NUR)

NUR 1011 — Dosage Calculations (Nursing Elective). This course focuses on math skills needed to compute dosages and administer medications. The student is provided with the opportunity to develop math skills necessary to compute medication dosages. (1,1,0)

NUR 1022 — Medical Terminology (Nursing Elective). This course acquaints students with medical terminology. Terms related to anatomy and physiology, diagnostics, symptoms, special procedures, and pharmacology are addressed. Abbreviations, prefixes, suffixes and case studies are included. (2,2,0)

NUR 1031 — Managing Stress for Health and Well-being (Nursing Elective). This course is designed to acquaint students with fundamental theories and applications of the mind-body phenomenon. Coping strategies and relaxation techniques are integrated into the course. (1,1,0)

NUR 1041 — Documentation in Nursing (Nursing Elective). This course exposes the student to various formats of documentation related to client assessment and care in a variety of healthcare settings. Emphasis is placed upon proper documentation techniques and legal considerations for healthcare providers. The student will practice various types of documentation using simulated client scenarios. (1,1,0)

NUR 1052 — Pharmacology (Nursing Elective). This course introduces students to clinical drug therapy with emphasis on knowledge and interventions needed to maximize therapeutic effects and prevent or minimize adverse effects of drugs. Major content areas include basic concepts of pharmacology, classifications of therapeutic drugs, prototypes of drug classifications, commonly prescribed drugs, drug effects on body tissues, human responses to drug therapy, and applying the steps of assessment, planning, intervention, and evaluation in relation to prescribed drug therapy regimens. Prerequisites: NUR 1110. (2,2,0)

NUR 1061 — Critical Thinking in Nursing (Nursing Elective). This course assists the student in defining, developing, and using critical thinking in nursing theory, practice, testing situations and clinical judgment. Prerequisites: NUR 1110. (1,1,0)

NUR 1071 — Substance Abuse and Related Disorders (Nursing Elective). This course focuses on the most common substances open to misuse and abuse. The purpose is to give the student a working knowledge of types of substances abused, effects of substances, withdrawal patterns, family dynamics and treatment approaches. (1,1,0)

NUR 1081 — Advanced Dosage Calculations (Nursing Elective). This course focuses on math skills needed to perform advanced dosage calculations to administer medications. Prerequisite: NUR 1011 (1,1,0)

NUR 1100, NUR 1200, NUR 2300, NUR 2401 — Nursing-Professional Development I, II, III, IV. These sequential courses are designed to facilitate participation of ADN students in activities of professional nursing development. The courses encourage leadership, group participation and awareness of current trends and legislation affecting nursing practice. A total of one (1) semester hour of credit is awarded for these courses upon completion of NUR 2401. Prerequisites: Each Professional Development Course is prerequisite to the next Professional Development Course. Corequisites: NUR 1110 (for NUR 1100); NUR 1210 (for NUR 1200); NUR 2310 (for NUR 2300); NUR 2410, NUR 2421 (for NUR 2401). (1,0,1)

NUR 1110 — Nursing-Promotion of Health/Prevention of Illness I. This course focuses on the promotion of health and prevention of illness in communities, families, and individuals across the lifespan. Emphasis is on nursing concepts, growth and development, therapeutic communication, teaching — learning skills, and mental health concepts. Fundamental psychomotor skills and physical assessment skills in preparation for providing nursing care to clients are introduced. Clinical opportunities are provided in a variety of health care and community settings. Prerequisites: Admission to the ADN program, BIO 2514, ENG 1113, PSY 1513. Corequisites: NUR 1100, BIO 2524, EPY 2533. (10,6,12)

NUR 1116 — LPN-to-RN Mobility Track Transition Course. This course assists the Licensed Practical Nurse with transition into the Associate Degree Nursing Program. The course focuses on promotion of health and prevention of illness based on concepts and practices consistent with the role of the registered nurse. The nursing process is introduced as the foundation for provision of care. Clinical competencies are assessed, developed, and expanded throughout the course. Prerequisites: Admission to the LPN — to — RN Mobility Track; ENG 1113; ENG 1123; PSY 1513; EPY 2533; BIO 2514, and BIO 2524. (6,4,6)

NUR 1210 — Nursing-Promotion of Health/Prevention of Illness II. This course continues the focus on promotion of health and prevention of illness in communities, families, and individuals across the lifespan. Emphasis is on nursing concepts related to reproductive health, normal maternal/newborn, prevention of illness, mental health concepts, and pharmacology. Advanced psychomotor skills for providing nursing care to clients are introduced. Clinical opportunities are provided in a variety of healthcare and community settings. Prerequisites: BIO 2514, BIO 2524, ENG 1113, PSY 1513, EPY 2533, NUR 1100, NUR 1110. Corequisites: NUR 1200. (10,6,12)

NUR 2011 — Diet Therapy (Nursing Elective). This course discusses diet therapy and its relation to the treatment of diseases and/or conditions requiring special diets. The roles of healthcare providers when providing nutritional therapy are discussed. Prerequisites: NUR 1110. (1,1,0)

NUR 2031 — Holistic Nursing (Nursing Elective). This course integrates the art and science of caring and healing. It consists of discussions of holistic practice and interventions, demonstrations, and experiential sessions to foster a better understanding of a holistic perspective in nursing practice and daily living. This course assists students to comprehend the meaning of a holistic perspective in theory, practice and life fulfillment. (1,1,0)

NUR 2310 — Nursing-Provision of Care I. This course focuses on the care of individuals, families, and communities. Components include commonalities of care, psychopathology and disease processes. Emphasis is placed on care of individuals across the life span at various points on the health — illness continuum and in a variety of settings. Prerequisites: BIO 2514, BIO 2524, BIO 2924, ENG 1113, ENG 1123, PSY 1513, EPY 2533, NUR 1100, NUR 1110, NUR 1200, NUR 1210. Corequisites: NUR 2300. (10,6,12)

NUR 2410 — Nursing-Provision of Care II. This course continues the focus on the care of the individuals, families and communities. Components include commonalities of care and disease processes. Emphasis is placed upon caring for multiple individuals across the life span at various points on the health-illness continuum and in a variety of settings. A clinical preceptorship focusing on transition into professional practice is included. Prerequisites: BIO 2514, BIO 2524, BIO 2924, ENG 1113, ENG 1123, PSY 1513, EPY 2533, SPT 1113, SOC 2113, NUR 1100, NUR 1110, NUR 1200, NUR 1210, NUR 2300, NUR 2310. Corequisites: NUR 2401, NUR 2421. (10,6,12)

NUR 2421 — Nursing-Comprehensive Seminar. This course focuses on effective utilization of clinical reasoning necessary for professional nursing practice. The student is expected to participate in discussions of case studies, clinical simulations and strategies for NCLEX-RN® testing. Through diagnostic testing, students will assess their individual strengths and weaknesses in nursing knowledge and remediate in areas needing improvement. Prerequisites: BIO 2514, BIO 2524, BIO 2924, ENG 1113, ENG 1123, PSY 1513, EPY 2533, SPT 1113, SOC 2113, NUR 1100, NUR 1110, NUR 1200, NUR 1210, NUR 2300, NUR 2310. Corequisites: NUR 2410, NUR 2401 (1,1,0)

PHILOSOPHY AND BIBLE (PHI)

PHI 1113 — Old Testament Survey. A survey of the Hebrew Bible (Old Testament) with regard to its worth as a literary work, along with significant dates, themes, concepts and contributions of its characters to that history and literature. (3,3,0)

PHI 1133 — New Testament Survey. A study of the New Testament covering the life of Jesus of Nazareth and the establishment of the early church as presented in the Gospels, Acts, and other New Testament books. (3,3,0)

PHI 1153 — Jesus and the Gospels. A study of the life and ministry of Jesus of Nazareth as recorded in the four canonical gospels with specific consideration of the geographical, political, and social conditions of the 1st century and recognition of various early interpretations of the meaning of the life and person of Jesus. (3,3,0)

PHI 2113 — Introduction to Philosophy I. An introduction to the major themes and history of the discipline of Philosophy with an emphasis on the development of critical thinking skills. (3,3,0)

PHI 2613 — World Religions I. Examination of the beliefs and development of Buddhism, Christianity, Hinduism, Islam, Judaism, and other religious traditions. (3,3,0)

PHYSICAL SCIENCE AND PHYSICS (PHY)

PHY 1114 — Introduction to Astronomy. A combined lecture and laboratory course that includes surveys of the solar system, our galaxy, and the universe. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

PHY 2244 — Physical Science I. A combined lecture and laboratory course that includes studies of measurements and units, electricity, mechanics, heat, sound, light, and astronomy. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

PHY 2254 — Physical Science II. A combined lecture and laboratory course that includes studies of chemistry, geology and meteorology. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

PHY 2414 — General Physics I. A combined lecture and laboratory course covering mechanics, heat, waves, and sound. This is a non-calculus based course primarily for pre-professional majors. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: College algebra and trigonometry or special consent of instructor. (4,3,2)

PHY 2424 — General Physics II. A combined lecture and laboratory course covering electricity, magnetism, optics, and modern physics. This is a non-calculus based course primarily for pre-professional majors. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. (4,3,2)

PHY 2514 — General Physics I-A. A combined lecture and laboratory course covering mechanics, heat, waves, and sound. This is a calculus-based course primarily for students of engineering, science, or mathematics. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Recommended for physics, mathematics, chemistry, and pre-engineering majors. Corequisite or Prerequisite: MAT 1613. (4,3,2)

PHY 2524 — General Physics II-A. A combined lecture and laboratory course covering electricity, magnetism, optics, and modern physics. This is a calculus-based course primarily for students of engineering, science, or mathematics. Labs associated with this course contain experiments and exercises that reinforce the principles introduced in lecture classes. Prerequisite: General Physics with Calculus I. (4,3,2)

PRACTICAL NURSING (PNV)

PNV 1213 — Body Structure and Function. This course is a study of body structure and function essential to safe and effective nursing care. Each system of the body is covered with applications to nursing. (3,3,0)

PNV 1426 — Fundamentals of Nursing. This course provides the student with the basic knowledge and skills necessary to care for the individual in wellness and illness and is applicable across the life span. Pre/co — requisites: PNV 1436. It requires a passing grade (80%) in PNV 1426 and PNV 1436 in order to receive credit for these courses. (6,6,0)

PNV 1436 — Fundamentals of Nursing Lab/Clinical. This course provides demonstration of and supervised practice of the fundamental skills related to practical nursing. Pre/corequisites: PNV 1426. It requires a passing grade (80%) in PNV 1426 and PNV 1436 in order to receive credit for these courses. (6,9,4.5)

PNV 1524 — IV Therapy Concepts. This course is designed to prepare the practical nurse to perform the expanded role of IV therapy as outlined in the Mississippi Nursing Practice Law, Rules, and Regulations. The student, upon completion of the practical nursing program and successful passage of the licensure examination, is eligible to apply for IV certification as outlined in the above mentioned rules and regulations. Pre/corequisites: all first semester PNV courses. (4,3,2)

PNV 1614 — Medical/Surgical Nursing. This course provides the student with the basic nursing theory and skills to provide safe and effective care for a client experiencing an alteration in health in systems selected from the following: vascular; respiratory; sensory and integumentary; musculoskeletal; gastrointestinal; blood, lymphatic, immunosuppressive; urinary; reproductive; endocrine; and neurological. The systems not covered in this course are taught in Alterations in Adult Health (PNV 1634). Pharmacological and nutritional therapy, as well as oncological considerations, for various disorders is included. Pre/corequisites: all previous semester courses and PNV 1622. It also requires a passing grade in PNV 1614 and 1622 in order to receive credit for these courses. (4,4,0)

PNV 1622 — Medical/Surgical Nursing Clinical. This course includes supervised clinical experiences for application of medical/surgical theory, the development of skills, and the use of nursing process. Pre/corequisites: all first semester courses. Concurrent registration in PNV 1614 is required. It also requires a passing grade in PNV 1614 and 1622 in order to receive credit for these courses. (2,6 clinical)

PNV 1634 — Alterations in Adult Health. This course provides the student with the basic nursing theory and skills to provide safe and effective care for a client experiencing an alteration in health in systems selected from the following: vascular; respiratory; sensory and integumentary; musculoskeletal; gastrointestinal; blood, lymphatic, and immunosuppressive; urinary; reproductive; endocrine; and neurological. The systems not covered in this course are taught in Medical/Surgical Nursing (PNV 1614). Pharmacological and nutritional therapy, as well as oncological considerations, for various disorders is included. Pre/corequisites: all previous semester courses. Concurrent enrollment in PNV 1642 is required. A passing grade is required in PNV 1634 and PNV 1642 in order to receive credit for these courses. (4,4,0)

PNV 1642 — Alterations in Adult Health Clinical. This course includes supervised clinical experiences for application of medical/surgical theory, the development of skill and the use of nursing process. Pre/corequisites: all previous semester courses. Concurrent enrollment in PNV 1634 is required. A passing grade is required in PNV 1634 and PNV 1642 in order to receive credit for these courses. (2,6 clinical)

PNV 1715 — Maternal-Child Nursing. This course provides the student with basic knowledge and skills to provide safe and effective care for clients and families during pregnancy, postpartum, infancy, and childhood. Prerequisites: all previous semester PNV courses. (5,4,7,1)

PNV 1813 — Mental Health Concepts. This course provides an introduction to mental health concepts. Clinical experience will provide application of learned theory. Prerequisites: all previous semester PNV courses. (3,2,7,1)

PNV 1914 — Nursing Transition. Nursing Transition promotes the development of clinical decision making skills and an interest in continued professional development. Legal aspects of nursing and employment opportunities and responsibilities as well as preparation for the State Board Exam are included. Pre/corequisites: all previous and second semester PNV courses. (4,2,2,3)

Successful completion of a computer-simulated licensure exam is required. Selected clinical experiences include interaction with preceptors in a variety of community settings. 30 lecture/30 lab hours/45 clinical hours/3 semester hours. Prerequisites: All previous semester PNV courses.

PETROCHEMICAL REFINING (PPT)

PPT 1133 — Introduction to Process Technology. Introduction to chemical and refinery plant operations. Topics include process technician duties, responsibilities and expectations; plant organizations; plant process and utility system; and the physical and mental requirements of the process technician. (3,3,0)

PPT 1424 — Process Equipment. Instruction in the use of common process equipment including piping, valves, pumps, compressors, drivers, and fixed equipment such as exchangers, tanks, drums, and vessels. (4,4,0)

PPT 1434 — Process Systems. Study of the interrelation of process equipment and process systems including related scientific principles. Prerequisite: PPT 1424. (4,4,0)

PPT 1444 — Process Operations. A course which combines equipment systems into operational units with an emphasis on instruction for start — up, normal operation, abnormal/emergency operations, and shut-down of an entire process. Prerequisite: PPT 1434. (4,4,0)

PPT 1513 — Safety, Health, and Environment I. Development of knowledge and skills to reinforce the attitudes and behaviors required for safe and environmentally sound work habits. Emphasis is placed on safety, health, and environmental issues in the performance of all job tasks and regulatory compliance issues. (3,3,0)

PPT 1613 — Technical Communication. An application of written, oral, and other forms of communication to the process technology industry. Includes instruction and practice in written communications (reports, presentations, procedures, resumes, documentation, training materials, etc. and oral communications, presentations, directions/instructions, feedback, etc.). (3,3,0)

PPT 1714 — Process Instrumentation I. A study of the instruments and instrument systems used in chemical processing industry including terminology, primary variables, symbols, control loops, and basic troubleshooting. (4,3,2)

PPT 2113 — Oil and Gas Production I. An overview of the petroleum industry including exploration and geology, well drilling, wellhead operations, and product distribution. Emphasis is placed on oil production. (3,3,0)

PPT 2123 — Oil and Gas Production II. A continuation of Oil and Gas Production I with emphasis on natural gas production and processing. Prerequisite: PPT 2113. (3,3,0)

PPT 2313 — Quality Concepts. A course to provide an introduction to the field of quality in the process industry. Students will be introduced to industry — related process concepts including operating consistency, continuous improvement, plant economics, team skills, and statistical process control (SPC). (3,3,0)

PPT 2323 — Process Troubleshooting. A course to apply knowledge of process variables, indicators and controllers, troubleshooting tools, and troubleshooting steps to solve problems in a simple process system. Prerequisites: PPT 1444, PPT 1714. (3,3,0)

PPT 2724 — Process Instrumentation II. A continuation of the study of varied instruments and instrument systems used in the processing industry, including terminology, primary variables, symbols, control loops, and troubleshooting. Prerequisite: PPT 1714. (4,3,2)

PPT 2913 — Special Problem in Process Technology. This course is designed to provide the student with practical application of skills and knowledge gained in the other technical courses. The Instructor works closely with the student to insure that the selection of a problem will enhance the students learning experience. Prerequisite: Instructor Approval. (3,0,6)

PLUMBER/PIPEFITTER (PPV)

PPV 1004 — Introduction to Plumber/Pipefitter. This course contains the baseline competencies and suggested objectives from the high school Building Trades curriculum which directly relate to the community college Plumber and Pipefitter/Steamfitter program. This course is designed for students entering the community college who have had no previous training or documented experience in the field. (4,2,4)

PPV 1113 — Fundamentals of Plumbing/Pipefitting. This course provides the student with an understanding of job safety, health and first aid. It gives the student a general knowledge of occupational hazards and the scope of OSHA law. The course includes pipefitting and plumbing fittings, valves, hangers, general trade fitting identification, screwed, welded, flanged, soldered, brazed, glued, compression, and flare fittings. The course also consists of identification and use of pipefitting and plumbing tools used in today's piping industry. (3,1,4)

PPV 1213 — Tacking, Brazing, and Burning. This course consists of instruction in striking an arc, tacking metal together, setting up ox-acc rig and burning, cutting straight and level angles on flat steel and pipe. Also, instruction in safety procedures will be covered. (3,1,4)

PPV 1223 — Welding, Burning, Brazing, and Soldering. This course gives students an in-depth study of welding, burning, brazing, and soldering in the pipefitting field. (3,1,4)

PPV 1313 — Blueprint Reading for Piping Trades. This course gives students an in-depth understanding of blueprint readings. (3,1,4)

PPV 1323 — Sketching. A course designed to prepare students to sketch, measure and record required information to supplement oral descriptions and organize ideas to include individual piping components. (3,1,4)

PPV 1411 — Low Pressure Boilers. This course is to acquaint students with the operation of a low-pressure boiler for heating, steam, and water heating. (1,0,2)

PPV 1426 — Basic Pipe Fabrication. Use of pipefitting tools and equipment, different ways of cutting and fitting pipes, methods of calculating pipe fittings, and various types of fit-ups for different types of pipe. (6,2,8)

PPV 1432 — Pipe Specifications and Systems. This course is designated to provide students with information about the different metals used in making pipe; their sizes, weights, and strengths; and how they are manufactured. The pipe systems on ships and industrial plans are studied in addition to the cleanliness and testing of systems. (2,1,2)

PPV 1443 — Pipe Level/Transit. This course is designed to give the student practical application of the leveling instruments, shooting elevations and grading pipes. (3,1,4)

PPV 1456 — Advanced Pipefitting Lab. This course is designed to provide information in the area of advanced pipefitting, layout, and fabrication of piping system. (6,2,8)

PPV 1513 — Drainage and Sewer Systems. This course is designed to provide information and practical aspects of drainage and disposal systems and the Southern Standard Plumbing Code. Included are the installation of the drainage system in a residential unit covering health aspects and the disposal of poisonous gases arising from the discharge of traps. Also included is a history of plumbing and sewage treatment. Instruction is provided on elements of disposal systems, including sewer, septic tanks, tank size calculations, maintenance causes, and removal of sewer obstructions. (3,1,4)

PPV 1611 — Heating Devices. This course is designed to give the students background knowledge and psychomotor skills in the area of installing hot water tanks, furnace coils, panel ray heaters, central units, and floor furnaces. (2,1,2)

PPV 1622 — Gas Plumbing. This course will acquaint students with the standard gas and plumbing codes. Proper installation of all applications and gas lines will be included. (2,1,2)

PPV 1712 — Domestic Systems. This course is designed to give the student background knowledge and practical application of installing a hot water system according to the unit fixture system. It also provides information on sizing and installation of a potable cold water system. (2,0,4)

PPV 1722 — Plumbing Fixtures Lab. This course is designed to provide information on the installation of the rough in and finish fixtures used in the plumbing construction according to International Plumbing Code. (2,0,4)

PPV 1732 — Back Flow Cross Connection. This course acquaints students with different types of back flow devices, proper installation, testing and repairs of devices. (2,1,2)

PPV 1743 — Advanced Plumbing Lab. This course is designed to provide additional study in advanced plumbing in the commercial area. (3,1,4)

PPV 1812 — Rigging and Signaling. This course is designed to provide the student with basic use of hand signals, rigging, and equipment. (2,1,2)

PPV 1823 — Steel Ship Building and Marine Construction. Structure of a ship and abbreviation of parts and sections of ships. Also, various types of piping systems, including both building and marine pipefitting systems. (3,2,2)

PPV 291 (1-3) — Special Project in Pipefitting. This course is designed to provide the student with practical application of skills and knowledge gained in other technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. (3,0,6)

POLITICAL SCIENCE (PSC)

PSC 1113 — American National Government. Survey of the organizations, political aspects, and basis of national government. (3,3,0)

PSC 1123 — American State and Local Government. The relationship among states, national and local governments. The organization, function, and operation of the three branches with emphasis on the state of Mississippi. (3,3,0)

PSYCHOLOGY (PSY)

PSY 1513 — General Psychology. An introduction to the scientific study of human behavior and mental processes. This includes history and theories of psychology, research methods, biological bases of behavior, the principles of learning, personality and abnormal behavior. (3,3,0)

PSY 2553 — Psychology of Personal Adjustment. A course to aid in developing an understanding of the causes and symptoms of emotional maladjustment. Emphasis is placed upon preparing the students to anticipate and deal with their own problems and to improve their understanding of the behavior of others. Prerequisite: PSY 1513. (3,3,0)

RESPIRATORY CARE TECHNOLOGY (RCT)

RCT 1214 — Respiratory Care Science. This course is designed to introduce the student respiratory care practitioner to fundamental elements important to the delivery of health care in a safe, efficient, and professional manner. The holistic approach to patient care will be emphasized. Prerequisites: BIO 1514 and BIO 1524. (4,3,2)

RCT 1223 — Patient Assessment and Planning. This course is a fundamental approach to subjective and objective evaluation, assessment, and care plan formation for the individual needs of the patient. It is an introduction to cardiopulmonary diseases including etiology, pathophysiology, complications, occurrences, clinical manifestations, treatment, and prevention. (3,2,2)

RCT 1313 — Cardiopulmonary Anatomy and Physiology. This course is a study of cardiopulmonary physiology in relation to the practice of respiratory care. Prerequisites: BIO 1514 and BIO 1524. (3,3,0)

RCT 1322 — Pulmonary Function Testing (PFT). This course is an introduction to pulmonary function technique and testing equipment. Prerequisites: RCT 1313 or instructor approval. (2,1,2)

RCT 1416 — Respiratory Care Practitioner I. This course is a study of respiratory treatments and equipment design and operation related to non-critical care procedures. (6,2,8)

RCT 1424 — Respiratory Care Practitioner II. This course is a continuation of Respiratory Care Practitioner I. It is a study of the management of respiratory failure, including mechanical ventilation, pulmonary rehabilitation, and home care. Prerequisites: RCT 1416. (4,3,2)

RCT 1516 — Clinical Practice I. Patient assessment and care plan formation are presented in the hospital environment. A procedural guide is utilized to evaluate student competencies and performance of respiratory care procedures. Prerequisites: BIO 1514, BIO 1524, RCT 1214, RCT 1223, and RCT 1313. Corequisite: RCT 1416. (6,0,18)

RCT 1525 — Clinical Practice II. In this course, students rotate through various respiratory care sub — specialty areas for evaluation of competency and performance of respiratory care procedures. Prerequisites: RCT 1516. (5,0,15)

RCT 1613 — Respiratory Care Pharmacology. This course is designed to introduce the student to the pharmacology related to cardiopulmonary disorders. Prerequisites: RCT 1214, RCT 1313, and RCT 1223. (3,3,0)

RCT 2333 — Cardiopulmonary Pathology. This course is a study of the cardiopulmonary pathophysiology. It includes etiology, clinical manifestations, diagnostics, and treatment of various cardiopulmonary diseases. Case studies and/or clinical simulations will be utilized to enforce learning and evaluate progress. Prerequisites: RCT 1313. (3,3,0)

RCT 2434 — Respiratory Care Practitioner III. This course is a study of respiratory care in the critical care setting. Topics include nonconventional modes of mechanical ventilation, hemodynamics, special procedures, and advanced cardiac life support. Prerequisites: RCT 1525. (4,3,2)

RCT 2534 — Clinical Practice III. In this course, students rotate through various clinical areas for evaluation of competency and performance of respiratory care procedures. Prerequisites: RCT 1516 and RCT 1525. (4,0,12)

RCT 2546 — Clinical Practice IV. This is a continuation of Clinical Practice III. In this course, students rotate through respiratory care specialty areas. A procedural guide is utilized to evaluate student competency and performance. Prerequisites: RCT 1516, RCT 1525, and RCT 2534. (6,0,18)

RCT 2613 — Neonatal/Pediatrics Management. This course is a study of fetal development and the transition to extrauterine environment. It includes the most common cardiopulmonary disorders, neonatal and pediatric disease processes, and the modes of treatment. Prerequisite: RCT 2434. Corequisite: RCT 2546. (3,3,0)

RCT 2712 — Respiratory Care Seminar. This course is designed to integrate the essential elements of respiratory care practice through the use of care plans, case studies, and clinical simulations in a laboratory environment. Students develop an analytical approach to problem solving. Critical thinking is emphasized. Prerequisites: RCT 1525. (2,1,2)

READING (REA)

REA 0113 — Comprehension I. A laboratory course designed to offer special reading instruction to students deficient in reading skills. (3,2,2)

RADIOLOGIC TECHNOLOGY (RADIOGRAPHY) (RGT)

RGT 1114 — Clinical Education I. This course includes clinical practice and instruction in a clinical affiliate. Areas included are patient care and management, radiation protection, operation of equipment, and radiologic procedures. Prerequisite: CPR-Health Care Provider must be completed before Clinical Education I experience begins. (4,0,12)

RGT 1124 — Clinical Education II. This course involves clinical practice and instruction in a clinical affiliate. Areas included are patient care and management, radiation protection, operation of equipment, and radiologic procedures. Prerequisite: RGT 1114 (4,0,12)

RGT 1139 — Clinical Education III. This course is a clinical practice and instruction in a clinical affiliate. Areas included are patient care and management, radiation protection, operation of equipment, and radiologic procedures. Prerequisite: RGT 1124 (9,0,27)

RGT 1213 — Fundamentals of Radiography. This course is an introduction to Radiologic Technology including professional, departmental, and historical aspects. Included are terminology, medical ethics, and fundamental legal responsibilities. (3,3,0)

RGT 1223 — Patient Care and Radiography. This course will provide the student with the basic concepts of patient care, including consideration for the physical and psychological needs of the patient and family. Routine and emergency patient care procedures will be described, as well as infection control procedures utilizing standard precautions. The role of the radiographer in patient education will be identified. (3,2,2)

RGT 1312 — Principles of Radiation Protection. This course is designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel, and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies, and healthcare organizations are incorporated. (2,2,0)

RGT 1413 — Imaging Principles. This course is a study of the principles involving manipulation of factors controlling and influencing exposure and radiographic quality. Included are the prime factors of radiographic exposure, beam limiting devices, filtration, production and control of scatter and secondary radiation, exposure systems, technical conversions, and problem solving. This course presents an introduction to film processing including darkroom design and equipment. Included are chemistry of developing solutions, procedures of general maintenance, quality control, and silver recovery methods. (3,2,2)

RGT 1423 — Digital Imaging. This course is designed to impart an understanding of the components, principles, and operation of digital imaging systems found in diagnostic radiology. Included are factors that impact image acquisition, display, archiving, and retrieval. In addition, principles of digital system quality assurance and maintenance are introduced along with guidelines for selecting exposure factors and evaluating images within a digital system to assist students to bridge between film-based and digital imaging systems. (3,2,2)

RGT 1513 — Radiographic Procedures I. This course includes terminology, principles, and procedures involved in routine radiographic positioning for demonstration of the chest, abdomen, upper extremities, and digestive system. Included is a review of radiographic anatomy on each procedure. Pre/Corequisite: BIO 1514 (3,2,2)

RGT 1523 — Radiographic Procedures II. This course includes principles and procedures involved in the radiographic positioning of the spinal column, urinary system, pelvic girdle, lower extremities, bony thorax, and mobile and trauma radiography procedures. Included is a review of radiographic anatomy on each procedure. Prerequisite: RGT 1513 (3,2,2)

RGT 1613 — Physics of Imaging Equipment. This course is designed to establish knowledge based in radiographic, fluoroscopic, mobile, and tomographic equipment requirements and design. The content will also provide a basic knowledge of quality control. Computer applications in the radiologic sciences related to image capture, display, storage, and distribution are presented. (3,3,0)

RGT 2132 — Ethical and Legal Responsibilities. Legal terminology, concepts, and principles will be presented in this course. Topics include misconduct, malpractice, legal and professional standards, and the ASRT scope of practice. The importance of proper documentation and informed consent is emphasized. This course will prepare students to better understand their patients, the patients' families, and professional peers through comparison of diverse populations based on their value systems, cultural and ethnic influences, communication styles, socioeconomic influences, health risks, and life stages. Prerequisite: RGT 1213 (2,2,0)

RGT 2147 — Clinical Education IV. This course is a clinical practice and instruction in a clinical affiliate. Areas included are patient care and management, radiation protection, operation of equipment, and radiologic procedures. Prerequisite: RGT 1139. (7,0,21)

RGT 2157 — Clinical Education V. This course is a clinical practice and instruction in a clinical affiliate. Areas included are patient care and management, radiation protection, operation of equipment, and radiologic procedures. Prerequisite: RGT 2147. (7,0,21)

RGT 2533 — Radiographic Procedures III. This course includes principles and procedures involved in radiographic positioning of the entire cranium and facial bones. Included is a review of radiographic anatomy on each procedure. Prerequisite: RGT 1523 (3,2,2)

RGT 2542 — Radiographic Procedures IV. This course is a study of special radiographic procedures that utilizes sterile techniques and specialized equipment. It also includes basic concepts of pharmacology. In addition, it also includes principles and procedures involved in radiographic positioning of the reproductive system. Prerequisite: RGT 2533 (2,2,0)

RGT 2911 — Radiation Biology. This course is a study of the biological effects of radiation upon living matter. It includes genetic and somatic effects. (1,1,0)

RGT 2921 — Radiographic Pathology. This course is designed to introduce theories of disease causation and the pathophysiologic disorders that compromise healthy systems. Etiology, pathophysiologic responses, clinical manifestations, radiographic appearance, and management of alterations in body systems will be presented. (1,1,0)

RGT 2934 — Certification Fundamentals. This course is designed to correlate scientific components of radiography to entry-level knowledge required by the profession. (4,2,4)

SOCIOLOGY (SOC)

SOC 2113 — Introduction to Sociology. This course is designed to give the student an introduction to sociology and its development. Emphasis is placed on how culture is built and how customs and behavior patterns are developed and the functions and importance of social institutions. (3,3,0)

SOC 2133 — Social Problems. A study of the nature, scope, and effects of the major social problems of today and the theoretical preventative measures to alleviate them. Course includes such problems as unemployment, urbanization, crime, juvenile delinquency, alcoholism, drug addiction, and disaster, family problems include the aged, mentally ill, and retarded. Field trips to more fully acquaint students will social problems. (3,3,0)

SOC 2143 — Marriage and Family. A course designed to analyze current problems in courtship, engagement, and early years of marriage and identify the factors that contribute to success and happiness in marriage. (3,3,0)

SOC 2213 — Introduction to Anthropology. A survey of major fields and basic principle in the comparative study of mankind. (3,3,0)

SOC 2243 — Cultural Anthropology. This course examines the process of culture and personality development, methods and techniques employed by the anthropologist. Included are studies of primitive cultures, demonstrations of the precision required in ardaeological excavation and film interviews with anthropologists. (3,3,0)

SPEECH AND THEATRE (SPT)

SPT 1113 — Public Speaking I. Study and practice in making speeches for a variety of public forums. Major emphasis is placed on speech preparation and delivery. Prerequisite or Corequisite: ENG 1113. (3,3,0)

SPT 1123 — Public Speaking II. A continuation in the study of public speaking with an emphasis on research, organization and delivery techniques. (3,3,0)

SPT 1131 — Forensics I. Forensics is an activity course which includes: public speaking, oral interpretation and debate. Students participate in intercollegiate or community forensic contests and debate tournaments. (1,1,0)

SPT 1141 — Forensics II. A continuation of SPT 1131. (1,1,0)

SPT 1153 — Voice, Diction and Phonetics. A study of the International Phonetic Alphabet and training in the phonetic transcription of speech for improvement of voice and diction. Includes physical characteristics and production of sounds in American English, auditory training, articulation and standard pronunciations, and voice production. (3,3,0)

SPT 1222 — Movement for the Actor. Techniques in representing a character through movement. (2,2,0)

SPT 1233 — Acting I. An introduction to the training of the voice, body and imagination as the foundations of the work of an actor through the study of acting theory, vocabulary, theatrical games, mime, monologue, and scene work. (3,3,0)

SPT 1241 — Drama Production I. Participation in college drama productions. Required for theater majors. (1,1,0)

SPT 1251 — Drama Production II. Participation in college drama. Required for theater majors. (1,1,0)

SPT 1273 — Theatrical Makeup. Techniques in the application of makeup for the stage. (3,3,0)

SPT 2111 — Forensics III. A continuation of SPT 1141. (1,1,0)

SPT 2121 — Forensics IV. A continuation of SPT 2111. (1,1,0)

SPT 2143 — Oral Interpretation. Training is given in the techniques of oral interpretative presentation, its theories and practices. (3,3,0)

SPT 2173 — Interpersonal Communication. Theory and analysis of two-person relationships (one-on-one interactions). The course explores topics such as perception, listening, conflict management, relationship building and maintenance, and relational power. (3,3,0)

SPT 2223 — Stagecraft. An introduction to all technical elements of production design and operation. Concurrent enrollment in Drama Production (SPT 1241, 1251, 2241, or 2251 is required). (3,3,0)

SPT 2233 — Theatre Appreciation. An introduction of the cultural, historical and social aspects of drama. Class content provides an appreciation of theatre and performance art to develop audience standards through demonstration of the unique characteristics of theatre. A fine arts elective. (3,3,0)

SPT 2241 — Drama Production III. Participation in college drama. Required for theater majors. (1,1,0)

SPT 2251 — Drama Production IV. Participation in college drama. Required for theater majors. (1,1,0)

SPT 2263 — Directing. The student will learn the fundamentals of directing such a script analysis, conceptualization, staging, scheduling and communication. (3,3,0)

SURGICAL TECHNOLOGY (SUT)

SUT 1113 — Fundamentals of Surgical Technology. Basic introductory course including hospital and surgical suite organization and environment, history, legal responsibilities, terminology, and interpersonal relationships. Ninety hours of instruction. Three semester hours.

SUT 1216 — Principles of Surgical Technique. A comprehensive study of aseptic technique, safe patient care, pharmacology, anesthesiology, and surgical techniques. Prerequisite: SUT 1113 (6,1,10)

SUT 1314 — Surgical Anatomy. Emphasis is placed on structure and function of the human body as related to surgery. Application of the principles of surgical anatomy to participation in clinical experience. One hundred twenty hours of instruction. Four semester hours. Corequisite: SUT 1113, SUT 1216.

SUT 1413 — Surgical Microbiology. Introduction to pathogenic microorganisms related to surgery and their effect on wound healing and infection. Includes principles of sterilization and disinfection. Ninety hours of instruction. Three semester hours. Prerequisite: SUT 1113, SUT 1216, SUT 1314. Corequisite: SUT 1518, SUT 1524.

SUT 1518 — Basic and Related Surgical Procedures. This course includes instruction in regional anatomy, pathology, instrumentation, and surgical techniques in general, gynecology, obstetrics, urology, and anesthesia recovery. Two hundred forty hours of instruction. Eight semester hours. Prerequisite: SUT 1113, SUT 1216, SUT 1314. Corequisite: SUT 1524, SUT 1413

SUT 1524 — Specialized Surgical Procedures I. Instruction in regional anatomy, pathology, instrumentation, and techniques in surgical specialties of ear, nose, and throat, eyes, and plastics. Clinical experience in area hospital surgical suites and related departments. One hundred twenty hours of instruction. Four semester hours. Prerequisite: SUT 1113, SUT 1216, SUT 1314. Corequisite: SUT 1413, SUT 1518.

SUT 1534 — Specialized Surgical Procedures II. Instruction in regional anatomy, pathology, and techniques in the surgical specialty of pediatrics, geriatrics, and trauma. Clinical experience in area hospital surgical suites and related departments. One hundred twenty hours of instruction. Four semester hours. Prerequisite: SUT 1113, SUT 1216, SUT 1314, SUT 1413, SUT 1518, SUT 1524. Corequisite: SUT 1538, SUT 1703.

SUT 1538 — Advanced Surgical Procedures. Instruction in regional anatomy, pathology, instrumentation, and techniques in surgical specialty areas of orthopedics, neurosurgery, thoracic, and cardiovascular surgery. Clinical experience in area hospital surgical suites. Comprehensive final examination. Two hundred forty hours of instruction. Eight semester hours. Prerequisite: SUT 1113, SUT 1216, SUT 1314, SUT 1518, SUT 1524. Corequisite: SUT 1413, SUT 1534, SUT 1703.

SUT 1703 — Certification and Role Transition. An in-depth study of the role of the surgical technologist and review for the certification examination. The course examines liability, ethical and legal issues of practice, adapting critical thinking skills to a variety of practice settings, effective team and professional behaviors and continuing education. Practice on computer simulations is required. Ninety hours of instruction. Three semester hours. Prerequisite: All 1st, 2nd semester coursework. Corequisite: SUT 1534, SUT 1538.

TELECOMMUNICATIONS (TCT)

TCT 1114 — Fundamentals of Telecommunications. This course is designed to acquaint the student with the history of voice/data communication, fundamental concepts of analog and digital communications, and basic telephone service. (4,3,2)

TCT 2214 — Telephone Systems. This course gives the student information and hands — on experience in installation, operation, troubleshooting, and repair of commercial use telephone systems including analog and digital key systems. Pre/corequisites: TCT 1114. (4,3,2)

TCT 2224 — PBX Systems. This course is a continuation of the PBX section of Telephone Systems (TCT 2214). This course will further emphasize the installation, programming, and troubleshooting of PBX systems. Maintenance, cleaning, and paperwork will be covered. Pre/corequisites: TCT 2214. (4,2,4)

TCT 2314 — Digital Communications I. This course covers theories and applications of digital communications and analog pulse modulation. Pre/requisites: TCT 1114 or EET 1214. (4,2,4)

TCT 2324 — Digital Communications II. This course covers theories and applications of digital modulation methods and digital pulse modulation methods. Pre/requisites: TCT 2314. (4,2,4)

TCT 2414 — Microwave and Satellite Systems. This course is designed to develop understanding and skills associated with microwave and satellite applications in the telecommunications industry. Pre/corequisites: TCT 2314. (4,3,2)

TCT 2424 — Network Systems. This course covers networking fundamentals, voice networking, LANs and Internetworking. This course will cover upgrade of computers to support LAN technology including hardware and software and running and termination network media including Cat. 3 twisted pair cable, coaxial cable, and fiber optic cable. Pre/corequisites: TCT 2214, EET 2423. (4,2,4)

TCT 2914 — Special Project. This course is designed to provide the student with practical application of skills and knowledge gained in other telecommunications or telecommunications — related technical courses. The instructor works closely with the student to insure that the selection of a project will enhance the student's learning experience. Pre/requisite: Consent of instructor. (4,0,8)

WIDE AREA NETWORK TECHNOLOGY (WAN)

WAN 1413 — Communication Hardware. This course is an introduction to communication hardware and its uses in wide area networks. Topics include modems, CSU/DSU, multi-plexers, wireless transceivers, and satellites. Prerequisite: CNT 1414. (3,2,2)

WEB DEVELOPMENT TECHNOLOGY (WDT)

WDT 1314 — Client-Side Programming. This course offers a comprehensive understanding of programming using JavaScript and CSS. Prerequisite: WDT 1123. (4,2,4)

WDT 1414 — Web Design Applications. Application of various professional and personal web design techniques. Students will work with the latest WYSIWYG editors, HTML editors, animation/multi-media products, and photo editors. Prerequisite: WDT 1123. (4,2,4)

WDT 2214 — Server-Side Programming I. An introduction to creating dynamic web applications using server-side technologies. Prerequisite: WDT 1314. (4,2,4)

WDT 2224 — Server-Side Programming II. Continuation of Server-Side Programming I with increased emphasis on data-driven content. Prerequisite: WDT 2214. (4,2,4)

WDT 2414 — Flash Game Programming. This course is an introduction to developing interactive web-based games using Flash and ActionScript programming. Upon completion of this course, students will be able to create a fully functional Flash game and post it on the web. Prerequisite: WDT 1414. (4,2,4)

WDT 2614 — Website Development. This course is the culmination of all concepts learned in the Web Development Technology curriculum. Emphasis will be placed on portfolio development, web design and development, maintenance, security, and evaluation. Prerequisite/Corequisite: WDT 2214, WDT 2723. (4,2,4)

WDT 2723 — E-Commerce Strategies. Provides opportunities for students to examine strategies and products available for building electronic commerce sites, examine how such sites are managed, and explore how they can complement an existing business infrastructure. Students get hands-on experience implementing the technology to engage cardholders, merchants, issues, payment gateways, and other parties in electronic transactions. Prerequisite: WDT 2214. (3,2,2)

WDT 2913 — Special Project. Practical applications of skills and knowledge gained in other Web Development Technology courses. The instructor works closely with the student to ensure that selection of a special project enhances the student's learning experiences. Prerequisite: Consent of the Instructor. (3,2,2)

WELDING (WLV)

WLV 1004 — Introduction to Welding and Cutting I. This course is designed for the student who has no previous training in the welding field. (4,2,4)

WLV 1116 – Shielded Metal Arc Welding I. This course is designed to teach students welding techniques using E-6010 electrodes. (6,1,10)

WLV 1124 — Gas Metal Arc Welding (GMAW). This course is designed to give the student experience in various welding applications with the GMAW welder including short circuiting and/or pulsed transfer. (4,1,6)

WLV 1136 — Gas Tungsten Arc Welding (GTAW). This course is designed to give the student experience in various welding applications using the GTAW process. (6,1,10)

WLV 1143 — Flux Cored Arc Welding (FCAW). This course is designed to give the student experience using FCAW process. (3,1,4)

WLV 1155 — Pipe Welding. This course is designed to give the student experience in pipe welding procedures. Prerequisites: WLV 1116, WLV 1226. (5,1,8)

WLV 1162 — Gas Metal Arc Aluminum Welding. This course is designed to give the student experience in Gas Metal Aluminum Welding. (2,1,2)

WLV 1171 — Welding Safety, Inspection and Testing Principles. This course is designed to give the student experience in safety procedures, inspection and testing of welds. (1,0,2)

WLV 1226 – Shielded Metal Arc Welding II. This course is designed to teach students welding techniques using E-7018 electrodes. (6,1,10)

WLV 1232 — Drawing and Welding Symbol Interpretation. This course is designed to give the student experience in reading welding symbols and drawings. (2,1,2)

WLV 1252 — Advanced Pipe Welding. This course is designed to give the student advanced pipe welding techniques using shielded metal arc and gas tungsten arc welding processes. Prerequisite: WLV 1155. (2,1,2)

WLV 1314 — Cutting Processes. This course is designed to give the student experience in oxyfuel cutting principles and practices, air carbon cutting and gouging, and plasma arc cutting. (4,2,4)

WLV 1913 — Special Problem in Welding and Cutting Technology. A course to provide students with an opportunity to utilize skills and knowledge gained in other Welding and Cutting Technology courses. The instructor and student work closely together to select a topic and establish criteria for completion of the project. Prerequisite: Consent of instructor. (3,0,6)

WLV 2812 — Welding Metallurgy. This course is designed to give the student experience in the concept of metallurgy and how metals react to internal and external strains and temperature changes. (2,2,1)

WLV 2913 — Welding Code. This course is designed to give the student experience in the various welding codes and the experience in interpretation of these codes. (3,3,0)

Personnel

Technology makes a difference in everything we do these days. But the one thing that makes a marked difference in anyone's life, confidence and education is people. What makes our **employees** so fantastic is that we know our technology, but we also know our customer...you.

You drive a hard bargain when it comes to user-friendliness and customer service. That's why we deliver what you need on demand and have instructors who are experts in their fields. Perhaps it's true - the more things change, the more things remain the same.

 Campus Police Darrell Brewer

COLLEGE EXECUTIVE COUNCIL

President Willis H. Lott, Billy Stewart, Joan Haynes, Jason Pugh, Susan Scaggs, Mary Graham, Anna Faye Kelley-Winders.

JACKSON COUNTY CAMPUS

Committees

- Administrative Committee:** J. Pugh, J. Woodward, B. Yates, T. Franks.
- Admissions Committee:** B. Yates, Chair; T. Ormes, J. Woodward, B. Clark, C. Broome, S. Stanford, D. Buie (Admissions committees for Health Programs are appointed annually by the appropriate deans.)
- Judicial:** R. Moak, Chair; L. Melton; two Student Council students.
- Faculty Publicity:** S. Stanford, S. Brown.
- Graduation:** B. Yates, Chair; J. Woodward, T. Ormes, S. Stanford (Two students appointed by Student Council).
- Guidance:** T. Ormes, Chair; B. Yates.
- Instructional Affairs:** J. Woodward, Chair; and department chairpersons.
- Learning Resources:** P. Ladner, Chair; D. Matthews, J. Poelma, M. Sison, C. Lyons, M. Cummings, C. Frisbie, A. Kuecker, S. Manis, R. Tanner, C. Houston, N. Robasciotti, S. Brown, A. Nelson, J. Woodward, G. Carter, J. Martin.
- Scholarship:** LaShanda Chamberlain, Chair; S. Lyon, R. Harrell, B. Snell, G. Bhowmick, B. Yates, L. Melton, J. Hendrix.
- Student Activities:** Presidents of the Student Council, SkillsUSA, and PTK, Treasurer of Student Council, B. Yates, S. Edwards.
- Student Publications:** S. Edwards, B. Yates, Editors of Student Newspaper and Yearbook.

Department Chairpersons

- Associate Degree Nursing Joan Hendrix
- Business and Office Administration Marsha Cummings
- Developmental Studies Cecilia Frisbie
- Fine Arts Carla Stout
- Health and Physical Education Amy Hunt
- Health Occupations Peggy Caldwell
- Language Arts Suzanna Brown
- LRC Pamela Ladner
- Mathematics Raymond Tanner
- Social Studies Becky Shumock
- Science Jim Dunn
- Technical Education John Poelma

Vice President's Committee

- Chuck Rosonet Appointed 2007-10
- Lena Melton Elected 2007-10
- Pam Ladner Appointed 2007-10
- Wiley Clark Appointed 2008-11
- Angie Nelson Appointed 2008-11
- Tom Whalen Elected 2008-11
- Debra Matthews Elected 2009-10
- Curtis Houston Appointed 2009-12
- Don Phillips Appointed 2009-12
- Sonya Edwards Appointed 2009-12
- Jan Yarber Ex Officio

JEFFERSON DAVIS CAMPUS

Committees

- Administrative Committee:** S. Scaggs, Chair; S. Carmichael; J. Donahoe; P. Holloway; B. Clark; J. Poole; L. Miller; W. Kuntz; N. Wilcox.
- Admissions:** B. Layton, Chair; B. Clark; J. Donahoe; L. Miller; P. Skinner.
- Judicial:** D. Daniel, Chair; A. Johns; C. McClendon; B. Layton; D. Parker; G. Smith; K. Smith; Two Student Council Members; M. Gruich, Recorder.
- Reception and Courtesy:** B. Glass, Chair; D. Easterling; D. Knowles; L. Richmond; M. McNally; K. Coffell; B. Williams; M. Joyce; D. Flowers.
- Food Service:** S. Carmichael, Chair; N. Butts; I. Farley; B. Williams; President of the Student Council.
- Graduation:** J. Donahoe, Chair; B. Layton; L. Miller; M. Joyce; M. McNally.
- Guidance:** P. Skinner, Chair; D. Daniel; E. Davis; B. Layton; J. Mitchell; J. Donahoe (Ex-Officio).
- Instructional Affairs:** L. Miller, Chair; and department chairpersons
- Learning Resources:** N. Wilcox, Chair; M. Dougharty; J. Gazzo; D. Hurlbert; D. Roper; M. VanCourt.
- Physical Education and Health Services:** L. Harrington; K. Stennis; R. Bennett; B. Oatis.
- Publications:** J. Speed; T. Wells; P. West.
- Registration:** J. Donahoe, Chair; B. Layton; P. Skinner; S. Taylor; Administrative Committee members.
- Scholarships:** S. Taylor, Chair; D. Knowles; M. Gruich; D. Parker; G. Smith; P. West.

Department Chairpersons

- Health-Related Programs Sandra Murphy
- Business and Office Administration Donna Parker
- Developmental Studies Chris DeDual
- Fine Arts Ryan Pierini
- Health, Physical Education and Recreation Karen Stennis
- Language Arts Dr. Vernon LaCour
- Mathematics/Computer Science Susan Pagano
- Science Stephen Roberts
- Social Studies Karla Smith

Vice President's Committee

- Karen Stennis Elected 2007-10
- Marilyn VanCourt. Elected 2007-10
- Bruce Layton. Appointed 2007-10
- Sandy Murphy. Appointed 2008-11
- Sam Napier Appointed 2008-11
- Isaac Farley Appointed 2008-11
- Christina Mullins Appointed 2009-12
- David Rankin Appointed 2009-12
- Lynne Fayard. Appointed 2009-12
- Ryan Pierini Elected 2009-12

PERKINSTON CAMPUS

Committees

- Academic and Honors Scholarship:** J. Moody, G. Greene–Aguirre, Department Chairpersons
- Admissions:** M. Sekul, Chair; H. Edwards, N. Green, K. Jackson, J. Moody
- Awards:** M. Sekul, Chair; C. Bond, E. Brockmeyer, H. Edwards, N. Green, J. Moody, L. Taylor
- Campus Athletic:** L. Taylor, Chair; S. Campbell, K. Long, G. Rath, M. Stone, B. Thrash, W. Weathers
- Faculty Housing:** Dr. Willis H. Lott, Chair; Dr. Mary Graham, Dr. Billy Stewart
- Hospitality:** E. Brockmeyer, Chair; E. Bond, S. Davis, S. Fore, S. Guthrie, T. Naramore, J. Sullivan, G. Terrell, C. Watts, T. Weathers
- Instructional Affairs:** J. Moody, Chair; and department chairpersons
- Judicial:** S. Fletcher, N. Green, T. McKnight, S. Payton, V. Ritchie; alternates: V. Fairley, L. Fink, A. Lee, L. McDonald, L. McIlrath, S. Nix, J. Shows
- Learning Resources:** Dr. B. Rivero, Chair; D. Compston, D. Gray, S. McMahon, J. Ross, Student
- Recruitment/Retention:** M. Sekul, Chair; D. Belton, H. Edwards, V. Fairley, S. Fore, N. Green, K. Jackson, M. Lott, T. McKnight, J. Moody, S. Moore, A. O’Neal, W. Overstreet, J. Ross, L. Taylor, S. Tringle, T. Weathers, N. White, C. Williams, T. Williams
- Salvage:** G. Hartley, Chair; S. Fletcher, T. Moore
- Scholarship:** M. Sekul, Chair; C. Bond, S. Bond, T. McKnight, J. Moody
- Student Activities:** M. Sekul, Chair; T. Dickey, H. Edwards, M. O’Keefe, J. Owens, T. Robertson, C. Williams, T. Williams
- Student Housing:** M. Sekul, Chair; Residence Hall Supervisors
- Student Publications:** M. Sekul, Chair; T. Robertson, M. Weekley, C. Williams

Department Chairpersons

- Academic Business/Mathematics/Computer Science Kathy Dedeaux
- Associate Degree Nursing Alice O’Neal
- Career and Technical Instruction Lisa Courtney
- Fine Arts Marilyn Lott
- Health, Physical Education and Recreation Ladd Taylor
- Language Arts/Developmental Reading Sandra Acres
- Science Sarah Tringle
- Social Studies Marie Paslay

Vice President’s Committee

- Brenda Hunter Appointed 2007–10
- Joanna Burnside Elected 2007–10
- Lynn Fink Appointed 2008-11
- Jason Ross Elected 2008-11
- Maria O’Keefe Appointed 2009-2012
- Tommy Snell Elected 2009-2012
- Randy Fountain Appointed 2008-11
- Johnny Ford Appointed 2008-11
- Vanessa Ritchie Appointed 2008-11
- Cindy Watts Appointed 2008-11

Administration and Faculty

Central Office

- Lott, Willis H.** – President (1992). Ed.D., University of Southern Mississippi.
- Besancon, David** – Computer Center Director (1998). B.S., University of Southern Mississippi.
- Bishop, David** – Computer Analyst (2002). B.E., Louisiana State University.
- Bond, Lavell** – Construction Manager (2006). Drafting Certificate, Mississippi Gulf Coast Community College.
- Boyda, Kyle** – Programmer/Analyst (2001). A.A.S., Mississippi Gulf Coast Community College.
- Broussard, Glynn** – Coordinator of Information Services (1994). A.A.S., Mississippi Gulf Coast Community College. A+, CNA.
- Cornell, Randall** – Senior Network Administrator (1985). A.A.S., Phillips College. IC3, Network+.
- Daymond, Lisa** – Programmer/Analyst (2009). B.S., University of Southern Mississippi.
- Deegen, Lynn** – Director of Purchasing and Property Control (2008). B.S., Louisiana State University. MBA, William Carey University.
- Falcon, Larry** – Director of District Printing (1998). Journeyman Printer.
- Finklea, Arnell** – Network Technician (2009). High School Diploma.
- Gilliland, Leslie N.** – Title III Grant Coordinator and Activity Director (2006). B.A., University of New Orleans. M.A., Southeastern Louisiana University.
- Gordon, Sharon** – College Director of Allied Health and External Programs (2004). A.A.S., Nursing, Mississippi Gulf Coast Community College. B.S., Nursing, University of Southern Mississippi. M.S.N., University of South Alabama.
- Hatten, Roxie** – Tech Prep Coordinator (1991). B.S., M.Ed., University of Southern Mississippi. Additional study at William Carey University.
- Haynes, Joan** – Vice President for Instruction and Student Services (2003). B.S., Mississippi State University. MBA., Florida Institute of Technology. Ph.D., Mississippi State University.
- Jackson, Tyrone** – Associate Vice President for Student Services and Enrollment Management (2008). B.S., M.Ed., Ed.D., Delta State University.
- Knowles, Michael** – Coordinator of Institutional Research (2004). A.A., Mississippi Gulf Coast Community College. B.S., Middle Tennessee State University.
- Leimer, Jennifer** – Director of Distance Learning (1995). B.S., M.S., Mississippi State University.
- Loveless, Bobbie** – Associate Vice President for Nursing and Allied Health (2003). ADN., Mississippi Gulf Coast Community College. B.S.N., M.S.N., William Carey University.
- Matthews, Buffy B.** – Distance Learning Coordinator (2003). B.S., University of Southern Mississippi. M.B.A., William Carey University.
- Miller, Monica** – Special Assistant to the President (1996). B.A., University of Southern Mississippi. M.Ed., William Carey University.
- Moore, Glen** – Director of Human Resources (2008). B.S., MBA, Delta State University.
- Shows, John** – Associate Vice President for Career-Technical Education and Industrial Training (2000). A.A.S., Jones County Junior College. B.S., M.S., S.E., University of Southern Mississippi.
- Sims, Ronnie** – Superintendent of Transportation (1983). High School Diploma. Class B Commercial License.
- Stewart, Billy** – Vice President for Administration and Finance (2006). B.S., M.Ed., University of Southern Mississippi. Ph.D., Mississippi State University.
- Tincher-Ladner, Lynn** – Director of Institutional Research and Planning (1991). B.S., M.S., University of Southern Mississippi.
- Walters, Cory** – Database Administrator (2004). A.A., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi.

Community Campus

- Brown, Louise** – Coordinator of Grants and Special Projects (1981). A.S., Mississippi Gulf Coast Community College. B.S., Mississippi State University. M.B.A., University of Southern Mississippi.
- Davis, Brenda** – Coordinator of Institutional Development (2004). B.S., M.S., University of West Alabama.
- Donahoe, Brenda** – Alumni/Foundation Officer (1982). B.S., M.Ed., University of Southern Mississippi.
- Hess, Jere** – Associate Vice President for Development (2003). B.S., M.B.A., Mississippi State University.
- Hyatt, Millie** – College Grant Writer (2005). A.A., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi.
- Kelley-Winders, Anna Faye** – Vice President (1969). B.S., M.Ed., University of Southern Mississippi. Additional study, University of Southern Mississippi.
- Kuntz, Deena** – Director of Development and Continuing Education (1999). B.S., University of Southern Mississippi. M.B.A., William Carey University.
- Kuntz, Wayne** – Director of Workforce Development (2001). B.S., North Dakota State University. M.B.A., William Carey University.
- Landry, Mark** – Director of Workforce Development (2008). B.S., University of Southern Mississippi.
- Layton, Becky** – Director of Adult Basic Education (2000). B.S., M.Ed., University of Southern Mississippi.
- McAdams, Kathy** – Public Information Coordinator (2006). B.A., University of South Alabama. M.E., University of Southern Mississippi.
- Overstreet, Virginia** – WIA Coordinator (1990). A.A., Mississippi Gulf Coast Community College. B.S., M.Ed., University of Southern Mississippi.
- Sewell, Michael** – Graphic Services and PR Project Manager (2008). A.A.S., Mississippi Gulf Coast Community College. B.S., Regents College.
- Snyder, Bill** – Public Information Coordinator (2006). B.S., University of Southern Mississippi.
- Wilson, Tracy** – Coordinator of Business Services (2006). B.S., M.B.A., William Carey University.

Jackson County Campus

- Adams, Todd** – Estuarine Education Center Director (2005). B.S., University of Southern Mississippi. M.S., Mississippi State University.
- Alexander, Stephanie** – Science (1999). B.S., University of Alabama at Birmingham. M.S., University of South Alabama.
- Baggett, James** – Science (1990). B.A., University of Mississippi. M.S., Ph.D., University of Southern Mississippi.
- Barrette, Lois** – Speech (2000). B.S., M.S., University of Wisconsin. Additional studies University of Aurora, IL and St. Xavier College Illinois.
- Bevier, Donna** – Nursing (2006). B.S.N., Northwestern State University. M.S.N., University of Tennessee.
- Bhowmick, Gopa** – Mathematics (1997). B.S., University of Southern Mississippi. M.Ed., William Carey University.
- Bigelow, Ray** – Computer Lab Assistant (2008). A.A.S., Mississippi Gulf Coast Community College.
- Broome, Tommie Ann** – Process Operations Technology (2003). A.A., Mississippi Gulf Coast Community College. Additional study at the University of Southern Mississippi.
- Brown, Kimberly** – Science (1990). B.S., University of Mississippi, M.Ed., University of Southern Mississippi. Additional study at University of Southern Mississippi and Walden University.
- Brown, Steven** – Computer Science (1997). B.S., Lancaster Bible College, Th.M., Dallas Theological Seminary. M.S., University of South Alabama.

Administration and Faculty

Brown, Suzi G. – Language Arts/Learning Lab Director (2004). B.A., M.A. University of Southern Mississippi.

Buie, Debra – Nursing (2002). A.A.S., Mississippi Gulf Coast Community College. B.S.N., M.S.N., University of South Alabama.

Butler, Angela – Business and Office Technology (2002). B.S., M.S., University of Southern Mississippi.

Caldwell, Peggy – Medical Laboratory Technology Program Director (1997). B.S., University of Southern Mississippi, M.A., Central Michigan University.

Carter, Gwendolyn – Librarian (2001). B.A., Transylvania M.L.S., University of Kentucky.

Chamberlain, LaShanda – Director of Financial Aid (1997). A.A., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi, M.B.A., William Carey University.

Chatagner, Amy – Business (1991). B.S., University of South Alabama. M.B.A., University of Southern Mississippi. Additional studies at University of South Alabama and University of Southern Mississippi.

Clark, Wiley – Career Counselor (1998). A.A., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi. M.S., University of South Alabama.

Conerly, Tommy – Process Operations Technology (2007). B.S., B.A., University of Southern Mississippi. Thirty years work experience in business and industry. Additional studies, certificates of completion at Mississippi Gulf Coast Community College.

Cooley, Janice – Biology (2004). B.S., M.S., Ed.S., University of Southern Mississippi.

Corban, Joely – Fine Arts (2008). M.F.A., Mississippi College.

Cruthirds, James – Pipefitting/Plumbing (1999). A.A.S.O.E., Mississippi Gulf Coast Community College. Additional study, University of Southern Mississippi.

Cummings, Marsha – Business and Office Technology (1999). B.S., M.S., Mississippi State University.

Davis, Sandra – Developmental Studies – English (1995). B.S., M.Ed., University of South Alabama.

Dunn, Jim – Science (1989). B.S., Arkansas Tech University, M.S., Ph.D., University of Southern Mississippi.

Edwards, Sonya – Journalism (2004). B.A., University of Mississippi. M.S., University of Southern Mississippi.

Egerton, Charles – Science (1992). B.A., Duke University, B.S., University of Oklahoma, M.S., M.P.H., Ph.D., University of Southern Mississippi.

Ehrman, Diane – Instructional Assistant, Learning Lab (2006). B.S., M.S., University of Minnesota.

Fahey, Debby – Nursing (2006). B.S.N., M.S.N., F.N.P., Graceland University.

Fayard, Linda – Psychology (2004). B.S., University of Southern Mississippi. M.S., University of South Alabama.

Ferguson, Ashleigh – Language Arts (2005). B.S., M.A., Mississippi State University.

Feris, Alessandra – Music (2008). D.M.A., Florida State University.

Fernandes, Lactancio – M.D., Department of Medicine, V.A. Medical Center, Co-Medical Director for the Respiratory Therapy Education Program.

Franks, Tammy – Dean of Business Services (1998). B.S., University of Southern Mississippi. M.B.A., William Carey University.

Frisbie, Cecilia – Mathematics (1995). B.S., M.Ed., University of Southern Mississippi.

Fuller, Robin – Business and Office Technology (2008). M.E., TUI University.

Garriga, Tara – English (1991). B.A., M.Ed., University of Southern Mississippi.

Ghosal, Bobby – Assistant Dean of Instruction (2004). B.S., Faulkner University. M.S., University of South Alabama. Additional coursework from Northcentral University.

Gilbert, James – Mathematics (1998). B.S., University of Southern Mississippi. M.Ed., William Carey University.

Guice, Tara – Radiologic Technology, Clinical Coordinator/Instructor (2003). RT (R)(AART). A.A.S. Mississippi Gulf Coast Community College. B.S., Franklin University.

**Administration
and Faculty**

Harrell, Rebecca – Speech/Theatre (1991). B.A., M.A., University of Mississippi. Additional study at University of Memphis.

Harris, William – Welding (1977). Studies being done at University of Southern Mississippi toward B.S.

Harrison, Debra – English (2002). B.S., Jackson State University. M.S., University of Southern Mississippi.

Harte, Denissa – Nursing (1999). B.S.N., University of Southern Mississippi. M.S.N., University of South Alabama.

Hayes, Robin – Database Administration Technology (2001). B.S. University of Southern Mississippi.

Haynes, Michael – Business (2000). B.S., M.S., University of Southern Mississippi. CPA

Heard, Pamela L. – Nursing (2002). B.S., M.S.N., University of Southern Mississippi.

Held, Katie – Business & Marketing Management (2007). B.S., University of Southern Mississippi. M.B.A., William Carey University.

Helms, Brenda – Mathematics (1984). B.S., Delta State University. M.Ed., William Carey University.

Hendrix, Joan – Nursing (2002). B.S.N., Mobile College. M.S.N., University of Mobile.

Hilton, David – Sociology Instructor (2007). B.A., Mississippi State University. M.Ed., University of Southern Mississippi. Additional study.

Hoggard, Lane – Counselor (1993). B.S., M.Ed., Mississippi State University.

Houston, Curtis – Art Instructor (2007). B.F.A., University of Southern Mississippi. M.A., University of Alabama.

Hughes, Gloria – Nursing (2005). B.S., M.S.N., William Carey University.

Hunt, Amy – Physical Education (2001). B.S., University of Southern Mississippi. M.S., University of Memphis. Additional study at Walden University.

Johnson, Cheryl – Nursing (2006). B.S.N., M.S.N., University of South Alabama.

Jones, Faye – Social Studies (1989). B.S., Mississippi College. M.A., Mississippi State University. Additional study, University of South Alabama.

Karels, Art – Science (2008). B.S., University of Minnesota. M.S., University of Southern Mississippi. Additional study at University of Southern Mississippi.

Kilgore, Jonathan – Music (2008). D.M.A., University of Southern Mississippi.

King, Darlene Morgan – Child Care (1987). B.S., M.S., University of Southern Mississippi.

Koehn, Timothy – Librarian (2002). B.S., M.L.I.S., University of Southern Mississippi.

Rodberg, Gary M. – M.D., Ocean Springs Hospital, Medical Director for the Respiratory Care Technology Program.

Roy, Sandra – Computer Science (2001). M.A., M.E., University of Mississippi, additional studies University of South Alabama.

Rutz, Rebecca – Business (1983). B.S., Wright State University. M.B.A., University of Southern Mississippi.

Sanderson, Jordan – Language Arts (2009). B.A., M.A., Ph.D., University of Southern Mississippi.

**Administration
and Faculty**

Sellers, Kimbra – Health, Physical and Aquatic Instructor (2006). B.S., M.Ed., Auburn University. Additional study at University of South Alabama.

Showah, Willy – Machine Shop (1997). A.A.S.O.E., Mississippi Gulf Coast Community College. Additional study, University of Southern Mississippi.

Shumock, Becky – Psychology (1995). B.S., M.Ed., University of Southern Mississippi.

Sison, MaryAnn – Social Studies (2003). B.A., University of New Orleans, M.A., Ph.D. University of Southern Mississippi.

Smith, Cindy Alexander – Foreign Language (1996) B.A., University of Southern Mississippi, M.A., Mississippi State University. Additional study at William Carey University and University of Grenoble, France.

Smith, Jacqueline – Respiratory Care Technology/Program Director (2006). A.A.S., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi.

Smith, James – Electricity (1999). A.A., Mississippi Gulf Coast Community College.

Snell, William – Social Studies (1995). B.S., M.S., University of Southern Mississippi.

Stanford, Sheri B. – Counselor (1998). A.A., Mississippi Gulf Coast Community College. B.S., M.Ed., Mississippi State University.

Stewart, Gean – Practical Nursing (1999). M.S.N., University of South Alabama.

Stout, Carla – Speech (2003). B.A., M.A., University of South Alabama. Additional Study at University of South Alabama.

Stringfellow, Martin Van – Chemistry (1994). B.S., Mississippi State University. M.S., University of Alabama at Birmingham.

Sutherland, Duke – English (1993). B.A., M.A., University of Southern Mississippi.

Tanner, Raymond – Mathematics (1983). B.S., University of Southern Mississippi. M.Ed., William Carey University.

Taylor, Tina – Nursing (2008). A.A.S., Bishop State Community College. B.S.N., M.S.N., University of Mobile.

Taylor, Wayne – Outdoor Recreation (2004). B.S., Mississippi State University. M.A., Southern Methodist University. M.S. Baylor University. Ph.D., University of Mississippi.

Thompson, Rebecca – Mathematics (1999). B.G.S., Delta State University. M.Ed., William Carey University.

Tibbs, Ashley – Instructional Assistant, Learning Lab (1997). B.A., University of Mississippi. Additional study, University of Mississippi.

Whalen, Thomas – Telecommunications Technology (2000). A.S., Community College of the Air Force, B.S., College Park. M.S., University of Southern Mississippi. Additional study University of Southern Mississippi.

Windham, Melissa – Psychology (2009). B.S., University of Southern Mississippi. M.S., University of South Alabama.

Woodward, Gerry A. – Career/Technical Support Services Coordinator (1990). B.S., M.S., University of Southern Mississippi.

Woodward, Jonathan – Music (2004). B.A., M.M., University of Southern Mississippi.

Yates, George W. “Bill” – Dean of Student Services (1997). B.S., M.S., Ph.D., University of Southern Mississippi.

Jefferson Davis Campus

Alston, Joanna – Business and Office Technology (2003). B.S., M.S., Mississippi State University.

Averhart, Paulette – Nursing (2005). B.S.N., William Carey University. M.S.N., University of Southern Mississippi.

Bagwell, Christopher – Student Activities Coordinator (2009). B.A., University of Southern Mississippi.

Bagwell, Kenneth – Physics Instructor (2002). M.Ed., and B. S., Delta State.

Bailey, Rita – Developmental English (2008). A.A., Mississippi Gulf Coast Community College. B.A., University of Southern Mississippi. M.Ed., William Carey University.

Barlow, Marsha – Nursing (2007). A.A., Mississippi Gulf Coast Community College. B.S.N., William Carey University. M.S.N., Nursing Education, William Carey University.

Administration and Faculty

Bennett, Randi Health/Physical Education (2008). B.S., University of Southern Mississippi. M.Ed., William Carey University.

Bethea, Kay – Instructional Assistant, Learning Lab (1991). B.A., University of Mississippi. M.Ed., Southeastern Louisiana University. Additional study at University of Houston, University of Southern Mississippi.

Bond, Michael (Brent) – Electrical Technology (2006). A.A.S., Mississippi Gulf Coast Community College.

Bosarge, Susan – Language Arts (1998). B.A., University of South Alabama. M.Ed., University of Southern Mississippi.

Brandon, Deborah – Business & Office Technology (2008). B.S., M.S., University of Southern Mississippi.

Brister, Robert – Construction Management/Drafting & Design Technology (2008). A.A.S., Mississippi Gulf Coast Community College. B.A., University of Southern Mississippi.

Bryan, Angela – Computer Programming Technology/Certified Novell Administrator (2000). B.S., M.S., University of Southern Mississippi.

Burrous, Brian – Computer Networking/Network Security Technology (2008). A.A.S., Computer Networking/Security, Mississippi Gulf Coast Community College.

Butts, Nanette – Developmental Studies (2002). A.S., Mississippi Gulf Coast Community College. B.S., M.Ed., University of Southern Mississippi.

Carmichael, Stacy – Dean of Business Services(1997). B.A., Stephens College, Missouri, M.B.A., University of Southern Mississippi. Additional studies at Mississippi State University.

Carriere, Brian – Social Studies (2005). B.S., M.S., University of Southern Mississippi; M.Ed., Delta State University.

Carousel, Laura – Nursing (2005). B.S.N., Northwestern State University. M.S.N., University of South Alabama.

Childers, Rex – Heating, Air Conditioning, & Refrigeration (2009). A.A.S., Mississippi Gulf Coast Community College.

Clark, Beverly – Assistant Dean, Career and Technical Instruction (1993). B.S., University of Mississippi. M.S., William Carey University. Ed.D., Mississippi State University.

Clark, Charles – Senior Librarian (1972). B.Ed., University of Miami. M.L.S., Florida State University.

Clemons, Debra – Nursing (1999). B.S.N., University of Southern Mississippi. M.S.N., William Carey University.

Coomer, Sheilah – Nursing (1999). A.A.S., Mississippi Gulf Coast Community College. B.S.N., M.S.N., C.N.S., University of South Alabama.

Craft, Linda – Hospitality and Tourism Management (1995). B.S., University of Southern Mississippi. Certified Culinary Educator, Johnson and Wales University.

Crocker, Christopher – Heating, Air Conditioning, & Refrigeration (2009). A.A.S., Mississippi Gulf Coast Community College. B.S., University of Southern Mississippi.

Daniel, Denise – Counselor (1988). B.S., Millsaps College. M.S., University of Southern Mississippi.

Davis, Charles R. – Social Studies (1991). B.S. and M.S., University of Southern Mississippi. Additional study at University of Southern Mississippi.

Davis, Elaine Dees – Counselor/Special Projects (1988). B.S., M.Ed., University of Southern Mississippi.

Davis, Scott – Social Studies (1994). B.A., M.S., University of Southern Mississippi. Licensed Professional Counselor.

DeDual, Christopher – Developmental Studies (2003). B.S. and M.Ed., University of Southern Mississippi. Additional studies at University of Southern Mississippi.

Donahoe, Jeff – Dean of Student Services (1982). B.S., University of Southern Mississippi. M.Ed., William Carey University. Additional study at University of Southern Mississippi.

Donegan, Brian – Drafting/Design/Construction Management Technology (2004). A.A.S., Mississippi Gulf Coast Community College.

**Administration
and Faculty**

Dougharty, Mary – Social Studies (2002). B. S., Louisiana State University, M.S., Shippensburg University. Additional studies William Carey University.

Emery, Deborah Lee – Instructional Assistant, Learning Lab (1989). B.S., University of Montevallo. M.Ed., University of Alabama.

Fayard, Karen – Mathematics (1991). B.S., M.E., and Ed. Specialist, University of Southern Mississippi. Additional studies at University of Southern Mississippi and Millsaps College.

Fisher, Carolyn – Practical Nursing (2009). B.S.N., University of Southern Mississippi. Additional study at University of South Alabama.

Frazier, Angela – Language Arts (2005). B.A., Mississippi University for Women; M.A. University of Mississippi.

Gatian, Becky – Interpreter Training (1995). A.A., Mississippi Gulf Coast Community College. B.S., Deaf Education, University of Southern Mississippi.

Gazzo, Jack – Economics, Real Estate & Legal Environment of Business (2000). B.B.A., University of Mississippi. M.B.A., William Carey University.

Gruich, Madelon – Business and Office Administration (2002). B.S., and M.Ed., Mississippi College.

Guider, Troy – Economics (1990). M.B.A., Ph.D., University of Southern Mississippi.

Halat, Sandra – Art (2003). B.F.A.; M.F.A., University of North Carolina. Additional Studies at the University of Tennessee and the Institution at San Miguel De Allende.

Harrington, Leslie – Practical Nursing (2003). B.S.N., University of Southern Mississippi. M.S.N., William Carey University.

Harvey, Chance – Language Arts (2005). B.A., Millsaps College; M.A., Duke University; Ph.D., Tulane University.

Hensley, Pat – Instructional Assistant, Learning Lab (1989). B.S., Ed., Math, Louisiana State University. Additional studies at William Carey University and University of Southern Mississippi.

Herman, Cynthia – Nursing (2006). B.S.N., University of Alabama. M.S.N., William Carey University.

Higdon, Nancy – Accounting (1995). B.S., University of South Alabama. M.T.A., University of Alabama. Additional study, Auburn University.

Holley, Mary – Language Arts (1992). B.S., and M.S., University of Southern Mississippi.

Holloway, Patricia L. – Assistant Dean of Instruction (1981). B.S., M.Ed., and additional study at University of Southern Mississippi.

Holter, Melanie – Mathematics (2008). B.S., M.S., University of Southern Mississippi.

Hosley, Marjorie – Nursing (2007). B.S.N., M.S.N., M.B.A., William Carey University.

Hurlbert, Dianne Y. – Assistant Librarian (1980). B.A. and M.L.S., University of Southern Mississippi.

Hurlbert, Jennifer – Nursing (2002). A.A.S., Mississippi Gulf Coast Community College. B. S., Nursing, M.S.N., University of Southern Mississippi.

Jagmohan, Swarup Deepika – Computer Science (2003). B.E. Mangalore University; M.S., Lamar University.

Johns, Anita – Sociology (2004). B.A., Southern University of New Orleans; M.A. and additional study, University of New Orleans.

Johnson, Paul – Accounting (2007). A.A., Mississippi Gulf Coast Community College. B.S.B.A, University of Southern Mississippi. M.A., University of South Alabama.

Jones, Pamela – Early Childhood Education (2006). B.S., M.S., University of Southern Mississippi.

Kelner, Deborah – Social Studies (1992). B.S. and M.S., University of Southern Mississippi. Additional study, University of Southern Mississippi.

Knowles, David – Music (1993). B.A., Mobile College. M.C.M., Southern Baptist Theological Seminary. Ph.D., University of Southern Mississippi.

Kopp, Janette – Social Studies (2003). B.S., University of Southern Mississippi; M.S., William Carey University.

LaCour, Vernon – French/Spanish (1998). B.A., Delta State University. M.A., M.A.T.L., University of Southern Mississippi; Ph.D., Berne University.

Laubmeier, Archae –Nursing (2003). B.S., Nursing, M.S., Nursing, University of Southern Mississippi.

Administration and Faculty

- Layton, Bruce** – Director of Admissions & Records (1988). B.S., Ouachita Baptist University. M.S., University of Mississippi. A.B.D., University of Southern Mississippi.
- Locke, Ashli** – Practical Nursing (2009). B.S.N., University of Southern Mississippi. Additional study at William Carey University.

APPLICATION FOR ADMISSIONS

Complete both sides of this application. Please print in black or blue ink.
Return to the campus/center that you plan to attend.

1. _____
Social Security Number

2. Campus or Center (check one)
 Jefferson Davis Campus
 Jackson County Campus
 Perkinson Campus
 George County Center
 West Harrison Center
 Keesler Center
 Community Campus/AMTC
 Naval Construction Battalion Center

3. Year _____ and Term to enter
 (check one below):
 Fall (August – December)
 Spring (January – May)
 Summer (May – August)
 Winter (Keesler Students Only)

4. _____
Last Name First Name Middle Jr., III, etc. Other Names in which transcripts may be listed

5. _____
Street or P.O. Box City State/ Province Zip Code County Nation

6. (_____) (_____) (_____) _____
Home Phone Number Work Phone Number Cell Phone Number

7. ____/____/____ Date of Birth mm / dd / yyyy
 8. _____ Email Address
 9. Gender: Male Female

10. Citizenship:
 U.S. Citizen
 Resident Alien
 Non-Resident (Complete International Student section on back)*

11. Are you of Spanish / Hispanic / Latino origin?
 Yes No

12. Please check all that apply:
 White
 Black/African American
 Asian
 American Indian/Alaska Native
 Native Hawaiian/Other Pacific Islander

13. Which of the following applies to you? (Please check the description below that best describes you.)

<input type="checkbox"/> High School Graduate <input type="checkbox"/> Cert of Completion <input type="checkbox"/> Cert of Attendance <input type="checkbox"/> Occupational Diploma <input type="checkbox"/> Will Graduate	Graduation Date ____/____/____ mm / dd / yyyy High School _____ City _____ State _____
<input type="checkbox"/> GED	GED Test Date ____/____/____ mm / dd / yyyy GED Test Location/City _____ State _____
<input type="checkbox"/> None Apply to me	Explain _____

14. At MGCCC, have you previously enrolled in an academic, technical or career program? Yes No If YES, what YEAR? _____

If YES, which campus/center (check all that apply)

Jefferson Davis Campus Perkinson Campus George County Center West Harrison Center
 Jackson County Campus Community Campus/AMTC Keesler Center Naval Construction Battalion Center

15. OTHER THAN MGCCC list below all universities, colleges, career-technical institutions previously attended

Name of Institution	City	State	Date(s) Attended From - To	Did you Graduate?
			-	<input type="checkbox"/> Yes <input type="checkbox"/> No
			-	<input type="checkbox"/> Yes <input type="checkbox"/> No
			-	<input type="checkbox"/> Yes <input type="checkbox"/> No
			-	<input type="checkbox"/> Yes <input type="checkbox"/> No

16. Admission Type: (please check one)
 New College Freshman (never attended college)
 Re-enter (have attended MGCCC but no other institution)
 Re-enter Transfer (MGCCC & transfer credit)
 Transfer from another college/university/career-technical institution
 Non-degree seeking (Classes Only. Not eligible for financial aid or veterans benefits)
 Dually Enrolled (will attend high school & MGCCC)

17. What is your primary objective at MGCCC? (please check one)
 To earn an associate degree in a technical field or academic field
 To earn transfer credits for a four-year college degree
 To earn a diploma in a career field
 Classes only, non-degree seeking
 Other (please specify)

18. Choice of Major/Field of Study _____

19. State of Legal Residency _____
 (Refer to the MGCCC Catalog for questions about residency requirements)

20. Have you been convicted of a felony or misdemeanor (other than a traffic violation) or convicted in a court-martial proceeding? Yes No
 If YES, on a separate sheet of paper, write a detailed description of the offense and your present state. Submit the explanation with your application.

PLEASE CONTINUE ON BACK

21. Have you taken the ACT? | Yes | No If YES, have you sent your scores to MGCCC? | Yes | No

22. Whom should we contact in case of an emergency?

ACKNOWLEDGEMENT OF ADMISSION REQUIREMENTS AND COLLEGE POLICY

I acknowledge that it is my responsibility to submit to the Office of Admissions all official documents related to requirements listed in this application **on or before the fourth week of attendance**. After the fourth week, I hereby authorize the Office of Admissions to request, on my behalf, transcripts or other data required from other educational institutions in order to complete admissions requirements. Any fees incurred with such requests will be charged to my account. I certify that the information provided on this application is correct. Further, I understand that failure to give accurate, truthful and complete information may invalidate my application and/or result in disciplinary action or denial of continued enrollment. I also acknowledge that while enrolled at Mississippi Gulf Coast Community College I will comply with all established college policies, procedures and guidelines as stated in the online Student Handbook (www.mgccc.edu).

Applicant Signature _____ Date _____

ADMISSION REQUIREMENTS

1. **High school transcripts or GED scores:** High school graduates are required to have their high schools send official copies of final transcripts directly to the campus Office of Admissions. Copies issued directly to students are not acceptable. Students who have completed the General Education Development Test Battery (GED) are required to provide the Office of Admissions with official score reports.
2. **Individualized Education Program:** A student who has been enrolled in a high school Individualized Education Program and who has received a Certificate of Completion or Certificate of Attendance is subject to the following restrictions. To enroll in a career program the student must earn satisfactory scores on an ability to benefit test (TABE). To enroll in an academic or technical program, the student must have a (GED) or high school diploma.
3. **College/university transcripts.** Students who have attended previous colleges/universities must request official copies of transcripts from each institution be sent to the campus Office of Admissions. Copies issued directly to students are not acceptable.
4. **Entrance examination:** Students who plan to follow an academic or technical degree program must submit a copy of their American College Test (ACT) Scores to the Admissions Office or take the ACT Enhanced Asset Test which will be administered by the college. Students who plan to enter career programs are not required to take the ACT. All students who plan to enter MGCCC healthcare program are required to take the ACT regardless of age.

Mississippi Gulf Coast Community College is an Equal Opportunity Employer and welcomes students and employees without regard to race, color, religion, national origin, sex, age or qualified disability. For further information, contact the Equal Opportunity Officer at a Mississippi Gulf Coast Community College Center, Campus, or the Central Office. Compliance is coordinated by the Vice President for Administration and Finance, Perkinston Campus, P. O. Box 609, Perkinston, Mississippi 39573, telephone number 601-928-5211.

FINANCIAL AID

Scholarships, Grants & Loans

SOMETHING FOR EVERYONE

- Federal grants and loans
- State grants
- Gulf Coast scholarships

Here's what you need to do:

1. Complete all requirements for admission.

2. Apply for federal student aid.

Download the **Free Application for Federal Student Aid (FAFSA)** at www.fafsa.ed.gov or pick one up from a high-school counselor, public library or a Gulf Coast financial-aid office.

3. Complete the Gulf Coast Financial Aid Application.

Return it to the campus Financial Aid Office by **June 1** for priority consideration. Applications received after this date will be considered on a funds-available basis.

And, here's what you need to know:

One of the most attractive features at Gulf Coast is the low cost.

But if you're like the majority of our students and need help paying for college, we offer scholarships, grants (which do not have to be repaid), loans and work opportunities.

Priority deadline for Alumni, Academic and Honor scholarships is April 1.

Some funds are available throughout the year; however, **it is best to apply before June 1 to qualify for all aid you are eligible to receive.**

Keep reading to find out more about your options.

FEDERAL GRANTS AND LOANS

PELL GRANTS

Federal entitlement awards available to students pursuing a first undergraduate degree or certificate who demonstrate exceptional financial need.

The **Free Application for Federal Student Aid (FAFSA)**, www.fafsa.ed.gov, is used to determine eligibility.

LEVERAGING EDUCATIONAL ASSISTANCE PARTNERSHIP PROGRAM (LEAP)

Undergraduate gift-aid award program for full-time Mississippi residents pursuing a first undergraduate degree or certificate who demonstrate a substantial financial need. Federal and state funds are utilized.

The **Free Application for Federal Student Aid (FAFSA)**, www.fafsa.ed.gov, is used to determine eligibility for this grant. Minimum awards are \$200 per school year.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS

Gift-award program available to limited number of undergraduates demonstrating substantial need.

The **Free Application for Federal Student Aid (FAFSA)**, www.fafsa.ed.gov, is used to determine eligibility for the grant. Minimum awards are \$100 per school year.

FEDERAL FAMILY EDUCATION LOAN PROGRAMS/FEDERAL STAFFORD LOAN

Long-term variable-interest loans available through lending institutions. Eligible students enrolled on at least a half-time basis (six semester hours) may apply.

Students must complete a **Free Application for Federal Student Aid (FAFSA)**, www.fafsa.ed.gov, be enrolled in at least six

semester hours and complete loan counseling before a loan application will be certified. Award amounts vary based on financial need, grade level and other financial assistance. A promissory note must also be completed with the lender for the loan. Contact a financial-aid officer for more information.

FEDERAL PLUS

Non-need-based loan program in which a parent may borrow up to the cost of attendance for each undergraduate student each year. Repayment of principal and interest begins within 60 days of disbursement of the loan. Apply at banks or credit unions. (Students must apply for federal aid prior to certification of loan application.) Contact a financial-aid officer for more information.

STATE GRANTS

MISSISSIPPI RESIDENT TUITION ASSISTANCE GRANT (MTAG)

Grant offers up to \$500 a year for students who are residents of Mississippi and do not qualify for a full Pell Grant. High-school senior applicants must have a high-school grade point average of 2.5 and an ACT of 15 or above. Other first-time applicants must have a 2.5 grade point average on all college work taken. Visit www.mississippi.edu/financialaid/ for an application and additional information.

MISSISSIPPI EMINENT SCHOLARS GRANT (MSEG)

Grant offers up to \$2,500 a year for students who are residents of Mississippi with a high-school grade point average of 3.5 and an ACT score of 29 or above. Visit www.ihl.state.ms.us for an application and additional information.

GULF COAST PROGRAMS AND SCHOLARSHIPS

FEDERAL WORK-STUDY

Part-time, on-campus employment is available to eligible students, who must complete a **Free Application for Federal Student Aid (FAFSA)**, www.fafsa.ed.gov. For a work-study application, contact a financial-aid officer, who will use the FAFSA to determine a student's eligibility for the program.

ACADEMIC SCHOLARSHIPS

Presidential Scholarships: ACT Score 28+ or valedictorian / salutatorian of high-school graduating class

- Full tuition, book service and room/board*
- Awarded to first-time full-time entering freshmen in the fall semester

Eligible student must be a legal resident of Mississippi, enrolled in a minimum of 15 semester hours. Online/Internet courses are not counted toward the semester-hour requirement. Scholarship is renewable up to four consecutive fall/spring semesters. To remain eligible, students must maintain a 3.5 or higher grade point average as a full-time student.

*Residence halls are only available at Perkinston Campus.

Deans Scholarships: ACT Score 25-27

- Full tuition
- Awarded to full-time entering freshmen in the fall semester

Eligible student must be a legal resident of Mississippi, enrolled in a minimum of 12 semester hours. Online/Internet courses are not counted toward the semester-hour requirement. This scholarship is renewable up to four consecutive fall/spring semesters. To remain eligible, students must maintain a 3.0 or higher grade point average as a full-time student.

Incentive Scholarships: ACT Score 21-24

- Half tuition
- Awarded to full-time entering freshmen in the fall semester

Eligible student must be a legal resident of Mississippi, enrolled in a minimum of 12 semester hours. Online/Internet courses are not counted toward the semester-hour requirement. This scholarship is renewable up to four consecutive fall/spring semesters. To remain eligible, students must maintain a 2.5 or higher grade point average as a full-time student.

HONORS SCHOLARSHIPS

Full-tuition and book-rental-fee scholarships awarded to eligible Honors Program participants. Recipients may not receive Presidential/Deans or Incentive scholarship and Honors scholarship. Priority deadline is **April 1**. Contact a program adviser for more information.

CAREER/TECHNICAL SCHOLARSHIPS

Full-tuition scholarships awarded to full-time, first-time entering freshmen career/technical students who have a high-school diploma and have completed a two-year career/technical training program with an overall high-school average of B or above at a high school that has an articulated training agreement with Gulf Coast. A half-tuition career/technical scholarship is also available for students with a C average in academic courses and an A average in career/technical courses.

To continue to receive this scholarship, a student must maintain a cumulative grade point average of 2.5 or higher and successfully complete a minimum of 12 semester hours each fall/spring semester (an IP grade does not count as successfully completing a course). These scholarships are renewable for the length of the program for career programs.

For career/technical students, it is renewable for the length of the program, which may include summer enrollment for programs that require summer attendance as indicated in the college catalog. For two-year programs that do not require summer attendance, the scholarship is renewable for four consecutive fall/spring semesters.

GED SCHOLARSHIPS

Students earning a GED score of 577 or higher are awarded a half-time scholarship for one semester, covering a maximum of six semester hours. This scholarship covers tuition and book-rental fees. Eligible students must have taken the GED test within the past three years, and their attendance at Gulf Coast must be their first-time college attendance.

Students earning a GED score of 450 to 576 are eligible to take one free class for one semester, covering a maximum of three semester hours.

Tuition and book-rental fees for this class would be paid by the college. Eligible students must have taken the GED test within the past three years and be over the age of 18, and their attendance at Gulf Coast must be their first-time college attendance.

PERFORMANCE SCHOLARSHIPS

Athletic and music scholarships are awarded on a student's individual abilities. Contact the appropriate department regarding tryouts.

FOUNDATION AND ALUMNI SCHOLARSHIPS

Available to students based on academic ability, financial need and/or specific eligibility criteria established by the donor. Scholarship amounts depend on the availability of funds. A campus scholarship committee reviews applications and determines recipients. Applications are available at any Gulf Coast Financial Aid Office. Priority deadline is **April 1**.

ALUMNI SCHOLARSHIPS

Any student may apply. A campus scholarship committee on each campus reviews the applications and determines the recipients. Scholarship amounts depend upon availability of funds.

FOUNDATION SCHOLARSHIPS

Students must meet certain criteria for most Foundation scholarships. A campus scholarship committee reviews the applications and determines the recipients. Scholarship amounts depend upon availability of funds. More than 500 scholarships are available each year.

COOPERATIVE EDUCATION

Part- and full-time employment directly related to the student's major field of study available to students who have completed at least six hours of course work in their major or have related work experience. For more information contact the Cooperative Education coordinator, 601-928-6397 or coop@mgccc.edu.

ACADEMIC SCHOLARSHIPS

Mississippi Gulf Coast Community College provides academic scholarship opportunities for students with qualifying ACT scores. Students must apply for admission, meet the requirements as listed below, and send this "Request for Academic Scholarship" to the campus of their choice.

PRESIDENTIAL SCHOLARSHIP

ACT Score 28 and above
or Valedictorian /
Salutatorian of HS
graduating class.
Full tuition, book rental
fees and room/board

Awarded to full-time, "first-time to enter college" freshmen (hours taken as a dually enrolled high school student do not affect scholarship eligibility). To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 15 semester hours. This scholarship is renewable up to four consecutive semesters, not including summer.

To remain eligible, students must maintain a 3.5 or higher *cumulative* grade point average as a full-time student. *Students who drop below the 3.5 will be placed on scholarship probation for one probationary semester to allow the student to regain the 3.5 cumulative GPA. If the student does not bring the cumulative GPA up to 3.5 or above the next semester, the student will no longer receive the scholarship.* Priority deadline is April 1.

(Residence halls are only available at the Perkinston Campus).

DEANS SCHOLARSHIP

ACT Score 25-27
Full tuition

Awarded to full-time, "first-time to enter college" freshmen (hours taken as a dually enrolled high school do not affect scholarship eligibility). To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 12 semester hours. This scholarship is renewable up to four consecutive semesters, not including summer.

To remain eligible, students must maintain a 3.0 or higher *cumulative* grade point average as a full-time student. *Students who drop below the 3.0 will be placed on scholarship probation for one probationary semester to allow the student to regain the 3.0 cumulative GPA. If the student does not bring the cumulative GPA up to 3.0 or above the next semester, the student will no longer receive the scholarship.* Priority deadline is April 1.

INCENTIVE SCHOLARSHIP

ACT Score 21-24
Half tuition

Awarded to full-time, "first-time to enter college" freshmen (hours taken as a dually enrolled high school student do not affect scholarship eligibility). To be eligible, a student must be a legal resident of Mississippi and enrolled in a minimum of 12 semester hours. This scholarship is renewable up to four consecutive semesters, not including summer.

To remain eligible, students must maintain a 2.5 or higher *cumulative* grade point average as a full-time student. *Students who drop below the 2.5 will be placed on scholarship probation for one probationary semester to allow the student to regain the 2.5 cumulative GPA. If the student does not bring the cumulative GPA up to 2.5 or above the next semester, the student will no longer receive the scholarship.* Priority deadline is April 1.

Mail to: Mississippi Gulf Coast Community College, Housing Office, P.O. Box 548, Perkinston, MS 39573 Phone: 601-928-6220

What to bring:

- Bed linens (including twin-size sheets, pillows, mattress cover, etc.)
- Towels and toiletries
- Small lamp
- Stereo and TV (there's cable!)
- Small refrigerator *
- Small microwave *, coffee maker, air popcorn machine
- Phone (voice mail and local phone service provided)
- Personal computer (free, unlimited Internet access; Ethernet card required)
- Plants, posters and other items that make it YOUR place

What NOT to bring:

- Hot plates, pets, candles, alcohol, weapons & fireworks

Mississippi Gulf Coast Community College provides residence-hall facilities **only** on the Perkinston Campus. Residence-hall rooms are assigned on a first-come, first-served basis. Therefore, the date of application for housing will determine whether requests are met. **You must** apply for admission to the college and register for classes (12 or more hours) before your housing application can be processed.

Students with preferred roommates should indicate (by name) on the housing form. It is advisable that students requesting the same room assignment forward their applications to the Housing Office within the same mailing.

If you decide to cancel your room reservation, please do so as soon as possible or at least two weeks prior to registration.

Special-Needs Housing:

If you have a qualifying disability that requires special accommodations, contact our career/technical student support services coordinator, before June 1. We'll help you get the accommodations you need to make your housing experience comfortable and workable.

Call 601-928-6325. (You'll need to provide documentation and an explanation of your special need.)

* George Hall, Bryan Hall & New Women's are equipped with microwaves and refrigerators.

Revised 12/2009
 Mississippi Gulf Coast Community College is an Equal Opportunity Employer and welcomes students and employees without regard to race, color, religion, national origin, sex, age, or qualified disability. For further information, contact the Equal Opportunity Officer at a Mississippi Gulf Coast Community College Center, Campus, or the Central Office. Compliance is coordinated by the Vice President for Administration and Finance, Perkinston Campus, P. O. Box 609, Perkinston, Mississippi 39573, telephone number 601-928-5211.
